and expense.

In Provo Canyon.

The Rio Grande announces that the Upper Falls resort in Provo canyon is rapidly being put into shape for the summer business. The resort is opersummer business. The resort is oper-ated by L. L. Donan and provision has been made for the housing and entertaining of 80 families through the summer months.

A Typical Case.

Shippers generally for the past few months have been making life a burden to the average railroad man owing to the non-delivery of freight within' reasonable period. A local railroad official in discussing the situation this morning stated that contrary to the general belief the western roads were not responsible for this state of affairs "Here is a case," he said as he turned to a bundle of bills of lading, "here is a car of furniture consigned to Bolas from Louisville, Ky., and it took just six weeks for that car after it started to reach Chicago, before it even start-ed to come west. The western lines are not in it with the eastern roads when it comes to being overburdene with a superabundance of freight."

Meeting in Portland Tuesday.

The regular meeting of the Trans Continental Pasenger association takes place in Portland on Tuesday on which occasion a number of the leading general passenger agents of the west will convene and talk over the situation and on rates for the summer. K. Hooper, the veteran general pass enger agent for the Rio Grande sys tem, arrived in Salt Lake this morning and will continue on his way to Oregon tonight. General Passenger Agent D E. Burley of the Oregon Short Line also leaves tomorrow in order to be pres-ent at the meeting.

SPIKE AND RAIL.

Arrangements are being made for an old folks' excursion to American Fork.

Dispatches are the authority for the statement that Canada is to have another transcontinental railroad.

Rio Grande trains Nos. 5 and 1 came yesterday in two sections, owing to ex-cessively heavy passenger business,

C. S. Mitchell, claim agent for the Rio Grande system, came in from Denver this morning.

Erwin Tears, general agent for the Vanderbilt lines at Denver, is numbered among the visiting railroad men.

The Milwaukee, Northwestern and Rock Island today have every available man out in the field looking after wool chipments.

The Oregon Short Line ran a special out of Salt Lake this morning at 8 a. m. on the occasion of the U. of U. pll-grimage to Provo.

F. E. Lewis, superintendent of the ning car service on the Oregon Short ne and Union Pacific, is in Salt Lake

were reported, 11 being males and 8 fe-The births reported show an increase of 5 over last week and are but one less than double the number reported for the corresponding week of there being 25 males and 24 females. These figures represent an an-nual birth rate of 29 per 1,000 of the estimated population. At the close of last report there were

15 cases of scarlet fever in quarantine during the week 4 new cases developed and none having been discharged. lef 19 cases in detention with warning signs displayed on 11 premises. Of diphtheria there were 6 new cases re-ported and 4 discharged, leaving 10 cases in guarantine as against 8 for the previous week and 10 for the same period of last year. The new cases of smallpox decreased from 6 cases last week to 3 for the period covered by this report, and the

total number remaining in quarantin is 7 less than reported last week, 2 cases being detained under quaranting regulations. One case of typhoid fe ver and 5 cases of measles were also reported.

WATER FIRST CLASS. Chemist Harms Campletes His Exame

ination of City Water.

The chemical and bacteriological examination of city water as made by City Chemist Herman Harms, is completed and the water pronounced of "first-class purity." The samples sub mitted for analysis were taken from the mains at points of general distribution on the 11th of the month, being those of the City Creek high line and the mains supplying the business and southwest parts of the city.

The report of the chemist shows a striking likeness between the two same ples analyzed. The sample from the high line shows 13,972 grains of solid per U.S. gallon, consisting chiefly of sodium chloride, chlorine, 0.817 grains sodum chloride, chloride, call grans, free amonia, 0.040 parts per million, al-huminoid ammonia, 0.015 parts per mil-ion, exygen consumed, 1.50 parts per million. The other sample has a frac-tion less than two grains per gallon more than the above, shows the same more than the above, shows the same quantities of free and albuminoid am-monia, and has 2.20 parts per million

By Judge Hall. Judge Hall today overruled the objections of the executor of the Dr. John R. Park estate, W. S. McCornick, and the University of Utah, to the distribution of a one-third interest in said estate to Mrs. Annie F. A. Hilton and ordered the same distributed in accordance with the opinion heretofore handed down by the supreme court, which held that Mrs. Hilton is the lawful widow of Dr. Park, and, as such, is en-titled to her dower in the real estate. The parties objecting to the distribu-tion of the estate to Mrs. Hilton, contended that she was barred from as serting any right to the real estate because of laches in putting in her claim. According to the ruling of Judge Hall, According to the ruling of Judge Hall, Mrs. Hilton will receive a one-third in-terest in all of the real estate owned by Dr. Park in his life time. An appeal will undoubtedly be taken to the su-
