

GREAT ACCIDENT BARELY AVERTED

C. B. & O. Overland Limited Flew
Past Interlocking Switches and
Signals at 60 Miles an Hour.

ENGINEER DEAD ON CAB FLOOR

He Had Died from Hemorrhage of the
Brain—Train Had a Hundred
Passengers Aboard.

Chicago, May 27.—The Overland limited, fastest train of the Chicago, Milwaukee & St. Paul road system, ran Monday night at full speed of nearly 60 miles an hour over interlocking switches and past signals near Byron, Ill., with Engineer Albert Gavins lying dead on the cab floor and no controlling hand on the throttle. The train, with a hundred passengers aboard, narrowly missed a smashup.

Officials of the railroad yesterday heard the story told by Fireman Michael Nash. It proved a frightful tragedy had been averted as by a miracle.

The train left Chicago on the journey to San Francisco with Gavins at the throttle in apparent good health. Near Davis Junction, at Byron, where the train slows down to cross the right-of-way of another road, Fireman Nash leaped across the rear. Nash leaped back into the engine cab and discovered Gavins' body lying on the floor. The train was stopped and help called. An examination showed the engineer was dead as the result of hemorrhage of the brain.

After some delay another engineer was obtained, and the train proceeded. Gavins had been in the service of the road about 25 years.

SHORT \$37,572.

Represents Taxes Paid Under Protest

In 1903 by S. F. United Railroads.

San Francisco, Cal., May 27.—It is reported that the \$37,572, representing taxes paid under protest in 1903 by the United Railroads, is missing, presumably from the city and county treasury.

The sum represents the difference between the valuation placed on the holdings of the United Railroads by the state board of equalization and the assessment of City and County Assessor Washington Dodge, and which has been in litigation.

Judge Sewell decided the case in favor of the city and was upheld by the supreme court. The alleged shortage is said to have been made when the remitter was handed down.

The finance committee of the board of supervisors will commence an investigation of the matter tomorrow.

ITALIAN CRIMINALS.

Dist. Atty. Clark Will Go to Italy to Study Them.

New York, May 27.—Dist. Atty. Clark of Brooklyn will sail for Italy on June 6 to study the Italian criminal where he grows. Mr. Clark will be accompanied by Francis L. Corrao, one of his assistants, who was born in Italy.

Mr. Clark has taken an active interest in the increase of crime among the Italian residents of Brooklyn, and in the severe blackmailing societies that flourish among them. Mr. Clark and Mr. Corrao will visit the courts and prisons of Naples and Sicily, and expect to return after six weeks.

They are prepared to grapple with the problems that confront them.

WILL CONTINUE TO PROSECUTE GRAFTERS

Los Angeles, May 26.—Rudolph Spreckels of San Francisco, who has been the financial backer of the graft prosecution in that city, made a brief address here today, in which he referred to the continuation of the graft prosecution in the following language: "To assume that the people of San Francisco are discouraged by reason of the mistrial in the Ruff case would be a mistake; on the contrary, the disagreement of the jury in that case has

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Irritability, Distress after eating, Pain in the side, etc. who are made most remarkable success has been shown in curing

SICK

Headache, yet Carter's Little Liver Pills are equally valuable in the most distressing complaint, while they also purify the blood and regulate the bowels, etc. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them.

OLD CITY HALL IS TO COME DOWN

Official Chicago Including the
Office Cats Will Move
On June 15.

ALEXANDER DOWIE'S ESTATE

Now Proves to Be Reduced to \$1,200
—Street Cars on Dress Parade
For Big Convention.

Chicago, May 25.—This city will move June 15—officially. On that day its administrative officers and offices and office cats, of which there are dozens, will leave the old City Hall and its millions of unofficial codebooks at LaSalle and Washington streets and go to temporary quarters at 294 and 206 Randolph street. The wreckers will be on the job to work on the old stone pile that has been Chicago's official home since 1834. The work of razing the old City Hall and putting in concrete caisson foundations for the new structure will be consolidated and is to proceed simultaneously. This will be a unique procedure in the history of public buildings, and is considered by optimistic citizens to mark an effort to handle city affairs in a business-like manner. It has been discovered that the stone in the old buildings is of such quality that it may be crushed and used in making the concrete for the caissons for the foundation of the new structure. Samples of the stone will be tested in a stone crusher, and if it can be used there will be a big saving. Cook county was forced to pay \$75,000 to get rid of the material in the old court house, the twin to the City Hall, in preparing for the new one. In the City Hall, Chicago has been able to provide public comfort stations for two such stations shall be put in the City Hall.

ALEX DOWIE'S ESTATE.

The personal estate of John Alexander Dowie, "Prophet Elijah III," who built cities, who established big industries who dealt in millions, who held the financial destinies of his thousands of followers in the hollow of his hand—for a while—now proves to be reduced to \$1,200, of which Mrs. Jane Dowie has been awarded \$400 as her widow's dower. The splendid robes of office have faded, the jewels have disappeared, the huge mansions of his homes have been taken away by receivership; the erstwhile glories of the founder of Zion are memories only. Mrs. Dowie's memory of them has, however, prompted her to a desire to the present receiver of Zion many items of personal property in Shiloh house, which she claims as her own. She has asked for the furnishings of her bedroom, for household articles, including "a pillow case containing eleven infant's robes," garments of cherished maternal associations. She has asked for a mahogany bedroom set inherited from Esther Dowie, her daughter, who was burned to death. The value of the real estate she owns is estimated at \$1,200, of which Mrs. Dowie has a claim upon it. She and the son, Gladstone, the "unblessed Gladstone," according to the Chicago Tribune, are now on the Michigan estate, Ben Mac Dui, near Muskegon, Gladstone. Incidentally, is practicing law and has shattered the Chicago belief his father fostered, that he was "unblessed," for evidently Prophet Elijah III did not know all that happened to his son. Gladstone is reported to have declared, "Of course I have been blessed; first when I was reasonably young, at school, and since then it has happened at reasonable intervals on and on, and I have never been unblessed." He has indicated his hope for other tender impressions in the days to come. He declares that he "came near being engaged once" in Zion City; that he may be again.

SCRAMBLE FOR GRAIN.

Every railway and lake transportation line entering Chicago is scrambling for a share of the big shipment of grain that changed hands May 1 when the May deliveries were made and paid for under board of trade rules, and which now will go forward to its ultimate destination. The focus of this rivalry for traffic is the board of trade, for the grain and provisions bought and sold there run into millions of bushels which are enormous. The cured meats in 1907 totaled 758,359,255 pounds, and grain and flour 766,506,782 pounds. The figures incidentally show the business of such exchanges, which has been confused with the gambling done in the commodities, and the "bucket shops" which have been persistently fought by them for years. In order to maintain a continuous market for live stock, the packing companies sell in the provision pits for future delivery those meat products which must be cured, and on which they need to borrow as otherwise, for lack of capital, the record of 2,301,061 hogs, and 2,305,214 cattle, marketed for cash in Chicago in 1907 would not have been possible. About 4,000,000 bushels of grain now leave Chicago elevators, of which the lake boats have got about 2,000,000 bushels. The elevators here, with capacity of 63,000,000 bushels, will be practically emptied before the crop of this year is available, in fact, before part of the new crop has been planted.

PHILANTHROPISTS SCORED.

Archbishop Glennon of St. Louis severely scored philanthropists who donate libraries and people who lecture on the child problem or engage in social settlement work merely for the purpose of securing notoriety. In his address here he said: "There are today philanthropists—so-called—who believe that by giving the people lectures, that they might study out present-day philosophy, they are accomplishing great good," said Archbishop Glennon. "And there are others who spend their time in social settlement work or lecturing on the child problem. Constantly they seek notoriety. Let them go on giving away their libraries and establishing their social settlements, but I want you to understand that philanthropists are not to be despised."

FOR SALE BY F. J. HILL DRUG COMPANY, SALT LAKE CITY.

ONE OUGHT TO KNOW HOW TO STRENGTHEN THE ORGANS OF DIGESTION.

A Course of Treatment That Really Cures Indigestion Instead of Merely Relieving Symptoms.

There are plenty of remedies by which you can relieve for the time heartburn pain and gas on the stomach and can soothe nervous sensations and induce artificial sleep. But when you take your next meal all your troubles begin afresh.

There is only one sensible thing to do. Strengthen the stomach and do away with the causes of gas and indigestion. The stomach once in proper condition, with its own work better than any process devised by man can ever do. When it is again strong don't abuse it. Learn to choose rational food in general, and to study the effect even of that, as yours may at best be a freakish stomach.

Mr. John N. Dietrich, of 231 East Morris street, Indianapolis, Ind., tried a treatment that has cured thousands and says:

"About four years ago I began to have stomach trouble, which I always thought was brought on by irregular eating and sleeping while working on the street railways in this city. My condition kept growing worse. I had severe cramps in the stomach if I ate the least thing, even a drink of water would cause them. The cramps often doubled me up so that I couldn't straighten up for some time. Often they would last all day causing me to go to bed. I didn't have much of an appetite and I was constantly belching gas and sour fluids after everything I ate. I was troubled a great deal with constipation and dizzy spells. My bowels seemed to be out of order and I had headaches which seemed almost like neuralgia. I was in a bad state and was in bed for over a week and a half. The doctors medicine did me no good and upon advice of a relative I began to take Dr. Williams' Pink Pills. Although I had been sick for nearly three years I felt better right away after taking the pills. My appetite picked up and I haven't had a dizzy spell since. My bowels are regular and I feel fine in every way. I commend Pink Pills to everybody I can."

While so promptly effective, Dr. Williams' Pink Pills are entirely harmless. Every dyspeptic should read "What to Eat and How to Eat." Write today for a free copy of the booklet.

Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail postpaid on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

PUBLIC SERVICE CENTER.

That the west is at last outstripping the east in the development of public utilities, is evidenced by the selection of Chicago as the headquarters of the independent telephone interchange center for both Bell and independent apparatus. Twenty years ago the east was dominant in all lines of public service utility. The Chicago telephone exchange, which has been in operation since then, has reversed conditions. What this growth has been in one branch is interestingly summarized by a writer in one of the nation's magazines. "The Bell report for 1907 shows that there are now nearly 4,000,000 subscribers, or 'stations,' in that system," says the Saturday Evening Post. "The number of local messages averages 18,000,000 daily; the number of long-distance messages nearly half a million daily. Many more long-distance messages are sent by telephone than by telegraph. Gross earnings of the various 'Bell' exchanges amounted to \$120,000,000 last year, comparing, for example, with \$35,000,000 in 1900. The report gives actual value of 'Bell' plants and working capital as \$589,000,000. It reports from the independent companies were available, these figures would be considerably enlarged; and this is nearly all a creation of the last 20 years."

STREET CAR SYSTEM.

By the time for the Republican convention in June, the downtown street car lines will be on dress parade, particularly those in Wabash avenue, on which the Coliseum is located. President Mitten of the Chicago Railway company has declared that the delegates shall see a sample of a perfect street car line. Rusty rails and antiquated cable slots are disappearing daily under the wheels of new cars, and the old-fashioned tracks are being removed, and track-laying gangs are hard at work all over the city. This year is expected to see the greater part of the new cars in use. Welding cars furnish moving exhibits watched by curious crowds, in the process of unrolling rails into a continuous bar of steel. It is in these minutes that the car carries a sand blast, which cleans the ends of the rails; the next grips the steel while the electricity, passed through the metal, gives it a white heat. The generators for the current are part of the public exhibit on the third car.

FARMERS, MECHANICS, RAILROADERS, LABORERS RELY ON DR. THOMAS' ELECTRIC OIL.

It takes the cause of cuts, bruises, sprains, and all other pains cannot stay where it is used.

CHEAP EXCURSIONS EAST

For particulars apply to A. Walker, General Agent, Chicago & North-Western Rys., 38 West 2nd South.

NO LIQUOR SOLD IN DENVER AUDITORIUM

Denver, Colo., May 27.—There will be no liquor sold in the convention auditorium in Denver, where the national Democratic convention meets in July. Application was made to the committee on the management of the convention for a concession for a bar in a section of the auditorium which would be used for the sale of refreshments. The committee decided not to grant the concession, and the delegates will meet at a large sum of money for the concession. The committee decided not to grant the concession, and the delegates will meet at a large sum of money for the concession.

OAKLAND HOUSES DYNAMITED.

Oakland, Cal., May 27.—Three dwellings built by James L. Gallagher for an president of the San Francisco board of supervisors and chief witness for the prosecution in the case of the "Fenwick graft cases," at the corner of Perkins and Belmont streets, north of Lake Merritt, were dynamited by a party known as the "Explosion Club" last night. The explosion shook the neighborhood, smashed windows of nearby dwellings and played havoc with interior furnishings.

NEITHER GALLAGHER NOR ANY MEMBER OF HIS PARTY WILL BE AT THE SCENE OF THE EXPLOSION, AND THE ONLY PERSON WHO IS

ONE OUGHT TO KNOW HOW TO STRENGTHEN THE ORGANS OF DIGESTION.

AM. LOBSTERS FOR EUROPE.

New York, May 27.—An invasion of European waters by the American lobster has been begun. When the Kaiser Wilhelm II steamed for Europe yesterday she carried in her fish tanks 300 choice specimens of the lobster species. The trip will determine whether they can be kept alive until they are landed in Europe. If they are able successfully to undergo the voyage there is good reason to believe a new industry will be the result. At present the lobster is only obtainable along certain portions of the European coast, and for the most part difficult of access, and the price is high. The American lobster is likely to be greeted with joy by the epicures of the continent. The Kaiser Wilhelm's tanks have pipe attachments which supply fresh water with pure air by a patented process, and the fact that fish have been easily kept alive in them throughout a transatlantic voyage leads to the belief that lobsters will be similarly preserved.

Another improvement which the Kaiser has undertaken is that of transferring two live frogs to Germany with a view of breeding for the German markets. They were taken from New Jersey swamps, and will be placed in Bavarian environs as similar as possible.
