

The residents of the town of Bingham canyon who were made defendants in a suit brought by Col. Enos A. Wall to restrain the dumping of sewage and other matter into Carr Fork and Bingham canyon creek, have filed an answer denying the allegations of Col. Wall. The suit was but one or many difficul-ties which Col. Wall has had with the town authorities and residents over the water rights. The suit was against water rights. The suit was against Frederick E. Straup and about löw others, including the Boston Consoli-dated Mining company, the Jordan school district, the town of Bingham and the state board of health. Col. Wall owns a mill which uses the waters of the two streams and he charges that the residents along the bank are dumping into the streams the worst sort of filth and refuse, prejaworst sort of filth and refuse, preju-dicial to health and making the water unfit for use in his mill.

As Mining Property.

unfit for use in his mill. The answer filed jointly by all the defendants denies specifically the state-ments of Col. Wall, that the country through which these streams flow is only valuable for mining purposes or that the population for 45 years has been unsettled and itlnerant and that been unsettled and itlnerant and that from the earliest settlement the waters have been rendered by their use in mining unfit for domestic purposes. On the contrary they assert that while the waters have been used intermittently for mining purposes it has not been their primary use but that for 40 years they have been used for domestic pur-poses, for sprinkling purposes and for sewage. They admit that deposits of the nature of which complaint is made are being dumped into the streams, but deny that there is any way prejudicial such or that it is in any way prejudicial

to health. They do not admit that the waters of the streams are necessary for the mil-but aver that the vater rights were passed upon in a former sut brought by Col. Wall against the Town of Bingham when the courts adjudged that the town had the right to use both streams streams.

The topography of the country in which the town is located, they say, makes it necessary that there should be an open channel in the streams runhe an open enames in the streams that ing through the canyon to carry off refuse and drainage, otherwise pestil-ence would be bred and the people's health jeopardized. Col. Wall, they state, acquired his millisite well know-the conductions and provide use of ing the conditions and previous use of the waters and it is not for him now to make complaint. They ask that his complaint be dismissed.

CHAIRMAN WILL EARN SALARY

Conceded That Rule or Ruin Gang Can Not Elect Six Out of Ten New Members.

Before Chairman J. E. Darmer, of the "American" party, who gets \$1,000 month, works out the puzzle which now confronts him he will earn his. salary if he isn't careful. In order to get control of the council in the next election, six "Americans" will have to be elected out of the 10 new members this fall. There isn't even a chance of electing one councilman from the Fifth precinct, which is the "American" stronghold. The "advisory" board has been working on the puzzle and the serious situation which confronts the party has been passed up to the chair-

man to solve. A. J. Davis, president of the council, and L. D. Wood are the two "Ameri-can" holdovers in the council. The Democrats have three, F. S. Fernstrom, Oliver Hodgson and L. E. Hall. The terms of the other 16 councilmen ex-pire, but most of them are candidates organ man to solve. again.

STEWART'S LITTLE SCHEME. J. J. Stewart has bolstered up his candidacy for this fall by working to get \$90,000 from the bond issue for watermains for his precinct, the Fourth. His work is considered as a political move to get into the lime light. L. D. Martin of the First is alled

with the saloon interests. His fight against the license committee when an effort was made to reject th applications of 24 saloonmen made a favor-able impression with this element. He is considered a strong candidate by the

"American" chairman. T. R. Black is in the field again, as a condidate from the Fifth precinct. So far he has met with considerable oppo-sition and it looks as if he would lose out in the convention. Mark Reedall of the Fifth is also a candidate without any backing.

W. Mont Ferry of the Fourth will W. Mont Perry of the Fourth will accept the nonination again if it, is presented to him, and it probably will be. Edward O'Donnell is also a candi-date for re-election and G. H. Ray-bould is in the same boat.

John Holley and H. T. Cowburn of the Third are the Democrats who re-tire, but they are unable to say whether they have a chance to become candi-dates again. J. D. Murdock of the First J. D. Murdock of the First is a Republican who will also retire. The Democrats have failed to make a move yet toward gathering up the remnants of the party

What Wisconsin Gentleman Meant By His Insinuations.

> Denver, Aug. 24 .- A bitter tilt over the merits of the Remsen referee board appointed at the instance of President Roosevelt to investigate the use of benzoate of soda as a food preservative took place between Secy. of Agriculture James Wilson and J. Q. Emery of Madison, Mis., before the annual convention of the Association of State and National Food and Dairy departments today. As president of the association, Mr. Emery had attacked the finding of the Remsen board that Benzoate had been found to be not harmful and pointed to Mr. Wilson as having influenced the presi-

dent to block a reinvestigation of the subject. "I want to say that the Remsen board was composed of Dr. Ira Remsen of Baltimore and four other of the foremost enemists in the world," clared Mr. Wilson, "And when president authorized me to selec-them I recognized them as the best authority on benzoate that could be procured, I am glad to see you have invited the members of that board to appear before you at next Thurs-day's session of this convention. I trust that you will give them a fair hearing. As to the ability of the mem-bers of that board I want to say I wish we had the money to procure them for the department of agricul-ture at Washington."
