SUPERVISOR RULS ON HIS METTLE

Selections of Fish County, Lectures on "Vampires," After Contractor's Remarks—Miscellaneous Business Transacted.

At this morning's session of the County court, which began at 10:30, there were present Selectmen Calhoun, Morris and Bickelberger. The minutes of the former meeting were read by Clerk May and confirmed. The "vampire" business was first taken up.

David Maxwell, a dairyman living near the county seat, made an application for readmission to the poorhouse. He has on several previous occasions unceremoniously absented himself from the institution and given the authorities much trouble.

Mr. Haines, superintendent of the poorhouse, did not seem to entertain a very good general opinion of Maxwell, who it appears is not particularly strong in the upper story, and full of singularities which sometimes take a disagreeable turn.

The board resolved eventually to allow Maxwell to re-enter the house and remain there during his good behavior.

Causes the Pioneer Roller Mills to Close its Doors Today.

Inquiry by a News representative elicited the fact that this report was incorrect and that the company had decided to suspend operations until the flour fight, now in progress in Utah, is over. A representative of the company said that the flour fight was not a fight between the flour companies, but a fight between the flour companies and the flour companies.
