# A SQUARE DEAL

Is assured you when you buy Dr. Pierce's family medicines-for all the ingredients entering into them are printed on the bottle-wrappers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz .- pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and anti-ferment, nutritive and soothing demulcent.

" Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements. of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

F In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages-no

medicine will do that-but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Study the medicinal properties and uses of the root of Golden Seal (Hydrastis Canadensis), one of the most valuable of our American forest plants, as set forth in a little book of extracts made up by Dr. Pierce from the standard works of the leading medical writers and teachers of the several schools of practice, and it will be conclusively apparent to you that a medicine like Dr. Pierce's Golden Medical Discovery, which is rich in all the curative principles abounding in Golden Seal root, so highly extelled by the most eminent medical men, must be surpassingly efficacious in the cure of many obstinate and distressing ailments and especially so in all catarrhal affections of the mucous surfaces, whether of the nasal passages, throat, or bronchia or of the stomach, bowels, bladder or other pelvic organs. Scarcely less valuable than the properties of Golden Seal, in a curative way, are the several medicinal principles extracted from Stone root, Queen's root, Black Cherrybark, Bloodroot and Mandrake root, all of which are harmoniously blended with triple-refined glycerine in "Golden Medical Discovery."

. . . . . . . . . . . .

From the writings of Drs. Bartholow, King, Scudder, Hale, Hare, Johnson, Coe and a host of others quoted in the little book above referr 1 to and which will be posted free to any one mailing request by postal card for same to Dr. R. V. Pierce, Buffalo, N. Y., it will be seen that a medicine like "Golden Medical Discovery" which is rich in all the curative properties, not only of Golden Seal, but also of all the other most valuable native medicinal roots mentioned, will generally cure not only all the ordinary catarrhal affections of the nasal passages, stomach, bowels and pelvic organs, but will also overcome and cure such affections even after they have reached the ulcerative stage. In this list of diseases cured by "Golden Medical Discovery" may be included catarrhal dyspepsia, or indigestion, chronic and ulcerative diarrhea. In severe or long standing nasal catarrh it is well to cleanse the nasal passages with Dr. Sage's Catarrh Remedy while taking "Golden Medical Discovery," as a constitutional course of treatment.

## A WOMAN'S BACK

men at dinner.

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science, made of the glyceric extracts of native medicinal roots to be found in our forests.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practicemore valuable than any amount of non-professional testimonials-though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest c' his, and it is an insult to your intelligence for him to by to palm off upon you a substitute. You know what you want, and it is his business to supply the article called for.

## **People Who Think**

Know that it is safest and best to use only medicines of known composition. They don't stupidly open their mouths like a lot of young birds, and gulp down whatever is offered them, but insist on knowing what they are swallowing. Dr. Pierce recognizes the right of his patients to know what his medicines are composed of, so he prints the full list of ingredients of which they are composed on each bottle wrapper, and verifies the same under oath as being correct, thus taking his patients into his full confidence.

A glance at these printed formulas will show that the Doctor's medicines contain no alcohol, so generally employed for extracting and preserving medicinal principles, pure triple-refined glycerine being used instead.

By exact and scientific processes devised by him, and with the aid of specially designed apparatus and appliances he is able to fully extract and preserve, in any climate, for any length of time, all the medicinal virtues residing in the most valuable native medicinal roots found in our American forests and that too without the use of a drop of alcohol. Besides the glycerine possesses most valuable medicinal properties of its own, instead of being injurious like alcohol which is so generally employed in nearly all fluid medicines.

Delicate, weak nervous women should especially shun the use of alcoholic medicines which, from their stimulating and exhilarating effects may seem, for a time, to do good, but which, from the inevitable effects of the alcohol in shrinking up the red corpuscles of the blood are sure to do great and lasting harm in the long run. Besides they beget a craving for stimulants which is most deplorable.

Neither alcohol, narcotics or other deleterious or habit-forming drugs enter into the composition of Dr. Pierce's Favorite Prescription and only salutary, invigorating and nerve strengthening effects can follow the use of this famous medicine for women. It has been carefully adapted to their needs by an experienced physician. It makes weak women strong and sick women well.
