The Cincinnati Times-Star says "While the Methodist missionary committee appropriated over \$540, (13) to foreign lands, they only devoted about \$22,000 to the heathen of our own country, white, black, red and variegated. Barring the brutal butcher of Burmah and a few African tribes, who have retrograded into barbarism through contact with the so-called civilized world, there are probably no savages so sadly in need of missionary service as the nations which so freely send it out to others." Just so, And all the missionaries which the sects are sending to Utah are needed, with thousands more, right around the domiciles of those who pay the money to send them. The modern

Pharisee will compass sea and land with missionary work, and shut his eyes to the heathendom, ignorance and foul depravity right under his own pious nose.

been pumped through a lead pipe from a cistern supplied from painted roofs and conductors. The water falling on the roofs and running along the spouts took up in its course each time a portion of the lead used in the paint and deposited it on the bottom of the cistern, where it collected in increasing quantities after each shower. It was then pumped through eighteen or twenty feet of lead pipe, two to five of which lay in the bottom of the cistern. Athis was the only water on the premises, it was used constantly for tea and coffee, for cooking meatand vegetables, and for drinking. The doctor's illness terminated fatally a few days ago. His wife, who was attacked on the same day, still remains in a critical condition.

If their decisions are not considered just, the right of appeal to the courfs is open. But we would strongly advise our friends everywhere to try by all means to settle disputes as to waten rights in their own localies, and to let arbitration, rather than litigation, decide. ... We should be pleased to do anything consistent in regard to the questions referred to, but must decline acting in the place of the proper authorities.
