PEOPLE'S TICKET GENERAL ELECTION. MONDAY, AUGUST 4th, 1884. SALT LARE COUNTY: Probate Jadge, ELIAS A: SMITH.

> JESSE W. FOX, JR. County Clerk, JOHN C. CUTLER. Recorder. GEORGE M. CANNON Assessor, W. S. BURTON. Collecto., N. V. JONES. Proscenting Attorney, ISAAC M. WADDELL. Sheriff. JOHN A. GROESBECK.

J. D. H. MCALLISTER. GEORGE J. TAYLOR.

EDITORIAL NOTES.

Henry C. Tryon, formerly scenic artist of the Salt Lake Theatre, whose productions are so much admired by the theatre-going public of this city, lately executed a splendid specimen of his skill at the Music Hall in Haverhill, Mass. It is in the form of a new drop curtain, the subject being a scene at Beliagio, on Lake Como, Italy. The Haverhill Gatette asserts confidently that "a more artistic production of its kind does not now hang behind the proscenium of any theatre in the country." It must be indeed superb if it excells the curtain executed by the same artist for the Salt Lake Theatre, which delights all who look at it with artistic eyes.

Some of the leading physicians of this city favor the semi-starvation remetly for summer complaint among teething children. They recommend the nursing or feeding of the infants at regular times, with intervals of several hours

Tax General Election will take place on Monday next, August 4th. Important offices in the various counties of this Territory have to be filled. Under

TO THE REGISTERED VOTERS.

this Territory have to be filled. Under our territorial statutes, too, several afficers should be voted for. The rights of the people to designate the men whom they wish to attend to their territorial business may be interfaced with by the exercise of unlawful power and therefore the election may not be as complete as the law contemp

But the rights of the citizens remain and will no doubt at some time be vin-Meanwhile the powers of citizens remaining unobstructed should be fully exercised. If territorial officers

cannot be voted for so as to count in expressing the will of the people; if

<text><text><text><text><text><text><text> many citizens, through an unlawful-and unconstitutional test oath, are temporarily debarred from the use of the elective franchise, let not these wrongs prevent the exercise of those rights that remain free and unimpeded. Let every registered voter, male and female, go to the polls on Monday. Do not trust to the disparity of numbers in the People's Party and the "Liberal" clique. The duty of voting should not be left by one citizen to another. Every vote counts one and is needed. If the People sleep or are careless, their enemies may be wide awake and steal a march upon them. If the men and women who made, the Territory are not able at present to personally take part in its politics, let their sons and daughters, relatives and

connections, followers and friends, whose right to vote is undisputed step to the front and show their colors. Every election gives opportunity for this. On Monday they can show which side they are on. The clearest manner in which this can be exhibited is by their ballots. Indifference at such a

A PROBABLE ART REVOLU-TION.

took the daughters of Zion to wife. It was their duty also to qualify them-selves to proclaim the cospel to the world. Many had regretted their neg-ligence in this matter at home, when standing before assemblies of stran-gers abroad. The youth of Zion will have to bear off this kingdom in the midst of the calamities and judgments that will year the world. When the earth was fully ripe in wickedness they would then be required to go forth and bind up the law and scal the testimony to the nations of the earth. The pre-Gictions of the servants of the Lord would all be fulfilled, notwithstanding the unbelief of this generation. The prophecies of God's servants had been PHOTOGRAPHING in colors is looked upon by the profession generally as an "impossibility." We have entertained between. Their theory is that the di-gestive organs should have time to ful souls, that science and perseverance rest, and that an exceedingly small would demonstrate to the contrary. prophecies of God's servants had been literallyfulfilled in the past in theiraising up of one nation and the overthrow of others, and in the destruction of cities and kin doms, and those yet to be fulfilled would come to pass in the "Impossible" is a hard word in this wonderful age, and in the light of inof the most advancsame manner. President Woodruff again referred to President Woodruff again referred to the necessity of the young men prepar-ing themselves for the work of the ministry and narrated circumstances that transpired during his labor in that capacity. To this end it was not necessary for a man to have a collegiate education, but the Elders were to study the principles of the Gospel, that at the proper time the Holy Spirit might select from the knowledge they had stored up, such things as would do good when spoken. In this respect the Elders were totally unlike the priests of the day. God always backed up the testimonies of his servants. The field was large and the laborers few and the Lord wanted the young to qualify themselves to gather out the wheat from the tares. President Cannon annonaced that the funeral services over the remains of the late Bishop L. W. Hardy and Presi-dent W. W. Taylor would he held in the Tabernacle at 10 s. m. on Sunday, August 3rd. dictum that the ordinary sensitive plate is affected only by the more refrangible rays of light, while the less refrangible remain inoperative. Thus yellow and red shades, however brilli-

cated by telegraph to Presidents J. D. T. Mcallister of St. George and J. R. INTERESTING TESTS MADE BY THE GOVERNMENT CHEMIST.

BEST BAKING POWDER.

Dr. Edward G. Love, the present Analytical Chemist for the Government, has recently made some interesting experiments as to the comparative value of baking powders. Dr. Love's tests were made to determine what brands are the most economical to use, and as their capacity lies in their leavening power, tests were directed solely to ascertain the available gas of each powder. Dr. Love's report gives the following :

Strength:

Cubic Inches Gas Name of the per each ounce of Powder. Baking Powders: " Royal " (absolutely pure) 127.4 " Patapsco " (alum powder) 125.2*

" Rumford's " (phosphate) fresh. 122.5* " Rumford's " (phosphate old. \$2.7" " Amazon " (alum powder) 111.9* " Snow Flake " (Groff's, St. Paul) 101.88 " Lewis's " Condensed 98.2 " Congress " yeast 97.5 " Pearl " 99.9 C. E. Andrews & Co's " (contains alum) 78.17* Hecker's "..... 92.5

"In his report, the Government Chemist says :

" I regard all alum powders as very unwholesome. Phosphate and Tartaric Acid powders liberate their gas too freely in process of baking, or under varying climatic changes suffer deterioration."

Dr. H. Mott, the former Government Chemist, after a careful and elaborate examination of the various Baking Powders of commerce, reported to the Government in favor

of the Royal brand.

BALT LARE CITY, May 15th, 1884 HARLENEY THE 122-23-20

R. S. Eldredge, Esq. Bupt. E. C. M. I.,

H. S. Elsredge, Log-, Supt. E. C. M. I., Dian Siz. - I am the owner of a Miller Wrought Iron Range, No. 15, with elvated oven shell, which I purchased from you shd consider it just capital. I believe it consumes less fuel than the ordinary No. 7 Stove: it is roomy, and large enough for a family of thirty pursons; it bakes well and has the best attachments for hose water I ever saw, requiring no extra fuel to keep forty gallous at boiling hest, it takes up but little room, is plain, and consequently easily kept clean, in fact it is homelike and comfortable. When in Cincinnail in January last, I learned from one of Mr. Miller's salesmen, they had just taken in exchange for a larger one, the first Range they ever made, which, after being in constant use for over sixteen years, was apparently as good as new. I only know of three defects with it, it has to be set in place, it has to be cleaned occasionally, and you have to buy Coal or Wood for it; if you can find something that obviates these inconveniences, do on if you cannot, they buy a Miller, and you will always find your wife haspy, and your food well cooked. Hours truly. Kor Second South Street E

E. H. PARSONS, 647 Second South Street E

SALT LARE CITY, May 19th, 1888.

GRETINGER. -- The Miller Wrought Iron Range I purchased from you, gives the greatest satisfaction as regards its Baking and Coeking qualities and also its Water Heating Apparatus; I do not believe its equal can be found, and as an economizer of fuel I can cheerfully Yours very wruly, JOHN H. GROESBECK.

Z. C. M. I.,

SALT LAKE CITY, April 25th, 1884.

Z. C. M. I., GENTS.-The Miller Wrought Iron Range I purchased from you nine years ago, is still in use and giving entire satisfaction; I would not sell it at any reasonable price if I could not get another of the same kind. I would recommend all wishing to get a First Class Hange, to buy the Miller. Yours truly, WILLIAM NAYLOR,

财富利的制度利

WILLIAM NAYLOR, Thirteenth Ward, Salt Lake City.

SALT LAKE CITY, April 20th, 1884.

AN & PARTICINAL AND A

POST

COADDEED

Z. C. M. I., GENTLEMEN.--I cheerfully recommend the Miller Wrought Iron Range as by far the Best Cooking Range that we have ever used, our experience embracing several kinds. As an Economizer of Fuel it is apparently perfect, and as a Boiler Attachment Heater, I know of none se good.

Very truly yours, BENJAMIN HAMPTON, Twelith Ward, Salt Lake City

GENTLEMEN.-I take great pleasure in endorsing Mr. Hamp-on's Testimonial, from a grateful experience during the past year. GEO. T. ODELL. Twelfth Ward, Salt Lake City, of Graut, Odell & Co Yours respectfully,

quantity of food appropriated by the system to build it up is so much gain. wonderful age, and in the light of in-while the taking into the stomach of vention and discovery is likely more than that oft abused organ can to become obsolete. However, dispose of is a positive and serious in- some jury. It is claimed that more hurt is ed photographers give as their done to small children by irregular and chief reason for the "impossible" inordinate "stuffing" than any other cause, Sugar, except in very limited quantities, is injurious during the hot weather to people of all ages, as it frequently produces fermentation in the stomach, and increased heat in the ant in the subject, come out as black system. The theory in relation to the in the photograph, while the deepest reduction of quantity, and giving of food at stated intervals, has been applied with excellent results in many cases, obviating the necessity for the use of medicine.

Says the New York Herald: "It is an nounced from Quebec that John C. Eno has 'rented a splendidly furnished. residence' in that city, and will hereafter make his home there. The Canadians have looked npon him with marked favor and esteem ever since his involuntary advent among them, and the result to the Physical Society of will now, of course, welcome him as a permanent addition to their society. He may set become a president of one of the Quebec banks. His cordial rereception and hospitable treatment there must afford a cheering outlook to every criminal worthy who may find it expedient to make a precipitate departure from this country. None of "A Mormon paper in Utah predicts this growing class of our citizens will fail to note the advantage of 'a splen-didly furnished residence' in the Territory."

ex-President of the Second National Bank, there is a good prospect of a hvely boom in Canadian property."

BRIGHAM YOUNG THE ACADEMY.

WE have received from Prof. Maeser a copy of the circular of the Brigham Young Academy for the coming academic year-the ninth of its existence. paratory, Intermediate, Academic,

Collegiate, Normah Music, Work. Besides these there are special organizations of great practical value, among which are the .Theological, Domestic, and Monitorial.

ficient faculty: Karl G. Maeser official referred to is really a matter of (Principal), Benjamin Claff, Jr., Jas. | little moment to any one but the indi-Talmage, Nels L. Nelson, Joseph B. vidual himself and a few hangers on. Keeler, William Done, Ferdinand Lara Whether the Deity pays any attention Talmage, Nels L. Nelson, Joseph B. and Mrs. Jennie Tanner.

The public are familiar with our views in relation to the light ment that "not even a sparrow falls to Young Academy. It is a most useful and prairies of the found without His permission." However, we expect to see the item "go the rounds," simply because it is in relation to something about the useful and praneworth in-stitution, with a great fatme before it. The recent flery experience it passed through by the burning of

the academy building, was only an apparent restriction of its operations. Extensive preparations are in progress in the Z. C. M, I. building of Provo to

in the Z. C. M, I. building of Provo to enable it to open the ensuing year of 1884-5 with increased instead of dim-inished facilities. The barning of the building formerly occupied has arous-ed the energies of those ander whose watchcare the Academy is conducted, and they are proving equal to the oc-cupion. The first term of the ensuing

shade of blue comes out white. But it appears that, to a great extent at least, the "impossible" work has been accomplished, of rendering the plates sensitive to the less refrangible rays, and yellow, blue and green tints

have been perfectly reproduced and red also in a degree. The successful investigator is Prof. H. W. Vogel, a German, and the material he uses is called losine, which, with a number of deriv-August 3rd. The choir sangates, he has been experimenting with for several years.
