

VAN BUELOW ON VENEZUELA

Question at Issue is Not Merely
One of Claims.

IT IS OF POWERS' PRESTIGE

Which Has Been Impaired Through
The Priesthood and President
Castro's Action.

Berlin, Jan. 22.—Chancellor von Buelow today in answer to the criticism of Herr Bebel (Socialist) on the government's policy. The chancellor said: "Herr Bebel has defended the singular behavior of the Venezuelan government again, with a degree of animation such as I have seen in no European newspaper. President Castro doubtless will read Herr Bebel's speech with the greatest delight at his morning office. Let me further remark that the question at issue between Venezuela and the powers is not merely one of claims, but of the defense by the powers of their prestige, which has been impaired through priesthood."

and nobody will run foul of our wagon." Earlier in his speech Count von Buelow, referring to Herr Bebel's criticism of Emperor William's attack upon Social Democracy, said: "Are you not trying, by all the means of agitation, to injure the monarchy? You wonder that the monarch permeated with a sense of his responsibilities and rights, defends himself. So long as Social Democracy aims to overturn the existing constitutional system, you cannot wonder that the highest honor of the monarchic principle takes the defensive with all energy and even severity which marks his character."

Anxiety for Coal Steamers.

Boston, Jan. 22.—Anxiety in view of heavy weather on the Atlantic, is being felt for some of the foreign steamers now on their way here with coal from British ports. The British steamer Farman left the Tyne Dec. 21, and was last reported off the Deal two days later. The British steamer Clematis sailed from Newcastle, Eng., Dec. 30, and the Hazelmoor, also British, sailed from Shields the same day. The Exmore left Cardiff, Jan. 1; the Morosco left Hull Jan. 2, and six other steamers left coal ports on Jan. 3. None of them has yet been sighted.

MARCONI THREATENS.

Drops Strange Hints About Trouble For the United States.

Boston, Jan. 22.—A special dispatch to the Advertiser from Wellfleet, Mass., says: "Before leaving this place for New York Mr. Marconi dropped a hint of possible serious complications for the United States government. It appears that he already negotiated with the United States government concerning the right to use a system of wireless telegraphy over this entire country. The terms were considered by the president, and were finally rejected as too high. For nearly a year experiments have been made in Washington, and many others think they have an invention."

OPEN SWITCH CAUSES A WRECK

Five Cars Derailed and Locomotive
Smashed.

TWO ARE FATALLY INJURED

One Engineer and Fireman—Three
Others Seriously Hurt—Train Hand-
somely on Southern Lines.

Memphis, Tenn., Jan. 22.—The Illinois Central-New Orleans special from Memphis for New Orleans, which left here at 12:15 o'clock this morning, was derailed and wrecked by an open switch at a lumber company's side track in an industrial suburb of the southern part of the city.

Five of the seven cars were derailed and overturned, and the locomotive was smashed. Not a single passenger was injured and none of the train crew was killed outright, although the engineer and fireman were fatally injured and three other members of the train crew were seriously hurt.

FATALLY INJURED.

Harry Norton, engineer, Memphis.
John McDaniel, fireman, Waterbury, Miss.

SERIOUSLY INJURED.

J. P. Meyrick, baggage master, Fulton, Ky.
Frank Ethridge, mail clerk.
Ruben Davis, mail clerk.

The switch at the siding was open, although the switch lamp showed a clear track. It is believed it was deliberately opened and the lamp set with the white light showing, by wreckers, for the purpose of ditching the train. The engine collided with a car of heavily loaded box cars on the side track and the entire forward section of the train left the rails. The mail car was crushed and the combination buffet and baggage coach was cut squarely in half. One of the Pullman sleepers was thrown at right angles to the track but remained upright. The rear sleepers did not leave the rails and the occupants escaped with a slight shaking up. There were about 65 passengers on the train. The engineer and fireman were caught in the ruins of the engine and were scalded and burned. Both will die.

Y., Jan. 22.—Charles Westphal, a furnace man, and Michael Schultz, a helper employed at the Buffalo Union Furnace company, were terribly burned last night while about to load one of the coke ovens. When the oven door was opened a sheet of flame shot out of the furnace enveloping the two men. Westphal dropped to the floor overcome by the heat. He will die. Schultz succeeded in getting out of the building.

IRMA CODY TO MARRY SOLDIER

Daughter of Famous Scout Bo-
trothed to Army Officer.

HAS VISITED SALT LAKE.

Made Many Friends and Admirers
While Here With Her Father
Last Summer.

The announcement is made in the Denver Post of Tuesday, Jan. 20, of the engagement of Miss Irma Cody, daughter of Col. W. F. Cody, (Buffalo Bill), to a dashing young lieutenant of the Tenth cavalry. This announcement will be of interest to the many Salt Lake people who had the pleasure of meeting Miss Cody when she was here of occasions of his knowledge and skill preserve it from that. And because of these things, because the Tenth cavalry is so famous for its devotion to duty, that no other has ever aroused in him.

Miss Irma Cody has a personality which impresses people most charmingly, even when they do not know that she is Buffalo Bill's daughter. She has the best of the west can give—and there is nothing finer brought to a high degree of perfection by eastern polish.

The man whom Miss Cody is to marry is Lieut. Clarence Armstrong, of the Tenth cavalry. He is a very young man, but he is of the opinion that the officers of the United States army are about the finest type of men to be found anywhere.

That his daughter should fall in love with a regular army officer pleased Col. Cody; that she should choose a cavalryman was all the better; that he should belong to the Tenth cavalry was really a recommendation, and when he found that his daughter's choice was worthy of the place he fills, Buffalo Bill was as delighted as a fond father can be when he learns that his daughter is to marry and leave his roof. It is particularly hard on Col. Cody because the relationship between him and his younger daughter has been peculiarly close and tender.

There is another thing about Lieut. Armstrong that appealed to his prospective father-in-law. The young man worked his way up on the range.

According to one story Lieut. Armstrong met Miss Cody before entering the army and owes his success to her influence.

With the end of his term of service in the Philippines came also the commission for which he had striven, and then an assignment to the Tenth cavalry, stationed at Fort McKenzies, three miles from Sheridan, Wyo. The big local ranch is near Sheridan and it is remarkable that Miss Cody should have been visiting her father there about the time that Lieut. Armstrong appeared at Fort McKenzies.

And as for Lieut. Armstrong, it is said that he has constantly discovered new reasons for falling in love with Miss Cody ever since he met her, so it really doesn't make much difference when and where that was. There is a remarkable unanimity of opinion that Miss Cody always looks best in the environments in which she happens to be. Of more than average height, she has a stately figure, and she carries herself with the ease and grace that one would expect of a daughter of Buffalo Bill. She has a wonderful and dazzling complexion, but, sad to relate, she has a habit of wearing eye glasses, for the keenness of her vision is compelled to wear eye glasses. She has inherited from him, however, that wonderful charm of manner, that magnetism and capacity for attracting people that has made him one of the most popular men in the world. Born on her father's ranch at North Platte, Miss Cody was graduated from a seminary in Denver, and then was sent to the finishing school of Miss Brown, in Fifth avenue, New York. She has accompanied her father on his wide travels, and she has among her personal friends ever so many persons of distinction and rank. Altogether she is a most brilliantly educated young woman.

It is rather curious that she has a distaste for firearms. But she does love horses, and she can ride anything except a bucking broncho. She looks her best in the saddle.

It was fitting that Col. Cody should himself attend the wedding of his daughter. The first big celebration of the fine new hotel which he built at Cody, Wyo., which he hopes to make a famous resort for the seeking health and sport. This hotel he named the Irma, in honor of his daughter. It was opened on Nov. 18 last with a big dinner, followed by a ball. People came hundreds of miles for the affair. In his clever graceful way, Col. Cody announced the engagement of his daughter to Lieut. Armstrong at the close of the dinner and asked everyone to drink their health. Then Lieut. Armstrong and Miss Cody opened the ball. The engagement was celebrated with even more enthusiasm than the opening of the hotel.

It was planned to have the wedding take place this month, and Miss Cody came to New York to prepare for it, and Lieut. Armstrong secured leave and followed. But the death of Mrs. Sallie Cody changed all the plans. The show is now in England, making its farewell tour of Europe, and Col. Cody was compelled to join it at New York, which he did on the 10th inst., which necessitated his postponement of the marriage. But the colonel promised that he would return at the earliest date possible to see his daughter married, and the date of the wedding will be fixed when he cables his sailing date.

The ceremony will take place in the Irma hotel in Cody, and it will be a really great event. Col. Cody will bring with him from Europe many of his titled and distinguished friends. Scores of his countrymen will journey more than half way across the continent to be present at the wedding. Cowboys, frontiersmen, scout Indians and those who made the west fine and picturesque will be bidden to the wedding, and the feasting and sports will last for a week.

Isn't safe to be a day about Dr. Thomas' Electric Oil in the home. Never can tell what moment an accident is going to happen.
