RUN AWAY FROM HOME. Four Fourteen-Year-Old Youngsters Have Been Missing Since Sunday.

p District Court-Licensed to Wed-Volunteer Monument Association -That Cake Walk,

Last Sunday four young boys named Frank Eggleston, Samuel Royle, John De Young and Carl Shurtliff, left their homes on the day above mentioned to go to Sunday school as their parents supposed, but the day passed by and he boys did not come home for any of their meals and night came on and still they were missing. The parents of the lads became somewhat alarmed at their absence and an inquiry and search was made as to their whereabouts, but nothing definite could be learned, and much anxiety was felt by the parents. Monday was spent and Tuesday in enteavoring to get some clue to the chereabouts of the boys, but without vail. For some time the youngsters been somewhat refractory and bedient, and the parents have come to the conclusion that they have run away from home, but where they have ae is a query, as they are only about is years of age, and all had good homes ave in Ogden. One of their playmates ave in Ogden. Une of their playmates SRYS went to Pocatello, but the Shurtliff by's father has a ranch up in Morgan bunty and he thinks they must have tarted out for that place. But the boys ave surely chosen a very bad time of he year to start out from home, and doubt they will get enough experire to learn that there is no place like

IN LEGAL CIRCLES.

In the Second district court Judge liles is hearing the case of George A. raig vs Jonathan Williams. The acon is brought by the plaintiff to retract signed by Williams who purhased the Troy Steam Laundry from he plaintiff and has failed to come up the contract of purchase. Several itnesses have been examined, but here are still a number more to be eard, which may possibly occupy seval days' time,

There are two other cases filed all arising from this one trouble. The other cases are filed by Williams against Craig and his bondsmen. LOOKING UP EVIDENCE.

Yesterday C. L. Haworth, a brother Nick Haworth, the man charged with e murder of Thos. Sandall at Layton was in Ogden all day looking

force, and travels up and down in construction car. Two or three days ago the "gang" came up from Deweyville and stopped at Smithfield, where the man, Christian Jensen, took sick. The people of the town became general-ly alarmed and would not go near the depot, so that the telegraph linemen nearly starved for lack of provisions The railway company was notified, and Logan City quarantine physician, O. S.

vestigate the case. He had the pa-tient removed to a side track on the outskirts of Logan, where the car containing Jensen was completely lated and strict quarantine regulations enforced. The doctor says the case is suspicious, but it has not yet sufficiently developed to determine whether the disease is smallpox or not. Within forty-eight hours, however, it will be known. There is no danger of its spreading from its present location, the doctor gives out, as precautions against it are perfect.

A SAD AFFLICTION.

The 19-year-old daughter of Mr. Felton, of Richmond, who has been very sick for a few days past, has developed symptoms of insanity, and unless a change for the better occurs very soon, will doubtless become insane, according to the attending physician.

Control-No Smallpox. Moroni, Sanpete County, Utah, Jan. 8.-After the intense cold of the latter part of December, with the thermome ter at one time down to twenty-two be-low zero, the first week of the New Year

brought the fine balmy weather of verdant spring, baring the ground in places, but, today we are enjoying an-other fall of the "beautiful." We are still immune from that unwelcome visitor, smallpox, it has not invaded any Sanpete town north of Ephraim, for which we are duly thank-

The holidays brought their usual joy and thanksgiving to the little tots who enjoyed old Santa's visit, to the few poor and needy of mature years, whose hearts were made glad through the labors of those angels of our Relief So-clety, who gathered in large amounts of good things of life for the comfort of the needy.

RETURNED MISSIONARIES.

At least three of our families were made happy by the return of Elders Lewis Swenson, from North Carolina Soren C. Christensen, from Denmark and Olaf Olsen from Canada. They are velcomed by the whole community for the good they have done in their several fields of labor and for that which it is believed they will do here among the

New Orleans, La. DEAR SIRS: I am glad to say that my Rheu-matism is cured, thanks to HUDYAN. I work every day now in all kinds of weather, and don't bave to suffer for it. Am sorry that I did not learn of HUDYAN years ago, for it would have saved me much misery and suffering. I feel that I am permanently cured, and can recommend HUDYAN. H. P. BLOSSOM. HUDYAN cures Rheumatism because it counteracts and expels from the system those acids that accumulate in the blood and that cause the pain and inflammation. These polsonous solds create heart disease sooner or later. HUDYAN prevents that serious complication. If you have pains, aches or inflammation in joints or muscles, by all means take HUDYAN, for HUDYAN will effect a permanent and lasting cure. HUDYAN is for sale by druggists, 50c a pack-

SENSATIONAL CHARGES. The greatest court sensation for a long time was created here today when Geo. T. Bean, as guardian ad litem, of the minor children of Mr. and Mrs. Raleigh Jones, filed a complaint against G. Schröder and Attorney J. $-\mathbf{B}$ Jennings, charging them with defraud

ing said minors in the sum of about \$3,000. The complaint alleges that Mrs. Jones held certain real property of the value of \$4,000 in trust for her minor children; that she went into court and stated that the rents and profits of said land were insufficient to support said children, and asked permission to exchange the same for certain property in Salina,

consisting of a house and lot, a plan-ing mill and mill site. That J. B. Jennings assumed to be guardian ad liten of said minors, when in truth he wa not, and asked that the exchange of property be granted, as the property in Salina was worth as much as or more than the Jones property here; that Mrs. Jones' attorney was Gideon Snyder, a

NO SIGNS SHOWN OF IT YET

But the Natives Tell of the Rebeis' Intentions-Advance of Schwan's Column.

New York, Jan. 10 .- A special to the Herald from Manila says: After a long and tiresome murch from

San Pedro Macate, Gen. Schwan's brigade reached Muntinlupa on Friday evening.

The enemy left a half hour prior to the arrival of the Macabebe scouts. They were then retreating to the south. A cavalry scouting party was sent southward and reported that the insurgents were a short distance off. The insurgents opened fire and the cavalry returned to camp, having had orders not to engage the enemy.

Gen. Schwan, early on the morning of January 6th, divided his command, sending two battalions of the Thirteenth regiment and Forty-sixth regiment with a wagon train along the coast toward Binang. The general himself proceeded along with the Macabebe scouts and Steele's battalion of the Twentieth regiment, Col. Hayes' cavalry and three mountain guns. He took the trail inland toward Binang.

When a short distance from the town the Macabebe scouts and Hayes' fifty cavalry scouts encountered the enemy. The insurgents were soon routed. Two Americans were wounded. The enemy

retreated across the mountain region to Silam. Maj. Nolan's squadron of the Eleventh cavalry went several miles to the westward but failed to develop anything.

San Pedro Tunacan was deserted and three gun carriages found in the cane-field, were evidence that the guns had been recently removed. After our troops had reached the broad rice field near Benan, the enemy were discovered calmly watching the advancing troops. They then occupied a position with the protection of a low stone wall along the creek, a quarter of a mile long. The Macabebe scouts deployed, fol-lowed by Steele's battallon of the Thir-

teenth regiment.

The men were never before under fire, but advanced cheering. The in-surgents retreated to the town. When our troops reached the outskirts they observed the enemy down the road in the plaza. Hayes fifty cavalry scouts charged and were received with only a few shots. The enemy disappeared, but the presence of many amigos indicated that they were resorting to the law partner of Jennings at the time, old tactics. Bullard of the Thirty-ninth entered the town of Raiding three days ago and drove out the insurgents. The latter returned subsequently. A scouting party tonight reports that the enemy is two miles outside of the Silin road. It is believed that the American advance will be hotly contested.

mature cow or horse, then allow one cubic foot of silo capacity for each head of stock, multiplied by the number of days you expect to feed, thus: 10 cows, 150 days, equals 1,500 days; feeding of forty pounds per day, equal to 60,000 pounds, and would require a silo, say, 10 feet square by 20 feet high, which would hold forty tons. A silo 20x20 will hold 160 tons. Never be afraid of building too large a silo; the fault is generally in the other direction. One feed per day of good hay, one feed of forty to fifty pounds of enslage, and one feed of cut dry fodder with a small amount of mill feed, makes an excellent winter

diet for the dairy. It gives the cows the variety which they need, and is strongly recommended by many of our most prominent dairymen. MOKI TEA POSITIVELY CURES SICK

ALL ABOUT ENSILAGE.

A silo is simply an air-tight, water-

tight box in which green, succulent

herbage may be placed and preserved.

It may be square, oblong or round in

form, and it may be made of wood,

brick, cement or earth, the latter being

simply trenches dug in the ground. One

of the most successful we ever saw con-

sisted of two pits 10x18 inside measure-

ment, 24 feet deep, with pieces in the corners made by sawing diagonally a 6-

inch square timber and nailing them

preserved in the silo. Corn has been the

most generally used; but clover, sor-

ghum, millet and cow-peas are also ex-

the variety which matures best in your locality. Plenty of ears, well de-

veloped, should be the first considera-

should be done as if for sowing for the best crop of field corn. It should be cut when the stalks are fully matured, be-

ing then full of saccharine matter and

consequently containing the greatest amount of nutriment. This stage is in.

dicated by full blossoming. If the harvesting is delayed until the

leaves fade or turn yellow the air will

have entered the cells and started fer-mentation, and when cut in this con-

dition, the ensilage will invariably be-

come sour. The corn cutter is the best

machine for cutting the corn fodder in the field previous to enslaging it. The finer it is cut the better it will keep in

the silo, one-half inch lengths are best. This allows it to pack better and ex-clude the air more thoroughly, and it is

on this latter point that success with

insilage depends. There are several

Crops intended for ensilage should be cut and packed into the silo quickly

after gathering, as any wilting or ex-

posure to sun or air is apt to produce fermentation. The filling of the silo must be done carefully in order to ex-

clude the air as much as posisble and to

distribute the fodder evenly in the silo.
