The advantages of owning a home built as those we have recently put up in the place we have put them tre scarcely to be reckoned. Heloful conditions and environments are first con-sideration for your children, and these sideration for your children, and these houses are where you can breathe. They are up on Ninth Avenue along the line of the next street car exten-sion. They are above the smoke and out of all possible danger from un-sanitary drainage, at the same time being near to the schools and near to the business district. Modern in every respect and thor-

There was more than one reason for our care. We built them with an idea of affording an outlet for our funds and we don't care to loan money on a poorly constructed house. Col. Maurice M. Kaighn and Mrs. Kaighn are also in the city, having been called to the city by the defense. Into the care of Col. Mr. Hen-derson is said to be acquinted with the private affairs of Semator Brown and Mrs. Bradley is said to have ap-pealed to him, as Brown's partner, many times in an effort to have him argue with the senator, looking to mar-riage as the end that the woman's chil-dren might be recognized by the law.
