

# MINING, BUSINESS AND STOCKS

## MINING STOCKS NOT ACTIVE TODAY.

Sales of This Forenoon Aggregated 6,725 Shares, Which Brought The Sum of \$5,365.

## CONSOLIDATED MERCUR WEAKER

None of the Park City Traders Participated, Except Daily-Judge, Which Showed No Improvement.

The mining stock market was inactive again this forenoon; the total sales aggregating 6,725 shares, the same bringing \$5,365.

In comparison with yesterday there was no change for the better in prices, nor is any radical change anticipated until the political battle now being waged in the municipality is brought to an end.

Consolidated Mercury continued low; closing at that condition. Daily-Judge opened at \$10.40, which was followed by a decline to \$10.30 bid. Sacramento was called out at about the usual prices. Lower Mammoth was offered at 32½ cents, while 25 cents was the highest price bid for it. There was some demand for Butler-Liberal, but no one was successful in bringing the stock out during the regular call; on the open board, however, 1,875 shares sold at 14 and 14½ cents. United States Mining was offered at \$19 flat, with no takers.

The sales and quotations of the forenoon were posted as follows:

TODAY'S QUOTATIONS.

## VALUES IN OLD DUMPS.

Fortune Awaits Someone in the Gold Hill, Wyoming, District.

Special Correspondence.

Grand Encampment, Wyo., Oct. 27.—Prospectors report that an examination of the dumps of a number of mines in the Gold Hill district which were abandoned four years ago has disclosed the fact that the ore is rich in gold and copper, and that with a mill on the ground a large fortune could be cleaned up by working over the dumps. The character of the ore on the dumps has satisfied miners and investors that Gold Hill is a most promising camp and preparations are being made to prospect there with vigor another year.

## DUCK CREEK DISTRICT.

Old Stromberg Lead Mine Being Operated After Years of Idleness.

Advices received from Ely, Nev., are to the effect that the Stromberg lead mine in the Duck Creek district, owned by Campion & McGill of that place, has been placed in operation again.

Several tons of rich ore was shipped from the property situated on the west side of the mountains one-half a mile east of McGill's ranch, in White Pine county, in one of the workings one and a half feet of solid galena ore, carrying better than 80 per cent silver and rich in silver values, is exposed, making of it a ready producer.

## SPOUTER NEAR DOUGLAS.

Officials of Northwestern Visited Wyoming Oil Field This Week.

Special Correspondence.

Douglas, Wyo., Oct. 27.—A gas spouter with 500 pounds pressure has been struck in the oil fields eight miles east of the city. Officials of the Northwestern railroad were on the ground when the heavy flow of natural gas was encountered. There is considerable excitement here as a result of the discovery.

## Cherry Creek Mining Notes.

James Byron returned from an exploring trip to the Dolly Varden district last week. He pronounces the copper mines of that district ahead of anything he has examined in Nevada. Work on the rich silver mine, the Star, is progressing in the upraise of the 70-foot level and the finest ore ever extracted from this mine is now being piled up in the company's ore bins.

John Sharpe, one of the owners of the American Eagle mine here, went to Denver and Cripple Creek, his home, last week on business connected with his mine. He will return this week. James P. Gaskill, formerly of the New York & Nevada Copper company, passed through Cherry Creek last week en route to Ely, where he has accepted a position with the White Pine Copper Company.

Sinking is being rushed on the Butte claim in Gold Canyon district, on a vein of gold ore which shows good values in panning. This is the claim of which a one-half interest was recently sold by the Miner for spot cash. R. P. Russell, a Colorado Springs and Cripple Creek mining man, who has been visiting and investigating the mines of this district with Sharpe and McMurray for some days past, returned to his home last week. He says that he has the finest gold showings he ever examined.—Cherry Creek Miner.

## CONCENTRATES.

James A. Cunningham departed last night for Idaho. Five cars of Butler-Liberal ore are at the sampler today. Wallace W. Wait, secretary and treasurer of the Blue Ace Copper company, will leave for Kansas City next Saturday.

P. L. Kimberly, of the Kimberly syndicate, which owns a control of the Andine Lead mine in the Gold Mountain district, arrived from the east yesterday afternoon.

Supr. Rob Hardy, of the Century mine in Park Valley, has returned from camp and brought down with him a gold brick valued at about \$4,000.

The officials of the American Smelting & Refining company, who have been in this direction, are scheduled to reach the city next Sunday.

The majestic smelter at Milford will be blow-in again within the next few days.

The work of constructing the new Ontario mill at Park City is progressing nicely and the management expects to have the plant ready for commission by the end of the year.

The Sevier Con. mill in the Gold Mountain district is running steadily and is said to be doing splendid work.

Manager A. H. Mayne of the Minola of Park City is expected to return from Omaha by the end of the week.

The ore and bullion settlements for yesterday were as follows: Crude ore and concentrates, \$21,200; base bullion, \$29,300. Total, \$50,500.

General Manager Salesbury of the Daily-Judge, visited that property yesterday.

George Z. Edwards contemplates a trip to the Tonopah district in the near future.

M. C. Harrington, formerly of Park City, but who has been in Silverton, Colo., for some time, has returned.

The assessment of a cent a share on the stock of the New Red Wing Mining company becomes delinquent today.

Charles Vadner has entered into a contract with the Bingham Consolidated Smelter management to deliver ore from the Nevada property over which he has had supervision for some time.

William H. Krutzer, well known in this city, has accepted a lucrative position with the Joshua Hendy Iron Works company of San Francisco.

At the delinquent stock sale of the Bingham-Centennial Mining company, held yesterday, 7,000 shares were bought in by the company for the amount of the half-cent assessment and costs.

A. F. Bettles, chief of the metallurgical department of the Newhouse mines, departed for Leadville last night. Samuel Newhouse returned from Colorado last night.

Says a Nevada publication: "Under the personal direction of Manager P. C. Weber, the work of development in the property of the Saphro Mining company is progressing with the same gratifying results. Sinking in Weber shaft shows the big ledge going down and the same relative values in gold and copper are being maintained."

## Millermo Sentenced to Death.

Manila, Oct. 23.—Faustino Millermo, the head of a band of bandits which for months past has been raiding the province of Iloilo, has been sentenced to death. Two of his officers have been sentenced to imprisonment for life and others to imprisonment for 25 years.

## OPTION GIVEN TO GREENE COMPANY.

Concern Will Work Over the Sioux Mill Tailings Dump at Robinson, Tintic District.

## PREPARING TO BEGIN WORK.

New System to Go Into Effect at Grand Central—Preference to be Given Married Men.

## Special Correspondence.

Eureka, Oct. 29.—A 90 days' option has been secured on the tailings of the Old Sioux mill by Col. T. L. Wiswall, local manager of the Greene Reduction company who will install the new process of treating low grade ores, which system is being tried out on the area at the Geyer-Marion mill dump at Mercer.

The first payment has been made the Mammoth company by the Greene company for its big dump and final arrangements for taking up the work at Robinson will soon be made. It is understood that a change is to take place in the working force at the Grand Central mine on Nov. 1. After that date only married men are to be employed in and about the property.

William Brown, a brother of Supt. Robert Brown of the Continental-Eureka mine came very near being killed in that property Monday. He was engaged in unloading the double decked car on the 700 level. He was on the lower deck and reached out to unfasten the car when the cage continued to descend and the top deck came down upon him. The cage rider noticed Mr. Brown's serious predicament and signaled the engineer to stop, which was promptly done, thus saving the young man from a horrible death. When he was removed from his perilous situation it was in an unconscious state, but on a physician making an examination he was found to have suffered no serious injuries.

John J. Hendrick has returned from Payson with seven long-eared animals, which will take the place of the seven small moles killed in the Centennial-Eureka mine by fire and smoke.

## WORKING ALTA MINE.

Bingham-Centennial Company Owns Property in This Old Camp.

J. A. Jacobson, manager of the Bingham-Centennial Mining company, states that work is in progress on the Alta properties of that corporation, which consists of four claims adjoining the Columbus Con. property on the south.

New buildings for the comfortable housing of the men are nearing completion and supplies sufficient to last until spring are now being carried into camp.

## MR. OREM RETURNS.

Says New England Investors Are Holding On to Their Money Now.

A. J. Orem, the well known mining operator, returned this morning from Boston, where he has been for several months past. In speaking of conditions in the east Mr. Orem does not view the situation very hopefully, and believes it will take investors some little time to overcome their present uneasiness. The crash in industrial and some other stocks, particularly Amalgamated, has frightened everybody who has money to invest. He believes, however, that conditions will clear around to the benefit of the west and on a whole people are looking with more favor upon western enterprises than they have in the east.

Money can be obtained much more easily at present in the middle west than in the New England states. The people of the middle west are prosperous and the crops are abundant there this year.

## FELL A THOUSAND FEET.

Two Miners Killed in the Shaft of The Minnie Healy Mine.

Butte, Mont., Oct. 28.—Humberto Cattelina and Martin J. Piskur, Italian miners, fell from a cage, descending into the Minnie Healy mine this morning and striking the sum, 1,000 feet below, were instantly killed. The cage was lowered from the shaft, which struck a projecting beam in the descent. Piskur leaves a wife and three children. Cattelina was single.

## BOSTON STOCK MARKET.

Closing quotations today as reported by Hudson & Sons Co., brokers, were:

Amalgamated	38½	38½
Cons. Mercur	1-16 1-32	
Daily-West	37½	37½
Utah	27½	28
United States	17½	17½

SCOTT'S EMULSION is for babies and children who are thin and pale when they ought to be fat and ruddy; for men and women who are weak and delicate when they ought to be strong and hearty—for all who are not getting proper nourishment from their food.

Poor blood, thin body, open the door for disease. Scott's Emulsion bare the way. Makes the blood richer, produces healthy flesh and above all provides nourishment.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

## OPENING PRICES SHOWED GAINS.

Amalgamated Copper Rose a Good Fraction, Reaching Thirty-Nine.

## ANACONDA JUMPED OVER THREE

Some Reactions in Transcontinental Stocks—Currency Transfers to St. Louis Had Bad Influence.

New York, Oct. 28.—With but few exceptions opening prices in the stock market showed small fractional gains over last night. Room traders were rather inclined to sell the market on the theory that higher money rates and a bad bank statement Saturday were inevitable owing to the recent large currency shipments from here. Average reactions of half per cent were made by the transcontinental stocks. United States Steel preferred and the coalers. Amalgamated was not affected by the reaction elsewhere, and it subsequently rose a good fraction to 39. Anaconda jumped 3½ in sympathy. Renewed heavy transfers of currency through the sub-treasury, of which about one-half of the total of \$1,000,000 went to St. Louis, which led to a reaction in the stock market. Bonds were heavy at noon.

## LIVE STOCK.

### CHICAGO.

Chicago, Oct. 28.—Cattle—Receipts, 12,000. Steady. Good to prime steers, 3.50; poor to medium, 3.00; stockers and feeders, 2.50; mixed, 2.50; calves, 2.50; hogs, 2.50; sheep, 2.50; western steers, 3.00; western calves, 3.00; western hogs, 3.00; western sheep, 3.00.
