

New low levels were established to-day on the mining exchange. The bot-form has so completely fallen out of nucks that it is a very difficult matter to determine what to expect Rext. The unsettled condition of the metal mar-ket, the almost laily lowering in the quotations in sitver and load, is telling on the Tintic issues and all of them displayed much weakness today. May Day fell to 29 cents, Uncle Sam Con-soldated went as low as 37 cents and nearly everything else went along in about the same fashlon. Seven Troughs managed to hold its own, but there is little encouragement offered, Colorado Mining came close to the \$2 mark and closed on a sale of 200 shares at \$2.05. Black Jack ..... clorado Mining ... Grown Point ..... erald manage Ingot ..... Ibex Iron Elossom Lead King ......

UTAH CON. WRIT.

#### Petition Filed in Supreme Court of The United States.

Senator George Sutherland, yester-day afternoon, on behalf of the Utah Consolidated Mining company. filed a petition for a writ of certiorari in the supreme court to the United States circuit court of appeals for the Eighth district, through which it is sought to review the decision of the circuit court of appeals granting James Godfrey and 105 others an injunction against the mining company from continuing to operate its smelters in Ealt Lake county to the injury of complainants' farms and gardens.

It is probable that the supreme court will act promptly in this matter, but while it is pending the company's smaller near Murray can continue in operation, as the injunction of Judge. Marshall will not become operative un-til the case is staposed of by the high-est legal tribunal in the mation.

Twenty-Five Feet of Good Ore in Sev. en Troughs Eclipse.

en Troughs Eclipse. Manager Charles W. Watts of the Seven Troughs Eclipse Mining compa-ny has advised local officials that the cross-cut run on the 150-foot level has demonstrated that the veln is 25 feet wide at that point and that it contains very satisfactory values. White a general sampling of the veln had not been made at the time he wrote the letter, he states that along the hanging wall the ore will average about \$100 to the ton. The drift start-ad to the north has been in good ore all the way and it is approaching a point directly under where sensational

all the way and it is approaching a point directly under where senantional good values were found at the grass roots. Mr. Watts has expressed the utmost confidence that he will find some high class ore when the drift gets lints this shoot. The leasers are going along in their usual way and with nothing discourag-ing confronting them. On the whole, Mr. Watts says, the property is in fine shape, and believes more firmly than one that the Keitings will develop into

shape, and believes more from the fine ever that the Eclipse will develop into one of the hig producers of the Seven Troughs district.

# IMLAY'S NEW STRIKE.

#### High Grade Ore Encountered in Well Known Nevada Mine.

Local shareholders of the Imlay Min-ing company are much elated over re-cent developments made at the prop-sriy of that company, which is situat-ed in Humbolit county, Nevada. The first news of impertance received by officials of the company came through a Nevada paper, the Humboldt Star, a few days ago; but President George W. Morgan declared that there was nothing to give out for publication until the report could be fully con-firmed, which came yesterday in the shape of a letter from the camp, and in which it was stated that four feet of ore had been opened showing as-says running as high as a half ounce in gold, it per cent lend, 10 per can coppor and 953 ounces in sliver, and to one instance, considerably higher. The principal stockholders are Salt Lakers, the targest owners being George W. Morgan, Judge O. W. Pow-ers, Judge Thomas Maritoneaux, Sil-ney M. Bamberset, Joseph Lippman, W. H. Dixon, and A. C. Ellis, Jr., while narge high of stocked as the dat Rock-reat in the Local shareholders of the Imlay Min-

# CONCENTRATES.

Samuel Newhouse is expected to arrive from the east on an early train. Morris M. Johnson of the Newhouse

staff staff of engineers has returned from a trip to New York.

The ore and hullion settlements re-ported late yesterday by McCorniek & Company were: Crude ore and con-centrate, \$10,000; base bullion, \$40,-000,

Prest. James A. Pollock of the Salt Lake Stock & Mining exchange do-parted for his old home in Missouri yesterday and will remain until after Lake the holidays,

David Evans left for Provo today to confer with associates in his sev-eral mining enterprises and tomorrow will depart for Los Angeles to remain over the holidays with his family.

The mine operators of the camp of Pioche have posted a notice that there will be a reduction of wages in the comp beginning Jan. 1. It is explain-ed that owing to the lower prices of the metals and the difficulty in mov-ing ore to the markets projitably un-der prevailing conditions, that it is impossible to maintain the old schod-ule. Heretofore, miners have been ule. Heretofore, miners have been receiving \$4.50 a day. The Park Clip achedule has been adopted, which fix-es the wages of miners at \$2.59 a day.
