Stockholders Took No Action in The Election of Fifteen Directors,

## OFFICIALS LEAVE FOR OMAHA

First Visited Depot Site and Went Over Plans --- Will be Sixty Days Before Bids Are Submitted.

The annual meeting of stockholders of the Oregon Short Line Railroad company was very brief this morning. The meeting was simply called to order in the board room in the Deseret News building and then adjourned until December 5, at which date the adjourned meeting of the Union Pacific yesterday afternoon will take place.

The meeting was called at 10 o'clock for the purpose of electing 15 directors. but, as was the case last year, the stockholders apparently, were not ready to aunounce their selection. It is re-garded as a safe proposition, however, that James Hazen Hyde, formerly of the Equitable Life Assurance company and storm center of the recent insur-ance scandals, will not be re-elected on the directorate and that he will receive the same fate as he did at the Union Pacific meeting here yesterday afternoon.

#### OFFICIALS LEAVE.

Following the meeting Vice Fresident W. H. Bancroft, Oregon Short Line offi-cials together with Julius Kruttschnitt and the Harriman hosts of general managers, chief engineers and super-intendents of motive power and machin-ery pulled out for Ogden in their pri-vate cars on a special train. Most of the officials will continue on their way east to Omaha.

#### NEW DEPOT.

Before leaving Mr. Kruttschnitt stat-ed that he had inspected the proposed depot site and examined the plans and specifications of the big alterations scheduled for Sait Lake at an early decided upon. It is understood that the various plans are yet to be gone over and the best selected after which the contracts will be let. It is anticipated that it will be 60 days before the mat-ter is finally settled. The plans favorably considered con-sist of a handsome structure of the Spanish mission style order with a clock tower in the canter. It consists of a double story edifice with a sweeping red tile roof and gates, train sheds and all the modern accessories of an up-to-date terminal at the rear. Before leaving Mr. Kruttschnitt stat-
