Buying at $1.08. Selling at $1.12.

THEATRICAL.—A fine dramatic treat was enjoyed by those who attended the Theatre last night, the Shylock of Mr. Bandmann and the Portia of Mrs. Bandmann being finished and forcible renditions. To-night "The Corsican Brothers" will be performed, with Mr. Bandmann in the principle role. The comedietta, entitled "A Happy Pair," in which Mr. and Mrs. Bandmann both appear, will close the performances.

BISHOP BODEN.—Bishop Henry Holmes of Nevada informed us yesterday that affairs generally were prosperous there. Several parties had lately been prospecting in the mines on the big mountains, a few miles south east of the settlement, and several specimens from there had been assayed, in Reno, and pronounced rich.

THE GRADING.—The work of grading for the Utah Southern Railroad goes bravely on. A large number of hands being now engaged on it.

RETURNED.—D. W. Parkhurst, Esq., returned yesterday morning from a business trip to the West. A large shipment of his lumber has arrived at the depot, including 50,000 feet of milling timber from Truckee, most of which is destined for East kanyon. A large portion of it is 24 x 28 in. and 26 feet long. There is also a large quantity of Oregon flooring, and Sacramento redwood, in the shape of sash, doors, &c. While on his late visit to the West Mr. Parkhurst laid the foundation for his next summer's supplies.

EDITORIAL NEWS.—The following was received by Deseret Telegraph, yesterday morning:

PROVO, 4.

The court was called at ten a.m. yesterday, and proceeded to the naturalization of some fifteen or twenty were admitted.

At half-past seven the court adjourned to two p.m.

At two p.m. the court resumed its session. Some three or four aliens were admitted. The petit jury was called and answered, when the Judge referred again to their pay, and entered into a tirade of somebooks in relation to the County Courts paying the jury fees, as per sec. 16, chap. 35, Statutes of Utah. He read that section, as he said the jury could not know for themselves what the law is, but was very particular not to read or refer to the preceding section of said chapter which refers to the manner in which juries should be summoned. At three p.m. the court adjourned till ten to-day.

The court being called at ten a.m., the Judge called up the case of claims for reward offered in the capturing and delivering to the U. S. Marshal, of one Heath, an escaped prisoner. Seven persons appeared as claimants. On consideration, the court divided the amount among the claimants. A case of appeal from Alderman Sheets' Court, of Provo, for a fine assessed against Abraham Durfee for selling liquor without a license was called up. Robertson appeared for Durfee and John Milner for Provo city. Pending the investigation, the grand jury came into court. All answered, and presented one indictment. The Judge again read section 16, chap. 35, and labored hard to show how the jurors have been imposed upon in not being paid by the Territory or counties for services rendered, when the statutes of the Territory so plainly set forth how they should be paid, "for here" said he, "it is in a nutshell. The people are one thing in this, and the law and facts are another. Enough has been appropriated, and what has become of it? I cannot tell. The Legislature are your servants, and the money has been raised from your property; and I do not know what has become of it. I shall award you three days on the part of the United States and shall expect you to prosecute your labors on Territorial business, and shall endeavor to have you paid. We shall proceed to the trial of cases on what is called Territorial business." The jury then retired, and the case of appeal continued. After some remarks from the attorney the court, on a question sprung by himself, and not introduced by the attorney, said that the papers referring to a transcript of the Alderman's docket were signed by E. Sheets as an Alderman of Provo City. "No such judicial officer can be known in this court, as the organic act of the Territory does not provide for such an officer." He then dismissed the case.

Thus passed by a case wherein a respectable whisky vender meets the full approval of a court that sets forth that it is endeavoring to hold said court on merit. Such merit is what the community have to fear.

Joseph Boren and Jacob Harris were called, they having been bound over to their appearance on the charge of stealing U. S. Government property, at Camp Rawlins. Boren answered, but Harris failed to appear, whereupon the U. S. Attorney gave notice that he would proceed on his bonds.

The court adjourned till two p.m.

BRIGHAM, 4.

David Rees, a young man of this place, took two yearling steers from this Ward not his own, and sold them. The animals were recovered by replevy. The pursuing party commenced legal proceedings against said fellow, but he compromised by paying all damages, about two hundred dollars.

There are many persons prospecting in the neighborhood, for precious metals, who report encouraging results. Box Elder Mining Company is putting forth considerable exertion to push the work in the tunnel, and shafts already being worked. Every indication in the tunnel shows that ore in bulk is near by.

No grasshoppers at present; prospects in the hay and grain are bright.

ST. GEORGE, 4.

Wheat begins to head out. Strawberries are ripe. The harvest on the Muddy commenced this week; small grain was never as good before.

A rich silver lode was recently discovered near Pinto, by Kirby and Gott, of Washington. A party has gone out to prospect it. By reliable information just received from settlements east, placer gold diggings have been discovered in the vicinity of the Buckskin mountains.

Our semi-annual Conference opens today. To-night there will be dramatic amusements, by the home Association.

BAND STEAMER.—A short time since John W. Young, Esq., purchased, in the East, and shipped for this city, a road steamer. It is the invention of R. W. Thomson, of Edinburgh, Scotland, and possesses eminent advantages over all other contrivances of the kind. The nominal horse power of the one purchased by Mr. Young, is eight horse, the actual power being, of course, much greater. Its capacity for hauling up inclines of one in twelve, is twelve to seventeen tons, and not exceeding one in thirty, eighteen to thirty tons. It is so constructed that it can be driven over rough and hard roads without damage to the machinery, the wheels being of great width and covered, four inches thick, with vulcanized rubber. This steamer will, doubtless, be very valuable in the hauling of ores from mines, where the inclines or the roads are not too steep. It is easily managed, being capable of turning sharp curves without difficulty. It would also, on account of its great hauling capacity, be very useful in the gravelling or grading of streets. We believe this will be the pioneer road steamer of the West. It will arrive at the depot this evening.

IN A NEW DRESS.—Number 7 of vol. 6 of the *Juvenile Instructor* appears to-day, and is in an entirely new dress, having been printed from a font of type which was cast in this establishment. Its appearance is exceedingly neat and creditable, which is all the more gratifying on account of it being effected by home production.

The number just issued is up to its predecessors in point of interesting and instructive matter. The contents are as follows: A treatise on "Whales" and one, under the heading of chemistry, on "Sulphides;" also "Recollections," "Searching for Treasure," "Editorial, Thoughts," "Apostasy and Treason," "History of the Church," "East India Mission," and an excellent selection of choice miscellaneous selected matter, Poetry, etc.

If you feel dull, droway, debilitated, have frequent headache, mouth tastes bad, poor appetite and tongue coated, you are suffering from Torpid Liver or "Biliousness," and nothing will cure you so speedily and permanently as Dr. Pierce's Alt. Ext. or Golden Medical Discovery. Sold by all druggists.

Economy in the Kitchen. Prudent housekeepers are ever on the alert to practice economy in the culinary department. In no way can this be done more effectually than in the use of a Baking Powder which combines purity, strength and reliability. Dooley's Yeast Powder has attained the deserved reputation of being economical, convenient and wholesome, besides which it will produce from a barrel of flour twenty-five to forty pounds more bread, rolls, etc., than by the old process of raising dough with bakers' or hop yeast. Here alone is a great saving, and authorizes the guarantee that it will give entire satisfaction.
