

NEWS NOTES.

The Tichborne affair has been put into a play in Paris.

Jefferson Davis, in a letter to a friend in Shreveport, La., says: "The majority of negro voters in this State (Mississippi) is already so large and rapidly increasing that I cannot foresee the day of her deliverance."

First cousins were married in Ottawa County, Kansas, last week. When the relationship was discovered, the Judge and minister waited on the parties, read the law to them, and informed them that they must consider themselves unmarried.

In the hymn-book of the United Presbyterian Church in Great Britain, in Montgomery's "Hail to the Lord's Anointed," the phrase, "the mountain dew," was changed to the heavy dew, "mountain dew," in Scotland, signifying a glass of whiskey.

No young man has claims to any sort of standing among his comrades in a base ball club, according to the latest rules, until he has at least one "hot un" on the end of his third finger, been vaccinated by a bounding "daisy cutter" on the nose, and "scored" by a flying club across his thorax.

General Logan threatens to write a reply to that part of General Sherman's recently published memoirs which refers to himself and General Frank Blair as mere political generals. Logan regards Sherman's criticism as impugning his abilities as a soldier, if not his courage.

"Old Tig," owned by Mrs. Susan Wilson, of East Wilmot, N. H., is a wonderful horse. He is known to be thirty years old, is perfectly sound, has the appearance and vigor of a colt, does all the work on a good farm, and last fall trotted a mile on a track in 3.46.

A darkey took a ten dollar bill which his employer pronounced a counterfeit. A few weeks afterward he was asked what had become of it. "Why, you see, massa, I never was quite clear in my mind about dat are bill. Some days I thought him bad, and some days I thought him good; and one of dem days dat I thought him good I jis' passed him away."

At the request of the Secretary of the Interior, Captain C. E. Dutton, of the Ordnance Department, has been ordered to accompany to the field, during the coming season, the Second Division of the United States Geological and Geographical Survey of the Territories, in charge of J. W. Powell. Upon the return of the expedition Captain Dutton will make his report on the subject to the Secretary of War.

A rich American in Paris discovered that an unpleasant looking fellow followed him every day from morning till night. He became uneasy, and diplomatic inquiry was made as to whether the man who watched him was connected with the police. As a result of much negotiation, the unpleasant person was arrested, and proved to be a gatherer of butts of cigars. The rich American only smoked famous brands, and only smoked them half up, and it paid to follow him.

A Taylorsville (Ky.) man was stooping down to drink from a spring the other day when a pistol fell from his pocket, and the ball was discharged through his neck to the base of his brain. He fell forward, paralyzed, his head, which was the only part of him that he could move, coming close to the spring. The discharge set his clothes on fire, and he vainly tried to extinguish the flames by squirting water upon them from the spring with his mouth. He was fatally burned before anybody found him.

Once Handel, composer of the Oratorio of the "Messiah," had a discussion with an English singer, named Gordon, who reproached him with accompanying him badly. The dispute grew warm (which it never was very long in doing with Handel) and Gordon finished by saying that if he persisted in accompanying him in that manner, he would jump upon his harpsichord and smash it to pieces. "Oh," replied Handel, "let me know when you will do that and I will advertise it; for I am sure more people will come to see you jump than to hear you sing."

Self-Rake Reaper at Work.

Showing Gearing.

Farmers of Utah!

BE NOT

DECEIVED

In Purchasing Your Mowers and Reapers.

The above cuts represent the celebrated Cayuga Chief Mower and Reaper, manufactured at Auburn, N. Y., by the Cayuga Chief Manufacturing Company, which has been so extensively in use for the past twenty years. To have all the good qualities combined, a machine must cut wet, heavy and lodged, as well as dry, light standing grain, without clogging or breaking; it must be light draft, easily handled, and COMPLETELY UNDER the CONTROL of the DRIVER. The farmer wants a Machine for SERVICE; one that will NEVER FAIL in any kind of grass or grain; one that will do all that is claimed for it; one that will save team, time and money, and labor in the house as well as in the field. All these good qualities the farmers will find in the

CAYUGA CHIEF,

And recommendations from the farmers of Utah more than verify our position, giving the farmer the assurance that he can rely upon it to go through his harvest without failure or delay. Look well to it when you are offered Machines that claim all these advantages that are found in the celebrated CAYUGA CHIEF that they do not fail in some essential point. What the farmer wants is a machine that will meet all his requirements, and after close examination of the points of superiority which we claim for the CAYUGA CHIEF, if he will purchase one, he will find he has made no mistake.

The lifting devices for the Finger Bar are the most effective. The Cutting Apparatus is cushioned, having ledger plates, which can be taken out and sharpened at pleasure, and with this improvement you always have a sharp cutting knife. Besides the Chief has a joint in the frame of the machine, allowing it to pass over uneven surfaces, where no other machine can go.

RAKES.—We also have one of the finest Sulky Rakes ever on exhibition in this Territory.

The CAYUGA CHIEF is on exhibition, three doors south of J. W. Lowell & Co's Wagon Shop, Main Street.

L. B. MATTISON, Agent Salt Lake City.

A. J. JOHNSON, Agent Ogden.
