MOST DARING MURDER ATTEMPT. Mysterious Man Tries to Cut High School Girl's Throat With a Razor. THEN MAKES COMPLETE ESCAPE. Deed Committed on Main Street In Broad Day Light but no One Seemed to See it. VICTIM IS MISS MARY BURTON. Was the Man Crazy, Jealous or a "Jack The Ripper"-Sheriffs Office Working-Police Don't Know. On the city's busiest street yesterday afternoon, and in broad daylight a murderous assault was made on a school girl that is hardly equalled

outside of the annals of a Jack the Ripper. The man who made the assault escaped. His identity is not known, It is not even suspected. The wound he made on the throat of the little girl was so large that it took four stitches to bring it together. Just what occured as not entirely known as the girl who was assaulted was

dazed by the blow, and did not see her assailant, after he struch her. She made no outery but started for home at once, holding her handkerchief over the cut he made in her throat, and for this reason the throng of people passing at the time were not made aware of what had happened, and no attempt was made to capture the assailant.

HIGH SCHOOL GIRL.

Miss Mary Burton, the young lady who came so near losing her life is the 16. year-old daughter of Robert T. Burton, Jr. and a grand daughter of General Robert T. Burton. She attends the Salt Lake High school, and yesterday afternoon she went home immediately er school, but needing some supplies and books for her course she obtained he mother's permission to buy them, and returned to Main street from her home at No. 33 East North Temple. At Kelley's Book store she bought the school books she needed, and started hack home, at a little after 4 o'clock. "I don't know how it happened," she suid this morning, when seen at her home, "I was hurrying up Main street with the books I had just bought to meet my sister Clara, who was waiting for me on the Jennings corner. I was walking on the outside of the pavement, near the curbatone, and when ithappened I was in front of Newman's Shoe store, as near as I can recall. All tack. at once an arm shot out in front of my eyes, and things looked hazy. Then I saw a woman standing hear me and I grabbed her by the arm and cried What did that man do to me?" A dastardly a deed as this is. The fact is the affair is too much for us. We little child at her side said "Why look, ma, he's cut her face." Then I felt annot solve it, and the only theory is my face with my hand and that the wretch who walked up from behind her in his hurrted and excited it was covered with blood, so I put my frame of mind must have taken her handkerchief over the bleading place for another; and then seeing that she was not the person suspected made good his escape with the least possible delay. and started for home as fast as I could go. When 1 passed the Templeton building I thought of going up to Dr. "Many persons" he said "must have seen the flurry occasioned by the at-Wilcox's office, but I didn't stop till I tack, but they did not know what was had reached home and told my mother. done until the man had gone-even She had me go right back to Dr. Wilcox, and he attended to the cut." "Do you think you could identify the roan if you saw him?" was asked. "No, I hardly think so. It seems to me he had on a brown suit. I only noticed that his arm shot across my eyes, and when I looked around I couldn't see anything distinctly. It seems as if there was a crowd, but I only remember grabbing the woman and asking her what had happened to me."

by some one as the thoroughfare was crowded at the time. Of course the razor-if the instrument was a razorwas wielded with lightning like swiftness, and presumably replaced in the slasher's pocket or sleeve with equal dispatch. This done he disappeared as completely as though he had been swallowed by the earth.

POLICE NOT NOTIFIED. Another strange fact connected with the case is that the police never even

heard of the matter until today. They were not notified by the girl's relatives. Pollcemen on the street, not very far away, at the time of the crime, were totally ignorant of what had transpired. The particulars were first poured into the eurs of the sheriff's force, and the police incline to the view that that fact accounts for their not having heard of It. It is well known that there is con-

sistently rumored engagement south of Mukden.

It is reported that the Russians, assuming the offensive, crossed the Hun river, and attacked Gen. Kuroki's forces, capturing a position, which the Japanese, being strongly reinforced, recaptured and reoccupied.

The Japanese, it is reported, have checked the Russian advance. It is said that the losses on both sides were heavy.

No official confirmation of these reports can be obtained.

Tokio, Oct. 11, 4 p. m .- It is reported that the Russians have crossed the Hun. river in heavy force and are aggressively attacking the Japanese forces, which were moving northward. A general engagement is said to be in progress.

FROM KUROPATKIN.

St. Petersburg, Oct. 11.-Gen. Kuropatkin has telegraphed to the emperor that the Russian vanguard is now in contact with the Japanese, who are within gunshot. The scouts are skirmishing along the entire line.

FIELD MARSHAL OYAMA'S FRONT.

St. Petersburg, Oct. 11, 5:11 p. m ---No official news has been received from the front as to what is happening today. But a portion of Gen. Kuropatkin's dispatch dated last night, given to the public, showed that his army was steadily pushing forward, and that the Japanese were gradually withdrawing their outposts, which were only a cannon shot distant. There have been almost constant artillery skirmishes, which at any moment may develop into a battile.

There is no confirmation of the Japanese evacuation of the Yentai mines, but the report is credited at the war office.

A DANGEROUS CUT.

Miss Burton probably owes her life to the fact that the instrument used in slashing at her throat, struck the end of her chin and was prevented by the bone from making a deep cut. Had it ! struck an inch lower it would have entered her neck and seriously, if not fatally, injured her. As it is the cut runs about three inches along the cheek bone from the chin back towards the ear in a slightly downward direction. Dr. C. F. Wilcox took four stitches in the cut last night. Upon examination he found that it was made by a very tharp instrument, which he though: must have been a rappy, and that it penetrated clear to the bone. There was force enough in the blow to have raused fatal results had it not been stopped by the point of the chin bone. Possibly Miss Burton threw her head back and opened her mouth to cry out when the man's arm struck her across the eyes, and that resulted in the erfor of his aim.

THE MOTHER'S STORY.

Mrs. Burton, the mother of the girl, mid today, "When Mary came home bolding her handkerchief to her cheek and said a man had cut her, I didn't know what to do for a moment. I came htar fainting, but I knew it would not So to let her know that I was breaking town so I sent her to the doctor at once. When she had gone I telephoned for her father, and told him what had

then no one appeared to know that it was anything worse than an ordinary encounter. Besides the girl says she was so dazed that she could not tell what had happened and started for home immediately."

MADE A GOOD HAUL. Burglars Break Into the Store of Par-

> ley E. Hatch of South Bountiful. A store owned by Parley E. Hatch of

South Bountiful, was burglarized last night, and a large quantity of property stolen.

The robbery was reported to the Salt Lake police about 11 o'clock this morning, and a list of the stolen property given, by a young man who has been employed at the store. A suspicious looking man had been seen hanging around the place, and after forcing his way into the store and taking whatever pleased his fancy, he made a hurried exit and dashed down

the street. He was observed by a night watchman who called upon him to stop. The fellow paid no attention to the command, and the watchman fired a couple of shots at him. From all accounts the burglar was the same who was seen about the place during the day. Entrance was obtained by forcing open a door.

The officers at Bountiful were im-mediately notified of the affair, and were furnished a description of the burglar. The sheriff and his deputies of Davis county are now at work on the case, and they believe they will be able to apprehend the thief before he has, had an opportunity to dispose of the goods stolen. As soon as possible the robbery was reported to the Salt Lake police, and they were asked to keep a sharp look out for any of the articles

purloined, should an attempt be made to dispose of them in this city. The list of property is as follows: Seven razors, eight or 10 pearl-handed expensive pocket knives, two or dozen rings and cuff buttons, three three dozen scarf pins, a bex contain-ing several dozen silk handkerchiefs, several watch chains and four or five pairs of shoes. It is probable that other articles were stolen, but a complete list could not be furnished this morning.

It is reported that the robber came in the direction of Salt Lake when the shot was fired at him by the watch-Nourred as far as I knew it, and for man, and it is believed that he will him to go at once to Dr. Wilcox's of-fice and meet her. GERMAN RATE OF DISCOUNT ADVANCED TO 5 PER CENT.

Berlin, Oct. 11, 2:14 p. m .- The advance of the Imperial bank rate of dis-count to 5 per cent and the leading rate to 6 per cent today followed as usual by an advance to the same rates by the Saxon, Bavarian and other note issuing banks, was directly the result of the unfavorable money situation and the shrinkage of the imperial gold stock, although \$4,250,000 was imported from London during the last few days, be sides the banks' heavy advances to joint stock and private bankers for fur-

ther gold purchases abroad. The causes of the present position of the money market are fairly clear. The announce ment that the Imperial and Prussian governments would jointly issue \$37 000,000 in treasury bonds came at the end of September, when the Berlin market was traditionally under heavy pressure for cash to meet certain an

nual engagements. Immediately after that announcement the great joint stock banks curtailed their loans and discounts in order to be ready to take the bonds. At the same time the requirements for the September settle ment became unxpectedly heavy and cash speculation on the bourse, made large demands, besides the hunting for Paris exchange on American ac count, and money rose until the bank-ers could make a profit by drawing cash from the Imperial bank for investment in call loans. Hence came an un-precedented pressure on the bank Sept.

complement, were drowned, Two petty officers and two sailors managed to reach Chiaopai Island, from which they were rescued.

The Hei-Yen, which was engaged in guard duty off Pigeon bay, was missed by the fleet and a search for the vessel was immediately begun The petty officers and sallors found n Chiaopal island reported that at usk on Sept. 18 a storm came up acompanied by high seas. The Hei-Yen to compel them to clean their sheep, and endeavored to return to her base when she suddenly struck a floating mine, which exploded under her starboard side amidships. The vessel began to sink and an attempt was made to low-e the boats. The boats were swamped and the crew jumped into the sea, where, owing to the heavy combers, they were quickly drowned.

The Japanese fleet carefully searched the putrolled locality, but failed to find any other survivors. An official announcement of the dis-

aster issued today says:

"It is highly regrettable that no re-port in any form has been received of the fate of the other survivors. The sad event was made worse on account of the weather, which must have added greatly to the already awfut results caused by the explosion of the mine."
