DISTRICT COURT NOTES.

John Malan Arrested for Brutally Assaulting An Old Man.

Democratic Convention October 16; Primaries Oct. 15—Salt Lake Opera Co.—Funeral of Arthur Ford.

Yesterday afternoon John Malan was arrested on the charge of assault and battery, the complaining witness being Arthur Spark, an old gentleman employed as janitor at the Union Depot. The allegations in the complaint as set forth by Sparks are that he was returning home from work he met Malan, who accused him of using abusive language to the Malan children, and before Sparks had time to explain he was struck by Malan and knocked down, and brutally beaten and kicked, as he lay on the ground. Mr. Sparks is a man about 60 years of age, and naturally very weak, while Malan is a strong, able-bodied young man, and would no doubt have injured Sparks very severely had it not been that two men were passing by and took Malan away from the old gentleman. Mr. Sparks was taken home and a physician was called to relieve his sufferings, resulting from the blows.

Headache

kills, not necessarily suddenly, but SURELY. It preys upon the intellectual powers more than we realize. It consumes the vitality faster than nature can replenish it, and we cannot tell just what moment a temporary or complete aberration of the mind will result. Headache and pain should be promptly removed—but properly. Many pain cures are more harmful than the pain. Beware. If you would be safe, take

Dr. Miles' Pain Pills.

"As a result of neuralgia I lost the sight of my right eye, and the pain I have suffered is incomprehensible, being obliged to take opiates almost continually. A friend gave me one of Dr. Miles' Pain Pills and it promptly relieved me. I then purchased a box and now my trouble is gone. They have also cured my daughter of nervous headache, and I heartily recommend them to others."—W. J. COOLEY, Bremond, Texas.

NEW BASEBALL SERIES.

Championship Should be Decided Best Two Out of Three.

The proposition to play a seven game series to decide the championship between the White Wings and Lobsters after the former win one more game is the proper thing to do. At least that is the opinion of a majority of the local fans. Ogden has had the pennant for the last three years and won the first series of this year with hands down. In the second series, so far, it has been a walk away for the Lobsters, and it will unquestionably carry off the honors. President Shealy of Ogden, insisted on playing out the twenty-five games whether Salt Lake won the series or not, and if he still insists on it the games will have to be played or the locals would forfeit \$250. But it is believed that a new series of seven games would decide the question more definitely and would add fresh interest to the sport. If Salt Lake won a majority of the games there could be no question as to which is the better team. Some argue that because Salt Lake has made more hits and runs in

the present series than Ogden did in the first, therefore, the locals are the champions, but that theory is not shared by most of the fans and they are for seven more games.

CHRISTY-FRANCIS MATCH.

Boxing Season Will Open Monday Evening—Twenty-Round Bout.

Knight of the great darts are looking forward to the great pleasure during the coming season, and it present plans are carried out there will be a number of interesting bouts in the city this winter. Manager Jack McNamee of the Salt Lake Athletic club, is making arrangements for a series of boxing exhibitions to be pulled off in the old Armory hall, which has been fitted up to accommodate a large crowd and it will doubtless be the scene of many lively scenes.

The first is scheduled for Monday night, when Young Christy and Jim Francis, the colored fighter, will meet for the second time in a twenty round exhibition for points. When these two men met last winter the contest attracted a large crowd and interest in the bout was intense. It was declared a draw and ever since, lovers of that kind of sport have been anxious to see the two men in the roped arena again.

Manager McNamee stated today that it was his aim to promote only clean and fair contests, that there was nothing brutal in them and that he proposed to give patrons of the club the money's worth. He said the Christy-Francis match was the only one arranged for at present, but in the near future he hoped to secure a few top notchers.

The club is fitted up to seat 1,500 people, and is well lighted. Punching bags and other paraphernalia for muscular development for the benefit of members of the club.

AMONG THE FOOTBALLISTS.

Great Amateur Sport Will Be Popular This Year.

Now that the local football teams are settling down to steady work it will be long before the shrill battle cries of the opposing fans will be heard and the rushing together of heavy bodies on the gridiron will thrill thousands of enthusiasts with delight. Judging from the present outlook, the prospects for a successful season are bright and reassuring.

The Y. M. C. A. University of Utah and the High school will undoubtedly have the heavy teams of the city, and there will very likely be considerable rivalry between the University and Y. M. C. A. challenges have been received from scores of outside teams and from all accounts none will go unaccepted, so that the season will be a busy one indeed.

For the first time the Latter-day Saints university will be represented in the game, and while the team will not be a very heavy one, what it lacks in weight will be made up in speed and this what counts in gridiron battles.

There is no doubt but that the championship for second teams and for the school league championship. The various schools are rapidly getting into line and making application for a place in the league. The Y. M. C. A. reserve team has been organized and is ready to entertain propositions, and it is quite likely that one or two independent teams will be organized.

This year marks a number of changes in the rules which will make the game more clean and better in every way, and there will also be some improvement in wearing apparel for up to date players.

A new sprinting shoe for football players, light and pliable, is intended for speedy backs who carry the ball. It has an entirely new sole of elastic, a combination of Princeton and Yale cleats—which prevents clogging by mud as in the old shoe, and the cleat is so placed upon the shoe that it does not press through and create sore feet.
