

Rock is a part, they were at five per cent. and in some counties seven and three-tenths. Pulaski county scrip went down to ten cents, school warrants were bought at six, and some are even now worth no more. Other counties were but little better off, and the book-keeping has been such that it is impossible to tell how much is really owed. In Pulaski county even the register of bonds has been, as a public advertisement in to-day's paper says, "lost or stolen," and the bondholders are now requested to come forward and register their bonds before the coupons shall be paid.

To return to the railroads. Where their embankments would serve as levees they were allowed levee bonds in addition to the aid bonds; and, not content with this, in one case twenty miles of track having been laid on a road, accepted and the bonds received, the iron was taken up and removed to another road, where it sufficed to obtain from the treasury another \$300,000 in bonds.

CHAS. NORDHOFF.

BY TELEGRAPH. AMERICAN.

WASHINGTON, D. C., 26.—Secretary Delano, to day, freely expresses the belief that the recent newspaper charges affecting his official integrity are the result of a conspiracy to compel his retirement from the cabinet; he is in receipt of numerous letters from friends in various sections of the country, advising him to abandon his purpose, formed, as he has stated, last fall, to resign about this time. Secretary Delano now says that in accordance with this advice, and with his own judgment of his duty to himself and to the republican party, he has postponed his resignation indefinitely.

The Postmaster General, to-day, issued an order cancelling all the awards of contracts heretofore made in favor of Jerome J. Hinds, Patrick Laughlin, John W. Delaney, Wm. Weis and Wm. Ciddings, these being the names contained in the proposals fraudulently imposed upon the department by the complicity of the clerks at the last regular letting. The order directs the contracts to be immediately awarded to the respective bidders whose proposals are the next lowest in amounts to the proposals thus rejected.

There was a consultation at the executive mansion between the President, Secretary Fish, P. M. General Jewell and Secretaries Belknap and Robeson; it is the impression that the conference was in reference to the successor of Attorney General Williams.

The Treasury Department has decided that where goods are imported under the act of 1870 for transportation, without appraisal, to an interior port, they are liable to duty under the tariff in force at the time of their first arrival in this country, and not under an act passed subsequent thereto but before their arrival at the interior port; this decision may involve a change in some important decisions heretofore made under the act of 1870.

The Postmaster General, this morning, received the following dispatch, which he has forwarded to the Secretary of State:

"CORPUS CHRISTI, Texas,
"April 24, 1875.

"Postmaster General, Washington—The postoffice was robbed and plundered at Carizoo, on the 19th inst., by Mexicans; Dr. Lovell was killed. The Custom House safe is in the same building, but as far as known it could not be opened. Particulars will be reported by mail. All here are on official duty."
"(Signed)

"H. MCLELLAND, Postmaster."
The President will, to-morrow, appoint two paymasters in the army to fill the vacancy caused by the Senate refusing to confirm two nominees for positions before adjournment; these appointments will be made in accordance with the decision of the Attorney General to-day, to the effect that the President has authority to fill these vacancies.

Two passenger trains on the Baltimore and Potomac railway came in collision this afternoon, near the eastern branch; both trains were badly wrecked, and eight or ten people seriously injured. Both engines and four cars were demolished. The cause of the accident was

one train running off the switch ahead of time.

NEW YORK, 26.—Great preparations are making at the cathedral for the ceremonies of imposing the beretta to-morrow. This p.m. Jno. Blake and Thos. Boylan quarrelled in a blacksmith shop, when Boylan threw a horse shoe at Blake, striking him in the neck and killing him instantly; Boylan escaped.

CHICAGO, 27.—Gen. J. H. Hoffman, recently appointed by Supervising Architect Potter to succeed J. C. Rankin as superintendent of the new custom house and post office building now being put up here, arrived yesterday, and has made a partial examination of the work done; he finds such defects in the walls that it is feared they will have to be taken down. These defects are partly owing to the use of "patched" stone, and partly to poor work on the part of contractors. Various irregularities have been charged upon the former superintendent, but so far they appear to be confined to what the above facts indicate.

A Washington special says that the *Evening Star* says editorially—"It is now said that the efforts to displace Secretary Delano arise from a combined movement on the part of Senator Mitchell, of Oregon, Ben. Holladay, Rufus Ingalls, and others who want him replaced by some person who will join them in securing, to a corporation already formed, and in which they are interested, the Black Hills country;" the same special says that Gen. Butler is making strong efforts to secure Attorney General Williams' place, but that the chances are against him.

NEW YORK, 27.—Five archbishops, sixteen bishops and two hundred and fifty priests have arrived here to participate in the ceremony of presenting the Beretta to-day.

FOREIGN.

PANAMA, 16.—Bolivian advices state that on the 18th of March last President Trias left La Paz for Oruro, taking with him one-half of battalion No. 1 of the line, the other half remaining in Viachia. The rebel citizens of La Paz, when they thought the President was far enough away, broke out into revolution. The council of ministers and a small force of young men of good families shut themselves up in the government palace, determined to resist any armed attack by the people, when a terrible and unyielding struggle took place. The people on their part tried to fire the palace, women even took part, in communist-like ferocity, and threw burning sheets dipped in kerosene on the roofs. While this was going on a messenger left for Viachia, and informed the commander of the half battalion that was there of what was taking place at La Paz. Granier at once put the force in motion, and pressed his men over six leagues at quick march, and arrived at La Paz just as the young men who defended the government house were about to surrender; he immediately charged the rebels and routed them, killing 58 and wounding a great number.

LONDON, 26.—Winwood Reade, the well known author of books of travel, is dead.

The Lord Mayor of London will go to Dublin in state, to attend the banquet given to the American Rifle Team on its arrival; he will give a dinner at the Mansion House, London, in honor of the American Rifleman after the international contest.

PARIS, 26.—*L'Univers* publishes letters of sympathy from the Roman Catholic Bishops of Great Britain to the Bishops of Germany and Switzerland; the letters to the Swiss bishops are especially severe in condemnation of the old Catholic movement.

The Cincinnati *Times* calls attention to a Bessie Turner bonnet, which is "very smart and will stand the crassest examination."

It's the fashion in Florida to wear gloves out at the tips of the fingers, in order to better scratch the flea bites.

Mr. Evaris has the largest nose of any lawyer in the case. It is also a pale, thin, studious-looking nose, and hasn't shed a tear during the whole trial.

London has more Jews than Palestine, more Scotchmen than Edinburgh, more Irish than Dublin, more Catholics than Rome.

GRAEFENBERG MARSHALL'S UTERIN

CATHOLICON.—This world-renowned medicine has performed some of the most startling cures on record of cases of Female complaints of long standing. It has the endorsement of leading members of the faculty, and should be in every household to relieve and permanently cure the diseases to which the female sex are peculiarly liable.

GRAEFENBERG CHILDREN'S PANACEA is the only safe and reliable medicine for children. It is purely vegetable.

GRAEFENBERG VEGETABLE PILLS are milder than any others. They cure Headache, Biliousness and all diseases of digestion.

The above medicines are sold by Zion's Co-operative Mercantile Institution and by all druggists throughout the country. w37 ly

CONTINUED TRIUMPH

OF THE

"Chicago Pitts"

THRESHERS & SEPARATORS

AND

LIGHT DRAFT HORSE POWERS.

Threshing, Separating and Cleansing all kinds of Grain and Seeds, without waste or loss of time by Slow Work, and Heavy Draft on the Teams.

Threshermen buy them and Farmers employ them on account of their Reliability and Durability.

FARMERS AND THRESHERMEN LOOK TO YOUR INTERESTS.

BUY THE BEST; THE BEST IS THE CHEAPEST.

The intelligent, first-class, old experienced threshermen, and thrifty well-to-do farmers, buy and employ the "Chicago Pitts." Farmers employ them to thresh their harvest of grain and seeds, and often pay an extra price per bushel to the owners of Chicago Pitts Machines, because they thresh clean out of the heads, separate perfectly out of the straw, save the grain and seeds clean, fit for market, doing the work with the utmost speed, and do not keep a gang of men and teams on their place by reason of breakages, slow work and heavy draft on the horses.

Threshermen of long experience in the business buy them, because the Chicago Pitts is in perfect running order when it leaves the factory, and because of its superior durability and finish in all its parts, may be vigorously operated with the best results. It will thresh as much grain as any good set of hands care about handling, and it cannot be surpassed by any machine in the land, for Lightness of Draft and Good Work.

We have again secured the exclusive agency for the sale of these excellent machines and extras for repairs, for Utah Territory.

One of the Company visited us a few days ago, to ascertain precisely what was wanted in our dry climate, and we arranged with him for enlarged riddles and cleaning functions, also for two wheat riddles for each machine, one of them a fine mesh, to suit the wants of the farmer, for either foul or clean wheat; also for oats, riddles with a finer mesh, and enlarged elevators, on a different principle from the old. Warranted never to clog or choke under any circumstances.

The master wheel of the Horse Power of these machines is cast of a new pattern, much heavier than the old one, and is well banded with wrought iron.

We say, in confidence to our friends, that these light draught and durable Machines have no rival in this dry climate, and we offer them for sale at the very lowest possible living rates, and on easy terms; also all kinds of extras for repairs.

SEND FOR CIRCULARS AND PRICE LIST.

REUBEN MILLER & SON, Agents.

Mill Creek, Salt Lake County.

Our Railroad depot is at Little Cottonwood, seven miles south of S. L. City, and one mile east of depot is our place of sale.

FARMERS OF UTAH.
