SENATOR FROM UTAH.

Mr. Perkins. Mr. President. I de-sire to submit to the senate a pel-tion signed by several thousand repre-sentative women of the state of Cali-fornia, expressing their wishes con-cerning the exclusion of Hon. Reed Smoot from the United States senate.

They also request me, in presenting

the petition, to accompany it with a few remarks defining my position in re-lation to their demand. Therefore per-

Were we to take note in politics of simple religious beliefs, we should, in my opinion, fetrace our steps to the period when religious differences gave rise to the most cruel of all the wars which have devastated the earth, and which revealed the spirit of Chris-tianity in efforts to exterminate cer-tain forms of religious belief. Our noble system of government is huilt upon a foundation which is the more secure because it takes no ac-count of religious opinion. Freedom of conscience is one of the surest guar-anties of the republic, and I am sure no action can be taken which will abridge in the slightest degree that right. In my opinion, eligibility to a seat in either house of Congress in no way depends on religious belief, and objections on that score seem to me to be barred both by the spirit and letter of the Constitution. In case of orposition to the seating of a member of either house, it seems to me that the governing consideration should be as I have stated—whether or not a man is a good citizen, of unim-peachable character, honest and con-scientious in the performance of his duty as an American citizen, and with no obligation to church or other organi-zation that can interfere or conflict with his fealty to the Constitution and laws of our country.

The signers of the petition which I here submit are among the religious, cultured, and most public-spirited wo-men of the state of California. They are to be commended for the interest in public affairs which their action in this case demonstrates, and I think it would tend to the betterment of politics were the earnest, intelligent, and con-scientious women of the land to study carefully great questions and give to arefully great questions and give to the country the benefit of their unselfish opinions There can be no doubt that whenever public-spirited women express their wishes in this or in a similar way, they are actuated by the best and most pure motives, which must and do command

But in petitioning this body in a manner like that here referred to, a fact is sometimes lost sight of that we do not stand toward it in the relation which we bear to almost all other ques-tions which come before us. We all fully realize the re-sponsibility under which we act. The question that is to be determined, as I understand it, is simply whether a member is a good citizen, an honest man with character and all the attri-butes which command confidence and respect.

These sterling qualities of citizenship should, I think, be demanded of all who aspire to the great honor which a seat in this body confers. What may be his private belief in religious mat-

Story of Barter and Trade Told in German to Judge Dichl.

Three times yesterday Judge C. B. Diehl was called upon to play a double role during the afternoon session of the city court, namely, as interpreter, as well as judge.

First, Ernest Wiseman was arraigned on a charge of trespass. He was unable to understand the nature of the case as read to him in the complaint. Mr. Daly, who was prosecuting the case, told Judge Diehl that the prisoner was a German, and his honor soon had the details of the man's un-fortunate condition, all owing to the duplicity of bunco men, who had robbed him of \$140 hard earned eash, and left him to make his way as best and left him to make his way as best he could. The circumstances were so extenuating that Wiseman was per-
