Education in the Philippines.

Chicago, July 6 .- Dr. Fred W. Atkinson, recently appointed superintendent of public instruction in the Philippines, is in Chicago. He was principal of the high schools of Springfield, Ohio, for several years, and was appointed to his present post on the recommendation of the president of Harvard University. The new Philippine commission will be in direct control of his movements, but owing to his recognized ability in the education field he will be given all lati-tude possible in order to bring about

reforms sought by the administration. "The education problem in the Phil-ippines," said Dr. Atkinson at the Audi-torium last night, "is most complex. would not care to outline a plan until have arrived on the ground and studie the situation. So far as I have been able to learn the people of the islands are apt and eager to learn, but I am convinced that some special course of study will have to be introduced. From advices which I have received from Manila, I learn that Father McKinnon, a former chaptain in the U.S. army, has established several schools, and \$40,000 has been spent in the purchase of text books. As nearly as I can learn 5,000 Filipino children are attending the schools in Manila alone. I believe that our policy should be aggressive and at

Utah Among Those to Protest Against Discrimination.

Milwaukee, Wis., June 5 .- The opening of the lifth biennial convention of the General Federation of Women's clubs today was most animated. Mrs. Lowe delivered her biennial address at the morning session. The Massachu-setts delegation held an indignation meeting during the day, at which a committee of two was appointed to carry out the wishes of this delegation to support the colored delegate. Mrs. Josephine Ruffin.

The committee presented a reof protest to the board of directors, in which they asked that the colored dele gate be restored to her rights in the convention, arging that in a great or-ganization such as the National Federation there should be no distinction on account of color. for inter suppy. One proposition that will be brought before the convention is the importing laborers from Porto Rice. It is argued that Porto Rice is now a part of the United States, so that there will be no legal impediment to importations from there. It is thought that the Porto Ricans are accustomed to sugar cul-tivation and that the devastating hurricane of a few months ago has cre-ated a surplus of labor there which car be utilized here. In fact, the planters association has already commissioned S. T. Alexander, of Oakland, to go to Porto Rico and investigate the subject While the planters seem to have de-cided on Porto Rico as a source of labor supply, every other element in the isl-ands almost is very much opposed to the scheme. Another Cut in Prices Coming.

New York, June 6 .- Reports in Pittsburg as to the impending reduction in the price of steel billets and pig Iron were also circulated in this city. The local report had it that at a secret meeting held in this city on Monday, representatives of the various iron and steel interests had decided to make reduction in the price of steel billets

from \$20 to \$28 per ton, and of No. 1 foundry iron from \$22 to \$20 a ton. It was impossible to obtain any di-rect verification of the report. Persons scen in reference thereto spoke some-what indefinitely of "maintaining schedules at present," and professed having no knowledge of any change. The action of the local metal market, however, seemed to foreshadow some such change and, in fact, iron markets of the entire world were reported dull nd lower.

The presence in the city of President Schwab of the Carnegie company lend some color to the report which was coupled with a story to the effect that the Carnegle people intended to extend their business in order to dominate the entire steel and iron field, believing that the smaller steel companies were responsible for the present more or demoralized conditions in the

President Schwab, who returned to Pittsburg last night, would neither afrm nor deny the report of a reduction.
