

## LABOR DELEGATE GOT TOO IMPUDENT

Speaker Cannon Ordered H. J. Schulteis from His Room, With Injunction Not to Return.

## TRIED TO BOSS APPOINTMENTS.

Undertook to Say Who Should be Made Chairman of Committee on Labor.

Washington, Dec. 4.—Speaker Cannon, resenting what he deemed an insult from John Herman J. Schulteis, chairman of the national executive committee of the Knights of Labor, summarily ordered Mr. Schulteis from the speaker's room at the Capitol today, with the parting injunction to the labor leader never to darken his door again.

Mr. Schulteis made his first call upon the speaker several days ago with the demand that Representative Livernash of San Francisco be made chairman of the committee on labor, and that Representative Wynn of the same city be made a member of that committee. As both these men are members of the minority, Mr. Cannon explained to Mr. Schulteis that their assignments would depend on the recommendation of Representative Williams, the minority floor leader, but it would be impossible to make Mr. Livernash chairman of the committee, as the chairmanships would go to the majority.

When Mr. Schulteis appeared before the speaker today he announced in what was taken by the official to be an offensive manner, that the labor committee had been "packed." He renewed his demand that Mr. Livernash be assigned to that committee, announcing that he had defeated Mr. Cannon for election to the Fifty-second Congress, and that unless his request in this instance was accorded he was going into the speaker's district in the next campaign. Mr. Schulteis did not have time to finish telling the speaker what he would do to him, as Mr. Cannon at this point gave his peremptory order for the man's ejection from the room, stating as he did so that there was no chance of the committee's "being packed" by Mr. Schulteis. Just as Mr. Schulteis went out Sidney Eben, the fire marshal for the District of Columbia, entered bearing a miniature brass cannon. As he placed the cannon on the speaker's desk, he remarked: "Mr. Speaker, it sometimes takes a little cannon to protect a big cannon."

Representative Livernash tonight denied that Mr. Schulteis had orders from him to make any request for committee assignments. Mr. Livernash said he had no knowledge whatever of the incident, nor of Schulteis, nor being acquainted with the latter, so far as he could recall.

## Citizens' Industrial Association.

Dayton, O., Dec. 4.—At a meeting today of the executive committee of the recently organized Citizens' Industrial Association of America, which includes in its basic principles an open shop, no sympathetic strikes, no restriction in the number of apprentices or amount of output, enforcement of the law and strong objection to the walking delegate, a resolution was adopted asking Congress not to endorse the eight-hour bill when that document comes up for action.

Another resolution requests all employers' associations throughout the country to affiliate with the national body. The determined stand to be taken by the association is indicated in the passing of a resolution instructing all members of the association to place the union label on any of their output. It is proposed to establish a labor information bureau where will be kept a tabulated record of all lawbreakers and undesirable workmen. The present boycott methods of union were bitterly denounced.

From the palace the chest containing the treaty was carried by two policemen to the consulate general, where it will be kept until shipped to the United States.

The municipal council of Panama and several other municipalities have passed resolutions endorsing the ratification of the treaty by the junta. It is expected similar endorsements will soon be given by the remaining municipalities of the republic.

They had been shot in conflicts over claims. It is reported several other men have been shot. No names are given. A mining expert who was sent to Apache canyon to investigate returned today. He reports that the field is very rich, but limited in extent. There are now 2,500 men on the ground and more arriving daily.

## CONFERENCE AT THE WHITE HOUSE.

Senator Hanna Had One With President and That Was Very Satisfactory.

## THEIR RELATIONS ARE CORDIAL.

Discussed Pending Legislation, Panama Canal and Other Things Not Mentioned.

Washington, Dec. 4.—An important conference was held at the White House tonight between the president and Senator Hanna. It occurred on the initiative of Mr. Hanna and to both participants the conference was perfectly satisfactory. Senator Hanna arrived at 9:30 and remained with the president until 11 o'clock, at the conclusion of which it can be said there was marked evidence of sincere friendship on both sides. Neither the president nor Senator Hanna cared to discuss for publication the details. It was stated that the meeting had no difference in any personal respect from others that they have had in the past and which they will have in the future. It was announced that reports recently circulated that there had been or was likely to be unpleasant relations between the president and the senator amounted to an absurdity. The president himself wants it to be understood that he will not take occasion to dignify any of them with attention. It may be said that the relations between the two are cordial and appreciative friendship.

The conference tonight took a wide range. It dealt principally with pending and prospective legislation before Congress, particularly with that relating to the isthmian canal and with general present conditions. Before and since he became chairman of the inter-oceanic committee of the senate Mr. Hanna has manifested deep interest in all questions relating to that waterway. He took tonight to discuss the present situation, especially its diplomatic phases, very fully with the president. The argument on the subject was absolute. Both, it can be said, are confident the position taken by the administration will be approved by the American people.

The contested confirmation of General Leonard Wood was not considered, though an accidental reference to it was made. It is known that the president and Senator Hanna differ on that subject but each fully recognizes that the difference is honest and sincere, and it is believed by friends of both that it cannot possibly interrupt their relations.

Likewise it can be said no discussion took place concerning the changes of the Republican national committee. President Roosevelt has expressed to Mr. Hanna his desire that he shall retain the chairmanship. The senator has not announced his feeling regarding the matter. It may be said that the state of Mr. Hanna's health is involved in the decision, and, indeed, will be the controlling factor in it.

After Senator Hanna left the White House he was besieged by newspaper men who desired to learn the result of the conference. He declined to make any statement, insisting that it was merely a friendly talk over matters of mutual interest and was of no public significance or importance. "I spent a very pleasant evening," he admitted, finally.

"This is about all there is to it. You can say, however, that all stories about wide differences between the president and myself are absurd. I have no statement to make."
