

# FLOATING FRAGMENTS.

R. S. R. is the attraction for tonight in a theatrical sense.

Home Missionary meeting this evening, at 7:30, in the Social Hall.

Regular Episcopalian meeting at 11 a.m. on Saturday, at the Assembly Hall.

Don't forget that the Tenth Ward Band Excursion to Nephi and Provo comes off one week from today.

Sal Smith Russell, the celebrated comedian, with a strong company, will appear at the Theatre tonight, in "The Highway Folks."

The fourth company of the present season's emigration from Europe was to sail from Liverpool to-day on the S. S. Nevada, Gulton Line.

On Monday evening, at Ogden, a boy, 15 years old, named Curtis, of the employ of Mr. George A. Low, had his hand seriously injured by being torn by a falling bundle of barbed wire. So says the Ogden Herald.

## LOCAL AND OTHER MATTERS.

High Council.—Members of the High Council are requested to meet in the Social Hall on Friday evening, the 30th inst., at 7 o'clock p.m. W. W. TAYLOR, Clerk.

Cricket.—The Salt Lake Cricketers are going to Coalville on next Saturday to play a match game with the club of that town. We are requested to state that the boys are expected to be on hand on Saturday evening, at 6 o'clock. The game will come off on Monday.

Good Eastward.—This morning Mr. John Beck, of Lodi, Mrs. Goss, and Miss Alice Patterson left for the east. The first named goes to New York on business, while Sister Goss' trip is for the purpose of meeting her husband as he returns from a mission to Europe. Sister Patterson goes on a visit to her parents, in the vicinity of Preston, Lancashire, England, having been summoned by the severe illness of her mother, who had expressed an anxious desire to see her daughter before closing her eyes in death. The young lady goes with the firm purpose of returning to Utah, having cast her lot with the Saints as the people of her choice.

Death at the Depot.—Last evening an invalid from the north arrived at the Utah Central depot, on his way to one of the hospitals here for treatment for lead poisoning. Officer Wm. Calver was making arrangements for his removal to the hospital when he was beset by an employee of the railroad to hasten to the car, where the sick man was, and reached it just in time to see him die. In his pockets were \$28.50 and a silver watch. On his person was found a little memorandum book with the address—Mrs. Julia Delaney, 3554 Market Street, San Francisco. His coupon railroad ticket showed his name to be John Delaney, and that he had just come from Hailey, Idaho.

Coroner Taylor held an inquest over the remains to-day, the verdict being in accordance with the foregoing facts.

A Tough Team.—As previously announced, the deciding contest between the Salt Lake Olympics and the Ogden Athletics will be played on the base ball grounds, Washington Square to-morrow. Evidently fully realizing the sort of metal they have to meet in the Olympic team of this city, the Ogden Athletics are determined to put their best foot forward and consequently have strengthened their nine until it makes a team that it will be hard to beat. Following is the team that will be pitted against the Olympics to-morrow: Groves, catcher; A. Allen, pitcher; Parsons, first base; Browning, second base; Farley, third base; Reed, short stop; Boyle, left field; Wright, centre field; S. Allen, left field.

Music Teaching.—We are pleased to learn that our musical friends, Prof. A. C. Smyth has nearly completed arrangements to organize a class of pupils who have made some advancement in the study of vocal music, for the purpose of assisting them to become proficient in that branch of the Divine Art. It is probable the class will meet on Tuesday evenings, in the City Hall Assembly Room. Prof. Smyth contemplates starting also a class of juveniles, to whom he purposes imparting a thorough knowledge of the vocal system, of which he is a master, having received a diploma from the St. Cecilia College of London, which authorizes him to issue certificates to students who successfully study under him. We desire to see any of our people who have musical ability acquire thorough accomplishment in that direction, as there is an alluring tendency in music, and hope, therefore, that Bro. Smyth's classes will be largely attended.

Southern Utah Mining.—An esteemed St. George correspondent informs us that, on Friday, the 17th inst., a party of gentlemen accompanied General Pace to see his mining prospects in Tuzigoot Mining District, which are creating quite a furore in Southern Utah.

The latest discovery is a claim called the "Red Warrior," situated about half way up a steep mountain. The vein is six feet, between walls, composed of grey carbonate ore, and dips into the mountain on an angle of about 45 degrees. They have uncovered a distance of about twenty feet in length, and it crops out at intervals along the entire location. The ore assays from 15 to 70 per cent. lead, and from five to fifty dollars per ton in silver, on the surface. The company are putting men to work to develop the claim and intend shipping a ton of the ore north to have it thoroughly tested. All who have seen the prospect pronounce it one of the finest in that part of the country. The company have incorporated with six locations, all of which they propose to develop as fast as practicable.

## A VISIT TO COLORADO.

### BUSINESS OBSERVATIONS OF A UTAH MAN.

The other day we had the pleasure of meeting a friend who had just returned from a trip through Colorado, going by way of the D. & R. G. and returning by the U. P. He made the discovery that the produce market for Utah in that section will be exceedingly slim this fall. The potato market has been somewhat injured by unwise shipping from here, and a large quantity of produce will be raised throughout the State, besides the fact that shipments are being made from other points. As instances, oats are offered to be placed on the cars at Kansas City at 50 cents a hundred, and the distance is but little more than from here. Cabbage raised in Colorado has lately been sold in Denver at from 50 cents to 75 cents a hundred pounds. Potatoes are being raised in considerable breadth, and within a week there is a prospect of the Greeley raised articles being on the Denver market at one dollar a hundred pounds. It is evident from the statements of our friend, who is intelligent and reliable, that the market for Utah products in Colorado will be exceedingly slender this season. He is of opinion that it will re-open for a short time next Spring, but will be sure to pick up again toward the fall, as the agricultural interests of Colorado are advancing with the winter. Farming is opening up there on a large scale, as the land is not broken up into comparatively small parcels, as is the rule in Utah.

Artesian well-boring for the cultivation of the country is all the rage, and is being conducted with a good deal of success. We have before noted the fact that a well of that description was obtained some time ago directly under the Labor Opera House, Denver. A specimen of the water from this living fountain is exposed at the Opera House in a glass vessel and placed in comparison with a sample of filtered water of the Platte River, the odds being greatly on the side of the product of the well.

The cultivation of lucern that has proved such a boon to the people of this Territory, has been conducted only to a limited extent in the Centennial State, but it is to be largely sown as soon as practicable. In some individual cases as great a breadth as a hundred acres will be planted on one farm.

Returning to the subject of markets for Utah produce, there will always be limited openings, as this Western country develops its varied interests, but a stupendous degree of commensurate avenue does not exist at present, neither does it appear to live prospectively, except in cases of contingency that may and doubtless will arise of crop failures outside, while abundant harvests crown the labors of the husbandman here. The situation is but another strong plea in favor of home industries, to the establishment of which the people generally should turn a more engrossing attention than they have ever given. The most conspicuous of the most conspicuous in that connection at present is the making of iron, the extensive conducting of which will prove a great material benefit to the people. The matter is placed in such a shape by the company lately organized that the community can readily come to its aid, the shares being one dollar each. The company is the making of iron, the extensive conducting of which will prove a great material benefit to the people. The matter is placed in such a shape by the company lately organized that the community can readily come to its aid, the shares being one dollar each.

## ORDER OF THE COMMISSION.

ADOPTED AUGUST 25, 1933.

Whereas, it has been brought to the attention of this Board that a candidate voted for a county office, and another for the Council of the Legislative Assembly, each having received the highest number of votes for said office respectively at the election held on the sixth day of August, 1933, are polygamists, therefore,

Resolved, That this Commission will meet at their rooms in Salt Lake City on the 5th day of October next for the purpose of considering these and any other cases of like character that may be presented.

Resolved further, That charges of unfaithfulness against an official must be submitted in writing and sworn to (either positively or from information and belief) and be filed with the Secretary of the Commission on or before the 15th of September, 1933, who will notify the complaining party and the accused party to appear before the Commission at a time and place to be designated and adduce their evidence. The Secretary is required to publish this order in the principal newspapers of the Territory.

By the Commission.

ARTHUR L. THOMAS, Secretary of the Territory.

## FATAL ACCIDENT.

A YOUNG MAN SHOT AND KILLED BY A COMPANION.

On Sunday last several young men from Tooele went out deer hunting. About half-past ten a.m. one of them, Robert Shelton, saw something moving in the brush ahead of him, and supposing it to be a deer, took aim with his rifle and fired, but was horror-stricken to find that he had shot one of his companions, Alvin Hanson, a young man aged about seventeen years, the ball passing through the right arm, entering the body a little behind and just above the right hip, and coming out in front. Young Hanson was taken home, and died about half-past five on Sunday afternoon. The accident caused quite a falling of gloom in the city of Tooele. The funeral services were held on Monday.

Disgraceful.—We are informed by a resident of the Sixteenth Ward that there was a disgraceful fight in that locality this morning, between two men whose names are given. One of the combatants was badly punished, while the language used by both was most disgraceful. This is said to be the second affair of the kind between the same parties within a week. A number of women and children were involuntarily witnesses of the unrighteous occurrence. The police will probably investigate the matter. Our informant was an eye-witness.

## "DRY BROTHERS."

SOMETHING MORE ABOUT WATER.

### Editor Deseret News:

As one of the earliest settlers on the northern dry bench of this city I desire to say a little on this subject. Everybody knows we still remain without an adequate supply of water, but some unacquainted with the question add insult to injury by telling us we should not have gone up there. Let me tell you such things which we went for reasons that were then considered good and sufficient, and that I still consider of that character, we were encouraged to do so by the city officials and other prominent citizens. And supposing we who went had not gone, is any one children enough to suppose that in the growth of the city the settlement of that part could have been prevented and the Twentieth Ward lot still remain the boundary with all outside it still a desert? Such a stand is preposterous; if we had not gone there would, and the question would still remain the same.

Next, we are now told that we went well knowing that we were not entitled to any water. Technically this is correct. We do not expect the City Council to give us more water than there is, or give us that which belongs to other people; but at the time those lots were sold the agent of the city gave us to understand that we should have water before long; no exact time was stated, but three or four years was the general impression. I know, that predicated upon this, I, as clerk to President Brigham Young, sold numerous lots which lay in his survey above the water line. I then had the understanding that we should have water in a short time, and the purchasers bought them with that same understanding. And there was at that time good reason for such belief. It was expected that the Deseret Irrigation and Navigation Company's canal would soon be finished and then we should receive the desired relief. But the canal was not completed as anticipated. The City Council failed to back up the representations of its agent, and for fifteen long years we have been without water, or next thing to it. But now that the Jordan Canal is finished and so little has yet been done for our benefit, we consider we have just cause for complaint. The patience of the people under the circumstances has been almost phenomenal, and is another proof of the over-estimate that the citizens of Utah are in lavishing people. Let the City Council have the consistency to carry out the understanding had between its agent and the first settlers now that the conditions are favorable for such action, and not longer delay with the question because of the great patience, good-will and forbearance of the present residents of this desolate quarter of our lovely city.

Respectfully,  
Geo. REYNOLDS.

Street Accident.—Between 11 and 12 o'clock to-day as Mr. Reed, proprietor of the 78 saloon, was crossing the street car track near the Old Fort, in the Sixth Ward, his buggy was tipped over and he was thrown out violently upon the ground. He was severely about the head and bruised about the body. The horse and vehicle sustained but little damage.

## SPECIAL BUSINESS NOTICES.

### SURE FOR.

Pop Corn wanted. The highest price paid for good pop corn. Trial demanded before purchasing. Farmers will do well to call on me.

H. A. TUCKER, Confectioner.

Received Fresh every morning. Open on Sundays.

EVERY one who has tried the Premium unadorned Japan Tea is delighted with it. For sale at the Salt Lake Tea Store.

Try celebrated Pioneer Baking Powder for sale at the Salt Lake Tea Store, 1254 First South Street, opposite Market Row.

Arsenic and quinine are not desirable commodities to carry about in one's system, and it is to be hoped that the poisonous agar remedies have had their day. Ayer's Agar Cure is a pure antidote for the Agar and all malarial fevers, and is perfectly harmless, leaving the system in as good condition as before the disease was contracted.

Pain, weak, and sticky children are made healthy and strong by using Brown's Iron Bitters.

## THE CONFLICT.

Between disease and health, is often brief and fatal. It is better to be provided with cheap and simple remedies for such common disorders as coughs, colds, etc., than to run the risk of contracting a fatal disease through neglect. Dr. Wm. Hall's Balsam is sure and safe remedy for all diseases of the lungs and chest. If taken in season it is certain to cure, and may save you from that terrible disease, consumption. It has been known and used for many years in America and it is no exaggeration to say that it is the best remedy in the world for Coughs, etc. Ask for Dr. Wm. Hall's Balsam for the Lungs, and take no other. Sold by all Druggists.

Dr. Green's Oxygenated Bitters.

Though, originally, a New England medicine, has acquired an almost world-wide reputation, solely through its use in the most successful remedy for all disorders of the stomach, such as Dyspepsia, Indigestion, Costiveness, etc., etc.

## HORSFORD'S ACID PHOSPHATE.

A Reliable Article.

Dr. E. Cutler, Boston, Mass., says: "I found it to realize the expectations raised, and regard it as a reliable article."

## MOTHERS!

The lives of your teething children are saved by using Brown's Blackberry and Ginger. It is perfectly safe.

Brown's Blackberry and Ginger.

Has cured more cases of Diarrhea, Dysentery and Summer Complaint, than any other remedy in America. Tested for twenty years. Always safe, sure and reliable.

An invariable condition of the time and season, is the source of nearly all diseases; they are made pure, active and healthy, by using

Brown's Sarsaparilla, and Dandelion, with Iodine of Potassium. It speedsily cures:

Bolls, Kidney Disease, Ulcers, Scrofula, Erysipelas, Dyspepsia, Rheumatism.

Try this Great Blood Purifier.

And ask your druggist to show you the formula printed on every bottle. All druggists sell Brown's Sarsaparilla.

## BROWN'S AROMATIC SALVE.

The greatest medical wonder of the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Erysipelas, Corns, Tetter, Chapped Hands, Wounds, all eruptions, guaranteed to cure in every instance, or money returned. 25 cents per box. For sale by E. C. M. Drug Store.

## "NOTHING SUCCEEDS LIKE SUCCESS."

The success of the John W. Lowell Wagon Co. in making sales of the J. L. Case Agitator Tractor has been most remarkable. Their traveling agent, Mr. E. A. Keeler leaves for Nephi to-day, for the purpose of making a delivery of Eleven of these famous machines, destined for Sanpete and Beaver Counties.

From all parts of Utah, Nevada, Idaho and Montana, orders are being daily received for the Agitator. Although the sales for 1933 were unprecedentedly large, the sales for 1934 thus far show an increase of over thirty per cent, and from present indications the sale of fifty per cent. can be looked for before the season closes. No other threshing machine ever introduced in the Territories has attained such a wonderful popularity as the J. L. Case Agitator.

## AYER'S Cherry Pectoral.

No other complaints are so tedious in their attack as those affecting the throat and lungs, none so trifling with the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling cold or exposure, is often the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1887 I took a severe cold, which affected my lungs. I had a terrible cough, and passed nights almost without sleep. The doctor gave me up. I tried Ayer's Cherry Pectoral, which I bought from my neighbor, and it cured me. I am now as well as ever, and I am sure that the Cherry Pectoral saved my life. Can you wonder at our gratitude? Sincerely yours,

HOICE FAIRBROTHER."

Rockingham, N. H., July 15, 1932.

Group.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken down with a cold. It seemed as if it would die from strangulation. One of the family suggested the use of Ayer's Cherry Pectoral, and a bottle of which was always kept in the house. This was tried in small doses at first, and then in larger doses, and in less than half an hour the little patient was breathing easily. The doctor said that the Cherry Pectoral had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MISS EDNA GEORGE."

16 West 12th St., New York, May 19, 1932.

I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effective remedy for coughs and colds we have ever tried.

A. J. CRANE."

La Crosse, Minn., March 15, 1932.

I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.

BYRONIA, Miss., April 5, 1932.

I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung trouble. I have used it for several years, and it has always cured me when the disease is not already beyond the control of medicine.
