RECOUNT FAVORS GEORGE BURBIDGE

Thirteenth District Shows a Decrease in the Total for Each Candidate.

IN THIS DEAN SUFFERS MOST.

Two Ballots Not Accounted For in the Fourteenth-Judges Summoned To Testify.

The result of the recount of the votes in District 13 in the Dean-Burbidge election contest case, shows a decrease in the total for each of the four leading candidates. Dean lost five votes and Burbidge lost three, thereby mak. ing a gain of two for Burbidge as between him and Dean. As the count now stands Burbidge has a plurality of 13 over Dean instead of 11 as was shown by the official canvass made by the city council.

The count as made by the court today of District 13 shows that Dean received 191, while he was credited with 199 on the official canvass. Wood received 191 instead of 195; Burbidge received 169 instead of 172 and Badger received 163 instead of 166. The two Socialist candi-dates received 26 each. There were, therefore, a total of 16 ballots counted by the judges, which should have been thrown out.

thrown out. The count on District 14 was not com-menced this morning, owing to there being two ballots missing. The return of the judges showed that there were 371 ballots cast, while the poll book only showed 389 and there were only 367 ballots in the bag. The judges of that district will be placed on the stand this afternoon to testify as to what this afternoon to testify as to what disposition was made of the two miss-ing ballots.

At the present time a very interest-ing, and what may prove to be a rath-Ing, and what may prove to be a rath-er embarrassing political situation is being agitated. The way the vote now stands Burbidge is high man, Wood is middle man and Dean is low man. Dean is clearly disqualified from hold-ing the office of city councilman by reason of his being employed by the Rio Grande Railway company, which holds valuable franchises from the city. Should Dean pass Wood in this contest then the latter's office would be vacated because of Dean's disqualification. In that event it would fall upon the

In that event it would fail upon the council to appoint a councilman to fill the vacancy. Without Wood, the coun-cil would stand seven Republicans and even Democratic and the council and the seven Republicans and probably be unable to agree upon a man to fill the vacancy and the Second precinct would be thus prevented from in the fill appreciate the first second precinct would be thus a prevented from having its full representation in the council. Such a condition is not at all improbable and it is causing consider-able thought and discussion among

able thought and discussion among the politicians. After the "News" report closed yes-terday Deputy City Recorder Simondi and Miss Ethel McDonald, a clerk in the office, were examined as to the re-ceiving and keeping of the bags con-taining the ballots of the election. They both testified that the bags were received in good condition and were received in good condition and were stored in the vault. Upon examining the bags after being brought to the court room it was discovered that the

sealed and the one from District 16 was badly torn. Mr. Simondi and Miss McDonald stated that the partially sealed con-dition of the bag from the fifteenth was due to the sealing wax not being sufficiently moist and also to it being kept in the dry vault since it was turned over to the city recorder. The tear in the bag from the sixteenth they tear in the bag from the sixteenth, they thought, was due to handling it in the office, as they had not noticed the tear until yesterday. They were questioned by Attorney Bramel as to the possibility of some one having tampered with the ballots, but both stated that it was impossible for any such work to have been done. Mr. Bramel objected to the ballots in either of the two bags being counted for the reason that their con-dition indicated that they had been tampered with. The objection was overruled.
