BURNED TO DEATH.

Railroad Train Wrecked and Numerous Victims Perish in the Flames.

A STEAMER BADLY INJURED BY EXPLOSION.

The "Gyrand, Old Man" on the Sick List, Suffering from Shivering Fits.

By Telegraph to the NEWS.

A TERRIBLE ACCIDENT.

A Train Wrecked in the Midst of a Burning Forest.

ELMIRA, May 11.—A Cowdens Point, Pa., special says: Yesterday while a train containing one hundred men on their way to fight the forest fires in Potter county, the train was wrecked in the midst of the burning woods, and the engine and cars were destroyed. Eighty or more men were burned to death.

A special from Austin, Pennsylvania, tells of the wreck of a train in the southern part of the county and says that seventy-five men were seriously and, perhaps, fatally burned. Superintendent Badger of the S. V. road, and three or four men are still missing. The entire part of the country has been swept by flames.

TERRIFIC EXPLOSION.

Five Men Killed and Thirteen Injured on a Steamer.

LONDON, May 11.—A terrific explosion of gas occurred today in the hold of the British steamer *Jacqueille*, which is undergoing repairs in the dry dock at Newport. Five men were killed and thirteen injured. The steamer was badly damaged. *Jacqueille* is a black steamer engaged in carrying oil from American ports. The force of the explosion was so great that the fore deck was torn from its fastenings and blown off. As the steamer was out of water, there was no pressure on the hull to counterbalance the tremendous outward strain exerted by the explosion, and it is reported that some of the plates on the bottom of the *Jacqueille* were blown out. The woodwork of the forward portion of the steamer caught fire, but the flames were soon extinguished.

The Crop in Hungary.

BUDA PESTH, May 11.—The crop report up to date shows that barley, oats, rye and feeding stuffs throughout Hungary have suffered greatly, owing to the excessive heat which has prevailed recently. The wheat crops are fair on the average.

Thirty-five Thousand Men on a Strike.

BRUSSELLS, May 11.—The strike in the Charleroi district is spreading. The foundrymen struck today. Thirty-five thousand men are out. Several iron works are closing owing to the lack of fuel.

Gladstone on the Sick List.

LONDON, May 8.—Gladstone is the latest prominent man in Great Britain on the sick list. He went to church yesterday and seemed to be enjoying his usual health. In the afternoon, however, the veteran statesman was seized with a succession of shivering fits. Sir Andrew Clark, Gladstone's family physician, though not pronouncing his illness to be of a serious nature declares that Gladstone must not leave the room for several days.

The "Charleston."

SAN PEDRO, California, May 11.—The cruiser *Charleston* which arrived off here last night remained until this morning at which hour she left, going south.

Destructive Forest Fires.

BUFFALO, May 11.—A special from Austin, Pa., says that destructive forest fires have raged in that vicinity the past forty-eight hours and much damage is done. While fighting the fire Sunday night, a work train was surrounded by flames and the engine and cars destroyed and seventy men narrowly escaped with their lives. Twenty or thirty men were seriously, if not fatally, burned. Sam Badger and four men are missing. They were employes of the Sinnemahoning Valley railroad.

Assignment of a Motor Company.

CHICAGO, May 11.—The Belding Motor and Manufacturing Company made an assignment this morning. The liabilities are $175,000 of which 100,000 for borrowed money. The assets are not scheduled, but they are thought not to exceed the liabilities. The suspension was caused by the disastrous fires that ruined the company's stock and shops at Hermosa and by the failure of the creditors to fulfil their promises of financial support.

The Jamaica Exhibition.

HALIFAX, N. S., May 11.—Adam S. Brown, the Canadian Commissioner of the Jamaica exhibition has returned from Kingston, Jamaica, and reports the exhibition a great success in everything but its finances. Brown says the people of Jamaica feel very sore over the neglect of the United States, with which the largest part of the trade of the island is done, to take part in the exhibition. Strong efforts are being made to induce the government to send commissioners to Washington to see if Blaine can be induced to allow the existing relations between the two countries to continue. The people want to hold on to their enormous trade with the United States, but do not want to come under the reciprocity provisions of the McKinley bill, for the reason that to abolish or materially lower its tariff on American breadstuffs and manufactures will cripple its revenue as well as discriminate against England and her colonies.

Concerning the Cattle Export.

OTTAWA, May 11.—The Canadian government have made overtures to the Imperial authorities to learn whether the present arrangements under the operation of which cattle are exported from Canada to Great Britain will be continued, if American cattle be allowed to be slaughtered in bond within the Dominion. This has reference to the proposed Bender Dead Meat Co.'s scheme for its abbatoirs at Three Rivers, to which Canadian cattle shippers are opposed on the ground that it would place their trade in danger of being scheduled with that of Americans by the British ports, thus depriving them of the present discriminations in favor of the Canadian trade.

Death of Mrs. Emma B. Smith.

NEW YORK, May 11.—Mrs. Emma B., the wife of William Henry Smith, general manager of the Associated Press, died of paralysis at Montclair, N. J., this morning. Mrs. Smith has suffered greatly from heart disease for several years, and made two trips to Europe, seeking relief. The funeral services and interment will be in the West, but whether at Cincinnati or Lake Forest, Illinois, cannot be determined until the arrival of her son this evening.

Adjourned Sine Die.

KANSAS CITY, May 11.—The International convention of Young Men's Christian association adjourned sine die last night.

One Thousand Painters on a Strike.

ST. LOUIS, May 11.—The brotherhood of painters have decided to make the strike general and about 1000 went out this morning.

Lockout and Boycott.

NEW YORK, May 11.—The lumber trade association began today a lockout and boycott which, its members assert, will cause a total suspension in the building operations of this city before long.

This action by the association is to force the board walking delegates to raise the boycott of one of the members of the association. To accomplish this, they intend to stop the delivery of lumber to all buildings where union men are at work.

Cleaned Out.

CLARKSBURG, W. Va., May 11.—The coroners jury in the Ocken mine disaster returned a verdict censuring the owners and bosses, and accusing them of wilfully neglecting the necessary precautions for the safety of the men. The matter will be brought to the attention of the grand jury next week.

"Omaha" and "Charleston."

LOS ANGELES, Cal., May 11.—A dispatch from San Pedro says the United States war vessels *Omaha* and *Charleston* came to anchor at that place last evening and exchanged signals.

Mr. Ellis in Kaysville.

The Kaysville people turned out in their holiday attire last night to hear Mr. Charles Ellis lecture on "Utah Liberalism." The lecture was listened to with much interest by the large audience and the speaker was frequently interrupted by laughter and applause. Straight goods were delivered. That is to say, the speaker told many truths that were not palatable to "Liberals," but he offered an opportunity for any objector to contradict him and show his errors of statement, if he had made any. No person arose to explain, however.

JUDGE ZANE'S COURT.

Business Transacted on Saturday Afternoon and This Morning.

Chief Justice Zane presided in the Third district court for a short time on Saturday afternoon and transacted the following business:

In the case of Wm. Diamond, the slayer of Ed. Scott, recently convicted of manslaughter and sentenced to three years' imprisonment in the penitentiary, Judge Powers, the defendant's attorney, was allowed ten days' additional time to prepare and file a bill of exceptions.

J. A. Kirby, charged with malicious mischief, was arraigned and plead not guilty.

In the case of N. C. Dougherty vs. J. C. Thompson et al., judgment was rendered for the plaintiffs for between $3000 and $4000.

The arguments in the big mining suit of Wm. Perego vs. W. H. Dodge et al., involving the ownership of the Mayflower mine and the Perego group, in Summit county, were made and the matter was taken under advisement.

THIS MORNING'S BUSINESS.

Judge Zane took his seat at ten o'clock, sat until ten minutes to eleven, and ran through the following programme in the interval:

"HE COULDN'T RECITE IT."

John Rydalch, a native of England, applied to be admitted to citizenship. In the course of the usual questions put to applicants, his Honor asked, "Is the constitution of the United States written or unwritten?" To this Mr. Rydalch answered "Written;" upon which Judge Zane further inquired, "Have you seen it?" "I have," promptly replied the applicant, "but I said he innocently, "I don't know that I could recite it now." There was considerable laughter at this admission. Judge Zane said he did not suppose that Mr. Rydalch was able to perform such a feat off-hand, and granted his application, while joining in the mirth of the spectators.

Samuel Stewart, a native of Scotland, was also admitted to citizenship.

PLEADS NOT GUILTY.

David Timmon was arraigned and plead not guilty to a charge of fornication, the young woman in the scrape being Elizabeth Rogers.

MISCELLANEOUS.

William Perego vs. William H. Dodge et al., submitted on May 9th, issue found for defendants for the ground to conflict, a stay of thirty days being granted.

White vs. the U. P. Railway company. Statement for a new trial was presented and allowed.

Thomas Venard vs. Liberty E. Holden et al. By consent of counsel, the hearing for contempt was continued till May 20.

James P. Gillespie et al. vs. William Glassman. Report of J. G. Sutherland, as referee, presented and allowed, and decree in accordance therewith signed.

Solomon Beiss vs. Morris Levy. On motion of plaintiff it was ordered that the attachment levied be dismissed and discharged.

American Publishing company vs. A. Fisher & Co. On motion of Attorney Critchlow, all proceedings in this case were stayed till the hidden of filing of security for costs is served.

William Perego vs. John Judge et al. By consent submitted on same evidence as that of Perego vs. Dodge, and same decree granted.

William Perego vs. Woolside Mining Co. By consent, decree for plaintiff for area of land in conflict or entire very; neither party to tax costs, but each to pay his own.

Sophia Brandley vs. Henry Brandley. On motion of Attorney Bowman, this divorce suit was referred to Judge McDonald to take testimony and report.

O. F. Miller et al. vs. Tillie Miller (Beis et al. On motion of Judge Marshall, pendente was granted to withdraw the answer and dismiss the complaint. Mr. Sears was sworn for the plaintiff to prove the mortgage and note. A decree was granted for the amount of mortgage and note, and $50 attorney fee allowed, no personal judgment to be taken for any deficiency.

Court then adjourned until 2 o'clock.

Wasatch Stake Conference.

The quarterly conference of the Wasatch Stake of Zion convened in the Stake House, Heber City, May 2nd and 3rd, 1891, President A. Hatch presiding.

Saturday, 10 a. m.—Present on the stand: A. Hatch, president of the Stake, and counselors; Apostles F. M. Lyman and A. H. Cannon, and a good representation of the local priesthood.

After the usual exercises Apostle Cannon spoke in praise of our beautiful city and tabernacle, and considered God had greatly blessed the people here, and if they would be faithful we should continue to be blessed and make this valley a beautiful place for the Saints to dwell in. In our prosperity we should be very careful not to be led away by vice and covetousness. He felt that the great work that would be accomplished in the future and the power of God that would rest on this people. Advised the older people to set a worthy example before the young. Referred to what had been accomplished by such great men as Washington, Disraeli, Elihu and others, and how it took energy, perseverance and constant labor to make them what they were. The Savior Himself and the Prophet Joseph were no exception to this rule. When a man is prepared for any work the opportunity will be given him, and every man who fails, on reflection will see that it has been his own fault.

Apostle Lyman regretted that the house was not filled with young men to listen to the discourse of Brother Cannon. We could plainly see how those who neglected good use of their time (in whatever calling) as a rule would be found in second best. Our children should be taught to not spend their time in idleness; the powers of both mind and body should be trained to be subservient to what is to most the glory of our own nature, and be filled with integrity and power to resist sin.

Benediction by Bishop Van Wagoner.

2 p. m. President Giles made a few remarks on the condition of the Stake. He had visited nearly all the wards, and was pleased to find the prosperity and peace that prevailed. He considered salvation to small thing; it was worth everything or nothing.

Bishop N. C. Maraden, D. Van Wagoner and H. Clegg reported their wards as prospering.

Apostle Cannon delivered a very interesting discourse on the following subject, "The necessity of the Saints to still further improving the success of the various institutions; the education of the young; the sin of disunity; the authority and power of the sealing ordinances; the duty of husbands to their wives and the necessity of avoiding all unrighteous remorse and sectism; the evils of intemperance, and the sacredness of the marriage relation."

Sunday, 10 a. m. On the stand besides the brethren mentioned on Saturday, there were Prof. B. Cluff, of Provo; Elders A. Kimball, from Box Elder; Robinson and Thorn, from American Fork, and President S. B. Young, of Salt Lake City, who each in their turn addressed the vast congregation assembled.

The instructions from these brethren, together with the remarks and counsels of the Apostles, caused the Saints to rejoice and thank God for the restoration of the everlasting Gospel in these latter days.

President Hatch having a very bad cold was not able to address the people during the conference.

In the evening there was a meeting, at which Elder Robinson presented the organ question, and urged the necessity of raising a quantity of sugar beets.

President Seymour B. Young completed the remainder of the evening in speaking on the evils of intemperance.

HENRY CLEGG, Stake Clerk.

First District Court.

The following cases were disposed of on Saturday afternoon by Judge Miner, at Ogden:

United States vs. Alfred Brenson; arraignment; plea guilty to indictment for fornication; fined $40 and costs. In default thirty days in the penitentiary.

John Taylor et al. vs. M. B. Buford et al.; on motion of Miller & Magginis order for defendant to pay costs into court by Monday, May 11 or, motion for a new trial may be overruled.

Robert Hawthorne vs. William H. Stain; demurrer to complaint struck out, call by consent of Evans & Rogers.

Hyrum City vs. A. J. Anderson; demurrer to complaint, argued and taken under advisement.

James Pratt vs. Jarvis Conklin Mortgage Trust Company; motion to relax costs; argued, submitted and taken under advisement.

The People vs. G. R. Belnap; demurrer to complaint submitted without argument, and taken under advisement.

F. R. Allen vs. Union Pacific Railway Company; motion to relax costs argued, submitted and taken under advisement.

R. C. Toone vs. L. Farr et al; motion for a new trial argued and taken under advisement.

A Narrow Escape.

On Saturday afternoon as Mr. John M. Whitaker was driving homeward with his wife and two children in his buggy, and while passing the northeast corner of the Eighth ward square, a careless driver coming from the north ran into Mr. Whitaker's buggy, catching the hind wheel and throwing the conveyance over. In the fall the weight and strain on the horse threw him over also, his head falling, fortunately, in a ditch so the animal could not get up for a moment. In the fall the little girl, about three and a half years old, who was sitting on a small chair in front, was thrown against the dashboard, and the chair was smashed up. Mr. Whitaker's right arm was caught in the side supports of the buggy top and bruised at the elbow, while the iron support was considerably bent. The harness was broken in several places and the horse's leg scratched some little.

In falling, Mr. Whitaker first struck the ground, clinging to the lines with his right arm, while with his left he held back the children—who, together with the mother, had fallen on top of him—from falling out.

Had it not been for the immediate aid of kind friends, though he had a gentle horse, no one can tell what would have been the result. As it was, the escape of the inmates of the buggy from serious injury was almost miraculous.

The man who was the cause of the tip-over was arrested and left $25 for the appearance today at 3 p. m. before Justice Lamoy.

THE PIGEON MESSENGER SYSTEM

SEEN TODAY ARE BUILDING OUT HOMERS AS INTO THE CANALS OF THE ARC.

From Noah's time to the present day pigeons have been used for messengers, both in peace and war. The Greeks were familiar with their use, and employed them as messengers, teaching their offspring to the Romans, who used them to great advantage during the siege of Modena. During the siege of Paris in 1870, communication between the authorities at Tours and the besieged city was maintained by means of the homing pigeon. More than one million private messages and dispatches were carried over the heads of the German army, conveying the only intelligence received of the sufferings of those within the invested city to the outside world. The messages, photographed on a thin film of collodion, a single film containing twenty-five messages, and one bird could carry a dozen films. They were inserted in a section of a quill, which was bound to the tail feathers by casting a silken cord through holes pierced in the ends by a reeled steel spindle.

The importance attached to the use of this bird by the French authorities today can be seen from the fact that foreigners are not allowed to release them on French territory, or even enter with them for that purpose without a passport, setting forth the owner's name, nationality, present residence, number of pigeons, number of pounders, number of seals, impression of seals, and name and place of release. The strict letter of this document must be complied with or the person having the birds in charge will be refused admission and be compelled to return with them. Several shipments of Belgian fanciers were intercepted during 1890.

The military pigeon service of Germany is the most perfect in the world. The fortresses of Metz, Cologne and Strasburg have each from four to six hundred trained birds. The annual cost of each for such purposes is $8,000. The commandant of the place is responsible for the birds, and is assisted by a non-commissioned officer, two private soldiers, and a keeper, the latter receiving $20 per month. On the western frontier Cologne communicates direct with Berlin, Coblenz, Metz (Isford), and is a transmitting station for Metz and Mayence. Strasburg and Metz communicate with the capital through Wurzburg.

France expends $20,000 on her military pigeon system. There are no less than ten stations in Paris, the capital being communicated with from points at great distances by way of Latules, which communicates also with Marseilles and Perpignan. Lofts are stationed about Grenoble, Avignon, the Pyrenees and the most important towns north and south of the country. Where the birds are used in one direction about 200 are maintained, 100 for each direction after the first, so that where three courses are covered there are 500 pigeons.

The Russian government expends 10,000 roubles in maintaining a pigeon system. Penza, Thorn, Konigsburg, Tovarish, Stettin and Kiel—in fact, every important part of the country is in communication, either directly or indirectly, with St. Petersburg by means of homing pigeons.

Experimentally recently, a photograph of the winter palace was taken in a balloon, the plates packed in an envelope and sent to the city, and quickly carried to the station at Volkood.

In Belgium, the birthplace of the homer, the rails has been flown in less than one minute at all distances from 54½ to 215½ miles, the last given distance occupying but 161 minutes, or the mile in 45.6 seconds. Pigeon flying is the national pastime in Belgium, as baseball in America and cricket in England.—*Chicago Herald.*

Salmon's Meat Market.

I have removed my Meat Market from the old quarters (18 W. First South Street) to the corner of Fourth and E Streets, Twelfth Ward, where customers will find the cleanest, best and freshest Meats to be had anywhere. dtw
