

LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous communications. Correspondents' names must be given in full, and accompanied by their communications, not necessarily for publication, but as a guarantee of reliability.

AS BUSINESS of every kind will be suspended to-morrow throughout the community, and the day be devoted to the obsequies of President Heber C. Kimball, there will be no issue of the NEWS until Thursday. We feel that this tribute of respect is due to so great and so faithful a man.

IMMIGRANT VESSELS.—By telegram from Gen. H. B. Clawson to President Young, received yesterday, with which we have been favored, we learn that two vessels will start from Liver pool on the last of this month, one with five hundred and the other with seven hundred passengers.

IN OUR haste yesterday in getting to press we forgot to state the reason of our not writing a special of the late President Heber C. Kimball's funeral. Our space would not permit to do the subject justice. His life and labors have been so interwoven with the history of the church that a newspaper article is utterly inadequate to it. The materials are all on hand, and will doubtless be used in due time.

LETTERS for J. T. Sandberg and Alexander or Walter Glen, at Pres. B. Young's office.

THEATRE.—As a tribute of respect to the memory of our beloved Brother, President Heber C. Kimball, the Theatre will be closed until after his obsequies.

CLAWSON & CAINE.

Monday June 22, 1908.
FIRE.—This morning about half-past ten o'clock, a spark from the smoke stack of the engine driving the machinery of Latimer & Taylor's Saw, Frame, Door and Planing Factory, in the 8th Ward, was carried from the north end of the building, and ignited some inflammable substance. Mr. Taylor sought with a bucket of water to extinguish the fire at its inception, but in five minutes from its commencement the flames had spread the entire length of the building, 70 feet. The family of the engineer, residing in one part of the building, were with great difficulty saved by him, he having to break open the windows and get them clear of the flames in that way; but everything belonging to the family was destroyed. The tools of the workmen and all the tools in the factory, with the exception of two boxes, were saved, were also destroyed. The building, with the machinery and everything in it, was a burning mass of ruins in an incredibly short time, about fifteen minutes sufficing to make the whole a total wreck.

THIS fire is a heavy blow on Latimer & Taylor, who are hard-working, industrious, energetic men. The planing machine and other machinery in the building were valuable, and were destroyed as well as the entire building, some 5,000 lights of sashes, between 60 and 70 four panel doors, and a large quantity of lumber placed with them for planing. The loss is estimated as somewhere in the neighborhood of \$12,000. No insurance.

FROM THE MUDDY.—We had a call to-day from Elder Joseph N. Felt, just up from St. Thomas on the Muddy, which place he left two weeks ago last Sunday. Harvesting had commenced there on the 12th of May, and is finishing before this time. Those who have been there two or three years had a good stand of wheat, but the crops of those who went last Fall, and broke up new ground, were thin. The mineral in the soil has to be contended with, but they hope to overcome it as it has been overcome at St. George. The general health of the people at St. Thomas is good, though there have been some cases of sickness among children. The brethren as a general thing, seem to be well satisfied and are trying to do the best they can. There are about fifteen young men belonging to this city in that settlement, and all are building or improving, or preparing to build. They have tolerably good materials for adobles, though they have to mix the sand from the bench with the clay. There is very good stone for foundations, volcanic and sand stone, and good brick clay. But timber for roofs has to be hauled some 60 miles, though there is a mountain within about twenty-five or thirty miles of St. Thomas where it is believed the requisite timber can be found, as soon as they have time to explore it. This is the only mountain near them on which there is snow. Lumber is scarce and dear.

AT St. Joseph, almost every man appeared to have cut between two and three tons of hay, which is assurance of their having good grazing facilities. The weather has been cooler there this year than it has been known to be since that region was settled; indeed it has been a little too cold for cotton, which is not so good as it would have been with warmer weather. The first grasshoppers which bro. Felt saw were on the other side of Beaver, but they were quite small. That was a week ago. The first he saw sufficiently developed to fly were at Broken Creek, where they had done considerable damage. At Cove Creek the people had been busy fighting crickets for some time.

THEATRICAL.—There will be performance at the Theatre on Thursday evening, the Management, in view of the melancholy circumstance which has been the subject of public thought for the past few days, postponing the usual performance. "Under the Gaslight" with its many attractions, will be presented. There will be a Matinee of "Under the Gaslight" on Friday, for children and families, which will give people from a distance an opportunity to attend.

DISPATCH.—We had a call this afternoon from Bishop Peter Maughan, who left Cache Valley yesterday afternoon, in company with Pres. E. T. Benson, to attend the obsequies of Pres. Kimball. Bro. Benson has not yet arrived, but will be in to-morrow morning, with Bishop Hodge.

EXTRA COPIES of yesterday's issue of the NEWS for sale at this office.

ARRIVALS AND DEPARTURES BY STAGE.

From the East.—S. P. Tensell, Ernest Ashcroft, Mrs. M. May, W. P. Burnham, Cyrus Wilson.
From the North.—A. F. Reynolds, J. W. Joel, P. Maughan.
To the East.—V. T. Robson, H. W. B. Brimmon, George Aubert, Geo. Vagelmajer, Jno. O'Donoghue, R. B. Stover, Major P. A. Gallia, etc.
To the North.—E. N. Goddard and wife, Geo. Goddard, Mrs. N. J. Fisher and child, Mrs. F. M. Gray.

A GENTLEMAN from that somewhat indefinite locality termed in our vernacular "up the road," reports that a track laying and grading are proceeding at a lively rate. He says that no ordinary walker can keep up with the operations. General Cawson last week laid five miles in one hour, or one day, five miles in one hour, but this is only a report. It is one thing to say it, but quite another to do it.

Special Notices.

Wanted to Exchange, City Property for a Farm. Enquire of J. S. Schorika, City Hall.

WANTED, a few cords of Mountain Mahogany Wood at this office.

WANTED.—One hundred and fifty cords of red pine wood at the Paper Mill.

AGENTS of the DESERET NEWS will please endeavor to collect what they can, and forward at their earliest convenience.

PEOPLE'S EMPORIUM.
