IRRIGATION MATTERS.

The directors of the various irrigation canals met at the court house yester-day to consider the proposition of in-stalling weirs at the headgates of the canals to measure and regulate the flow of water. It developed at the now of water. It developed at the meeting that weirs are rather expen-sive contrivances. It will cost \$600 to put one in on the Hyde Park canal and \$400 on the Richmond canal. DESERET EVENING NEWS: WEDNESDAY, APRIL 4, 1906.

Worry accomplishes the same results in another way. It drags you through the dark, gloomy tunnel of forbodings, wrecks your nerves and breaks down the constitution.

Then don't hurry: don't worry. But you will; and your nerveless, exhausted condition brings headaches, neuralgia, heart, stomach, liver and kidney troubles. The thing to do is: Strengthen the nerves with Dr. Miles' Nervine.

"Six months I was bedfast with nervous prostration. I had sinking spells, a cold, clamy feeling, couldn't stand the alightest noise. At times I would simost fly to pleces: stomach very weak. cable without high schools which con-stantly feed in a line of freshmen who need the exercise, and are separaticated in the ways of the track and the field. Heretefore the backward condition of the University of Utah has been blamed largely upon the fact that the High Schools did not exist and there was ne-where to obtain properly prepared stu-dents for University work of athelics. The sudden creation within the year of a dozen new high schools, and the en-try of these schools into a state meet marks a new era in Utah school class, but in the varsity class, it is argued, as it marks the end of the time that a high school bay will have to leave the state to obtain a college education, if he in-sists on having a little "college lift" with his books and syllabus fees. This year a large number of High School athletes will join the alumui, and a larger per-contage than ever will go to the Univer-sity of Utah instead of to outside col-leges, making a stronger college life at the utift. Berkeley, Cal., April 3.-In an exciting field meet this afternoon, the University of California track team defeated the all-star team of the colleges of southern California by a score of 72 to 50. MANY MEN OUT. At the Sail Lake High School nearly all the veterans are school mearly with the school year, while last year only Richmond was lost through graduation. The Sail Lake High School has always had its own way in pulling down track and football victories. This year the large number of entries from outside schools rather worries them, and conse-quently training is beginning with the largest squad on record. In addition to the veterans about 20 men are out, and as divided into squads the entries are as follows: Track 100-yard dash-Arthur Stenhouse, John Loofbourow, Henry Richardson, Lester Blackner, Benene Grant and Lyman Jud-Blackner, Benene Grant and Lyman Jud-son.
For the 220-yard—A. Stenhouse, Lester Hammond, H. Richardson, L. Blackner, L. Judson, B. Grant and J. Loofbourow.
For the 220-yard hurdles--Richard Car-michael, W. Harris, L. Blackner, Murry Howard, George Roberts, Gordon Hyde and Ethelbert Shores.
For the quarter-mile-W. Harris, Will Hall, G. Roberts, M. Howard, Endicott Hall and L. Paddison.

Special Correspondence. Hyrum, Cache Co., April 1.—Taking mo consideration the stormy condi-tion of the weather and mirey roads the outlying wards of this stake were well represented at the Priesthood meeting held here yesterday. The home missionarics, who were ap-pointed about two months ago, com-bieted their reports and stated that they had been received in an exceed-light kind manner by the Saints in their house to house visit, and the mis-sion had been a mutually beneficial one. In his remarks President Wm. C. Parkinson urged the importance of the young people being married in the sa-red Temples. He desired that the re-lights exercises of the auxilliary orcred Temples. He desired that the re-ligious exercises of the auxilliary or-sultations be continued during the summer as much as possible: declaimed sainst intemperance, and spoke en-couragingly of fruit and beet raising at which the children and young people might be profitably exployed at home. Home institutions and industries ought, be said, to be partonized to a greater he said, to be patronized to a greater extent than was the case at present.

The farmers here are anxiously look-ing for spring which will be late. However, the formers are jubilant over the prospects for a favorable crop year. The principal promoter of the sugar factory, Mr. Eccles, has shown his generosity to those whose beet crop was exceedingly light last year, by refund-ing them the price of seed and planting and the people certainly will be loyal to the factory by supporting it with a good large acreage of sugar beets this year. Indications are that there will be a much larger acreage planted.
