BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus defiled, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. H. Hagen placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The Magnolia Balm is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all the marks and conceals every drawback to beauty; and, while it is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using Hagan's Magnolia Balm, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

STRAYED OR STOLEN.

ON MONDAY, Sept. 2nd, from the residence of Mrs. Mary Godbe, a Red Durham Milch Cow, with short horns, branded with a slipper on left hip.

Anyone giving information that will lead to her whereabouts will be liberally rewarded by calling at 1st door north of the Liberal Institute, or to

EASTERN.

THE YELLOW FEVER SCOURGE.

Cool Weather—Death of a Cairo Editor—The Death Rate—Appeals For Aid.

VICKSBURG, 12.—Weather cloudy and very cool. Strong north wind since yesterday, thermometer 83°. Among the deaths to-day are Dr. Potter and Dr. Benefildt, of Chattanooga, who came here to aid our sufferers. Two Doctors Benefildt and Norris, with ten nurses came from Chattanooga. Both doctors are now dead and nine of the nurses sick. It is best for physicians and nurses that have not had fever to keep away from Vicksburg. The fever this season is far more malignant than that of 1853. Deaths yesterday, 42; to-day, 32. The number of new cases is unknown, but it is generally thought by druggists that the fever is decreasing in new cases for want of material. The fever is spreading throughout Warren county. The Howards Association estimates that there are 3,000 cases and 500 deaths since the fever first appeared.

New Orleans, 12.—The death list contains the names of 14 children under 7 years of age. Dr. Herndon died to-day of fever. Among the new cases are C. H. H. Cottrell, a well known telegrapher, and Thos. E. Graham, clerk of the Western Union Telegraph Company.

Father Charles, at Ocean Springs, Miss., telegraphs: "Cases of fever here all doing well."

The St. Vincent Depoul Association of New Orleans, having notified the ecclesiastical authorities that it finds itself utterly unable to meet the increased demand upon its usual work of charity in consequence of the great destitution resulting from the prevailing epidemic, at the suggestion of the very Rev. G. A. Rouxel, vicar general of the arch diocese of New Orleans, a Catholic Relief association has been formed whose province it will be to aid in collecting funds for the support and care of the large number of helpless widows and orphans, irrespective of creed or color, whom this scourge must necessarily bequeath to any already impoverished community, and over-crowded asylum. This association, therefore, earnestly appeals to the most reverend archbishops, to the right reverend bishops and clergy, to all Catholic organizations, to all individual Catholics and charitably disposed persons to aid in the good work of relief. Now, on the approach of winter, all contributions will be most thankfully and publicly acknowledged, and the same should be addressed to the Very Rev. G. A. Rouxel, president and vicar general of the archdiocese of New Orleans, or to either of the following: Thomas Layton, Jas. G. Tarleton, E. Connery, J. B. Layfette, John T. Moore, senr., or John T. Gibbons.

Grenada, 12.—Fourteen new cases and two deaths to-day. L. T. Lehman and Mr. Applegate will probably die to-night. They are both entirely unconscious. Frank Shaw, of Mobile, and Mrs. Cole died last night. The end has not come yet.

Baton Rouge, 12.—New cases for the past 24 hours, 35; deaths none.

Cairo, 12.—Thomas Nally, an editor of the *Bulletin*, died, to-day, of what physicians pronounced, at the last moment, to be yellow fever. Isaac Mulkey, an employe of the *Bulletin*, is very low with the same complaint. The *Bulletin* this morning reported Nally recovering from bilious fever, and until noon this was believed to be the fact. The announcement of these two cases of yellow fever created quite an excitement, and many are leaving the city to-night.

Memphis, 12.—The weather is cool enough to-night to make light overcoats feel comfortable, and the little band of workers are hoping for frost. Death is still busy, having added 98 more in the past twenty-four hours to the number already reported. The list of new cases shows no decrease. Twenty-six were reported to the board of health. Hundreds of lives are being saved at Father Matthew's camp. Father W. Walsh appeals to his friends of the Catholic unions to send immediately blankets, stockings and underclothing for hundreds who need them sorely. Money is also needed to assist the needy and bury the dead. The bankers and few business men remaining are overwhelmed with relief business, and request the public abroad not to impose on them so much business of a trifling character compared with the great work in which all are at present engaged.

Chicago, 12.—Henrietta Tobey died here, to-day, from what her physicians says is yellow fever modified by climatic influences. She was formerly from Maine, but came here from Memphis, where her husband died recently.

Kellogg and Kills.

Washington, 12.—Senator Kellogg has sent the Secretary of the Navy the recently published open letter of Lieutenant Commander Kills. The Senator says: "I must, in justice to myself and the profession he disgraces, ask that his conduct in this regard, as well as in other respects, be investigated, to the end that his real character may be known." The navy department had previously asked Lieutenant Commander Kills for a copy of his letter to Senator Kellogg.

The Trade with China in Woolen Goods.

In a previous dispatch of the consul at Amoy, the subject of trade with China in cotton goods was fully discussed. He now reports to the department of State some important facts and suggestions relative to the trade in woolen goods. The States of the Pacific, especially California and Oregon, possess advantages for competing for the woolen trade of China, which nothing can change or take away. Both San Francisco and Portland are nearer, by some thousands of miles, to all parts of China than any port of any other competing State in the world. The great valley of Columbia contains 100,000,000 acres of first-rate sheep pasturage, with a larger population, cheaper labor, and with the completion of the Northern Pacific R. R., the buzz of millions of spindles will be heard on the banks of the Oregon. California wool, and the coarser grades of Oregon, seem just adapted to Chinese uses. Some English writers have imputed the present demand of woolens in China to the enhanced cost of silk, and predict that a revival of the silk industry will cause a corresponding decline in the use of woolen goods. The consul shows that such views are erroneous. Amoy is the old and natural home of the silk worm and mulberry tree. Here Marco Polo discovered the beautiful cloth which he called "Zaitun," satin. Observations from this point do not sustain the English theory. The demand for blankets, displacing dirty cotton coverlets, will certainly continue, and may be increased enormously. The use of all kinds of woolen goods must improve in their prices approximate to those of cotton. Among other American articles made of wool, rugs, with pictures of tigers, dragons etc., interwoven, are exceedingly popular.

The Custom House Investigation.

NEW YORK, 12.—Fernando Wood, chairman of the customs house investigating committee, alone conducted the inquiry to-day, his associates of the committee being still absent. Mr. Wood says he will go right through with the investigation whether they turn up or not. Auditor Friechel explained his system of book keeping, which differs little from any other. Mr. Wood put in evidence a number of vouchers for moneys paid to deputy collector Blatchford. Among the items were $165 for July, for a horse and wagon to convey papers between the customs house and public stores and the appraiser's office. Another was the pay roll of openers and packers in the appraiser's department, by which it appeared that no laborer got less than $3 a day and many $375. Deputy Collector Phelps, law advisor of the collector, told all about the matter of bonds, drawbacks, etc., and contradicted the statements of Jackson Schultz, made the day before, showing that the gentleman had been misinformed upon the subjects forming the burden of his address to the committee.

Fatal Railroad Accident.

An accident occurred on the Long Island and Southern Railroad, two miles from Hunter's Point, this morning. An engine and three cars were thrown down an embankment; one man was killed and several severely injured.

Gen. Miles' Fight with the Bannack Indians.

BISMARCK, 12.—The rumor that Miles has had a fight with the Bannacks in Yellowstone Park is generally credited here. It is known that after leaving Fort Keogh with his party, they struck a fresh trail, and apprehending danger, the ladies of the party were sent to Fort Ellis, while the command went in pursuit of the Indians. A brother of Senator Dorsey, who left Keogh on the 5th inst., says the report that Miles had a fight, in which twenty-seven of his escort were killed and the remainder surrounded, had reached there, and that two companies of mounted infantry from Fort Custer and a band of Cheyenne Indians from Fort Keogh had gone to their assistance. The mail was held at Keogh a day and a half for particulars, but left without any. The steamer *Batchelor*, which left Keogh twenty-four hours later, has nothing additional. A report has just reached here that over 1,000 hostile Sioux are on Sandy Creek, near Fort Custer. An officer of the mounted police, arrived here to-day from Fort Benton, says that Sitting Bull and his entire force are on this side the line, splendidly armed and equipped.

CHICAGO, 12.—The *Inter-Ocean* has a special from a reliable correspondent with Gen. Miles, dated Mammoth Springs, National Park, Sept. 9th, which reports a fight with the Bannack Indians on the morning of the 4th, in which Miles with 27 men of the Fifth Infantry and 35 friendly Crows, surprised the Bannocks at daybreak, and after two hours' battle, in which Captain Bennett, company B, Fifth Infantry of Little Rock, a French scout, and one Crow Indian were killed in his force, and 13 Bannacks were killed, 34 Bannack men, women, and children were taken prisoners and sent to Fort Keogh. Twenty-two Indian horses were killed, and 200 captured. It is believed that Miles has thus closed the Bannack war.

The Callison Murder.

DEADWOOD, D. T., 12.—The preliminary examination of M. L. Couk, for the murder of Mrs. Callison, was concluded to-day. The accused was held without bail to await the action of the district court. The facts elicited are as follows: Couk and Mrs. Boughton had been on intimate terms for some time and had formed a conspiracy to dispose of Boughton, a prominent business man of this city, and elope, taking what property and money they could get hold of. This was confided to Mrs. Callison, who exposed the plot to Boughton, and he charged his wife with it. To prevent the exposure, Mrs. Callison was murdered, either by one of the conspirators or parties in their employ.

WESTERN.

Relief for the Sufferers.

SAN FRANCISCO, 12.—The citizens committee estimate that $46,000 has been sent to the South from this city. The matinee this afternoon, at the California Theatre, for the fever sufferers, netted over $2,600.

FOREIGN.

GREAT BRITAIN.

The Abercorne Colliery Explosion.

LONDON, 12.—The Abercorne colliery is the property of the Ebbes Vale Steel, Iron and Coal Co., one of the largest iron and coal proprietors in South Wales. It is situated a few hundred yards from the Abercorne Railway Station in the western valley section of the Monmouthshire Railway pit, which is 330 yards deep, one of the longest and best worked in the district, and was yielding 1,000 tons of steam coal daily. The machinery for winding, pumping and ventilating was of the best kind, and the use of safety lamps in the mine was rigidly enforced. The cause of the explosion cannot even be surmised.

Three detonations were successively heard on the surface. The frame works and castings of the pit were thrown to a height of 300 feet above the mouth of the shaft. The colliery employs upward of 1,000 hands, of whom 378, taking their turn or "shift," went down at 11 o'clock yesterday morning; 21 of this number came up at noon, up to which time nothing had occurred to create suspicion of danger.

At 12.10 p.m., a loud rumbling noise was heard, quickly followed by a series of flames from the pit's mouth, and a column of smoke and dust and debris ascending high in the air. The explosion damaged the winding gear, thus destroying the only means of communication with the men in the pit.

As soon as the gearing could be repaired, working parties were sent down the shafts, and 82 men and boys, working within a few hundred yards of the shaft, were rescued. But it became evident, as attempts were made to advance into the workings, that little hope could be entertained of any one surviving.

About 400 yards from the bottom of the shaft are stables, and here 14 horses were found, all dead. Beyond this point the explorers could not go on account of the impurity of the air and prevalence of chokedamp. Volunteer explorers succeeded in bringing out 10 or 12 men very much burnt; also seven dead bodies, but it is feared no others can be, for the present, got at, in consequence of the fire extending, and there remains no reasonable hope that any further lives will be saved.

The whole district of Monmouthshire is much excited, and it seemed, last night, as if the entire female population of the district had gathered about the mouth of the shaft.

TURKEY.

Russian Troops for Home.

CONSTANTINOPLE, 12.—Forty-six thousand Russian troops have embarked for home, and 34,000 are yet to go. The Porte has been informed that England will probably not adhere to Germany's proposal that the signatories of the treaty of Berlin bring the Porte to execute the stipulations of the treaty.

Grain Tax Remitted.

Bakers of Constantinople discontinued the sale of bread because of the high price of wheat and the depreciation of currency. The Sultan thereupon remitted the grain tax, and he has appointed a commission to devise means for restoring paper currency. The commission will recommend the conversion of the currency into a four per cent. loan, secured on specific revenue, to be set apart for that purpose.

Mehemet Ali Pasha's Massacre.

Albanian insurgents have celebrated the massacre of Mehemet Ali Pasha as a victory. The agitation in Albania is increasing. Fresh outrages are apprehended and Christians are fleeing into Montenegro. The Albanian league is sending forces to Uskub and Mitrovitza, and into Epirus. The latter movement is intended to forestall the cession of Epirus to Greece, or to prevent a Greek rising.

Amnesty to Catholic Priests.

The grand consul of Switzerland has granted amnesty to 93 Catholic priests, deprived of their livings in 1873, for refusing to comply with the requirements of the state.
