Return of Secuting Justice—State to be Divided—Female Party of the Peace.

St. Louis.—Dispatches announce the return of Major Ridd, of the scout expedition, to Camp Supply. Salawia the Kiowa chief has been regarded as threatening hostility. Major Ridd was sent on a tour of observation and thinks the expedition has had the effect of arresting the mischievous plans of the Kiowas.

A scheme was developed yesterday for the division of the State, the Missouri river to be the boundary line. The scheme seems to be based on the alleged unequal division of officers, both State and national.

A proposition to appoint a female assistant superintendent of schools was defeated in the House, also that colored teachers should be given the preference for colored children, and should have the privilege of attending white schools where separate schools for colored children were not established.

Seventy Thousand dollar Fire—Death of Gov. Washburne—Excitement over the Legal Tender Decision—Hivary between Gospel and Whisky—Lady Brokers—Big snow Storm—Methodist conference—Brazil to be looked after.

BINGHAMPTON, N. Y.—The residence of the late Widow Dwight, formerly occupied by David S. Dickinson, was burned to-day; loss seventy thousand. The property was insured for \$64,000.

WOODSTOCK.—Peter Washburne, Governor of Vermont, died here to-day.

NEW YORK.—The Supreme Court decision on the legal tender question is the great subject of discussion in financial circles. The decision as understood in Wall street is that the legal tender act was justified by the war, but that Congress had no power to issue any more legal tender notes, and all contracts made before 1862 must be paid in coin. In this shape the decision is very important, as it will make some hundred millions of railroad bonds and the immense aggregate of State and city bonds payable in coin, both principal and interest, the interest of which, for the past eight years has been paid in greenbacks. It is not improbable that some of the States, with heavy debts, such as North Carolina, being unable to provide for the debt, even on a currency basis, may be driven by this decision into open repudiation, under the plea that the action of the Supreme Court imposing on them obligations they could not bear.

Kit Burns' rat pit was inaugurated to-day as the Water street mission house. Bishop Jones and the Rev. G. H. Tyng, Jr., and others made addresses. Burns still runs the saloon next door, through which the ministers are compelled to pass to reach the mission house.

The adventurous ladies, who started the Broker's office on Wall street, are attracting a large share of curiosity, if not business. All kinds of rumors are in circulation in regard to their credit, one to the effect that they brought several hundred thousand dollars into the street; another that they are backed by Commodore Vanderbilt, Surgeon General Hellmuth and others.

The physicians who have examined Reynolds, who murdered Townsend Greymann, have pronounced him sane. In the North-east, a snow storm is prevailing, the heaviest of the season.

The Car has presented the school of minors of Columbia College with a valuable collection of minerals.

A conference of the Methodist Church met yesterday morning, for the purpose of preparing a report in reference to the proposed movement to admit women to the ministry, which will be brought before the conference next session, to be held in April next. The preliminary points of the report are agreed upon; the basement will be put in shape in the course of a few days.

It is stated that Brazil has established a military station at the River Lapiata, which is at the mouth of the Amazon, a position commanding all the internal river commerce of the South American Republics. The attention of our Government has been called to this fact.

RICHMOND, S.—The Legislature meets to-day. Americans shot at Havana—Volunteers arrested—Spaniards advancing.

HAVANA.—Yesterday, four Americans, who were walking along the street, wearing blue neckties, when near the Tacon were stopped by a man, who addressed them in an excited manner, pointing to their neckties. Not understanding Spanish no answer was returned, when the man drew a revolver and commenced firing. One American was killed and two others severely wounded and are now in a precarious position. The fourth escaped, but was pursued by a crowd shouting "stop him." The man who fired the shots disappeared and it is not known whether he was a volunteer or not. The American Consul General is investigating the affair. Secretary Fish has telegraphed to learn the particulars. The Captain General declares himself highly indignant at the occurrence, and has ordered every exertion to be made to discover the perpetrator, offering a thousand dollars reward for his arrest. If found he will be tried before a drum head court martial and executed forthwith. The people of all parties denounce the deed. The victims of this affair arrived from New York a few weeks ago.

The volunteers, who took a prominent part in the recent disturbance at Matanzas, have been arrested by order of the Captain General and are now confined in Moro Castle, awaiting trial by court martial.

HAVANA, 8.—General Bienouche sends official reports of his operations. He captured a number of insurgents and a fort on January 18. The nephew of General Cespedes was taken prisoner in an action the following day, which resulted in the defeat of the insurgents, with a loss of seventy-seven killed. The Spanish loss was five killed and two wounded. The General found all the houses and the plantations along the line of march destroyed. The city of Puerto Principe was surrounded with a circle of fires. The incendiaries approached so near that the cinders from the burning houses fell into the streets.

#### FRANCE.

Excited discussion over the Rochefort Affair—Great Excitement in Paris.

PARIS, Evening.—Rochefort was arrested at his residence at Belleville, in the north eastern part of the city, at an early hour this evening. His friends are assembling in great crowds and serious trouble is expected.

The government has excluded the papal currency from general circulation in France.

Later.—The troubles at Belleville have become serious; the streets are filled with shouting people and barricading has commenced. A detachment of troops arrived at eleven o'clock. Still later, barricades were erected in the Faubourg du Temple, Rue St. Maurice, Rue Grange, Rue Belles and other streets in the vicinity of Belleville. The scene of the disturbance is near the Northern and Strasburg railway stations. An additional detachment of troops has arrived; but no firearms have as yet been used. The troops in the garrisons in the vicinity of the city, have received orders to hold themselves in readiness at a moment's notice. Great precaution is manifested by the military authorities; but it is believed there will not be any serious consequences.

Later, 7 a.m.—The troubles at Belleville lasted all night and have extended northward to Lavallette, the extreme northeastern arrondissement within the fortifications. The troops have not yet resorted to firearms. The police are active and have made many arrests. Beyond the excitement naturally incident to such an occasion the rest of the city is tranquil. The government continues its precautionary measures. In the Corps Legislatif, to-day, M. Gremieux said he desired to question the minister concerning the Rochefort affair. M. Ollivier replied that he would not await the result of the interpellation, but would do his duty. M. Cremieux rejoined, he was anxious to know precisely as to what the ministers considered their duty. He sought for information and he would like the

Chamber to decide that this should be answered at once. He then proceeded to make a strong appeal against the contemplated arrest of Rochefort, as wrong to his constituents. Ollivier made a speech in reply and after an agitated discussion, the Chamber, by a vote of 199 to 45, adhered to the view of Ollivier. It was thought that Rochefort, who was in his seat during the debate, would be arrested on leaving the house, but he was not. At the termination of the sitting, he proceeded to his office; and up to eight o'clock this evening he had not been taken into custody.

There are rumors abroad that the Prince Imperial is very ill, but the *Journal of the Public* says there is no foundation to the rumor.

#### GREAT BRITAIN.

East Indian Telegraph Line—Opening of Parliament.

LONDON.—The India and European Telegraph company have just completed their lines from London direct to India. This line is composed of land wire and cables and runs via Berlin, Warsaw, Odessa, Teheran, through the Persian Gulf and Indian Ocean to Bombay, Madras and Calcutta. Messages may be taken from all stations of the United States after the 15th inst. to stations west of Chittagong. Ten words cost \$9.25 in gold; twenty words \$14.25. To stations east of Chittagong, ten words cost \$10.25, twenty words \$15.75. All messages over twenty words will be charged half the twenty words rate. Chittagong is in about ninety-two degrees of east longitude.

Parliament was opened to-day, and the Queen's speech read. The Queen comments on the tranquility in all quarters of the globe and notices the growing disposition of all countries to appeal to friendly mediation rather than resort to arms. She adverts to the favorable condition of the finances and suggests the continuation of inquiries into Parliamentary elections. She announces the probability that the government will propose land reform measures for Ireland, and will introduce a bill to define the status of the citizens of foreign countries who may desire naturalization. She recommends such legislation on the subject of religious tests in the universities of Oxford and Cambridge as will increase the usefulness of those institutions; comments upon the recent Agrarian outrages in Ireland and, after a resume of various measures of domestic reform to be submitted, closes as follows: "upon these and all other subjects her majesty devoutly prays that your labors may be constantly attended by the blessing of God."

Some People "fly completely off the Handle"

When an article is said to do many things, now for our part we esteem and appreciate a preparation just in proportion to the amount of time and labor we can save by its use. The

## RENOVATING MIXTURE

will remove with little trouble, every particle of Grease or Paint from your Coat, Vest, Pants, Hats, Dresses, &c., without injuring, in the most remote degree, the finest fabric. It is also very useful in removing the grease and dirt from doors and jambs much used by kitchen hands. Besides this it will kill Bed Bugs as well as their eggs and shampoos the head like a charm, creating a fine lather and removing every vestige of dirt and dandruff in a twinkling. It does the hair no harm being principally composed of Nitrogen—the element which enters most largely into the composition of hair.

OUR

## WASHING COMPOUND

Causes a great saving of SOAP and LABOR as well as the wear and tear of clothing attendant upon so much washboard rubbing as is usually necessary in bringing the clothes to a proper degree of cleanliness. Some women are in the habit of using Turpentine, Alcohol, Ammonia, Camphor Gum, &c. in their washing fluid but none of them ought ever to be used for such purposes (one woman lost the use of her arm for six months by using a fluid containing Turpentine). The Turpentine and Alcohol especially tend to open the pores of the skin and thus render the person more liable to take cold as also to weaken the arms. This compound does not fade but brightens Calicoes. It is well adapted for Washing Machines.

## LIQUID BLUEING.

Most of the Blueing sold is poor stuff, leaving spots in the clothes. To avoid this, people should purchase ours, as it will be found much cheaper and more reliable. It is also a magnificent and durable BLUE INK. We desire our customers to understand, most distinctly, that we are not the persons to palm off on the public any spurious or inferior articles. To prove this we desire them to try our goods, and if they fail to give entire satisfaction, we here declare our perfect willingness to take them back and refund the means received therefor.
