best explanation of any of the "Mor-mon" writers. He does not call the Holy Spirit a mere thing, force or essence, but a being endowed with the power and authority of Deity. Now think we can all subscribe to that, but from reading the "Mormon" writings on this subject I have drawn one or two inferences. First, that nowhere do they (the "Mormons") put the Holy Spirit on an equality of power with the Father nor regard the Spirit as an object of worship. I could only con clude that they regard the Hold Spirit only as a great personage and indeed I don't know whether or not they regard Jesus as equal with the Father. "Second, by some of the writers the

Mr. McClain thought it At this juncture Mr. Peacock, a colpor Mr. McClain thought it would be perfectly proper. He then had the teachers read several passages from the 14th chapter of St. John to bring out the idea that the Holy Spirit is intelligent and acts independent of the Fa-ther or Son and that He is equal with them in all things.

Mr. McClain turned to the question of imparting the Holy Spriti and read the following verse from the 11th chapter of St. Luke: "If you then being evil know how to give good gifts unto your children how much more shall your heavenly Father give the Holy Spirit to them who ask Him." "This is plain to me," observed Mr. McClain, "that God makes no condition. I find in no place in the Bible where the Holy Spirit is under the control of men. He is not going here and there because men put Him there. He is not controlled by

men, but men are controlled by Him." The reverend gentleman then rad an excerpt from a tract on "the laying on of hands," by Dr. Wishard, in whice the latter holds that the laying on of hands is symbolical, and that it was performed after the people had prayed and received the Holy Spirit. "I firmly believe." concluded Mr. Mc-

Clain, "that the laying on of hands is not necessary in this day according to the teachings of Christ. While we be-lieve, as the "Mornings" do, that the Holy Spirit will not even in a person who is unworthy, the good Lord will give it to those who ask for it."

# WESTERN STOCK MARKET.

Special Correspondence. Kansas City Stock Yards, Aug. 15 .-

The wonderful recuperative powers of the Kansas and Missouri soil have been thoroughly demonstrated during the past few weeks, and one not familiar with the conditions during the drouth and at the present time would find it hard to realize that such a transformation could have taken place with-in so short a time. Pastures that were considered fried out have become re-juvenated, forage crops of all kinds are growing, and the corn yield of the dis trict has been increased millions of bushels. A number of instances have been noted where men who had become discouraged and sold off all their stock have since restocked their farms on account of improved conditions, Bet. er growing weather could hardly be imagined than has prevailed during the past few weeks and the Kansans and Missourians, who could be accredited with the energy and resourcefulness of the English sparrow, are making the

There is much en-American Royal cattle show and sale which is to take place in Kansas City Detober 16th-25th, when the best blood of the four leading beef producing strains will be on exhibition and offered for sale. The Kansas City Stock Yards ompany has about completed the comnodious fine stock barn and will have verything in readiness for the recep ion of the royal representatives and very indication points to the coming event being the most elaborate and in-

eresting ever attempted. Corn fed cattle were in larger supply during the past week than at any re-cent time, and values declined 15c to 25c. Light and medium feeders were less numerous and the demand was better, which combination of circumstances advanced the popular range of values from \$2.50 to \$3.75 basis up to \$3.00 to \$4.00, with scattering sales up to \$4.30. Cows and helfers about main ained their stand at the decline of the previous week over an extreme range of \$2.50 to \$5.00 for common cows to rime helfers, choice cows selling up \$4.00, and canner grades below \$2.5 Monday's receipts of Southern cattle were the heaviest since July 22,amount-

Monday's and Wedneslay's markets were active and busines vas transacted with little delay, but the intervening day. (Tuesday) was one of much bickering and few sales. Steer sales were made at an extreme range og \$2.55 to \$4.20 over a wide range of qualities, the larger number of sales being made at \$3.10 to \$3.80. Thurs-day's arrivals that came in early enough to be offered on that day wer-enly 400 strong and of very common uality. Southern cows sold at \$2.4 o \$2.90, and yeal calves at \$3.75 to 5.40, the latter price being the highest paid for either native or Southerr alves for some time. # Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects

the stomach and deranges the

general health, and is likely to

develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt had all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

At 10 o'clock this morning all the general agents in this city, with the exception of W. E. Coman, who at this time is in Portland, met in the office of the traffic manager of the Oregon Short Line, and solemnly buried the hatchet. The meeting occupied considerable time and ere it broke up eventually it is said that a perfect understanding had been arrived at regard-ing future business in this territory best of feeling is said to have prevailed and all concerned talked over the situation until they arrived at a definite and mutual understanding.

#### ACCIDENT ON SHORT LINE.

#### Small Boys Said to be Responsible for Derailment of Passenger Train.

Two small boys, who are said to have tampered with a switch adjacent to the Morrison & Merrill Lumber yards yesterday moraing, were undoubtedly res-ponsible for the derailment of passenger train No. 1, as it left the depot bound for theEast at 12:45 p.m. Fortunately no damage was done outside of smashing the trucks of the tender to the engine and blocking traffic up to a late hour last evening. After a delay of a couple of hours the Pullmans were trans-ferred to the Rio Grande Western tracks and the run made north over that system.
