The French Ministry Defeated. Paris, March 40 .- The Chamber today, by a vote of 268 to 237, despite the opposition of the government, voted for extreme urgency for the left bill dent Head, asking that Congress at providing for a revision of the constitution. resigned. The government thereupon

resigned.

Laguerre proposed the motion for urgency for the revision of the constitution. Several bonapartists declared they would support the demand so far as it was an appeal to the people. Minister Viette asked the Chamber to await the return of President Tirard from the Senate before deciding. M. Brisson said he was opposed to revision, and alluding to Boulanger said the satisfaction which would be afforded by the adoption of the measure ought not to be given to a person who and attacked the institutions of his country and talked of purging the Chamber. Minister Sarrien urged the Chamber to reject the demand. M. Goblet thought that a revision of the constitution.

By Col. Standart, demanding that the various roads carrying beeves to market from the range country, give members of the improved stock cars now offered, thereby reducing shrinkage, as well as being a humane act appreciated by all; also, a reduction of rates in proportion to the decline prices realized. The resolution requests every rangeman to patronize the road first adopting these cars.

By Mr. White (Texas), urging that the Congress of the United States take eff all duties on cattle and beeves imported from Mexico.

After the transaction of other routine business, adjourned to witness the jubilee parade and to meet again at 10 o'clock in the morning. COTTON CARVASS of all numbers—14 to 15 inches wide, for Deck, Car, Frusk and Wagon Coverings, Machine Aprons and for other purposes, constantly in store and

Premier Tirard, who had entered during the debate, declared that he fully agreed with Sarrien. If the Chamber decided to consider the urgency proposed the ministry would decline all responsibility, as such action on the part of the Chamber would furuls a free argument in favor of the audacions manifesto issued by the udacious manifesto issued by the

ment of the Nord, where he will commence the electoral campaign in favor of Boulanger. The general himself will explain his programme at a banquet which will be given at Lille.

The Chamber, after a short recess, reassembled at 9 p.m. M. Cuncod Nornano, Bonapartist, moved that the Bureaus tomorrow appoint a committee to prepare for a revision of the constitution. After a confused debate Desonnier, of the left, urged the Chamber to await the formation of a new cabinet.

Nornano's motion was rejected by a ment of the Nord, where he will com-

Nornano's motion was rejected by a vote of 253 to 195, the right cheering roulcally. The Chamber then adourned until 2 p.m. tomorrow. The Senate has finally adopted the oudget as modified by the Chamber of

Deputies.

President Carnot has accepted the cesignation of the cabinet. The miningers, however, will conduct the affairs of the several departments until their uccessors are appointed. It is exected that Flouquet will be summoned o form a cabinet.

Deroulede, when questioned in rerard to the crisis, said the intrigues
and jealousies of statesmen were ruinng France. He feared war with Ger-

nany at the present moment. France nust be set on her teet. The only man able to raise her was Boulanger.

CHICAGO, March 30 .- No work has been done by the regular St. - Paul witchmen this morning, but the fficials of the road succeeded in movng out the new cars which caused yeserday's trouble, under a guard of linkerton men. The strikers, however, tid not attempt to interfere with the workmen; 100 new mes have already been engaged by the company to take the places of the strikers. Passenger crains have all been running today and the probability is the running of freight CHICAGO, March 30.—The force of armed men at the Burlington yards was increased today by fifty, and the new engineers and firemen were provided with arms also to a large extent, he rest being promised arms at once. At the headquarters of the Brotheracod this evening, an extension of the strike to the Fort Wayne line was considered as among the possibilities of the future, but whether as a result of the macting this afternoon would of the future, but whether as a result of the meeting this afternoon, would not be stated. Announcement was made authoritatively, that the Brother-nood on the Milwaukee & St. Paul coad from Chicago to Savannah, Ill., and Milwaukee had left their angines, and would stay out until their Q. rouble was settled. It was thought hat unless they went back within a very short time a general strike on the St. Paul system would be the result, and the general boycott has already extended to the road, pending an adjustment of matters. The engineers and firemen who run from here to savannah hive for the most part in Chicago, and they left their engines in the round house this morning and came home on the passenger trains. came home on the passenger trains. The Milwaukee engineers abandoned their engines at that point. About 250 men, it was asserted at the Brother-

good headquarters, are out on the Denver's Grand Celebration DENVER, March 30,-The fifth day of the great celebration of the opening of the Panhandle route was the grandest of the week. It proved a "day of days," not only so far as the celebra-tion was concerned, but also meteor-ologically, and more beautiful weather ologically, and more beautiful weather sever was enjoyed in Denver. The street along which the parade passed was one wilderness of flags, bunting and banners, while the pavements for miles were one mass of humanity, so closely packed that sil travel had to be suspended for several hours. Banks, state and federal offices were closed, and all business suspended from 1 to 0 p. m., and it is estimated 75,000 people witnessed the pageant, which without doubt was the grandest ever seen in this country. The column of the parade was over four miles long, and formed upon Fourteenth Street as fol-

ormed upon Fourteenth Street as fol-First Division, Commander J. W. Browning, G. A. R.; Marshal, Chief of Police and staff, mounted; Grand Marshal R. R. Another Crisis in the Affairs of
France—the Ministry De
grand trades display on wheels, consisting of 300 floats.

The line began moving promptly at 2 o'clock, passing through the principal streets of the city. The greatest enthusiasm prevailed. Crowds gathered to witness it.

The celebration will conclude to-morrow with a grand barbecue at Union Stock Yards. Arrangements bave been made for the entertainment of five thousand people.

The Cattlemen's Convention. DENVER, March 30 .- The third day's session of the International Range Association was called at 11 o'cleck this morning. After prayer the report of the committee on revision of the con-stitution and by-laws was submitted. It coincides substantially with the old It coincides substantially with the old constitution and by-laws, except in sections affected by the reduction of the fees, and initiation and membership of the association. An additional section was made previding that the annual meeting of the association shall be in Denver the fourth Tuesday in March. The revised constitution was ordered printed for distribution.

Several resolutions were presented and adopted. Among them the following are the most important:

channel at some point on the Texas

tine business, adjourned to witness the jubilee parade and to meet again at

Further Details of the Explosion KANSAS CITY, March 30 -The Times reporters sent by special train to the scene of the Rich Hill mine disaster, returned tonight, and from their indismissed general.

The deleast of the ministry caused a sensation in the Chamber. As soon as the vote was announced, M. Tirard departed for the Elysee Palace. Laguerre proceeds tomorrow for the Departson on the company of the making the probable loss of life by the explosion thirty. Some claim natural gas was the formation the situation may be sum-

cause of the explosion, while others contend the accumulation of foul gases without proper ventilation was the real cause. The state mine inspector examined the mine March 6th and pro-nounced it safe. The Richaeld Herald this evening strongly denounces him and demands

his immediate suspension from office.

A dispatch to the Associated Press
from Rich Hill says that the only shaft
the mine had was a section partitioned
off of the main shaft, and this was
blown to pieces by the first explosion, consequently no air could be forced in-to the mine until the south half of the crib shaft had been converted into an air conduit. Taere ems to be no question but the explosion was caused by natural gas which abounds in the earth in a large section of the country hereabouts. Frequent explosions and great damage from it have occurred here before. The state mine inspector, though having ported the mine in excellent condition knew of the existence of gas in the mine and has frequently so stated un-officially. Such great indignation pre-vails among the miners that it would be dargerous for the inspector to put in an appearance here. Experienced miners say if there had been a separate air shaft the consequences would have been much less disastrous. The bodies of the dead brought up are terribly burned and present a horrible sight.

WASHINGTON. The Woman's Convention-Civil Ser-vice Rules, Etc.

WASHINGTON, March 30 .- The House committee on invalid pensions today appointed a sub-committee to take un der consideration the various bills now before congress looking to the repeal of the limitation clauses. General Black, Commissioner of Pensions, has estimated it will take between \$200,000,000 and \$300,000,000 to pay all the
claims for arrears of pensions should
the limitation clause be repealed.
The House committee on military aftairs has ordered a favorable report on the Senate bill providing for the erection of a monument at the Gettysburg battlefield to the memory of the regular soldiers.

The bill to extend government aid to state soldiers' homes was referred to a sub-committee with instructions to

prepare a favorable report. After a long partisan debate the House passed the bill granting a pension to the widow of Gen. Logan—yeas 154, nays 95.

In the Woman's Suffrage Convention this morning Mrs. Elizabeth Liste Saxon of Tennessee, created a sensa-

tion by her discourse on "Social Pur-ity." She spoke very plainly of the social evil, of the imprudence of wom-en in not confiding to their children the great secrets and truths of life, instead of letting them learn from chil-dren and servants. Mrs. Armiston Chant vouched for the truthfulness of the charges published in the Pall Mall Gazette, saying she would stake her life on their correctness. She spoke principally of the work of the social purity societies of Great Britain. Girls, before there was legislation in the matter, were taken by droves by procuresses to the continent to fill houses of ill fame, under pretense of getting them places at services.

Harriet B. Shattuck and Clara Clayborne Hoffman spoke in the same strain as Mrs. Saxon had done. All remedies would be but partial and disappointing until woman stands everywhere in perfect equality with man, until society and church and law regard marriage as a perfect partner-ship, and she an equal partner. The horror of lustful children being brought into this world will continue until woman is recognized as having brought into this world will continue until woman is recognized as having the right to say when the new life shall begin. Parents, when that time arrives, will have no shame in teaching their children the mysteries of life.

Francis Willard, as a preface to her remarks, read a petition to be signed, urging Congress to pass a bili to raise the age of consent wherever it has absolute control, to 18 years. She attacked low necked dresses, and said those wearing them borrowed the idea from women whom they would be ashamed to touch. She also condemned the half-nude pictures of women as advertisements. She touched upon the impropriety of stage dressing, and the evils of round dancing.

The President and Mrs. Cleveland gave a special reception at the White House this afternoon to members of the Women's Council.

At the evening session the theme for discussion was "The Political Condition and Women's Right to the Bal-

CIVIL SERVICE. The President has sent a long letter to the civil service commission recommending the extension of the limits of the classified service. He says: I desire to make a suggestion fre-garding sybdivision C, general rule 3,

garding sybdivision C, general rate 3, of amended rules, promulgated on February 2. It provides for the promotion of an employe in a department who is below or outside the class field service in the same department, upon request of the appointing officer, upon the recommendation of the commission and the approval of the President after a non-competitive examination in case a non-competitive examination, in case the person has served continuously for two years in the place from which it is proposed to promote him. This provision must be executed with caution, to avoid the application of it to cases not intended and the undue relaxation of the general purposes of the civil service law. Non-competitive examinations are exceptions to the plan of the act, and the rules permitting the same strictly construed. Cases arising same strictly construed. Cases arising under the exception above recited should pracisely meet all the requirements specified, and should be supported by facts which will develop the basis and reason of the application of the appointing officer; and which will commend

them to the judgment of the commission and the President. The sole purpose of the provision is to benefit the public service, and it should never be permitted to operate as an evasion of the main feature of the law, which is competitive examinations. As these cases will first be presented to the commission for recommendation, I have to request that you will formulste a plan by which their merits can be tested. This will naturally involve the statement of all the facts deemed necessary for the determination of such applications."

Attention is also called to the necessits of a better and uniform classifica-

sity of a better and uniform classifica-tion of employes in the different de partments. After referring to the several classifications and grades of salaries in the government departments, the President says:
"I wish the commission would revise these classifications and submit to me a plan which will, as far as pos-

sible, make them uniform, and remedy the present condition watch permits persons to enter a grade of service in one department without any examina tion, which in another department can only be entered after passing such examination." One of the commissioners said today that the views of the commission are in full accord with those of the Pres-

Washington, March 30 .- The Senate amendments were non-concurred in, to the House bill authorizing the Presi-dent to arrange a conference for the purpose of encouraging reciprocal United States and the Republics of Mexico, Central and South America, and the Empire of Brazil. A joint resolution appropriating \$25,-000 to enable the United States to participate in the International Exhibition to be held at Barcelona, Spain, in April,

1888, was adopted.

The House bill granting a pension of \$2000 per annum to Mary S. Logan and the Senate bill increasing the pension the Senate bill increasing the pension of Appolin A. Blair to \$2000 were taken up. A long debate took place between Cameron, Mason, Springer and Henderson, of Illinois, Warner, Dockery and Cochrane, of New York, who favored the bills, and Tarsney, of Michigan; Taulbee, of Kentucky, Waiker, of Missouri, Wilson, of Minneapolis, and Matson, of Indiana, who opposed the bills. The advocates of the bills claimed that the services of such men as Logan and Blair could not be measured by dollars and cents. teat a fairure to pass the bills would discourage the display of patriotic devotion in the future.

The opponents of the bills said it was an attempt to establish class leg-

islation, and they could see no reason why preference should be given, in these cases, over the widows of other gallant soldiers, such as Canby, Meade and Phil. Kearney.

The Logan bill was passed by a vote

of 154 to 95, and the Blair bill passed by a vote of 148 to 91. The evening session of the House will be devoted to the consideration of private pension bills.

The House at the evening session passed 24 pension bills and adjourned until tomorrow.

Beaths by Fire and Flood BERLIN, March 30 .- Three villages iear Caristadt have been destroyed by One hundred houses were

burned in Skome, and many lives lost. Six hundred persons are homeless in The River Seine has overflowed its banks and said waste many villages.

MACON, Mo., March 30.—Four children of T. S. Richardson, a fagmer near here, were lett alone in the house while the parents went to town. While while the parents went to town. While playing with matches the house was set on fire and three of the children burned to death.

Terrific Explosion."

ATHENS, March 30 .- A powder magasine in the fortress on the Island of Santa Mauria exploded today. At last accounts a fire was raging in the fort-ress, and it was feared that two other magazines would explode. The loss of life is not known. The inhabitants of the adjacent towns have deserted their homes.

A Collossal Theft. Parts, March 30 .- A Greek named Raptoperilos was arrested here today

for robbing the Numismatic Museum at Athens of ancient medals and coins of the value of 30,000,000 francs. Fatal Fire in Hungary

PESTH, March 30 .- A number of fires occurred in Hungary during the prevalence of the gale. At Kilkinda 1500 persons were rendered shelterless and are camping out in the snow. Thirtyeight houses were burned and many lives lost at Mezoberenx.

\$14,000,000 for the Cauada Pacific. MONTREAL, March 30 .- A cable disitatively the conclusion of negotiations between the Canadian Pacific Railway and the Dominion Government by which the road is to receive a loan of \$14,009,000. The Times says that for the remainder of its monopoly the road is to receive £3,000,000 in bonds.

A WOMAN'S DISCOVERY. "Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. Sue bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been mirroulously cured. Her name been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Sheiby, N. C. Get a free trial bottle at A. C. Smith & Co.'s Drug Store. (2)

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind. testifies: "I can recommend Electric Bitters as the very best remedy. Every pottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, draggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at A. C. Smith & Co.'s Drug Store.

HOT FORGED NAIL

Every Putnam Nail

s drawn down to a point from the red, thus:

receiving over sixty quick, successive sharp blows, at a welding heat. They are then scalded by the water. NO ACIDS being used, and afterwards HAMMER POINTED. Our nails, therefore, are to all intents and parposes the same as the old fashioned hand and hammer Some other manufacturers claim to make a Hot Forged Nail, but you will observe on all such a Sheared Edge near the point.

NAIL

IS THE ONLY Hot Forged and Hammer Pointed HORSE SHOE NAIL

Made by Machinery in the

World. We address these lines to HORSE OWN-ERS, because they are the parties most vitally interested. We feel assured that after knowing the facts, and giving the sub-ject due consideration, they will INSIST that their horses be shod with the Hot Forged and Hammer Pointed Nail. A few months' trial will always convince.
