AMERICAN.
The Political Situation.
NEW YORK, 18.—The North American Review, for November, publishes a long and carefully prepared address on the political situation from a financial standpoint, signed by E. D. Morgan, J. J. Astor, Hamilton Fish and a dozen other prominent business men, in which, among other weighty and contentions are the following: We have entered upon a period of hopeful activity in commerce and industry. Trade multiplies, manufactures expand, and vigor and labor rejoice in fair wages and full employment, yet we have but just emerged from that period of disaster in which the resources of all were greatly strained and the services of capital greatly exhausted. There has not been time yet for business and industry in their various branches to get fully reconditioned for profitable work, much less has there been time for the accumulation of new reserves. Business interests are not prepared to bear another period of strain, or disaster, but they are just beginning to thrive. A reaction now, like a relapse from fever, would be more dangerous than the original disorder. The business of this country is not in condition to endure the enormous strain, grave anxiety, and prolonged uncertainty of a complete change of financial policy. The fear of a financial change would create a public credit almost as much as those changes themselves. Changes are unavoidable, and even already contemplated, an unfinished democratic legislation before Congress.

THE HERALD'S SUGGESTIONS.
The Herald yesterday had the following suggestions: How would it do to let everything stand and have no election? The country was never so prosperous, say our republican friends, yet this really without a government. The President's inauguration in Oregon drinking tea; General Sherman is in attendance, and the army is without a head; Secretary Sherman is in the west and the treasury runs itself; Evans is viewing the boys in blue parade, and the world is at peace. We have no Senate, no House, no Supreme Court. The only officer who seems to be alive is Supervisor Davenport, and we might under pressure, spare him. Yet how prosperous we are all the same. If we can get along so well without a government, why not a step further and have no election? It would save money, and trouble and temper and time.
