

## TEMPERANCE WORK MAKING PROGRESS

Prest. Taft Did Much for it in  
Turning Down His Wine Glass  
At the Inaugural Ball.

### VICTORIES FOR PROHIBITION

Mrs. Stevens Reviews What Has Been  
Accomplished in Different States  
Of the Union.

Omaha, Oct. 22.—The thirty-sixth annual convention of the Women's Christian Temperance union, the second largest annual gathering of women in the world, met in the auditorium here today. The convention was called to order at 9:30 a. m. but the preceding hour was devoted to a service of prayer and praise under the leadership of Mme. Layah Barakat, national evangelist.

The convention hall had been re-seated with opera chairs for this convention at the request of Mrs. Stevens, the president and every preparation made for the comfort and convenience of the convention.

After the roll call of delegates, the annual report of the executive committee was presented. The following committees were named:

On credentials, publication, courtesies, telegrams, financial subscriptions to the Union Signal and the Crusader Monthly.

#### MRS. STEVENS'S REPORT.

Mrs. Stevens, the national president, delivered her annual address, which occupied the greater part of the morning session.

Mrs. Stevens featured her report with a note of congratulation to President Taft for his stand on the temperance question. In reviewing the action of corporations and organizations placing a ban on employment of persons addicted to the liquor habit, Mrs. Stevens said:

"There have been many similar determinations during the year by organizations and prominent individuals, the latest and most notable being that of Mr. Taft who soon after his election as president, at a banquet, turned his wine glass down and said it would ever remain so, and in harmony with this action and through his request no liquors were served at the inaugural ball at Washington.

"For Mr. Taft to set the example of total abstinence is cause for great rejoicing by those who care for humanity's well. It is an example safe and beneficial for all to follow. Mr. Taft is entitled to grateful thanks and appreciation of a three grateful nation."

The report said the national convention was brought to Omaha with a view to securing in this state a state-wide prohibition law, adding:

"We have come to help you in your holy warfare, which is our own. We come not as those who are interested primarily in commerce, although we rejoice in true commercial prosperity, but we come as those who represent the great issue—the women of the nation versus the liquor traffic."

#### VICTORIES FOR PROHIBITION.

A review of victories was given, the work in Tennessee, Alabama, Florida, South Carolina, Indiana, Ohio, Nebraska, and other states being particularly mentioned.

Regarding the murder of Senator E. W. Carmack of Tennessee, Mrs. Stevens said:

"To the old volunteer state of Tennessee have come the saddest and gladder days. The saddest day was when a murderous bullet pierced the heart of Edward Carmack, Tennessee's most gifted and gallant son—the man who stood fearlessly for civic righteousness and who nobly challenged the right of the liquor traffic to live."

In Alabama, the report said, was furnished a wonderful chapter in prohibition agitation and conquest. Gov. Comer was congratulated on his action in calling an extra session of the legislature to adopt more stringent laws against the liquor traffic.

Reviewing total abstinence the report said:

"There is in the public mind a clearer understanding than ever before concerning the question of total abstinence to prohibition. All well-meaning, intelligent people know that liquor drinking is demoralizing; that it is destructive to health and to the commercial and industrial efficiency."

In proof of this statement, Mrs. Stevens quoted from numerous authorities and referred to statements by heads of 29 of the leading railroad systems, in response to letters sent to them by the national W. C. T. U., asking for their policy with regard to drinking men. All replies received stated that there was an absolutely prohibitive rule against liquor.

#### DRINKERS DISCRIMINATED AGAINST.

"It is conservatively estimated therefore," the report states, "that 99 per cent of the railroads, 79 per cent of the manufacturers, 88 per cent of trades and 78 per cent of agriculturists discriminate against workmen who drink."

Mrs. Stevens deplored the fact that many daily papers accept extensive advertising contracts from liquor dealers and gave a list of 42 periodicals which

## FLYING MACHINES AND AUTOMOBILES

Orville Wright Says There is Not  
So Much Danger in Former as  
In Racing With Latter.

### COVERING LONG DISTANCES.

Can Fly Five Hundred Miles—Expects  
To Turn Out Absolutely Reliable  
Aeroplane Motor.

Paris, Oct. 22.—Orville Wright has outlined his views on the subject of mechanical flight.

"There is not as much danger in flying as there is in automobile racing," he said.

"We can now turn out motors that will run regularly for a short time, for 49 times out of 50, and in 10 years, or five years, or even two years, I think there will be an aeroplane motor absolutely reliable."

"We will soon build a machine for speed to be used with our present motor to show what can be done. It will go faster than any machine you have seen over here."

"How far can you fly in one of your present machines?" was asked.

"In Berlin," he answered, "I took up as a passenger a man who weighed 225 pounds. I had 75 pounds of gasoline on board. I could replace the weight of the man with gasoline and that would give me 300 pounds of fuel. With that I could fly 500 miles."

"Yes, anyone who can run an automobile can fly. It is not nearly as difficult or as dangerous as automobile racing."

#### SHOCKS NEAR ETNA.

They Coincided With Renewed Activity  
Of Mount Vesuvius.

Massina, Oct. 22.—Yesterday's earth shocks, which were felt in the vicinity of Mount Etna, coincide with the renewed activity of Mount Vesuvius and have caused much alarm here. The fact that such seismic disturbances had been predicted by Frank A. Perret, the American scientist, formerly assistant director of the Royal observatory on Mount Vesuvius, does not lessen the uneasiness.

Mr. Perret was in this city during the last week of September and at that time pointed out that Sept. 29 would be a date most favorable for earthquakes and volcanic eruptions for the reason that at that time the sun, earth and moon would be in line, thus constituting a combination tending to produce a gravitational distortion of the earth's form. Mr. Perret added that if nothing out of the ordinary occurred, as proved to be the case, it would mean that the earth had resisted the unusual pressure but that telluric convulsions would likely be experienced in the latter half of October.

#### ERUPTION DECREASING.

Naples, Oct. 22.—The eruption of Mount Vesuvius, which became alarmingly active yesterday, appears to be decreasing today. The villages in the vicinity of the volcano are filled with strangers, mostly foreigners, who had hastened here to witness the phenomena.

#### PREST. TAFT ADDRESSES WATERWAYS LEAGUE

Corpus Christi, Tex., Oct. 22.—After three days of golf, rest and practical seclusion at his brother's ranch at La Quinta, President Taft came here today and, once more in the public eye, made an address to the convention of the Interstate Inland Waterways league, which began its session here yesterday.

Gov. Campbell and other state officials and a number of congressmen were among the delegates to welcome the president.

Mr. Taft made the trip from La Quinta to Corpus Christi, a distance of 10 miles, on the revenue cutter Whidson. Sec. of War Dickinson accompanied him on the trip. The president returned to La Quinta this afternoon for a game of golf and will leave Gregory at 8 p. m. for Houston, where he is due early Saturday morning. Saturday evening will be spent at Dallas and early Sunday morning the president will leave for St. Louis to make the four days' trip down the Mississippi to New Orleans.

decline to accept this class of advertising. She said that one periodical refused \$200,000 of liquor advertisement in one year. The report appealed to the various church denominations to increase their zeal for the cause of prohibition.

Mrs. Stevens charged Speaker Cannon with having prevented the passage of a bill designed to prevent interstate shipments of liquor into dry territory.

The report strongly favored a federal commission of industry on the alcoholic liquor traffic but admitted that it is not so greatly needed now as it was 25 years ago.

The annual report of the corresponding secretary, Mrs. Frances Barks of Illinois, and of the treasurer, Mrs. Elizabeth P. Hutchinson of Illinois were the features of the afternoon session.
