LOCAL BRIEFS.

Buys Houston Home—Ex-United States Diet. Atty. C. S. Varian has bought the Houston home, 235 Sixth East street, 3 1/2 by 10 rods, including a 10-room house.

Wed in Ogden—Capt. Earl V. Smith the well-known young militia officer and lumberman, and Miss Ruby Thompson of the city, secured a license in Ogden yesterday to wed.

Move to McCormick Block—The Continental Life Insurance company is preparing to remove from the Atlas block to the McCormick building, where additional and needed room can be had.

Rabbi Freund Will Talk—Rabbi Freund will speak this evening in the Jewish temple, on the late Rabbi M. Wise, founder of the Hebrew Union college, of which Rabbi Freund is a graduate.

Boom for Judge Hiles—A boom has been started to make Judge Ogden Hiles commander of the department of Utah, C. A. at the annual state encampment next May. The judge was a private in the Twelfth U. S. Infantry during the Civil war.

Want Harris to Join—The Rocky Mountain Highway association of Colorado has invited Fisher Harris to become a member of the department of Utah, C. A. at the annual state encampment next May. Harris is president and Charles A. Johnson of Denver, vice president. The object of the organization is to provide better roadways for the Rocky Mountain country.

Back from Pittsburg—General Agent L. M. Gage of the Westinghouse Electrical company in this city, has returned from an extended trip east to Pittsburg. He found the east pretty generally more affected by the late financial stringency than the far west, but eastern interests are recovering, though slowly. The improvement is steady and sure. The west is in pretty fair shape.

Will Remove Poles—The city engineer says that he will have the poles removed from the paved district by Monday. Several former residents of New York City, now living here, recall in this connection, the action of Mayor Hugh Grant, who sent out a gang of men and boys to pull down telegraph poles that the Western Union had refused to remove after they had been ordered to do so by the city.

Asks Financial Aid—General Secretary Clifford Pierce of the army branch of the Y. M. C. A., at Fort Leavenworth, has written to Salt Lake parties interested in this work, asking financial assistance for the Fort Leavenworth association. He is trying to raise \$1,500 to carry on the work in the new building, where the Y. M. C. A. movement was given such an impetus by Chaplain John T. Axton of the Eighteenth infantry. There are 3,000 enlisted men at that post. Secy. Pierce would be pleased to receive any amount that philanthropic persons interested in the army Y. M. C. A. may send him.

Bishop Spalding's Lecture—Bishop F. S. Spalding lectured last evening, on "The History of Socialism," before a crowded house, in St. Paul's church. In the course of his discourse, he said: "If there is one thing that all this study teaches us, it is that for generations men have been wrestling with these industrial questions, and they are still wrestling with them. It has proven that these questions will not down, but that every honest man and woman must do what can be done to see that a government shall be based on the rights of human beings. We must realize that society and the church are not doing what they can and ought to do to make an effort to help the very poor who first of all need the help."

Building of St. Paul Across Montana Working Wonders for State.

Activity in Montana, as a result of the extensions being built across that state by the Chicago, Milwaukee & St. Paul, is best described in the following statement made to the Butte Inter-Mountain by a St. Paul man:

"By the opening of the new extension of the Chicago, Milwaukee & St. Paul railroad, the city has been brought 200 miles nearer to St. Paul. This continental extension, when complete, will be the pioneer limited route between St. Paul and Seattle, before the opening of this extension, passengers and freight for Lewiston, Harlowtown, Lombard and contributory points in Montana had to proceed 200 miles farther west in order to reach their destinations. This extra journey has now been cut off and rapid transit facilities established, the greatest boon to shippers of freight to that rapidly growing district."

"Daily trains, including sleeping and dining cars, are already running between St. Paul and Miles City and points in the Judith basin and the Musselshell valley. A fast freight service from St. Paul was rendered necessary on account of the vast amount of freight which is consigned daily for Lemmon, Hettridger, Bowman, Terry, Miles City, Harlowtown, Lewistown and Lombard."

"The rapidity with which this country is being settled can be judged from the fact that Marmarth, first settled by a St. Paul man on Dec. 20, now has a population of 2,000; Bowman, founded on Nov. 21, has a population of 400; Hettridger, started last summer, has a population of nearly 500, and Lemmon, the largest of the new towns just over the border of North Dakota, has a population of 700. Last week 10 carloads of immigrants arrived at Belle Fourche to the south, which will be irrigated for the first time in a few weeks. This territory is one of the government irrigation projects and covers an area of 12,000 acres."

UNEQUALLED A CURE FOR CROUP.

"Besides an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequalled as a cure for croup. When given to a child, it soothes the inflamed membrane, loosens the phlegm, and when given as the croupy cough attacks, it is used successfully in most thousands of cases. For sale by all druggists."

"AMERICAN" BOOM IN BONDS STARTED

H. J. Dininny and P. J. Daly Are Smitten With an Exceptionally Bright Idea.

ROOM FOR \$1,880,000 MORE.

Great Discovery May Lead to Another Riot of Expenditures—L. E. Hall Takes Issue.

That Salt Lake is on the verge of a real boom in bonds is the only possible conclusion from the present plan of campaign of the "American" party, urged on by the persuader machine to whom politics with finances involved, make a special appeal.

H. J. Dininny, city attorney, and P. J. Daly, his assistant, have been thinking the matter over, and the pair now have a plan all worked out. Their discovery is that Salt Lake isn't bonded to its limit as was supposed by the rabble, nor is it bonded so close to its limit that a little \$600,000 is all that the city fathers can now vote themselves. There is opportunity, in fact, they have discovered, to fairly hold a bonding jubilee, and turn out \$1,880,000 in the little promises to pay at some future date.

The councilmen heard of Dininny's elaborate discovery yesterday afternoon after the postponed meeting as a committee on the whole to talk finances. When they heard of it, they heard a wondrous explanation that was no less than that certain bonds, issued to pay corporate bonds issued in turn before the law limiting the city's bonded indebtedness to 8 per cent of the assessed valuation was passed.

DAILY PANACEA.

Because they were ex-post facto bonds, the old ones, and the refunding bonds issued to take them up at maturity, don't count, and 8 per cent of bond, independent of these can now be issued, \$680,000 for water and sewer bonds, and the remainder for general purposes, thus keeping within the 4 per cent allowed in each class. Besides the ex-post facto feature of the present reasoning to permit a large bond issue, there is an argument that refunding bonds do not really add to the bonded indebtedness, since they are issued to take up bonds already out, and in the Dininny-Daly estimates all such bonds are counted out of consideration.

L. E. HALL'S LITTLE TABLE.

The council meets again this afternoon and will hear more arguments before the solid "American" party majority votes to ask for the bond issue. Yesterday afternoon, Councilman L. E. Hall from the Fourth ward, submitted a table to show that the city can easily exist without a bond issue, by discharging some of its worthless help. Here is the table he submitted, explaining that it calls for the payment of old debts out of the revenue due up to Jan. 1, 1908:

RESOURCES FOR 1908.	
Taxes (on a basis of a 12-mill levy and a \$48,000,000 assessment)	\$ 624,000
Licenses	235,000
Department receipts	140,000
Water rates	190,000
Total	\$1,189,000

EXPENSES (ESTIMATED).

Departments	\$ 760,000
Bond interest	162,000
Lighting	36,000
General expenses	50,000
City's portion of contracts in force Jan. 1, 1908	84,000
Total	\$ 1,192,000

Balance, \$177,400.

Mr. Hall explained that he would leave this balance divided into \$40,000 for needed water mains, \$20,000 to complete the intercepting sewer, \$20,000 for paying First South street, and the balance for general purposes.

FERRY OBJECTED.

To Councilman Hall's proposition Ferry objected, declaring that he ought to have gathered other facts and data. To allow him to readjust his figures, another meeting was called for this afternoon.

President Davis joined Ferry in his objections. "Mr. Hall does not give the finance committee or the auditors any ground for doing anything," said President Davis.

"He does not seem to understand that we have been over the ground thoroughly and are not asking for a bond issue, but for a loan. He is not doing any good, but he is making a mistake and he will have to admit that the city cannot improve unless bonds are issued."

This afternoon the heads of departments have been notified to appear before the council and explain why they need the money they are getting and how they cannot possibly get along without it.

PROF. H. A. HOWELL OF HAVANA, CUBA, RECOMMENDS CHAMBERLAIN'S COUGH REMEDY.

"As long ago as I can remember my mother was a faithful user and friend of Chamberlain's Cough Remedy, but never in my life have I realized its true value until now, writes Prof. H. A. Howell, of Havana, Cuba. 'On the night of February 3rd, our baby son, who is 18 months old, was taken with a cold, and the next day his condition was desperate. He coughed and he was unable to have him in the arms every moment. Even then his breathing was difficult. I tried all the remedies I could find, but at last I thought of my mother's remedy, Chamberlain's Cough Remedy, which we had taken all our lives. I gave him a few drops of it, and in a few minutes he was better. He coughed less and he was able to have him in the arms every moment. Under the circumstances I would not hesitate to recommend Chamberlain's Cough Remedy, and that only because it is the only remedy that has saved the life of our dear little boy.'"

ARREST JOHN VIGNA.

Police Take in Italian on Charge of Falsely Obtaining Money.

An Italian who gives the name of John Vigna, but who the police believe to be Ernest Presti, was arrested last evening by the police on the charge of obtaining money by false pretenses from Dr. Frank Sibila of Ogden. Dr. Sibila is an uncle to Vigna. A day or two since he received a wire from Vigna asking for \$10. The money was sent and then came a second appeal. Vigna had been ill at Colorado Springs. When the second appeal for money came Dr. Sibila became suspicious and notified the police. A description of the man who was wanted by the police to arrest Presti, he declared that his name was Vigna and that he got the money in a legitimate manner.

DECISION TOMORROW.

Judge Diehl Has Motion in Reeves Case Under Adjudication.

The case of the state vs. Gertrude Reeves, the colored woman charged with murder in the first degree, by choking to death her baby boy only a few hours old, came to an end at 5 o'clock in Judge Diehl's court yesterday afternoon so far as the prosecution is concerned. In preliminary hearing. At the conclusion of taking testimony introduced by the state, Atty. Sam King, counsel for defense, made a motion that the woman be discharged on bail. The judge, however, denied the motion and made a case. Judge Diehl took the motion under advisement and will hand down his decision tomorrow morning.

WATER USERS MEET.

Plans Discussed for Protecting Rights in Salt Lake City.

Persons residing in Farmers ward, Sugar House and Forest Dale, owning rights in the waters of Parley's creek, held a meeting last evening at the Forest school building for the purpose of devising plans to defend their rights in the water suit filed by Salt Lake City some time ago.

The gathering was called at the instance of W. A. O. Smoot and Daniel Harrington, and the water question was discussed at length. Owing to the light attendance, however, another meeting will be called, in the near future, at which it is hoped all persons interested will be present. There are about 1,500 water users living in the locality affected by the controversy, and it is designed that a strong fight shall be made to conserve individual interests in the stream mentioned.

According to the provisions of a contract entered into between the farmers and the city, June, 1888, it is provided that the former shall never be subject to expense in the matter of maintaining their rights, and the same. Last night's meeting was for the purpose that the contract should be adhered to.
