

the crops of this year may not prove good.

President Vermilyea, of the Merchant's bank, says of the gold shipments, it was sixty or ninety days ago, that certain parties bought a large amount of stock in on time and now they have to meet their calls, and as those who loaned in Europe do not care to renew their bills, there is no other alternative but to meet them. This will make trouble for the dealers. London is the general clearing house for all European nations and thus no one can tell of its distribution, and which their own correspondents here can't tell. Gold is not sent over for speculative purposes as it would not pay at the present rate of exchange.

The steamship *State of Indiana* has signalled the United States marshals and detectives on the lookout for the Dublin assassins. They will not be able to board the vessel before morning.

Castelo, out of his cell, carried him to the spot where the murder was committed and hanged him to a limb of a tree. The same mob then hunted up Jas. Ascor, colored, out on bail, charged with murdering a white man, and in spite of his protests of innocence, hanged him on the same tree. Governor McEnery offers rewards of \$2,000 for the lynchers.

FOREIGN.

MADRID, 15.—Public opinion and that of the leading statesmen of Spain is that every European intervention in Egypt would be very likely to lead to serious complications in the north of Africa, where the French collision with Mohammedism fanaticism in Tunis, and on the frontier of Morocco, has kept up a flame ever ready to burst out afresh. Intelligence gathered during

the recent visit of several foreign envoys with their suites, at the court of the Sultan of Morocco, clearly proves that the Moorish ruler could not restrain the Arab tribes and perhaps not even his own Moors, for the struggle in North Africa had assumed the aspect of a general resistance to Christian intervention in Egypt, and led again by the French.

The Spanish Government, if Egypt is occupied, would be powerfully excited by public opinion, to assume a more active attitude in Morocco. The army is in good condition. The class of 1879 has been retained in the ranks in consequence of the Catalan disturbances and its actual strength is 130,000 men and 260 guns.

Senor Sagasta, speaking recently on Egyptian affairs, said that every conflict in the north of Africa will put the Madrid Government on the alert.

DUBLIN, 13.—It is rumored this evening that detectives have arrested four men whom they found at Wynne's Hotel, in Lower Abbey Street, on the charge of having assassinated Lord Cavendish and Under Secretary Burke. Wynne's Hotel is close by the office of the *United Ireland* newspaper, and is reputed as one of the most respectable hotels in the city, being patronized only by the wealthy. The reticence of the police when questioned as to the truth of the rumor with the fact that all inquiries at the hotel are met with an evasive answer, and the reply that the proprietor is "not in," has caused considerable excitement and leads to the general belief that the arrests are the most important yet made. Inquiries at the central office are met by a curt refusal on the part of the police to converse on the subject.

All controversy as to whether the assassins really intended to murder Lord Cavendish has ceased now that it is universally understood that he was deliberately selected as a victim. The latest intelligence indicates the belief of the police that Earl Spencer also would have been assassinated had the opportunity favored. Nobody longer denies that the assassinations were planned for a distinct political purpose.

LONDON, 15.—In the House of Lords Granville stated that the government's policy in regard to Egypt was the maintenance of the sovereignty of the Sultan and the liberty of the Christian population. They were in account with the French government which disclaim the intention to arrogate any prepondering influence.

It is stated that the Turkish Admiralty has been ordered to prepare 12 ironclads and transports for sea, in connection with the crisis in Egypt.

LONDON, 16.—A correspondent of *Times* at Paris says: If the presence of English and French fleets at Alexandria does not suffice to restore order, Turkish gens d'armes will be landed to seize Arabie Bey, Minister of War, and those implicated with him, and stop the rebellion by reducing the rebels to impotence.

Cairo, 16.—Relations are resumed between the Khedive and ministry. Arabie Bey, on hearing of the fleets summoned, ordered a reserve sent to the capital.

The Austrian physician who visited the Jews in hospital at Odessa, states that there are 125 horribly mutilated persons there. The Russians having poured petroleum into their wounds.

CONSTANTINOPLE, 15.—A Turkish transport went ashore in the Bosphorus and 50 persons were drowned.

LONDON, 17.—Wm. Martens, a German composer and printer of the Socialist paper *Freiheit*, was arrested and arraigned by the street police. He is charged with the publication of scandals and seditious libel concerning the murderers of Cavendish and Burke, thereby encouraging persons to commit murder. The police seized the issue of the *Freiheit*. Another warrant is served against John Neuer, an active Socialist engaged on the *Freiheit*.

QUEBEC, 17.—The steamship *Peruvian*, with 1,000 passengers on board, has lost all the blades in her propeller by contact with ice in the Gulf of St. Lawrence, and a steamer has been sent out to her assistance.

cilly was burned; 84 houses were destroyed and 650 persons rendered homeless.

LIVERPOOL, 17.—The police here, acting on a private letter, boarded the National Line steamer *Egypt*, which sailed to-day for New York, just before she left the Mersey. The passengers and crew were all mustered on the deck of the vessel, then the vessel was searched and 10 men discovered stowed away in different parts of the steamer. They were taken to the police station. Three appear to be Americans and three Irishmen. The remainder are seafaring men.
