Interesting Affair in the Assembly Hall Last Night.

"WONDERFUL MAORI LAND"

The Subject of an Address by Elder Magleby - Busical Selections and Stereopticon Views.

The Polynesian reunion held in the

Assembly hall last night was an event of great interest and one much appreciated by an audience which taxed nearly to its capacity the spacious edifice. The stand had been profusely decorated with oriental curios consisting of rugs, mats, articles of wearing apparel, implements of war, etc., etc., and to the uninitiated presented a scene of dazzling splendor, while seated thereon were a number of missionaries who had seen service on the islands, together with Hirini Whaanga, the Maori chief, and several native women who are now residents of this section.

The audience was called to order shortly after 8 o'clock by Elder Benj. Goddard, who announced a Maori hymn, and prayer by Elier Hirini Whaanga. The latter was a short impressive invocation delivered in the Maori tongue. Then followed another Maori hymn, after which Elder J. E. Magleby, for eight years a missionary in New Zealand, delivered an Interestin New Zealand, delivered all interest-ing talk on "Wonderful Maori Land." He said New Zealand was 7,000 miles from here and had an area of 140,000 square miles. It was a land of flow-ers, a land where gress grew on every hill. Its chief industries were cattle and sheep raising, and of the latter there were 26,000,000, nearly as many selection. Dairying was as in the United States. Dairying was Iso carried on extensively, this indus alone giving employment to many ousands. The natives, said Elde Magleby, were very proud of their country, and they had every reason to be, for it was a land of beauty and of surpassing richness in many

things. Elder Mugleby described the customs of the Maori people, and called atten-tion to their traditions, some of which, especially in a religious way, were very peculiar, although interesting to lister to. He described the forests of New Zealand and told of the mighty trees from which cances were made, many of the latter being 100 feet long and able to accommodate 50 people. He spoke of their ceremonies and superstitions, and concluded by introducing to the audience two young natives who sang sweetly several Maori selections,

and later addressed the audience in the Maori tongue. Gultar solos were given by Watene Mete, a native, and Prof. Schettler, and Samoan hymns by two Elders and a native sister, after which a number of beautiful stereopticon views were shown, descriptive of New Zealand, 8amoa and the Society islands, these being described by Elders Goddard, Sears and Widtsoe respectively. moving pictures were also shown. Elder Charles W. Penrose offered the benediction, and before dispersing, handshaking was indulged in and a collection taken up for the benefit of Zion's Maori association, under whose auspices the entertainment was given

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. It easonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusive that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

A GROWING CONCERN. Well Known Wholesale Grocery House Incorporates.

The Anderson, Taylor company, wholesale grocers and commission mer-clants, located on West Temple street, have decided to merge their business into a new corporation, and to form a new company. In conversation with a "News" representative this morning Mr. Joseph Anderson, who was manager of the old concern, and who will re-tain that position with the new company, stated that while their past business had been very satisfactory, their trade had grown to such proportions that more capital could be profitably employed, hence the decision to form company are all well known an
