Santa Fe Men May Str ke.

Topeka, Kas., Feb. 2 .- The conductors and trainmen on the western lines, among which is a Santa Fe delegation, are voting on a proposition for general strike unless the railroads accede to their demand for a readjustment of the wage schedule. So far as can be learned, the sentiment appears to be favorable to a strike, although this is in great part conjecture, as the men keep their business pretty closely o themselves.

The roads have all refused to meet the demand for a 20 per cent increase, although quite a number have offered to compromise on a smaller per cent But the boards of adjustment, both for the conductors and trainmen, take the ground that they have made a conservative request in the first place, that their demands are fair and they will not budge from 20 per cent. This is an increase of 20 per cent from the schedule agreed on in 1892.
