# DISCUSSION ON ALLISON'S BILL.

Senate Considers Measure for Burial of Indigent Soldiers.

AMENDMENTS ARE MADE.

The Limit for Burial Expense is Increased from \$50 to \$70-Unlicensed Bogs May be Killed by Any One.

The senators yesterday afternoon deyoted most of their time to the consideration of Senate bill No. 2, the measure providing for the burial of indigent soldiers and sallors.

The committee on military affairs in its report recommended the passage of the bill. The report was adopted, and when the bill came up for its second reading it was considerably altered before it was passed to its final reading. Senator Murdock thought that \$50, the amount that was fixed as the limit of expense, was not adequate, and moved that the limit be made \$70 for the expense of burial. The motion carried. Likewise another motion made by Murdock increasing the allowance for the purchase of headstones for graves of soldiers, from \$20 to \$30,

Senator Allison made an amendment providing that if the indigent soldier or sollor should have a father, brother or son able to pay the expense of burial, but refused to do so, the county should have a claim against the relative.

Senator Howell thought that would be wrong, as it would reduce the soldier to the plain of a pauper, when the ob-ect of the bill was to manifest a recognition of service to the country in time of war. Allison took the stand that if a father who was able was mean enough not to offer to pay the funeral expenses of his soldier son, he should be made to do so. The amendment will be onsidered further at the next reading f the bill

Senator Smoot presented Senate peti-tion No. 7 from 211 citizens of Provo-bench remonstrating against compulory vaccination. Senator Howell also presented a petition from the citizens of Logan in mass meeting, praying re-lief from compulsory vaccination.

#### Hilda and Halvor Each Trusting for a Favorable Decision.

The trial of the divorce suit of Hilda Hope vs Halvor Hope occupied Judge Hall's attention today. The action was filed last December, stating the parties vere married in this city in July, 1899. The grounds alleged in plaintiff's com-plaint are cruelty and harsh treatment,

Defendant denies that he was cruel o his wife, and then asserts that Mrs. Hope was married prior to her alleged marriage to him, to one Peter Mozan and therefore defendant claims plaintiff was never his wife. The trial was concluded about 11 a.m., whereupon his honor took the case under advisement, and will announce his decision later,

# IN THE HOUSE

Compulsory Vaccination Bill.

Proposition to Pass the Measure Immediately Was Resisted and Finally Went Over Until This Afternoon.

The preliminary skirmish on the Mc-Millan anti-compulsory vaccination bill took place in the House late yesterday afternoon. The real fight will, it is expected, be on late this afternoon, when the bill comes up in the regular order of business for its third reading, and the question is put to the House wheth-

er or not it shall become an act. The bill was discussed at two separate points in yesterday's proceedings, first under the head of committee reports, when it was submitted with the recommendation that it be passed by the House after some slight amend-ments recommended by the committee on public heaith had been made

Axton at once moved that the com-mittee report and the consideration of the bill be made a special order of business for 2:30 o'clock this afternoon. He was ruled out of order. The report was then adopted as amended.

When the bill came up in regular order for its third reading. Mr. Williams

recommended that it be read and passed without further delay. Axton again moved that consideration of the bill be made a special order of business for this afternoon.

"The committee has had the matter under consideration for eight days, and now they wish us to pass it in eight seconds," said he indignantly. I think that this is a matter about which there is so much public interest that the public ought to be allowed an opportunity of being present to hear the arguments for and against it."

Benner X. Smith also objected to so

important a measure being rushed through without discussion on the floor f the House. Mr. Williams considered that it was important that the bill be acted on at once and passed without much argument as he thought its provisos were well understood.

Mr. Langton believed that the people had given it all the consideration they wanted. What they wanted now was action on the bill. Mr. McMillan, who introduced the bill in the House, said he believed that no one wished to throw any obstacle in the way of its passage. He was there-

fore opposed to putting it off.

Harmon of Emery said there was no reason to postpone an hour. He believed that the minds of all on the floor were made up, and that being so con-stituted a demand for immediate ac-

Hewlett thought this was a argument, especially as "two of our lawyer members are absent," which would lessen the amount of talk on the

D. H. Morris did not think it was adfurnish entertainment for the people of Salt Lake. This remark called Axton to his feet

again. He said he realized he was "up against it." "I know this is not an amusement hall," said he, "but there is need that the people of Salt Lake should be intelligently informed on the subject of compulsory vaccination, and to that end I again move that further consideration of the bill be deferred till

Kelly of Millard agreed with Axton and South of Rich said that there were members of the House, not on the pub-lic health committee, who would like to know more about the matter, A vote to postpone further considera-

tion of the bill lost, and the discussion was continued Stuart asked that the committee explain in what condition the passage of the bill would leave the State board of health. Chairman Williams replied that the authority of the board would be abridged as far as vaccination was

board of health would have the power to enforce vaccination in case smallpox ecame epidemic Williams said that the board's power would only be revoked as far as the public schools were concerned.

Stuart next asked whether the State

Smith asked whether in case of epi-demic the board would have power to close theaters, churches and other close theaters, churches and other places of public gathering. Williams answered again that he believed the curtailment of the board's action would only apply to the schools.

It was now getting late and Gardner moved that the House adjourn. The members seemed to be unanimous and an adjournment was taken till 2 o'clock

#### PRAISE FOR THE POLICE. Department Complimented on Its Good Work During Convention.

Chief of Police Hilton is in receipt of a letter from J. C. Leary, which he prizes highly. The letter is self-explanatory and is as follows:

"My Dear Sir-As chairman of one of he important citizens' committees thich had in charge the preparations or handling the Stockmen's convention, I have been the recipient of many com-pliments paid the service of which you are the head, by visitors and delegates luring convention week. These should of course, have gone directly to you and I have no doubt that hundreds people who were here managed to tell you how pleased they were with everything over which you had control while the strangers were in your city.

My own observations of the way our city was controlled during the time, compared with observations I have made during the annual sessions of this association elsewhere, enables me to say that I have never seen better order observed, and at the same time freer privileges granted, than you were successful enough to combine in the work of your department at this last meeting.
"On behalf of this citizens' committee

I beg to compliment you on the service, and to thank you for the kindle cooperation you were good enough to ex-tend the committee through the cour-tesies shown the delegates and visitors. while you exercised care over them during their stay."

# COAL MINERS ASK ARBITRATION

Preliminary Skirmish Over Anti | End of Scoffeld Strike is Now Happily in Sight.

DISCUSSION WAS ANIMATED. TO MEET THIS AFTERNOON.

Men Get Together to Consider the Answer of General Manager W. G. sharp.

The end of the Scoffeld strike is apparently at hand, and the miners are showing a disposition to resume work, Yesterday afternoon the conservative element among the men succeeded in gaining the upper hand with the result it was practically decided that the men at Winter Quarters would return to work, and then ask that their case be brought before the state arbitration board. The men deem this step to be the best way out of the difficulty, as General Manager Sharp has notified them that as they are out on strike that he will not entertain any propositions of arbitration as long as they take the stand they do. With the Clear Creek miners the proposition is different as their move is looked upon as being sympathetic, and besides no state of strike has been declared in that mine. The good sense of the miners is meeting with public approval both at the

mines and throughout the State. The anxiously awaited answer by General Manager Sharp to the Clear Creek miners came up for discussion by the mass meeting yesterday afteron. During the progress of the meet ing there was an effort on the part of the agitating element to force an im-mediate strike. The cool heads, how-ever, prevailed with the result that the following message was wired to General Manager Sharp;

#### MINERS' MESSAGE.

This committee of Clear Creek hereby do, as representatives of the miners of Scofield, Utah, declare that as in a body of miners we do not fully understand Mr. Sharp's answer in regards to ar-bitration, and we do hereby request a direct answer from Mr. Sharp, "yes" or "no," whether he will arbitrate the grievance of the Scofield miners, providing the miners go to work while board of arbitration has their case under consideration.

THOS, PATTERSON, JAMES SHEPARD, JOHN MOORE. REPLY RECEIVED.

Winter Qaruters, Utah, Jan. 28 .- To

Thos. Patterson, James Shepard and John Moore, Committee, Clear Creek, Utah:—Answering your communication this date, saying that as the body of Clear Creek miners do not fully under-stand my answer of yesterday, and that you request a direct answer, "yes" or "no," would say that we must stand by our answer of yesterday, but in order to understand it. under the conditions mentioned in it, it means "yes" for miners who are not out on a strike and "no" for those who are—in others words, as Clear Creek miners have not yet declared a strike it means "yes" for their own griev-ances, provided they continue at work, but, as Winter Quarters miners are out on a strike, it means "no" for Winter Quarters.

At Castle Gate all is quiet, and the men are working for all the world as though there was no such thing as a strike within a hundred miles of them. Apparently there is a disposition on the part of all the miners not to meddle in the Scofield muddle, but to keep on working at the scale of wages in

The miners were to have held another meeting this afternoon to finally consider the matter of returning
