Further indications of a Peaceful Compromise.

THE L.T.A.'S APPOINTING A FORCE.

Two Quarrels Resembling a Harsh Disobedient: Runners Flying Round.

OMAHA, Aug. 12.—It now looks as if a conflict is inevitable between the Omaha police force and the A. P. A. force, which claims authority under a recent law, to appoint a new force. Last night, indications were that a compromise was probable, but the efforts of citizens who desire the peaceable settlement of the present situation were to no avail. The A. P. A. force, to avoid the controversy, to the surprise of many, has withdrawn.

The A. P. A. board is appointing its force tonight, and asserts they will not possess the city property by noon Wednesday. It was stated yesterday that the two forces would have been in conflict by Wednesday morning, unless the A. P. A. force had withdrawn to the order of the new board, which would receive little consideration when the new board commenced to discharge the duties of its office.

The police commissioners recommended a truce last night. The disengaged forces, which are flying around, according to the police, in the hope of preventing trouble in the streets, are at an standstill. The one leaving from the office into the door leading out on Farnham street, then the Captain's office has been broken and invaded with numbers, so that neither of them could be forced without great difficulty to leave the office and make their escape through the floor and walls. One through the door leading out onto the street from Fifteenth street, and the other through the door and up the rear steps into Jackson street.

An assuming attitude would have been assumed by these two entrances, and when they attempt this, the policeman would be on hand to restrain them.

The police are armed with their rifles and shotguns, some of them in case, and every one of them has a revolver. There are only fifteen patrolmen doing duty in the streets of the city, the rest of the regular day force and some from the sub-divisions, being absent on the headquarters and the depot.

The statements have made that a quantity of arms and ammunition have been stored in the city hall, as well as the police barracks, which the A. P. A. force is reported to have taken over. They say the regulation revolver carried would be sufficient in case fire arms were needed. The force of specials has been diminished, and it is understood that the A. P. A. force will be increased unless the situation becomes more threatening. The police report that there has been no disturbance of any kind, and that there is no reason to expect an attacking party to march on the city. At present, in fact, Hopewell's division ensures that the old commission should hold office until ousted by the express court.

Treasury Officers ignorant of the Plans of Their Superiors.

WASHINGTON, Aug. 12.—Law treasury today sent \$10,000 in gold for expenses of the department, leaving the reserves about \$1,000,000 at the present moment. The telegraph which announced the withdrawal reached the department just as it was closing at 5 o'clock, and gave no information as to the amount of money to be sent.

On the arrival of the telegram, it was found that "Black" in Germany, an account of a dissolute wife, killed himself deliberately by drowning his children. No rotundity, no drudgery.

Other enabling powers are shown by the World's Fair and California State Fair reports before the Department.

**COLONEL SLIGHTLY INJURED.**

BALTIMORE, Aug. 12.—The United States cruiser "Oregon" stands high and dry in the new docks here this evening.

Among those who watched every movement of the ship during the day were Mr. George M. Davis, formerly mayor of Boston but later superintendent of construction in Cramp's building yards, Philadelphia.

Mr. Nixon was seen by a reporter of the Associated Press, and said he has come to inspect the ship since the day she was launched. The vessel kept there is practically unyielding. The hull had been planed up in several places on its voyage. The damages are simply local, and will call for minor repairs. The cost of the damage, the lack of time of the ship, and the lack of time of the ship, are the factors of the ship's delay.

It has been thought, among the officers of the state, that we will be compelled to give up our right to strike, but we have been able to get a state statute preventing any action of the kind. On September 1st, the criminal law calling fine-fights, a penal offense, and yet punishing the punishment clause in the mine laws, will be introduced in the legislature.
