

MURRAY PLANT CAN OPERATE

American Smelting & Refining Company Allowed to Proceed With Certain Ores.

CIRCUIT COURT OF APPEALS

Now Hands Down a Modified Decree Governing the Question This Morning.

Result of Agreement Reached With The Farmers Last Summer—Thousand at Smelter.

Expected but none the less welcome, comes the news that the American Smelting & Refining company is to be permitted to run its plant at Murray on 25 per cent sulphur ores, provided the plant is equipped with flues and gas houses sufficiently large to gather all arsenic and other detrimental fumes. This mandate and a modified decree have just come down from the circuit court of appeals, and are the result of an agreement reached between the smelter company and farmers last summer. Some 1,000 men will continue to be employed and a monthly payroll going away over \$60,000, will contribute towards the neighborhood's prosperity and activity in these needful times.

TERMS OF STIPULATION.

By the terms of the stipulation entered into by the parties to the suit, the smelting company may operate its smelter at Murray up to its present capacity of 1,500 tons of crude ore per 24 hours. This shall be exclusive of any and all other than sulphur and this tonnage shall not be more than one-third sulphides and the sulphur content of the latter shall not exceed 25 per cent when heated. The stipulation of the decree and agreement for the original and sustained ore or ore in any shape or form what-soever of Judge Marshall, saying, "The ore must have a higher sulphur content than 10 per cent."

WHAT IT MEANS.

J. T. Richards, one of the legal representatives of the American Smelting & Refining company in discussing the circuit court's mandate, said: "Under the first ruling the A. S. & R. company would have had to shut down the plant for all. But in permitting 25 per cent ore being smelted the company can continue with satisfaction to itself and without injury to anyone or anything."

NO ARSENIC IN SMOKE.

"The company is to have the fumes from 1,800 feet of Monier flues and other chambers and gas houses, so there will be no trace of harmful gas in the smoke when it finally gets into the air. This understanding was reached after much delay, the company and the farmers reaching an agreement upon the agreement. A quarter of a million has been spent in building bag houses, etc., feeling it would be sanctioned by the court. The company has been threatened to be such an ugly mess without doubt being gratifying to the company, farmers and public in general."

DEATH OF MRS. MAYCOCK.

Wife of Late Bishop of the Third Ward Passes Away.

Mrs. Louise S. Maycock, wife of the late Bishop Thomas Maycock, of the Third ecclesiastical ward of this city, died at 515.00 this morning, at the family residence, 127 East Seventh South, from general debility. She has been a sufferer for several years, and three or four months ago symptoms of dropsy developed. Mrs. Maycock was born at Bloxwich, Staffordshire, England, August 6, 1852. April 15, 1886, she became a member of the Third ward of the Episcopal church of America. Eleven days later she was married to Thomas Maycock, in midtown. Mrs. Maycock was survived by four children, namely, Brigham W. and George Maycock, Mrs. Louise M. Rose, and Mrs. Lucy M. Dixon, of Payson. Bishop Maycock died April 11, 1896. The funeral arrangements have not yet been completed.

DEAN BRIGGS COMING.

Harvard Man to Be Entertained by the University Club.

Monday, Jan. 27, is the date when Dean Briggs of Harvard university, one of the best known educators in the country, will be in Salt Lake, and Prof. Fred W. Reynolds of the university, himself for some time a member of the Harvard faculty, has the matter in hand of arranging for the host visitor's entertainment.

A plan is preparing to tender him a complimentary dinner at the University club to be given by the Harvard men in Salt Lake, this to be followed by an informal reception. He will lecture here Monday evening on "American Colleges and Universities," and Tuesday afternoon on "The University of the Future."

AFTER JOE SULLIVAN.

Detectives Are Due to Arrive in Port. Late This Afternoon.

Chief of Police Pitt expects to hear from Detectives Chase and Shannon from Portland this evening relative to Joe Sullivan, who is under arrest there, and the question of identity will be settled definitely. The detective left Saturday night at 11 o'clock for Portland. They were armed with pistols and a revolver. Sullivan was carrying concealed weapons. The officers were due to arrive at Portland at 6 o'clock this morning, but the ship was delayed 16 hours, and therefore the detectives will not be able to hear from them until this evening.

SOCIALISTS WANT CITY TO CO-OPERATE

Petition Filed With City Recorder Moreton Seeks to Prevent Crimes.

INCENTIVE LIES IN HUNGER.

Communication Points Out That Unemployed Are Driven to Dishonesty Through Forced Idleness.

The Socialists of the city are asking the city council to provide some sort of public employment for persons out of work in an effort to prevent crime. The organization points out in a letter filed with City Recorder Moreton today to be presented to the council tonight that conditions are such that it is unsafe for persons to be abroad at night. The letter intimates that the fact that men are out of employment leads them to resort to dishonest means to obtain something to eat and wear.

The letter received by Mr. Moreton is as follows: "Conscious of the fact that lack of employment has befallen a great many of the citizens of our city; that want and suffering in our midst; crimes of dangerous character are being committed; and that the safety of the people is jeopardized upon the streets after dark."

"We, the Socialists of Salt Lake City, desire to present to your honorable body the above stated condition, and beg leave to ask you for action to ameliorate the condition and safeguard the citizens, and to that end would suggest:

"That a relief commission be named by your honorable body of public spirited and benevolent citizens, to take in hand the relief of the unemployed, and also prevent the incentive to crime that hungry human beings may perpetrate under the stress of suffering."

"Hoping that your honorable body will take immediate action in this matter, we remain,

"YOUR FELLOW CITIZENS,"

"Of Salt Lake City."

"Passed at a regular meeting of the Socialist organization, Jan. 8, 1908."

"GEORGE A. PETERSON, Chairman."

"MAUD MANS, Secretary."

This letter will be read before the council tonight and the action determined upon at that time.

THAT DARMER BURGLARY

Organ of the Crooks Takes a Fit Over Story Printed in the "News."

It seems that Chief of Police Pitt and Chairman J. E. Darmer of the "American" party have seen fit to deny the item published in last Saturday's evening "News" concerning the burglary which was reported to have occurred at Mr. Darmer's residence. The story, as published by the "News" comes from one who claimed, and still claims, to be thoroughly cognizant of the facts. He said this morning:

"This talk about no burglary, robbery, housebreaking or whatever you want to call it having been committed is all nonsense. It happened one week ago last Tuesday, (Jan. 7), and Mr. Darmer reported it to the police."

"A neighbor saw the man under suspicion leave the place. He was described as being about 5 feet 9 inches in height, weighed about 160 pounds, had 'red' hair and wore a black suit and black shoes. Mr. Darmer reported the case to the police, and later gave the facts to someone else. He also furnished a list of the stolen articles."

"I saw the list and noted the 'peculiar' handwriting of Mr. Darmer's. There was one article I forgot to mention; a pair of opera glasses. If the things were not stolen from the Darmer residence, then it is up to Mr. Darmer to explain them. He certainly reported it and furnished the list of the articles stolen."

"WHITE SLAVE" TRAFFIC.

A. T. Day Found Guilty at Helena of Importing Women.

T. J. Longley, immigration inspector who went up to Helena to testify in the cases of A. T. Day and Jean Blanc, charged with importation of women for immoral purposes, has returned. Day was found guilty and Blanc's case was in the hands of a jury when Mr. Longley left. The punishment prescribed for white slave traffic is imprisonment for not less than one year and not more than five and a fine of from \$1,000 to \$5,000. It was Mr. Longley of the local office who captured Blanc, a fugitive from justice in Nevada and obtained information which led to other developments. The government is waging a relentless war against white slave traffic and the Utah penitentiary holds several men serving from 15 months to three years for deeds of that nature.

POSTMASTER FOR LARK, UTAH.

(Special to the "News.") Washington, D. C., Jan. 13.—Annie L. Crawford was appointed postmaster at Lark, Salt Lake county, Utah, vice A. C. Green, resigned.

A VICTIM OF HAZING.

Louisville, Ky., Jan. 12.—Edward Keiser, who died yesterday at San Antonio was the son of a prosperous Louisville merchant. The hazing which is alleged to have brought on the fatal illness occurred at Rose Polytechnic institute, Terre Haute, Ind., in the autumn of 1906. Keiser at the time had been a member of the freshman class at the institute about a month. His room was entered by upper classmen who blindfolded him, led him to a cemetery and tied him securely to a tombstone. He remained in that position from midnight until morning. A truck of liquor from which he was seized into the clutches of tuberculosis followed. He did not tell his parents of the hazing until some time after he had been brought home. Doctors declared that the exposure and shock had superinduced his illness.

KANSAS CITY HAS A BIG FIRE

Union Station Annex in Union Avenue, Adjoining Great Union Railway Station, Destroyed.

LOSS QUARTER OF A MILLION.

Contained Receiving Offices of Adams, Wells, Fargo and Pacific Express Co.'s and P. O. Mailing Room.

Kansas City, Mo., Jan. 12.—The Union station annex, in Union avenue, adjoining the Union railway station, was destroyed by fire early today. The Union station proper, one of Kansas City's landmarks, was saved by the firemen after a hard fight. The burned building contained the receiving offices of the Adams, Wells Fargo & Pacific Express companies, a branch mailing room of the postoffice, the offices of the Fred Harvey Eating House company, the Pullman Palace Car company linen room and the Railwaymen's Y. M. C. A. rooms. The loss is estimated at close to a quarter of a million dollars.

The building was two stories in height and 180 feet in length, running from Santa Fe street east along Union avenue to within 100 feet of the main portion of the station. The fire started at 4 o'clock from crossed electric light wires of the mailing room. The fire burned furiously and for a time threatened the destruction of the station and sheds, used by 20 different railways and to spread to several hotels across Union avenue and into the wholesale district. The fire spread with such rapidity that the firemen were unable to save but 200 sacks of common mail and a small portion of express matter. Thirty-five sacks of registered and other mail matter were destroyed together with a great number of express packages, a large supply of linen in the Pullman rooms, the entire contents of the Fred Harvey offices, which was the headquarters for that company's system and the library, furnishings and apparatus of the Y. M. C. A. rooms were destroyed.

The Y. M. C. A. quarters had been partially furnished by Miss Gould. The building and heating plant were owned by the Union Station company, whose loss is placed at \$100,000. The Fred Harvey company's loss is \$50,000. It is difficult to accurately estimate the loss of express companies, the government, the Pullman company and the Christian association, which, however, will, it is believed, bring the total up to \$250,000.

HIGHWAYMAN CAPTURED.

Santa Monica, Cal., Jan. 12.—A would-be highwayman was last night overpowered and captured by a patrol of the Los Angeles-Pacific Railway company. The highwayman, a chauffeur, was identified as Fernand Dutilleul, formerly of Stanton, Pa. He says that he was with a party of about twenty, and was driven to robbery.

KANSAS WOMEN WANT EQUAL SUFFRAGE.

Topeka, Kas., Jan. 12.—A delegation of 50 prominent Kansas city women called on Gov. Hoch today asking him to include in his message to the legislature, which convenes Thursday, a recommendation for equal suffrage for women in all elections in Kansas. "The governor gave the women a most encouraging reply. He told them that he had but four bills in mind when he called the special session and his message was prepared along these lines and would be in the printer's hands tonight."

HOSPITAL SHIP RELIEF.

Dr. Charles Francis Stokes Arrives in San Francisco to Take Charge.

San Francisco, Jan. 12.—Dr. Charles Francis Stokes, the United States navy surgeon who appointment by President Roosevelt to the command of the hospital ship Relief, has arrived in San Francisco. He is accompanied by his wife and two children. Dr. Stokes has come from San Juan, Porto Rico, to take command of the Relief, which is now being overhauled and outfitted at the Mare Island navy yard, preparatory to actual service with the great fleet, which she may join at Magdalena bay in April.

MME. TETRAZZINI.

Every Seat for First Five of Her Appearances Has Been Sold.

New York, Jan. 12.—Every seat for the first five of Mme. Tetrazzini's 15 appearances at the Manhattan Opera House has been sold, the receipts for those performances being \$57,500. Oscar Hammerstein is quoted as saying that he has a rush for seats he is convinced that were the capacity of the house three times what it is, and had the prices been trebled every seat would be gone. Mme. Tetrazzini will be heard in "Traviata," "Gilda in 'Rigoletto,' Lucia in 'Lucia di Lammermoor' and Rosina in 'The Barber of Seville.' Her first appearance in New York will be on Wednesday night in "Traviata."

BOOMING THE ARMY CANTEEN.

New York, Jan. 12.—The governing board of the Army Canteen association, an association of men who hope to induce Congress to repeal the law which prohibits the sale of beer and light wines at army posts and soldiers' homes, is taking active steps to organize branches of the association in every state in the Union that a united pressure may be brought to bear on Congress to repeal the law. The association is being practically every officer in the army. Gen. George B. Loud, a prominent member of the Grand Army of the Republic, is president of the association. Maj. Gen. Frederick D. Grant and many other prominent army officers are giving the movement their hearty support.

DRUNK WOOD ALCOHOL.

Vallejo, Cal., Jan. 12.—James G. Hayes and Harry Wilson, marines who were attached to the cruiser St. Louis, at present stationed at Mare Island, in San Francisco bay, were found in the custody of drunken and blacksmith respectively, died in the Sick Bay of the cruiser early this morning, from the effect of having taken a concoction of wood alcohol.

TAFT PLEDGES THE GOVERNMENT

So Far as He Can, to Withdraw Completely from Cuba Beginning in Spring of 1909.

GOOD FAITH REQUIRES THIS.

Important Interests in Island Would be Glad to Delay American Departure for Years.

Gov. Magoon in Report Gives an Exhaustive History of American Intervention.

Washington, Jan. 12.—As far as he can, Secy. Taft has committed the government to a promise to withdraw completely from Cuba in the beginning of spring in 1909. This pledge is contained in a letter from Secy. of War Taft to the president, transmitting the report of Gov. Magoon for the past year.

After directing that the report from the government shows the conditions in Cuba to be encouraging, Secy. Taft says: "It was hoped by some that the census might be completed in September last. I did not think so, and I am not at all surprised to learn that the census has not yet been completed and probably will not be until April or May. This will postpone the local elections until June, the presidential election until December and the installation of the president and congress and the turning over the island until about March or April of 1909. This is in compliance with our promise when we assume temporary control of Cuba, and it seems to me that we ought to allow nothing to interfere with carrying out that promise. There are important interests that would be glad to delay our stay there for years, but both good faith and good judgment require us to leave at the time appointed."

The report of Gov. Magoon constitutes an exhaustive history of the American intervention in Cuba and of the passage of the island under American control.

NATIONAL WOOL GROWERS' ASS'N

Helena, Mont., Jan. 12.—Delegates to the forty-fourth annual convention of the National Woolgrowers' association, which opens here tomorrow morning, are arriving in the city, and it is estimated that more than 2,500 members will be present when the session is opened Tuesday morning by Dr. J. M. Wilson of Douglas, Wyo., western vice president, who will preside in the absence of Senator F. E. Warren, president.

Telegrams received here last night said that the Wyoming delegation of 200 members, accompanied by Gov. Bryant B. Brooks, is on its way from Laramie on a special train. These members are bringing with them a carload of sheep, including the champion of the world, which will be a feature of the midwinter sheep show to be given during the convention.

Local officers have also been notified that large delegations are coming from Denver and from Salt Lake, each of which cities will contest for the next convention in January, 1909.

During the day, many members will be seen in the city, and it is estimated that the line and staff officers of the navy, arrived from the east last night. Dr. Stokes has come from San Juan, Porto Rico, to take command of the Relief, which is now being overhauled and outfitted at the Mare Island navy yard, preparatory to actual service with the great fleet, which she may join at Magdalena bay in April.

Following the appointment of committees at the afternoon session, Dr. Wilson will give his annual address, and "The Open Range" will be discussed by Gov. Brooks of Wyoming, A. Payne of "The Attitude of the General Government Toward the West," by Senator Thomas Carter of Montana will be read at the Wednesday morning session. It is not yet known what the interior will be present at this session. A feature of Thursday's meeting will be the address on "Federal Co-operation with the States in the Control and Eradication of Contagious Diseases," by Dr. R. A. Ramsey of the federal bureau of animal industry. The convention is expected to adjourn Thursday evening.

FOUR MEN AND ONE WOMAN COMMIT SUICIDE

Boston, Jan. 12.—A number of cases of suicide were reported in Massachusetts tonight, following a day marked by stormy and depressing weather conditions. Five persons, including four men and one woman, took their own lives. A sixth death was caused either by accident or violence.

In Lynn, Charles A. Payson, a shoemaker, was found dead from gas inhalation in his home. Despondency over ill health is given as the cause. William F. Hayden, of Whitman, 80 years old, was found in his bath tub with his throat cut. He had been suffering from melancholia.

Joseph H. Crulchanks, of Holyoke, committed suicide by shooting in a fit of despondency over ill health, and Richard S. Lewis killed himself with a revolver bullet for the same reason, in Fall River.

A widow aged 24, killed herself in Westboro following an interview with a young man to whom she was engaged. Mrs. Parker came from Beloit, Wis.

The body of Nestor Monk was found in the yard in Pittsburgh tonight. A scalp wound was discovered at the back of his head, but it could not be determined tonight whether this was caused by a fall or a blow.

JAPANESE ARE LOWEST BIDDERS

For the Contract for Construction of Fortifications for the Defense of Hawaii.

AND THEY MAY SECURE IT.

Work Cannot be Concealed—War Dept. Officials See No Reason for Drawing Line on Race.

Washington, Jan. 12.—The war department has not been informed as yet of the reported withholding of the contract for the construction of the fortifications in Hawaii for the alleged reason that Japanese were really the lowest bidders.

Investigation here shows that only a limited amount of foundation work is now in progress there and the officials see no reason why any line should be drawn on account of the nationality of those who are to do the work, the nature of which cannot be concealed, so that they would hesitate before they rejected the lowest bid on that account.

The principal work now on hand in Hawaii consists in the construction of two sets of mortar batteries for which Congress has specifically appropriated \$300,000. One of these batteries is located at Diamond Head, the great promontory commanding the entrance to the harbor at Honolulu, and the other on the point at the entrance to Pearl harbor.

In addition to these large works there are many other projects now in progress and along the water front of Honolulu. This year's estimates contemplate the expenditure of \$1,110,000 to perfect the fortifications of the island, and it is said an impregnable naval base can be situated on the island of Oahu. A breakwater is under construction in Hilo bay, on the island of Hawaii, but this is not complete. Honolulu and Pearl harbor are the only harbors which now could be used by naval vessels.

SLICK YOUNG MEN BEAT BOOK MAKERS.

Chicago, Jan. 12.—Five gentlemen, who have just published five "thin" handbooks out of business and are now being eagerly sought for by the proprietors of the books, although the police have not been asked to join in the search.

A few days ago the five bookmakers noticed that each had a new customer. The young men played the New Orleans races for several days with varying success.

They always made their bets a few minutes before the result of the race they were playing was received over the telephone. This attracted little attention, as the bets were generally lost. Then came the coup. One of the young men went to a drug store in the neighborhood and leased a long distance telephone with the New Orleans race track for the entire afternoon.

He obtained the winners of four races before he could be telephoned. This attracted the attention of the police, and each one of his friends would rush out and place bets. After winning \$2,000, the young men quietly disappeared.

GLADYS VANDERBILT AND HER BRIDESMAIDS

New York, Jan. 12.—It is announced that Miss Gladys Vanderbilt, when she marries Count Laszlo Szechenyi will be assisted by two bridesmaids, Miss Ruth Vanderbilt Twombly and Miss Ruth Vanderbilt, daughter of William Whitney, and brother of Harry Payne Whitney, who married Miss Gertrude Vanderbilt, sister of Miss Gladys. Miss Flora Whitney, the little daughter of Mr. and Mrs. Harry Payne Whitney, will act as flower girl. Details of the costumes of the attendants have not yet been decided upon.

RAISUL JOINS MULAI.

Paris, Jan. 12.—A special dispatch to the Matin from Tangier says that Raisul, the bandit, has joined Mulai Hadid and that he will be the chief of the band. A dispatch from Rabat to the Matin states that Abdel Aziz's court is terror-stricken by the activities of Mulai Hadid and his band.

The Matin understands that recent conferences between Premier Clemenceau and the French representatives at Beirut and at Tangier make it practically certain that it will be absolutely unnecessary to modify the French policy in Morocco.

JUDGE DUNNE REFUSES TO ADMIT SCHMITZ TO BAIL

San Francisco, Jan. 12.—Superior Judge Frank H. Dunne this morning refused to admit to bail former Mayor Eugene E. Schmitz, whose conviction upon the charge of extortion was reversed last Wednesday by the appellate court which declared that he was illegally convicted. Pending the coming down of the remittitur from the higher court, whose decision does not become final until after the expiration of 30 days, Judge Dunne held that the position of Schmitz was the same as that of a convict, and that he could not take cognizance of the reversal. Speaking to the Associated Press, F. C. Drew, Campbell, Nelson & Drew, counsel for the former mayor, said:

"Of course we expected this denial of our motion that Mr. Schmitz be admitted to bail as a matter of right and justice, but we want to have the decision upon it. This step was merely preliminary and formal. Just what other action we will take, I am not prepared today to say."

Mr. Drew, however, stated that other methods were contemplated to have Schmitz admitted to bail.

AGED COUPLE PASS PEACEFULLY AWAY.

Providence, R. I., Jan. 12.—After having passed the greater part of their lives quietly and uneventfully in an old farmhouse here, Jonathan King and his wife, Abby, died tonight together. The wife passed away at 8:40 o'clock, and a few minutes later the husband died. In both cases death was due to old age. Mr. King was 84 years old and his wife 85.

MEATS ARE SELLING AT LOWER PRICES

Cost Heretofore Has Never Broken to Consumers in Eighteen Years.

OTHER INDUSTRIAL FIELDS.

Dr. John A. Whitsoe Declares Utah, Considering Its Age, Is Too Backward in Manufacturing.

Meat prices today are cheaper in Salt Lake than ever before in 18 years, at least at one leading market. In this retrograde movement in trade, there is not a solid front in any field of business, and now meat prices are breaking at the various shops one by one just as lumber did, and again as coal did.

Here is the way meat prices range today, compared with the figures at which they sold a month ago, the figures for today being taken from one leading store which has decided on wholesale shelves in prices as the feature of trading under the new conditions:

	Normal Price.	Price.	Today.
Mutton chops20	15	10
Mutton roasts12 1/2	10	12
Porterhouse steak12	10	12
Steak12 1/2	10	12
Rump steak12 1/2	10	12
Shoulder cuts10	8	10
Lamb chops10	8	10

The man who is making the cuts, is one of the oldest grocers and butchers in Salt Lake. He declares that the rent man, and not the grocer, has made profits under old conditions, and that he can show his ledgers to anyone wishing to inquire, which prove that in real value he paid out 100 per cent more money than the profits amounted to on a business totaling \$126,000.

HOW ABOUT GROCERIES.

The break in groceries has not yet occurred. An inquiry from one grocer today, who is featuring butter at two cents a pound, and meat at only 2 1/2 cents per pound, brought out the declaration that groceries and provisions in general could not drop, since a combination among local jobbers refused to sell at a price lower than a certain price, and the retail margin was such that it couldn't be lowered without disaster.

"The wholesaler from whom I buy," he said, "is just in a bit of a bind. If he couldn't do something better than he had been doing on Diamond C soap, he said he would like to, but he was signed up with all the others to sell at a certain price, and he couldn't let me have the goods any cheaper. I believe that the price on 80 per cent of the things on my shelves is fixed by the same rule," he concluded.

DENVER COAL.

"Why pay \$5 a ton for coal?" is the slogan of a Denver party, which to fight the trust has bought a mine, developed it, and is marketing its product in the city for \$3.95 per ton for lump, \$3.75 for nut, and \$1.90 for slack.

The manufacturing interests of Denver, backed by all civic organizations have been in a fight for some time to get cheap slack for manufacturing purposes, so that Denver may become a great manufacturing center, and thus be prosperous whether mines are successful or not. They have succeeded in getting "manufacturing slack" on the market at \$1.40 per ton, but it is rated as poor in quality. A better grade sells at \$1.90. In Salt Lake the M. and M. movement to force the coal companies to refuse to stand up on account of the impossibility of getting fuel cheap enough to give promise of success.

LOCAL COMMITTEE.

A committee consisting of Mr. Bruff, Mr. McMiller, and Mr. Haddock, of the board of directors has been appointed to take the matter up directly with Mr. Derrah of the Rio Grande road, and file with him a statement of the necessary facts for the manufacture of slack, and the good that such a commodity would do in the making of a greater S. Lake.

DR. WIDTSOE'S VIEW.

From Dr. John A. Whitsoe, head of the Agricultural college at Logan, has come a very encouraging report to the M. and M., urging the necessity of developing more manufacturing in Utah.

"I am heartily in sympathy with the movement to force Utah institutions first and those of other states later. Personally I make it a point as far as possible to buy Utah made goods, and am patronizing institutions that operate primarily for the benefit of citizens of the state. If we could all get together on this matter and make Utah made goods our first choice it would certainly result in a very short time in the establishment of a number of industries in this state. Considering the age of Utah, there is hardly enough of the manufacturing spirit among us."

SELECT NEW SECRETARY.

Butchers and Grocers' Directors to Fill Vacancy Tonight.

A meeting of the Butchers and Grocers' association directors will be held this evening to select a new secretary. Lorenzo Jensen, who filled the position prior to the assembling of the general grand jury, has since that time been only nominally secretary.

The office work of the association, which is said to be largely collecting "dead beat" accounts, is now carried on by a woman assistant, and a number of propositions have been received by the butchers and grocers for the future carrying on of this department. A firm of lawyers has made a proposition to attend to collections, and a collection agency here has offered to take the work over in bulk.

RABBI FELSETHAL DEAD.

Recognized as One of the World's Greatest Hebrew Scholars.

Chicago, Jan. 12.—Rabbi Bernhard Felsethal, said to be the oldest Jewish theologian in the United States, and recognized as one of the world's greatest Hebrew scholars, died last night after 10 days of illness.

Dr. Felsethal was widely known as the founder of the "reform" movement among Chicago Jews and as a leader of the "reformed Judaism," known abroad as the "Americanized synagogue." He was 58 years old and had been a resident of Chicago since 1884, when he came here from Germany. He retired from active work several years ago.

PREMEDITATED COWARDLY MURDER

Asst. Dist. Atty. Garvan Tells Thaw Jury Killing of White Will be so Explained.

DEFENDANT'S WIFE PRESENT.

Listened to Discussion of Details Of Tragedy on Roof Garden With Dramatic Features.
