MINING, BUSINESS AND STOCKS.

GOOD BUSINESS ON THE EXCHANGE

Daly-West Sells Up to $19.13 and Closes a Little Weaker.

MAMMOTH STRONGER TODAY

West Mountain Placer Very Weak—May Day is Firm—Alice Was Traded in at 40.

TODAY'S METALS:

SILVER 59¾

LEAD, $4.57½

CASTING COPPER 16

As was expected business was good on the exchange today after yesterday's holiday. The number of shares which changed hands aggregated 16,950, for which $14,193.55 was obtained, which is a much higher average than usual.

Alice was traded in today at 40 cents per share, while Daly recorded a sale as high as $1.60.

Daly-West was very active at improved prices. After starting out at $19.10 the stock sold up to $19.13, but closed with the sale of 50 at $19.05.

Mammoth made its first sale at $2.25 from which figure it advanced to $2.28½ and closed a trifle lower, at $2.28.

Northern Light was active at from 5 to 4¾, while Petro let go 1,000 at 39½ and immediately afterwards jumped to 40.

Sacramento was handed out at 17¾. Joe Bowers declined to 4¼ and Bowers Extension was active at 2¼.

Yankee Con. brought 14¾, while May Day sold at $1.15, weakened to $1.14¾, and closed with a sale at $1.15¼.

West Mountain Placer sold down to 13⅝ owing to trouble with its power and Ben Butler was loosened up at ½.

Closing quotations were posted as follows:

LOOKED FOR DEMORALIZATION.

Remarks of Steel and Wire Company's Chairman Affect Market.

A HAPPY DISAPPOINTMENT.

That Is, to Speculators Who Made Money—Live Stock and Produce Steady.

New York, April 17.—Prices sold off a sharp fraction all round at the opening today in expectation of demoralized conditions in the iron and steel stocks, in consequence of the pessimistic utterances regarding the trade outlook by the chairman of the steel and wire company. Steel and wire, common stock, had an exciting opening, 10,000 shares coming on the market simultaneously at $40 up to $42 per share, compared with $43 at last night's close. The stock fluctuated feverishly, but was vigorously supported. The preferred on sales of 2,000 shares ran off 2¾. Evidence of determined support in the iron stocks, especially federal steel, put a stop to the selling. When the hesitation of the bears was perceived, there was a bidding up of prices in an effort to catch the large short lines put out yesterday. The bears joined in the buying, and practically complete recoveries resulted. Federal steel was lifted 1½ over last night's close, and steel and wire rose a fraction. Aggressive strength developed in the southwestern group, where the demand for Missouri Pacific was large. Generally the rally lost its force when prices got back to about last night's level and prices were disposed to sag again. The market became dull. Norfolk and Western, the Baltimore and Ohio stocks, and some of the grangers, were lifted from 1 to 2 points above the level, and the steel stocks were well held. There was not much response elsewhere in the market, which continued dull and sluggish and the high level was not well maintained.

The bond market was quiet and irregular.

SUGAR.

Sheep—Receipts, none.

SAN FRANCISCO PRODUCE.

San Francisco, April 17.—Wheat quiet, May 95⅝; Dec. 1.04. Cash 69¼.

Barley, no sales; cash barley 73¾.

REPORTS OF THE SMELTER TRUST

The Company Has Not Refused Ore from Any Mine.

PETRO SMELTER CONTRACT

Higher Rate Will be Charged—Dixie Smelter Blown In—Big Tunnel—Picacho Peak.

The statement was made today that the two cars of ore on the market today from the Petro would likely be the last for some time, as the smelter trust had refused to accept any more ore from that Bingham mine.

Enquiry at the office of Manager Jones of the smelter company failed to confirm this report. Similar statements have been made regarding other properties that do not rank among the heaviest producers of the State. Mr. Jones says that no ore has yet been refused by the American Smelter company, and that it is not the policy of the company to do anything of the kind now that the smelter strike is settled. The ore from the small producers has always been taken care of with that from the big mines. The facts regarding the Petro are that no contract for treatment has been made with the smelter company. A certain rate—said to be very low—was given the company last year, and has been allowed to continue up to the present time. Owing partly to the fact that the price of lead has been raised the management of the mine was asked to confer with the smelter management regarding future treatment charges. It is intimated that a slight increase in zinc is also noticeable in the Petro ore, but be that as it may it is more than likely that some advance will be made in the treatment charges of Petro ore during the present season. Owing to the fact that the Petro ore contains a good percentage of lead, it is likely that the advance will not be great. It was stated today that some of the officers favor shutting the mine down, but while the profits may be curtailed this summer it is not likely that the Petro will step out of the shipping list and play a waiting game. It is to be hoped that the action of the Portland and other mines of Colorado will not be repeated in Utah.

SMELTER BLOWS IN.

A Continuous Run Anticipated—A Great Deal of Ore Being Mined.

The St. George News states that the smelter was to blow in yesterday. There is said to be plenty of ore at the smelter, and as more is on the road from the Apex copper mine it is thought that the smelter will continue running.

W. W. Old, of the St. George Copper Co., accompanied by Frank Salisbury of the Ajax mine at Mammoth, arrived in St. George from Salt Lake Friday last.

The News states on the authority of Mr. Old that Frank Salisbury has been tendered the management of the Apex mine, and that he went down for the purpose of looking over the property and considering the proposition. Fred Alberg, the present manager, has resigned, the resignation to take effect on the 1st prox. A Buffalo whim arrived here for the mine Thursday.

BIG TUNNEL PROJECT.

Great Owhyee Tunnel to Give Vertical Depth on Vein of 2000 Feet.

Secretary W. P. Douglas of the War Eagle Consolidated Mining company of Idaho considers the great Owyhee tunnel enterprise the most important undertaking ever started by his company. The tunnel is now in about 1,000 feet. It is expected that small veins will be cut during the next thousand feet, but the main lode of the mountain is not expected to be tapped at less than 5,000 feet in the tunnel. The Golden Chariot lode will be entered at not less than 2,000 feet, vertical depth, below the collar of the shaft. This will be 700 feet below the point of the lowest workings, and will give the company about 1,200 feet of stoping ground.

Speaking of the project to a reporter of the Boise Statesman Mr. Douglas said that if the veins hold out as was reasonably to be expected the property would undoubtedly be one of great productiveness. The company is familiar with the record made by the great mines that it controls and that will be opened by this tunnel, and he felt that that record warranted the belief that the undertaking would result successfully.

OLD PICACHO PEAK.

Stands Sentinel Over a Storehouse of Wealth in Arizona.

Picacho Peak, visible for miles in every direction, stands sentinel over the greatest store house of wealth in the wide world. As one reaches the summit, on the road to the postoffice and mining village for Picacho, one of the grandest panoramas nature ever contrived spreads out before the startled vision. No painter could or will ever produce the scene. No pen, though dipped in the colors of the rainbow, could or will ever convey the merest inkling of its magnificent grandeur, says a writer in the Yuma Sentinel. Picacho, upon whose bronzed head the suns of centuries have beat down and whose furrowed brow the rains of countless ages have run, presents a sufficiently mild appearance from a distance, but a closer view reveals precipitous cliffs and inaccessible retreats, and suggests witches' caldrons, Walpurgis caverns and Vesuvian convulsions. History and tradition reveals the names of but three persons who have stood upon the crest of Picacho, and their lives were endangered a thousand times in the ascent and descent. One of the parties was a member of the United States survey and the other two were a Scotchman and his daughter. The latter were up a day and a night before being rescued. No sane man cares to risk his skin by attempting to scale this lofty peak. The cliffs are almost perpendicular and one misstep or the dislodgement of a stone would precipitate the giddy adventurer to the depths 2,000 feet below.

Grim old Picacho stands silent and sublime and beneath the shadow of his tall head lies the famous Gold Basin in which gold was discovered in 1856. Enough gold has been taken out of this "basin" to rebuild Solomon's temple ten times over, and enough gold yet remains to build a new Jerusalem. There are hundreds of acres of free milling gold ore in sight that will average from $6 to $7 per ton, and there are ledges of the same free milling ore that will run from $8 to $40 to the ton. There are solid mountains of such ore which present simply quarrying propositions. One of the largest dividend-paying mines in the world is the famous Treadwell in British Columbia, and the ore worked there averages $2.65 per ton. Compared to this the possibilities of Picacho are astounding. The existence of ore in the Picacho mining district is not a matter of conjecture but millions of tons of quartz are visible. No expenditure of money is needed to show up ore, but mountains of it lay in plain sight. It seems strange that such possibilities would lie idle in this day and generation. But there are reasons for it. First of all the district has been given a black eye by mismanagement of stupendous enterprises that have started there. Not long ago an English syndicate sunk $250,000 on a hydraulic plant simply because the raw young "experts" sent out to manage the enterprise didn't know a shaft from a rathole nor a ledge from a lager. That is a sample. Another reason is that speculators who hold the majority of the claims are like dogs in a manger, they will not develop the property nor allow any one else to do so.

Washington County Notes.

Col. H. L. Pickett returned from the Savanac mine last Saturday. When seen by our reporter Mr. Pickett said that everything at the Savanac was looking splendid. "We are down about thirty feet," said the Colonel, "and expect to market another car of high-grade ore this month; teams will leave St. George for the ore next week, and it is of the same high quality as that previously shipped. We are now sinking a shaft on the main vein."

A bond of $5,000 on the Copper Wonder has been drawn up here, but has not yet been filed pending the results of assays from Salt Lake. The Copper Wonder is owned by E. M. McArthur and B. P. Wulffensten, and is situated about thirty miles west-southwest of St. George. R. H. Cabell, representing Salt Lake parties, is negotiating the deal.

Isaac Jennings came in from the Grand Gulch copper mine Monday to arrange for fresh supplies for the mine, and to let a contract for hauling mining timbers; William Webb Jr., of this city has the contract for furnishing the timbers. Mr. Jennings reported that after drifting 30 feet from the 100-feet level the main body of ore was struck, on the 4th inst., and is as rich as that previously sent out, if not richer. "We intend shipping right along," said Mr. Jennings. He left here Wednesday to return to the mine.—St. George News.

MINING NOTES.

The Hercules of Stockton had two cars of ore on today's market.

The Swansea of Tintic had four cars of ore on the market today.

J. A. Jacobsen expects to visit the Ben Butler of Bingham tomorrow.

The Revenue Mining company's assessment of 1 cent a share became delinquent today.

The Conklin sampler reported ten cars of ore from Tintic and two from Stockton today.

A shipment of ore was on the market today from the Gold Note property near Lion Hill.

The Navajo claim in Bingham has been purchased by E. W. Young from Elmer Hill.

The 10-cent assessment of the Sunbeam Con. Mining company became delinquent today.

The Mammoth of Tintic marketed one car of concentrates and five cars of crude ore today.

Three cars of lead ore were on the market today from the Highland Boy mine at Bingham.

The Glasgow and Western Exploration company had a car of ore on the market today from Nevada.

The lot of mill slag from Capt. De Lamar's Nevada mine, was reported as having been sampled today.

The May Day of Tintic had three cars of ore on the market today. Manager Hunt leaves for the mine tonight.

W. J. Lawrence, Willard D. Thompson and Assayer Ellis have gone to Reno, Nevada, to examine a mine.

The Taylor-Brunton sampler reported three cars of ore from Tintic, five from Bingham and one from Nevada today.

Some excellent samples of copper ore were brought from the Silver Shield of Bingham by J. W. Langley last Sunday.

The delinquent sale on the late assessment of 2 cents on the Omaha Mining company's stock was scheduled for this afternoon.

The third blast furnace of the Germania Smelter was started up today. It is expected that the fourth will be fired next Monday.

Tony Jacobsen, who is in from Stockton, says it is rumored that a new ore body has been encountered in a winze in the old Honorine mine.

President D. H. Peery Jr. of the Salt Lake Stock and Mining Exchange, expects to leave for British Colombia on Thursday, on mining business.

Vice President John Heimrich of the Mercur mine went out to the proposition today with John M. Diels of Scribner, Neb.

Two cars of ore were on the market today from the Petro of Bingham.

An accident to the air compressor of the Honorine mine at Stockton will delay work for about ten days.

The trouble between the Butterfield Mining company and the farmers of Herriman regarding the water from the big tunnel will come up for settlement at the end of the month.

The Bank at Twin Bridges, Montana, reported at the sampling rooms of the Consolidated Kansas City Smelting and Refining company today with about 60 pounds of gold cyanides.

Tuscarora Times-Review: The Dexter started the work of sinking the shaft 200 feet deeper yesterday. Eight-hour shifts are employed, and the work will be pushed as rapidly as possible.

Contracts for a roasting plant for the Sacramento mine at Mercur, have been let to the Gates Iron Works company of Chicago. The roasters will be similar to those in use at the Golden Gate mine.

Ed Dalton of Ophir, who is at the White House, says that Ophir Hill mine has now about 1,500 tons of concentrates piled up. W. A. Clark, the owner, refuses to ship at present because of the high smelter rates.

Denver Stockman: John Bell has just discovered what promises to be a rich mine within two miles of Boulder, near Sunshine canyon. The vein is four feet thick and runs $6.20 in gold and $21.09 silver, and also carries copper. Mr. Bell has named the new discovery the Avoca.

Mr. Robert Duncan, owner of the Lucky Star mine, at Sugar Loaf, reports the rich strike made on that property several days ago as being continuous. Mr. Duncan has gone through ten feet of the remarkably rich ore and the same high values are still being taken out.

BEECHAM'S PILLS Purify the Blood, Cure Blotches, Improve Complexion. 10 cents—25 cents.

BUYING SHOES

Is an easy matter when you're sure of your shoeist. Are you sure of yours? Building shoes as we do makes us sure of our shoes from the leather to the last stitch that's put in them. Hence, this is the shoe store to be sure of.

Men's shoes, $1.50 up.

Boys' and Gent's shoes, $1.25 up.

Women's shoes, $2.00 up.

ROBINSON BROS'. CO.,

SHOE BUILDERS. 124 Main St.

ODD FELLOWS ENCAMPMENT

Grand Lodge Begins its Sessions Today—Will Continue Two Days.

The grand encampment of the Odd Fellows occurred yesterday. The sessions of the grand lodge began today and will continue for two days. Hereafter the grand encampment will meet every two years, commencing in November, 1901.

The grand and subordinate constitutions were changed materially yesterday. The following officers were installed:

E. D. Hoge, grand patriarch; W. S. Giesy, grand high priest; C. O. Farnsworth, grand senior warden; S. G. Brenton, grand scribe; William Haltgreen, grand treasurer, and F.W. Lewis, grand representative.

The following officers were appointed to serve for two years: C. A. Walker, grand marshal; J. Bourgard, grand messenger; L. N. Neilsen, grand sentinel.

District deputy grand patriarchs were appointed as follows: District No. 1, Salt Lake, L. L. Baumgarten; No. 2, Park City, J. G. Johnson; No. 3, Bingham, Fred Richards; No. 4, Ogden, A. A. Sumner; No. 5, Eureka, John Morley.

An entertainment was given at the Odd Fellows' temple last evening. It consisted of singing, reciting and a one-act drama, which was very creditably presented.

The Western Bill Posting Company of this city are distributing from house to house, and, in fact, trying to place in the hands of every man and woman in Salt Lake City and vicinity postal cards addressed to Dr. David Kennedy, of Rondout, N. Y. These cards entitle our readers to a free trial bottle of that great Kidney, Liver and Blood medicine, Dr. David Kennedy's Favorite Remedy.

This is a genuine offer and a very liberal one, as it gives our townspeople a chance to try Favorite Remedy with absolutely no expense to themselves.

We have known Dr. David Kennedy's Favorite Remedy for years and constantly hear of its marvelous cures, so we advise all our readers to take advantage of this liberal offer to try this great Remedy free.

WE STUDY THE SODA WATER BUSINESS

Just like we do the prescriptions business, and we're just as particular about what shall go into our soda water as we are of the ingredients in your prescriptions. Is it any wonder that we serve the best soda in town? Then there is a great difference in the way we serve our soda. Dainty thin glasses, washed and polished before your soda is put into them. Then with pure syrup, pure fruit juices and pure soda, it makes a combination that cannot be beaten. We know it will pay you to keep your thirst until you get here.

F. C. SCHRAMM,

PERFECT DINING CAR SERVICE.

TICKET OFFICE, 103 West Second South street, Postoffice corner.

Burlington Route

THE MEALS ARE ALWAYS GOOD.

"The train is crowded with agreeable surprises, but it is in the dining car that one is most impressed with the Burlington's superiority. Now, without being too utterly dainty, I am exceedingly particular about my meals, and about the way they are served. For breakfast all I want is eggs, rolls, and coffee. In a Burlington dining car I am able to get just what I want, just what I would have at my own table, and for the small sum of fifty cents. The exquisite neatness of the napery makes a good meal taste all the better."—Interview with a Denver merchant.

Two trains a day from Denver to the East—the Chicago Special at 9:00 a. m.; the Vestibuled Flyer at 10:00 p. m.—Omaha, Chicago, Kansas City, St. Louis. Through sleepers daily, Ogden to Chicago via Denver and the Burlington Route.
