

## BALL MAGNATES IN SESSION TODAY.

Representatives of Salt Lake, Boise,  
Butte and Spokane Are  
Here

## WILL DECIDE ON SCHEDULE.

According to the Managers of the  
Four Teams, the Prospects for Suc-  
cessful Season Are Good.

President Lucas of the Pacific National baseball league, C. H. Williams, president of the Spokane club, John J. McCreary, manager of the Boise club, Walter Wilcox, manager of the Butte club, and W. A. Gilman of the local club, are in session this afternoon, having responded to the call issued by President Lucas some time ago for a meeting today for the purpose of transacting business of the league and adopting a schedule for the season of 1904.

There is not much business to be disposed of at this time, and the important feature of the session will be the matter of schedule. Nothing can be stated at this time as to the exact date for the opening of the season or the number of games to be played. Each club has a schedule and as they represent all the clubs, the most satisfactory to all parties concerned will be agreed upon. It is a matter that the managers will have to decide.

Lucas, Williams and McCloskey of Seattle and Boise, arrived in Salt Lake this morning. They were preceded by Manager Wilcox, who came in Tuesday. President Lucas, who came in Tuesday, arrived today. These gentlemen, with a representative of the league, will constitute the board of directors, which will have to decide upon all matters pertaining to the league.

The gentlemen from the north declare that the league is in excellent condition, and that the prospects for a most successful season are extremely bright. They also declare that the league is ripe for baseball and that the great game will be heavily patronized this year. Each is also confident of winning the pennant. It is their unanimous opinion that more money will be made this year than last.

The teams representing the four cities are now practically organized and the players definitely decided upon will probably be made public by the league. It is thought, will adjourn tomorrow. The list of players for Salt Lake has already been announced. Hansen will be the first, while in the pitcher's box will be Wiggs, quick, Essick and Fox. Captain "Sis" Davis will do his usual funny stunts at first and Flynn will be at second and short. Donovan and Bryant will be seen on the third sack, while West, Paw Gilman and Miller will play right middle and left field.

As to the condition of affairs at Boise, the Statesman of that city has the following to say:

The club has sent transportation to a full team of players who are coming out from the east. The men are scattered all the way from Fort Snelling to Long Island, and it will cost something to bring them to Boise. Manager McCloskey managed to sign six players in the northwest, three of whom are considerable assets in the line. He will swing his good left arm in the line of the color combination, and leave the sound metropolis whenever his first reaches him. Starkells will come from Tacoma, Marshall and Lewis from Spokane, Zeigler from St. Louis, Howland from Cincinnati, Salisbury from Iowa, Jones from Salt Lake, Weaver from Colorado, and from Washington and the others are scattered.

Manager McCloskey of Boise stated last evening that he had been misrepresented in the statements that he had claimed certain players. He came in from the east last evening and a good guesser would say that he had been looking for more men. "Honest John" said that any time he gave out that he had secured a certain player, it could be depended upon that it was no idle dream.

Los Angeles, Cal., March 30.—Newton moved another shut-out for the Angels against Portland today, the final score being 2 to 0. Portland was unable to get more than four hits and these were scored by the pitcher's error. A double play assisted was made by Freeman. Butler pitched a strong game.

Portland, Ore., March 30.—The batting of the Special Sales in other departments was very good.

San Francisco, March 30.—The batting of the Special Sales in other departments was very good.

inning and hit him in lively style. Dun-  
heavily bringing in six runs. On the other  
hand the local team could not see the  
curves of Whittier, who allowed one hit  
in the first and another in the seventh  
inning, but he got poor support. Score:

Prespo, Cal., March 30.—In the opening  
game between Tacoma and Seattle here-  
today, Tacoma was victor by a score of  
9 to 2. The Tacoma team did some great  
stuff, winning frequently off  
Schoeck, and getting ten hits. Koofer for  
Schoeck was more effective. The Seattle  
men were of color and frequent errors  
helped them to defeat. Score:

**RACES AT OAKLAND.**  
**Feature Was \$1,000 Handicap Won by  
Arabs.**

San Francisco, March 30.—Fine weather  
prevailed at Oakland today and although  
the track was heavy, good racing was  
witnessed. A \$1,000 handicap at a mile  
and a sixteenth was the main attraction,  
and it resulted in a victory for Dr. Tab's  
colt, Arabo. He opened an 8 to 5 favorite  
but receded to 12 to 5, later being played  
down. Ben MacDuih received strong sup-  
port. The start was good for all but Ben  
MacDuih, who lost several lengths. Arabo  
broke in front and led all the way.  
The start was heavy, and Arabo was  
tied to the ground. He was quickly  
loosed and he won by a neck. Ben  
MacDuih was a close third. The sur-  
prise of the afternoon came in the third  
race, the Futurity course. Although Arabo  
had not started in a long time, Rowena  
was thought to have the race at first.  
She failed to display much speed and fin-  
ished in the money. Jack Little, a 20  
to 1 shot, won from Harka and Miss  
Bowlus. Result:

First race, five and a half furlongs,  
selling—Shelmout won, Vigoroso second,  
Blumira third. Time—1:24.  
Second race, four furlongs, selling—  
Del Carina won, Holligan second, Bob  
Hagen third. Time—1:03.  
Third race, one mile and a sixteenth,  
handicap—Arabo won, Gateway second,  
Jack Little third. Time—1:19.  
Fourth race, one mile and a sixteenth,  
handicap—Arabo won, Gateway second,  
Ben MacDuih third. Time—1:33.  
Fifth race, mile selling—Flour won,  
Bontamere second, Possett third. Time—  
1:47.

**HORSEMEN DON'T LIKE IT.**  
**Register a Kick on Year Book of Amer-  
ican Trotting Register.**

New York, March 30.—The Year Book  
of the American Trotting Register as-  
sociation for 1903 has been issued and to  
some horsemen it is not satisfactory.  
One particular feature is the "dis-  
tinguishing marks," which it was supposed  
would discredit all performances with  
wind or dirt shield, and pacemakers in  
front. Lou Dillon, Dan Patch, Prince  
Alert and Major Delmar in one or two  
tables have the marks, but in others  
they have not. Just why this distinction  
without difference is made, is mystify-  
ing horsemen.

While it is known that "the powers  
that be" crowned Maud S (2:28 1/2) per-  
petual queen of the high wheel sulky,  
there is no mark indicating this fact in  
the book. Another very serious weak-  
ness of the book, according to horsemen,  
is the fact that while the "big four"—  
Lou Dillon, Dan Patch, Major Delmar  
and Prince Alert—are given "distinguishing  
marks," other horses which followed a  
pacemaker in front are not credited with  
the mark. For instance, three sons of  
Gambetta Wilkes were given records at  
Memphis behind dirt shields, but there  
are no stars indicating the fact.  
Then, again, Crescens, the great cham-  
pion who trotted a mile in 1:54 in Kan-  
sas last fall, is credited with his old  
record of 2:04. No mention whatever is  
made of the now celebrated mile, the first  
better than 2:00 made by a trotter.

In another way the book is unsatisfac-  
tory. Tables of the best abilities up to  
now necessary to possess about 10 vol-  
umes of the book before it is possible to

ascertain the full breeding of a trotter.  
In many respects the book is valuable,  
as it gives something tangible in the  
form of records. The register of the Re-  
gister association is a very capable official,  
but horsemen cannot understand why the  
costly year book is incomplete.

A shining example of the inaccuracy of  
the records of the association, which  
horsemen point out, is that Major Del-  
mar is recorded as being by Cal Delmar,  
while Cal Delmar is recorded as being by  
Delmar. As a matter of fact Major Del-  
mar is by Delmar, while Cal Delmar is  
the only son of Major Delmar.

**Long Distance Runs.**  
New York, March 30.—Entries for the long  
distance runs for the long automobile  
trip have been completed by Chair-  
man Post of the American Automobile  
association committee. From New York  
there will be choice of four routes con-  
ting together in Ohio. Inspectors are to  
be sent over all routes, and if it is ad-  
visable make tours they will be arranged  
by the committee.

Prominent foreign automobilists have  
been invited to join the tourists.

**McGraw in the Game.**  
Birmingham, Ala., March 30.—John Mc-  
Graw added today that he would in all  
likelihood become an active member of  
the New York National league team. The  
condition, course, is that the game  
which has kept him out so long con-  
tinues to get stronger. It has improved  
so materially under constant massage and  
daily training that the chances are Mc-  
Graw will be seen on the diamond when  
the Giants open up in Brooklyn. Mc-  
Graw is putting up a great game, and if  
he becomes an active member of the team  
he probably will displace Billy Gilbert at  
second base.

**Ascot Park Events.**  
Los Angeles, Cal., March 30.—If there  
was advantage in the speculative con-  
test today between the books and bettors,  
it was with the latter. The handicap for  
three-year-olds and up was the best  
race on the card. Five horses went  
to the post, Tarpey and Elwood were  
the favored ones, but they ran last and  
the winner turned up in Callant, which  
was heavily played. Results:

First race, five furlongs, selling—Brick  
Fowler won, Picture second, Hercules  
third. Time—1:03.  
Second race, six furlongs—Matrona  
won, Kato Grande second, Turle third.  
Time—1:15.  
Third race, four-year-olds and upwards,  
five and a half furlongs—Best Man won,  
Squire second, Emshie third. Time—  
1:47.  
Fourth race, one mile handicap—Callant  
won, Picture second, Golden Mineral  
third. Time—1:41.  
Fifth race, mile—Discus won, Cursus  
second, Dag Martin third. Time—1:43.  
Sixth race, one mile—Falsie won,  
Gentle Harry second, Mr. Robinson third.  
Time—1:42.

**Twenty Years Trial.**  
There are lots of good things the doc-  
tors know nothing about. We frequently  
cure people of disease after the doctors  
have given them up. If the dis-  
eases comes from overwork, dissipation  
or exposure, causing weak and watery  
blood and loss of flesh and strength, we  
have the one sure remedy. Dr. Tab's  
Blood and Nerve Tonic. These tablets  
taken with meals turn the food in to  
rich red blood, making strong, steady  
nerves and increasing the strength, pro-  
ducing solid flesh at the rate of 1 to 3  
pounds a week. This means health,  
Druggists sell Dr. Gunn's Blood and  
Nerve Tonic for 75c. per box or 3 boxes  
for \$2. For nervous prostration, loss  
of memory, or a pale, sallow complexion,  
a better remedy was never made.  
Doctors know nothing about this reme-  
dy, only the fact that we make cures,  
which we have been doing for 20  
years. For sale by Z. C. M. I. Drug De-  
partment.

**SOCIAL AND  
PERSONAL.**

Last night Samuel Newhouse enter-  
tained at a dinner at his home in honor  
of his guests, Count Laborde of Paris  
and Philip Livermore of New York. The  
table was beautifully decorated, with  
pink roses, ferns and guilax, and on  
mantel, sideboard and cabinets were  
vases of Easter lilies. A profusion of  
American Beauties adorned the draw-  
ingroom. Present besides the guests

**GOOD SPIRITS.**  
Good spirits don't all come from Ken-  
tucky. Their main source is the liver-  
and all the fine spirits ever made in the  
Blue Grass State could not remedy a  
bad liver or the hundred-and-one ill  
effects it produces. You can't have  
good spirits and a bad liver at the same  
time. Your liver must be in fine con-  
dition if you would feel buoyant, happy  
and hopeful, bright or vigorous in  
pursuits. You can put your liver in  
fine condition by using Green's August  
Flower—the greatest of all medicines  
for the liver and stomach and a certain  
cure for dyspepsia and indigestion. It  
has been a favorite household remedy  
for over thirty-five years. August  
Flower will make your liver healthy  
and active and thus insure you a liberal  
supply of "good spirits." Trial size, 25c;  
regular bottles, 75c. At all druggists.

C. Parsons.

Invitations have been issued for the  
marriage of Miss Laura Louise Bird  
and Mr. F. W. Sinclair, on April 20.

Mrs. R. J. Schuler returned today  
from a short stay in California.

Mrs. Levy and Miss Carrie Levy re-  
turned yesterday from their eastern  
trip.

Mrs. A. J. Gorham entertained the  
Pan-Hellenic society this afternoon at  
her home.

Miss Cora Snyder has returned from  
Park City, where she has been visiting  
with friends.

Tomorrow night the Billie club gives  
its last dancing party of the season.  
The affair will take place at Christen-  
sen's and promises to be one of the us-  
ual enjoyable events.

Samuel Newhouse and his guests,  
Count Laborde and Philip Livermore,  
went to Park City today to visit the Sil-  
ver King mines.

Mr. and Mrs. E. F. Perry will give a  
christening party on Sunday for their  
twin daughters.

Mr. and Mrs. Joseph Young have re-  
turned after an extended stay in Flori-  
da and Cuba.

**CONSUMPTION LISTED.**  
State Board of Health Includes Tuber-  
culosis and Pneumonia as Contagious.

The state board of health met last  
evening, in Secy. Beatty's office in the  
Mercantile block, and those present  
were Drs. F. S. Bascom, T. B. Beatty,  
W. R. Calderwood of Logan, State En-  
gineer Doremus and State Chemist  
Herman Harms. Methods of gathering  
vital statistics were discussed, also  
contagious diseases, and the best means  
of determining conditions of the eyes  
and ears of public school children. To  
the contagious list were added tuber-  
culosis and pneumonia; and it was de-  
cided where the cause of death is in  
doubt, to furnish physicians, and to  
have analyzed sputum of patients  
where it is thought advisable.

Resolutions of condolence were  
adopted on the death of Dr. Garrison.

**THANKS FROM MAYOR.**  
Sends Letter to the Commercial Club  
Regarding Water Problem Tender.

Mayor Morris has sent the following  
letter of thanks to the Commercial club  
for their tender to assist the present city  
administration in solving the water  
problem for the city:

"Col. Edwin F. Holmes, President  
Commercial Club, City:

"Dear Sir—I have your favor of the  
18th inst. upon the subject of the city's  
water supply, and I most sincerely  
thank you and the Commercial club  
for the interest taken in this most im-  
portant matter, and the disposition  
shown to co-operate with the adminis-  
tration on a proposition of such vital  
interest to all.

"I thoroughly agree with you that  
the principal source of our water sup-  
ply will be from the Cottonwood, and  
now that the Utah lake project seems  
to be in a fair way to be consummated,  
the securing of the Cottonwood water  
in exchange for Utah lake water, of  
which I am convinced we will have  
an abundant supply, is but a matter  
of comparatively short time. True, as  
you say, there is much to be done and  
a bond issue will be necessary, but I  
anticipate very little, if any opposition  
to floating bonds for such a purpose,  
when the people are shown that the  
proposition is bona fide.

"Concluding, I again extend my  
thanks to you and the Commercial club  
for the hearty co-operation shown in  
this matter. Very respectfully,  
"RICHARD P. MORRIS,  
Mayor."

**ARSENIC DISCOVERED.**  
Poison Found in Stomach of Rausch  
May be from Embalming Fluid.

The analysis of the contents of the  
stomach of Emanuel Rausch, which  
was completed by Chemist Herman  
Harms yesterday afternoon, showed the  
presence of arsenic in that organ, but as  
the body had previously been em-  
balmed, it is thought that the poison  
may have come from the embalming  
fluid, consequently there will be no fur-  
ther investigation by the officials upon  
the robbery or murder theory.

Mr. Rausch died under rather mysteri-  
ous circumstances last Saturday,  
and it was thought by his friends that  
he might have been drugged and  
robbed. William Charles, who was with  
Rausch the night he was hurt, says that  
he fell down the stairs back of the sal-  
oon on the corner of Second South  
and Commercial streets and broke his  
collar bone. The police have questioned

Charles closely and have concluded that  
it is not necessary to further investigate  
the case.

Mrs. Isabella S. Carlisle Goes the Way  
Of All the Just.

Mrs. Isabella S. Carlisle, who was  
born in Mission, England, Dec. 21, 1832,  
and emigrated to Utah in 1861, passed

away at her home in Mill Creek on  
Tuesday last, after a well spent life of  
nearly 72 years. Deceased became a  
member of the Church of Jesus Christ  
of Latter-day Saints in 1860 and en-  
dured with patience and fortitude all  
the hardships incident to the settlement  
of these valleys. She was much de-  
voted to her religion and by her good  
deeds won many friends, who will re-  
gret to hear of her demise. The funeral  
will be held from the Mill Creek  
ward house tomorrow, Friday, at 12  
o'clock, noon.

**THE CHAIN OF LIFE.**

Each of the chief organs of the body  
is a link in the chain of life. A chain is  
no stronger than its weakest link,  
the body no stronger than its weakest or-  
gan. If there is weakness of heart or  
lungs, liver or kidneys, there is a weak  
link in the chain of life which may  
snap at any time. Often this so-called  
"weakness" is caused by lack of nutri-  
tion, the result of disease of the stomach.  
Diseases of the stomach and its allied  
organs are cured by the use of Dr.  
Pierce's Golden Medical Discovery.

When the diseased stomach is cured,  
diseases of other organs which seem re-  
mote from the stomach, but which have  
their origin in a diseased condition of  
the stomach and other organs of diges-  
tion and nutrition, are cured also.

"I was troubled with my stomach and  
liver; so bad that my stomach  
would not retain anything," writes Mr.  
Elliot McCully, of McPherson, Kan-  
sas, Pa. "Did not weigh within  
twenty pounds as much as I do now.  
Was low spirited, did not care to see any  
one. I took three bottles of Dr. Pierce's  
Golden Medical Discovery and now feel  
like a new man. Can eat anything I  
please without suffering afterward.  
Weigh more and feel better than I ever  
did. I cannot recommend your 'Golden  
Medical Discovery' too highly."

"I take great pleasure in recommend-  
ing your medicines," writes Mrs. F. V.  
Lentley, of Caponrud, Va. "My daughter  
was delicate. We feared she had  
consumption. By the recommendation  
of my sister, we purchased two bottles  
of 'Golden Medical Discovery' and one  
of 'Favorite Prescription,' and used them  
according to directions. We were more  
than surprised to see how wonderfully  
our daughter improved. She has gained  
in flesh, has attended school every day  
this winter, and seems like a new person."

**PERSONS OF EITHER SEX**  
Before or after marriage should know  
themselves. Ignorance of the laws of  
SELF and SEX lead to misery and ill-  
health. Do not permit FALSE modesty  
to debar you from such knowledge.  
Know about the Process of Generation,  
Physical and Vital Properties of the  
Blood, the Organs of the Body. A great  
deal of sickness and a great many doc-  
tors' bills might be saved to any family  
by keeping a copy of Dr. Pierce's great  
"Common Sense Medical Adviser." At hand, it  
gives valuable recipes for curing the dis-  
eases that are curable without a doctor  
and comprehensive information about  
Anatomy and Physiology with over 300  
illustrations. "The Common Sense  
Medical Adviser" is sent free on receipt  
of stamps to pay expense of mailing  
only. Send to Dr. R. V. Pierce, Boston,  
N. Y., 21 cent stamps for the book  
in paper covers, or 31 stamps for the  
cloth-bound volume.
