

## PYROTECHNICS AT DUBOIS BANQUET

Former Senator from Idaho Entertained at Ladies' Literary Club Today.

WOMAN'S AUXILIARY GUEST.

Some of the Incidents of the Affair Held at the Cullen on Saturday Night.

### Dubois Ten Years Ago.

My own impression is that the Church, having renounced the purpose of dictating to its members in political affairs, does not, as a church now seek such dictation and that the fight for church control and the fight against church control, as it was formerly waged, are alike forever ended in Utah and Idaho. A ground for such faith is found in the known wisdom of the Mormon leaders and in the superb individual strength of a majority of its followers. Interview with Senator, Fred T. Dubois, printed in the Salt Lake Tribune of May 28, 1898.

Fred T. Dubois, busy these days in building a reputation on which he can make press matter enough to last through a season of lecturing about hierarchies he has encountered after banquets and at other times, will be the guest of honor of the Woman's auxiliary of the "American" party at the Ladies' Literary club house tonight.

Saturday evening former Senator Dubois listened to Jos. Lippman explain that he was a soldier for revenue only in the political battle field, first, last, and all the time, with no intermissions, and also listened to Judge C. S. Varian explain to the peerless tapper of the party that he, Mr. Lippman, had just a slightly bad impression of the high aims and ideals of the party styled "its principles." After valiant oratory Judge Varian was applauded for rescuing the sacred principles from the slough where Mr. Lippman had located them.

Two hundred men were present at the banquet, and the speeches to which they listened were delivered by Hon. Geo. A. Black, former territorial governor, who acted as toast-master; former Senator Frank J. Cannon, Mayor John S. Bradford, Joseph Lippman, Thomas Weir, David C. Dunbar and Judge C. S. Varian. Former Senator Dubois spoke some length after the others had finished.

LIPPMAN AMUSING.

The date when the "American" party will have fulfilled its end was placed at the time when the speaker said anything like "Church influence" anywhere in the land, and as there is not any such influence in Utah, he said that he had no objection to the party being called "its principles." This sentiment, brought out in Mr. Lippman's revenue political talk simply means that the charge that the party has been formerly a conspiracy of stirring up a religious warfare to success at the polls, then the elimination of all adherents to a certain religious faith from consideration in the distribution of offices.

Lippman's toast was "Americans should be patriots," and an amusing feature of it was the charge that Benjamin Fay Mills came here as a hireling of the Church to misrepresent conditions which he found here. Taking especially in endorsement Mr. Mills gave to the well established statement that the early settlers were frugal, and not given to debauchery, Mr. Lippman read from the city records the fact that "Canadian" traders and their stores here almost as soon as the settlers, and that the great gold rush of '49 went through Salt Lake, and was the fact that the whole overland traffic passed this way for the next 20 years preceding the coming of the railroad, and that this traffic included the coming of a regiment of soldiers, who were stationed near the city and did their trading within it.

VARIAN AT VARIANCE.

Mr. Lippman was followed by C. S. Varian, on "The Inevitable Conflict," urging that the "American" party fight be waged not against individuals, but the Church. He did not agree with the previous speaker on all points.

Frank J. Cannon spoke to the topic, "American First Principles," outlining the party activity as he saw it, and its destination to bring a successful end to what he called Church interference; which does not exist. A rather easy task, Thomas Weir told why he was proud of Salt Lake, omitting all mention of the times when it was not which made him famous as a speaker on this subject. D. C. Dunbar spoke on "Why I Am an American," carefully concealing references to state-sign contracts and other material inducements.

MAYOR BRANSFORD.

Mayor Bransford told what Salt Lake most needed to help on its growth. To put an end to the anti-Mormon raving.

ings of so-called "American" party manipulators is one of the great issues. Then comes honesty in the city administration.

"Our experience teaches us," said Mayor Bransford, "that no nation in which religious fanaticism engendered by a conflict between ecclesiastical aggrandizement for which there is none in Utah and a desire of the people to promote its interests as it sees them, has ever been able to maintain for long a commanding position among the countries and the nations where no such conflict exists. The rule of the Church is the death of the people. The greatest need of Salt Lake City is a united people, enthused with the spirit of civic progress, according to the ideals of the twentieth century. There is no room in this constructive age for religious dissensions, such a state is absolutely foreign to our people."

"Many things, I repeat, we need as a city: beautiful buildings, clean and well-kept streets, healthy moral and social environments—all these we shall obtain, but as precedent to these and necessary to the more civic honesty, civic pride and civic progress, we need a united people, enthused with the spirit of civic progress, according to the ideals of the twentieth century. There is no room in this constructive age for religious dissensions, such a state is absolutely foreign to our people."

DUBOIS PLANS.

Former Senator Dubois, with characteristic hypocrisy, urged that personal ambitions be sunk in the light for principles outside of them, and that the party should be guided by the principles of the Mormon Church, and the Democratic conventions this summer, declaring that the people wanted delegations "chosen by the people and not by the hierarchy of the Mormon Church."

CRITCHLOW'S RESOLUTION.

Declaring that polygamy was still a proper political issue, he led the way for E. Critchlow to present the following resolution which was unanimously adopted:

"Whereas, The experience of 12 years of statehood has fully convinced us that there is no intention on the part of the leaders of the Mormon Church to abandon the practice of polygamy; and, that many of the so-called marriages of polygamy have occurred and are occurring from time to time by authority of the alleged revelations and with the formulas of the Mormon Church; and

"Whereas, We are convinced that nothing but the direct interposition of the national authority and power can break up this loathsome practice, destructive to our morality and of the purity of the home;

"Resolved, That it is the prayer of the loyal people of Utah, without regard to party connections or affiliations, but as lovers of American institutions and civilization, that an amendment to the national Constitution should be passed which would give to Congress the power of lawlessness, and the federal courts jurisdiction to enforce, appropriate legislation to deal with the offenses of polygamy and polygamous living, to the end that the practice of this form of lawlessness be extirpated from the republic, and especially from Utah and these surrounding states."

QUARANTINE RAISED.

The quarantine placed against the county jail because of the prevalence of scarlet fever and diphtheria has been removed. Jessie, the little daughter of Sheriff C. Frank Emery, was afflicted with the fever, but has entirely recovered.

A negro named Frank Woods, charged with criminal assault, had a bad case of diphtheria. He was isolated in the woman's ward, but is again in the room. Ed. Lippman, a Matron, is now in the woman's ward, suffering from pneumonia. He is attended by Dr. Calderwood.

FIREMEN'S REUNION.

The Veteran Volunteer Firemen's association held a reunion at the association hall, 271 Canyon road, Saturday night, and the members had a most enjoyable time. An interesting program of speeches, recitations and songs was rendered and refreshments were served. The program was as follows: Opening address, R. Simpson; song, G. Timpon; recitation, James Shore; reading the names of deceased volunteers, Fred B. Everett; address, R. Simpson; song, G. Timpon; remarks, V. Halliday; group photograph; selections, Alvin Everett; duet, Mr. and Mrs. Amos Cardwell; remarks, J. W. Small; song, Albert Cardwell; song, Mrs. P. B. Lippman; recitation, M. Cardwell; song, M. Cardwell; song, W. Cardwell; closing remarks, Joseph Peacock.

## SPECIAL JURY IS DRAWN FOR SUIT

Judge Powers, for Plaintiff, Asks This and Desires is Satisfied.

### AN UNUSUAL PROCEEDING.

While Getting New Panel Case of Croomees vs. Oregon Short Railroad Goes Over.

A proceeding not usual in the courts of this state was witnessed this morning in Judge Lewis' tribunal when a special jury was impaneled. The case was that of Croomees against the Oregon Short Line Railway company. The suit involves \$10,000, the parents of Raymond Croomees suing for that amount the death of their son, who, it is alleged, was killed by negligence of the defendant company, May 22, 1907. The accident happened on Third West, near Sixth South street, immediately in front of the Croomees home, the boy being instantly killed by a switch engine while he was waiting for a train to pass, going in the opposite direction.

ACTION UNUSUAL.

The calling of the special jury was at the instance of the plaintiff's attorney, Judge O. W. Powers. Once before a jury was called in a case of this kind, and that was in 1894, when the case of Croomees vs. Oregon Short Line Railway company was tried. The case was then decided in favor of the defendant company, and the jury was then called in a case of this kind, and that was in 1894, when the case of Croomees vs. Oregon Short Line Railway company was tried. The case was then decided in favor of the defendant company, and the jury was then called in a case of this kind, and that was in 1894, when the case of Croomees vs. Oregon Short Line Railway company was tried.

SPECIAL ARRANGEMENT.

The laws of this state, as well as most of our sister states, provide that should either side to a controversy be in any way dissatisfied with the jurors drawn for a certain case, they may, upon notice being given and \$20 paid as a fee, such action was taken in the present instance, and this morning 17 men whose names were in the box, and who upon a writ were free from service until at least the drawing was made for the April term, were present in court to be examined on their voir dire. The list included 20 names, but three could not be found, and four of the remainder were lawfully exempt from jury service.

CASE GOES OVER.

This left but 13 that qualified, and it each side should exercise its three peremptory challenges, but seven would remain. It became necessary, therefore, to draw additional names, and the sealed box was brought into court and five names were taken therefrom. The case went over, pending the notification of the men wanted.

SEEKS \$30,000 DAMAGES.

The trial of the case of Alice Robinson against the Utah Light & Bell company, for \$30,000 in damages for personal injuries alleged to have been received by her May 11, 1907, by one of defendant's cars at the corner of First West and Second South, was continued this morning.

SUIT AGAINST HOSPITAL.

The personal damage case of Timby vs. St. Mark's hospital is being heard by a jury in Judge Lewis' court today. Linus W. Timby died from injuries received at the hospital, July 14, 1907, and the institution is made defendant, in the case because of alleged neglect on the part of its officials and employees in leaving the patient alone in a room without bars on the windows, while he was in a delirious state from the effects of fever. The amount sued for is \$25,000.

RAFAEL PLEADS GUILTY.

C. H. Rafael, the man arrested by Officer Carlson on the charge of stealing tools from Mellen's sandpit in City Creek canyon, was arraigned before Judge Diehl this morning on the charge of burglary in the second degree. The man pleaded guilty and was ordered held to await the action of the district court.

WOMAN WANTS DIVORCE.

Alleging non-support on the part of her husband, Sadie Potter today filed suit for divorce from W. D. Potter. The complaint was filed in the district court at Price, Utah, Aug. 8, 1904, and that there are two children as issue of the marriage, Lucile, aged three years, and Edith, aged ten months. It is alleged that for more than a year defendant has failed to supply his wife and children with even the necessities of life. Besides asking for the divorce, the plaintiff asks for the custody of the children and suitable alimony.

County Commissioners Order Number In City Increased to 54.

At a meeting of the county commissioners this morning a resolution was passed, increasing the number of polling places in Salt Lake City to 54, 13 in excess of the present number. The providing of that number of additional polls will expedite matters materially in the casting of the ballot, as not more than 600 voters will vote in any one district in this municipality. At the last election many persons were not permitted to vote because of the crowded condition of the polls throughout the day.

Because of the increase in polling places it will be necessary to provide more voting machines, and eight more will be purchased before the next election, four to be paid for by the city and four by the county. The commissioners are considering the advisability of supplying the county outside the city with at least four or five additional machines.

### COMMENTS ON BOARD.

"The engineering difficulties which were encountered and successfully overcome in the prosecution of this work were of a singularly trying and obstinate character. The original plan was found to be impracticable and a modified plan was adopted. The delays incident upon experimenting with the original plan and adoption of the modified one accounts for the failure to complete the work within the time limit set forth in the contract."

"We seen now through the efforts of the city engineer and the city attorney to have arrived at a form of contract satisfactory to the contractors and conserving the city's interests. So that there should be no great trouble on the score of letting contracts until the legislature in its wisdom again sees fit to amend the law."

"It is likely, however, that bids will be somewhat higher than formerly, for the reason that the amended law deprives the contractor of the advantage of a partial estimate as his work progresses, by providing that no special price be allowed for any extra work until after the completion of the work along the property to be benefited by the improvement. The effect of this provision is that the contractor is required to incur an increased capital upon which to work, because their returns will be subjected to longer delays than under the old law."

### NEW INCORPORATIONS.

The South Park Canal company of South Park, Utah county, Utah, filed articles of incorporation today in Secy. of State Tingle's office. The acquiring of water rights from Duchesne river is given as the object of the company. One thousand shares, par value \$5, is given as the capitalization. The company will engage in general merchandizing with a capitalization of \$10,000, in shares of \$100 each.

## DEFENSE MUST PUT IN TESTIMONY

(Continued from page one.)

### LOOFBOURW BRIEF.

District Attorney Loofbourw began his address at 10:05 and he read considerable of the evidence concerning the visit of Bell and McWhirter to the chief's office. "Under the testimony," he argued, "perfect understanding between the chief and Bell and others has been shown. Corroboration is confirmation. Tribing is a crime committed in secret and must be proved by circumstantial evidence; by events preceding and leading up to the crime itself."

By reading bits of the elder McWhirter's testimony, Atty. Loofbourw sought to show the understanding existing between Sheets and Bell, which he held a crime inasmuch as it showed agreement to abide by bribery.

### WHERE SHEETS FAILED.

"It was the duty of the chief to arrest anyone guilty of violating the laws of the state and Bell certainly stood in arrestable form when McWhirter told his story to the chief. From beginning to end the testimony is corroborated. We do not pretend to have brought out outside evidence regarding the payment of the bribe, but we have proved everything which was held in Mr. Loofbourw concluded at this juncture, asking that the motion be denied."

### HANSON, TO THE POINT.

County Attorney Hanson then took the floor and would one want to say that the chief was not to arrest Bell? When the younger McWhirter said he feared for his brother, who was around town some, Hanson asked, "What would lead him to the outskirts of the city and do him harm?" Yet when Bell, "one of the gang," as McWhirter told him, came to his office and the testimony was there for not arresting or at least holding Bell? If
