

but a halfbreed named Porter. The report that Dumont was captured at Assinaboine is not credited at Saskatchewan. It is believed he is hovering around Batouche, awaiting an opportunity to get his wife and family away.

Father Leduc, Vicar of St. Albert, near Edmonton, with reference to Big Bear, said: "Before I left, Big Bear was sending scouts from his reserve to different reserves around the neighborhood. The message he gave them was to this effect: 'We are doomed, and will be killed one after the other by the whites, but before we die or disappear altogether, we must enjoy ourselves as much as possible, and therefore we must plunder stores and kill as many white people as possible.'"

New York, 3.—The indictment of Ferdinand Ward charges that a bag carried away contained \$1,500,000 worth of bonds and securities. The witnesses before the grand jury were Cashier Fish, Assistant Cashier Dail and Paying Teller Fish, all of the Marine Bank. It is understood that the reason for delay in having Ward indicted was that the district attorney had not been able to get a copy of Mr. Fish's testimony on the latter's trial in the U. S. courts. A writ of habeas corpus was obtained by the district attorney this afternoon from the Court of Oyer and Terminer, requiring the production of Ward in court to-morrow morning.

BARBER CITY, Oregon, 3.—A band of horse-thieves have passed through from Powder River Valley to Sumpter Valley, taking about twenty head of stock. Two men who arrived here today bring news of finding the body of Lewis Rivers, riddled with bullets, and his horse shot by his side. The horse of E. A. Allen was also found shot, but diligent search failed to reveal Mr. Allen. He and Rivers lost some horses and started out in search of them. It is supposed they came upon the horse-thieves and were murdered. Both were wealthy stockmen and old residents. Intense excitement prevails. Sheriff Dealy has started out with a posse of twenty men, armed to the teeth. It is not known whether the horse-thieves are whites or Indians.

DETROIT, 4.—Judge Chipman, of the supreme court, yesterday granted Permelia Hopkins an absolute divorce from Mark Hopkins, on the ground of extreme cruelty. The testimony showed that the parties were married at Minneapolis, Minn., in 1869, each having a child by a former marriage. Hopkins was a pattern maker in reduced circumstances. They lived happily together until '78, when an uncle of Hopkins died in California intestate, leaving an estate valued at \$5,000,000, of which defendant received a large portion. He immediately built an elegant residence at St. Clair, and adopted a luxurious style of living. From this time Mr. Hopkins said: "Their domestic misery began. Hopkins became morose and frequently applied the epithets to his wife, in the presence of the children." A sister of Mrs. Hopkins testified that, on one occasion she heard the complainant calling for help in her bed-room late at night and on entering the room, she found Mrs. Hopkins lying prostrated and Hopkins standing in a threatening attitude over her. Hopkins turned with an oath to the intruder and drove her out and locked her in her own apartment. Hopkins admitted he had used profane and violent language toward his wife and said that a separation was necessary. The question ofimony was arranged out of court by the lawyers.

LANCASTER, Pa., 4.—Abe Buzzard, a noted outlaw, walked into Lancaster County prison about midnight and surrendered himself to the authorities. He was accompanied by his brothers Harry and John. Before giving himself up, he exacted a promise from his brothers and the prison keeper, Burkholder, that they would not claim the reward of \$1,000 offered for his capture. Buzzard surrendered after the investigation of prominent citizens of the eastern end of the county, who will use their efforts to secure a commutation of the nine years sentence, which is generally agreed he unjustly received.

EL PASO, Tex., 4.—The latest news received here, concerning raiding by the Apaches, comes from the neighborhood of Hillsboro, N. M. Fifteen armed men, under the leadership of one Jackson, left Hillsboro on Tuesday morning, and before noon had recovered 27 horses. They continued on the trail, which before night became very fresh, and the men concluded to go into camp, and send for reinforcements. Jackson accordingly sent a swift courier back to Hillsboro, and 100 men, mostly territorial militia, left at two o'clock yesterday afternoon, to assist Jackson's band. The Indians are apparently driving a large lot of captured stock before them, and unless they abandon the stock and take to flight Jackson is certain to overtake and attack them.

HALIFAX, N. S., 4.—At a largely attended meeting of the Halifax Chamber of Commerce, yesterday, a resolution was adopted demanding that the Dominion Government call upon the admiral of the British fleet to protect Nova Scotia fishermen from the encroachments of American fishermen. Speeches were made in which it was declared that friendly relations were desired with the people of the United States, but unless the Dominion Government protected them against the encroachments of Americans, they would appeal to the Imperial Government.

PITTSBURG, 4.—It is reported that the Steel Mill Amalgamated Association

are in secret session here, considering the advisability of accepting the ten per cent reduction proposed by the manufacturers. Nothing definite could be learned in regard to the meeting, as the Amalgamated officials refuse to either affirm or deny the report. A prominent member of the Manufacturer's Association speaking of the alleged meeting said: "If the sheet mill men decide to accept a ten per cent reduction the manufacturers are beaten; they will be compelled to make all the other concessions and the strike would be at an end. The stand taken by sheet mill men has caused considerable dissatisfaction among the other iron workers. One of the latter, in conversation this morning, stated that the sheet men compose only ten per cent of the association, and it is expected that nine-tenths of the members to submit to a long strike would be unreasonable. Secretary Weeks, of the Manufacturers' Association reports no more signatures up to noon."

SAN FRANCISCO, 4.—Major General Pope has just received the following:

"Fort Bayard, N. M., 3.—A report by courier from Captain Smith, on Mogollon Creek, dated June 2d, states that he thinks the Indians are moving south. If the report proves true, he will follow with his command and and scouts as rapidly as possible. (Signed) GEORGE CROOK, Brigadier General."

NEW YORK, 4.—Ferdinand Ward has been indicted by the grand jury for larceny in the first degree for stealing \$1,500,000 worth of bonds and securities from the Marine Bank, was brought down to-day from Ludlow Street Jail, on a writ of habeas corpus given by the court yesterday, and arraigned in court. He pleaded not guilty and his case was postponed until the 15th inst.

WASHINGTON, 4.—The President today made the following appointments: Herbert Foote to be Collector of Customs for the District of Puget Sound, in the State of Oregon and Territory of Washington. Archibald Stallman to be Collector of Internal Revenue for the District of Nevada.

WASHINGTON, 4.—General Sheridan is confined to his home in this city, with one of his legs in a plaster cast. One of the small bones of that limb was fractured at the time of his runaway accident at Los Angeles, California. It was not until he returned to this city that it was ascertained that one of the bones of his leg had been fractured.

BATTLEFORD, 4.—Only one courier has arrived here since Middleton left. He reports that Strange had three engagements, in the last of which one man was killed and three wounded. Big Bear sent a flag of truce to Middleton, but the bearer was killed by a shell. Middleton had arrived three miles south of Big Bear's camp.

Later—Big Bear is reported to have gone north.

CHICAGO, 4.—The wheat market was excited and buoyant this morning, accompanied by heavy trading. A unofficial statement that the June crop report from Kansas will show a yield for this year not exceeding thirteen millions bushels, against a yield last year of forty millions, together with very gloomy reports from other southern and southwestern fields, has sufficed to create a strong bull party, accompanied by large purchasing orders from the outside. July wheat closed last night at 87, and opened this morning at 87½. It has since advanced to 89, amid strong excitement.

FOREIGN.

LONDON, 1.—The supposition that the expulsion of Russian Poles from Prussian territory—where they had settled to escape Russian despotism—was due to an understanding between the governments of Russia and Germany seems to have no sufficient foundation. Russia, it appears, is anything but pleased at the action of the Prussian authorities, and is engaged in the execution of a retaliatory measure, many Germans who have been residing in Russia being forced to return to their native country. Hardly any notice was given them that they would be required to return, and much hardship and suffering attends their expulsion. In many instances these refugees reach the German frontier in a destitute condition.

ROME, 2.—The Attieistic congress is a fiasco. No English delegate put in an appearance, and very few others attended.

SUAKIM, 2.—The Italian Consul hoisted the flag of his government here to-day. The fact that this is the first appointment since peace reigns, causes much remark.

PARIS, 3.—The crowd at Victor Hugo's funeral yesterday was mostly composed of the working and middle classes. They treated the event as a holiday, and there was not a great display of emotion. The police treated the occasional showing of red flags quietly, simply requesting that the holders should hide them, and upon refusal to comply with that suggestion, the officers snatched them away and allowed the holders to go free. The removal of the decorations has already begun.

LONDON, 2.—Despatches from Bombay state that news has just reached there of a disastrous earthquake in Cashmere, a country of India. The seismic shocks began on Sunday, and have continued at intervals of ten minutes ever since. The shocks were very severe at Serinagar, the capital of Cashmere. The barracks in which several hundred soldiers were

quartered were completely destroyed, collapsing so suddenly that

NEARLY HALF OF THEM WERE IMPRISONED IN THE DEBRIS.

Fifty are known to have been killed, while fully 100 were more or less injured. A portion of the city has been demolished, while very few of the remaining buildings escaped injury, many having large rents made in them. The people became panic stricken shortly after the disturbances began and fled from the city, taking refuge in boats and tents in the open fields. The total number killed and wounded is not known nor the full extent of the damage done, owing to the interruption in the working of the telegraph wires. It is feared the loss of life will be heavy as the latest information from there calls for help, saying

HUNDREDS OF ANIMALS HAVE BEEN KILLED

and the distress among the people is very great.

The terrified inhabitants are now camped in the fields that surround the town. Serinagar is near the centre of the Vale of Cashmere, and

THE WHOLE COUNTRY HAS EXPERIENCED A TERRIBLE EARTHQUAKE

shock. The damage caused throughout the vale is enormous. The loss in cattle alone is very great. The afflicted people seem to be utterly helpless and succor is being sent them as rapidly as the Indian authorities can organize relief. Many of the houses, on account of the large rents in the walls, must be razed to the ground. The shocks have not yet ceased, and this fact greatly retards the work of rescuing people pinned down in the debris, and it is feared that many of these must perish before they can be reached by relief parties.

VIENNA, 2.—Serious anti-Jewish riots have again broken out. They were renewed yesterday with increased violence. The inciting cause at the present time is the excitement of the people growing out of the election agitation. The Carmelite Platz was filled with howling mobs and free fights were frequent. The shops of Jews were raided and ruined, and their owners violently assaulted. Not less than 40 persons were severely wounded. The police made many arrests, still they were powerless to repress the rioters and were obliged to call for the aid of the military. Other riots of like violence and destructiveness have taken place in the Wienden and Neuben districts. In these districts the entire police are on duty patrolling the streets and preventing the gathering of crowds. The German liberal party had three of its candidates defeated in Vienna, which is a loss of three seats in that one city alone. In Leopoldstadt, Herr Schwider, anti-Semitic candidate, was beaten out of sight; the majority against him being 6,000 votes.

TIENTSIN, 2.—An imperial decree directs the commander of the Black Flags to evacuate Tonquin by the time agreed upon by France and China.

SERINAGUR, 2.—The Mosque in the little town of Sopur, 20 miles north of here, was demolished and 200 persons killed.

MADRID, 2.—Cholera has broken out in the prison at Valencia and among the soldiers of the garrison at Albacete.

Bombay, 2.—Cholera is spreading at Rindli, near Quetta.

LONDON, 3.—A dispatch received this afternoon from Durham says: "Fire broke out in the Philadelphia colliery, situated near that city at noon to-day. Three hundred miners are in the pit, and all attempts so far to subdue the flames or render assistance to the imprisoned men have failed. Great excitement exists, and it is feared a majority of the entombed miners will perish. A large force of men are at work at the colliery trying to rescue them."

3 p.m.—A Durham dispatch just received states that the colliery on fire is the property of the Earl of Durham, and is known as the "Margaret Pit." It is now feared that all the men and boys within the pit will be lost. Their number is placed at 350. The excitement in the neighborhood of the burning colliery increases momentarily. Relatives of the imprisoned miners crowd around the mouth of the pit, weeping and wailing in almost heart-rending manner.

5 p.m.—A later dispatch says all but 22 of the miners have since then been rescued. Those missing are supposed to have been killed by fire, caused by an explosion of fire damp.

5 o'clock.—Another dispatch from Durham states that the fire in the colliery near that place occurred in the top seam of the Margaret pit—the "Peggy Pit," as it is known locally; that it was caused by an explosion, and that

TWENTY-TWO MEN AND BOYS, AT WORK THERE, WERE KILLED OUTRIGHT.

The explosion was followed by a rush of water in immense volumes into the Sutton seam, the miners, men and boys, however, were all taken out alive. Working parties are now laboring zealously to stay the flood of waters rushing into the Mandlin seam, where a great number of miners are imprisoned, and whom the "reliefs" hope to release and rescue.

LONDON, 3.—A Sinjou dispatch says the meeting of the Anglo-Russian Afghan boundary commission is expected to take place soon, when will be begun the consideration of the question of delimitation of the Afghan boundary.

LONDON, 3.—The Derby was won by Melton; Paradox was second and Royal Hampton third.

The greatest event on the English sporting calendar—the race for the Derby Stakes—was run to-day at Epsom Downs. The weather was brilliant and the attendance enormous. The winner of the race was Lord Hastings's bay colt Melton. He was the favorite in betting and was ridden by the famous jockey, Fred. Archer. Capt. C. Bowling's bay colt Paradox was second, and Mr. Childwick's bay colt Royal Hampton third. Paradox was the second choice in betting. He was ridden by Webb; Giles rode Royal Hampton.

Just before the race 7 to 4 was offered against Melton and freely taken; 5 to 1 against Paradox; 5 to 1 against Xaiatrailles; 6 to 1 against Craffon; 10 to 1 against Royal Hampton; 12 to 1 against Kingwood and 20 to 1 against the field, consisting of Choubray, Luminary, Redrain, Sheraton, Esterling and the Lynette colt.

The Prince and Princess of Wales and all their sons and daughters went to Epsom by special train to witness the race. Senator Payne of Ohio was among those present.

LONDON, 3.—Advices from Saigon, the capital of French Cochinchina, state that the Cambodian revolutionists against French authority have with the king's secret support, attacked Panompong or Namwang, the capital of Cambodia, and driven the European residents from the city. The refugees are sheltered on board a French ship which lay in the Mekong river.

A dispatch to Reuter's Telegram Company from Berlin says: It is understood that the first task of Mr. Pendleton, United States Minister, will be to resume negotiations regarding the position of minors born in America, sons of German parents who after being naturalized in America, take up their residence in Germany. The negotiations commenced by Mr. Kasson were without result, the principal point of dispute being whether the government could, in the interests of public order, refuse such minors the right of residence in Germany.

LONDON, 4.—Americans here express themselves well pleased with the reception accorded Minister Phelps at the banquet given last evening by the Lord Mayor. The Mayor in proposing his health said that he gave to him the most cordial greeting not only on behalf of the citizens of London but of the whole people of England. The Mayor then, in words of praise, spoke of Lowell, and closed with a graceful tribute to Mr. Lowell by characterizing him as "one whom all honor." Phelps was much applauded during the delivery of the response to his health.

ADEN, 4.—A cyclone, disastrous in its consequences, struck this place last night. The damage done is estimated at £50,000.

LONDON, 4.—The intention to present the Berber railway material to the government of Cyprus has been abandoned, owing to the difficulty of finding the plant from the 20 vessels by which it was carried from England. The vessels will return to England.

The Epsom grand prize for three-year olds was run at Epsom to-day, R. Wright's bay colt, Bird of Freedom, won, with the Duke of Beaufort's gray colt, Pepper and Salt, second, and R. Howett's bay colt, Barnacle, third. There were six starters.

PARIS, 4.—The press of this city makes a violent attack upon the aldermen of London for refusing to vote condolence upon the death of Victor Hugo. M. Rochefort calls the aldermen a "band of ignorant, jealous, turtle-soup eaters."

CONSTANTINOPLE, 4.—It is reported that the overtures of the Porte for an alliance with Russia have met with a rebuff. Russia, it is claimed, expresses herself content with the present status of the Afghan question, and holds that an alliance with Turkey is not now necessary.

FILES! FILES! FILES!!!
Sure cure for Blind, Bleeding and Itching Piles. One box has cured the worst cases of 20 years' standing. No one need suffer five minutes after using William's Indian Pine Ointment. It absorbs tumors, allays itching, acts as poultice, gives instant relief. Prepared only for Piles, itching of the private parts, nothing else.
