DECISION ARRIVED AT TODAY

City Patients Have Been Developing Huge and Expensive Appetites -Municipality Must Go It Alone.

The county health board, consisting of the three county commissioners and Dr. Mayo, couny physician, held a short session this morning before the regular meeting of the county commission. The request of Dr. Stroup, health officer at Bingham, for salary for work performed, was denied for the reason that the law says such officer shall serve without compensation.

Dr. H. A. Anderson who has held the position of county physician for the past two years, handed in his resignation, which was accepted, and Dr. Mayo appointed in his stead, as health officer of district No. 1.

On motion of Dr. Mayo, it was decided to urge more stringent measures against smallpox and see if the disease could not be stamped out. If development of any of the cases can be traced to dances, saloons or Gier gathering places, these may be stopped. More accurate records will be kept of all mat. ters pertaining to the smallpox ravagei

It was also determined that the county would establish an isolation hospital of its own, somewhere in district No. 2, (the Murray district). Heretofore the city and county have united in maintaining an isolation hospital—the city furnishing the buildings and medical help, and the county the food supplies, which the health board claim has be-come too expensive. The patients at the hospital appear to develop huge ap-petites upon being taken there for treatment. Large orders are sent down nearly every day for oysters, highorgan for the association came up for consideration with the result that the National Shepherd's Bulletin, Mr. Ben-nett's paper, was selected. The con-stitution and by-laws adopted on Satclass fish and various other fancy edi-bles, including canned goods and fruits, besides the more common articles. The county health board thinks it can't stand this heavy expense, and there fore intend to establish their own hos-pital and operate it on a more economical basis, hoping to have the same result in a saving to the county's finances. The board will meet in regu-lar session next Saturday at 10:30 a. m., to further consider matters pertaining to the county's health.

Whether the story has any element of fact about it or whether it is woven for the purpose of assisting king to get a new trial and to escape answering for the crime that twelve jurymen said he was guilty of, remains to be seen, Chief Hilton and Detective Sheets take the latter view and they take it most positively. They say that King's identification in the trial was absolute identification in the trial was absolute and complete in every particular. They also say that King, who wanted a separate trial, readily consented to be tried with Lynch when the latter de-clared he would "tell the whole thing" unless that was done. If he had not been a guilty man, the police say, he never would have consented to such a

proceeding. CHARGES AGAINST HAMILTON. It was learned this afternoon that three more charges are to be filed against E. W. Hamilton, the man who is so handy with his revolver. The complaints will be filed at once by County Attorney Christensen, charging Hamilton with attempting to murder O. P. Pratt and Officers. Mar-vin E. Pack and Jim Williams.
