SPAIN AND CUBA.

The London "Times's" Friendly Advice to the Madrid Government.

UNCLE SAM MUST NOT HAVE CUBA.

Better Swallow the Bitter Pill and Give Home Rule to the Island at Once.

LONDON, Aug. 22.—The Havana correspondent of the Times writes of the gravity of the situation there, and urges the necessity of large concessions in the direction of autonomy at once. Spanish Cubans will drink into disloyalty. The only alternative is a costly campaign in men and money, the correspondent adds, followed by the occupation of the island by 60,000 men for a decade.

In an editorial on the foregoing, the Times says of it: The failure of Canovas to suppress the rebellion has caused no little disappointment in Madrid. We sympathize heartily with Spain's patriotic determination to hold Cuba at any sacrifice, and we shall be among the first to offer congratulations, and pick counsels to foreign countries to insert rebellion among her subjects, Englishmen have no desire to see Cuba separated from Spain. The movement for annexation to America is opposed by most intelligent and independent Americans of all parties, and by otherwise political fanatics annexation to America would be regarded with little favor in British statesmen. We should be well pleased if Spain were able to arrive at a practical settlement with her rebellious subjects, but that demands a greater quantity of common sense than has been displayed, and it has, Canovas is to gain a victory he must show greater energy and ingenuity than heretofore. Then Canovas only spoke the truth when after the Spanish success in July 13th, to the fact that the insurgents were armed, disciplined and provided with ammunition. Without the havoc which yellow fever and dysentery have played, the insurrection would probably have been overwhelming at the last three months would itself have sufficed to invalid two wholesale without help from wholesale disease.

A remarkable characteristic in the spread of the rebellion is the higher grade of society now joining the insurgents' ranks.

Gen. Campos has tried to treat with the rebels and has failed; he tried to suppress them and has failed; he has tried to catch up a reconciliation and has equally failed. The rebels have been quick to profit by his mistakes. A three-years' campaign will cost Spain £20,000,000, which she cannot afford. Giving autonomy will be a bitter pill, but unless it is swallowed the movement for the annexation to America may gather strength until it seems irresistible.

FAILED IN HIS MISSION.

Estrella Khan Returns to His Mountain Home in Disgust.

LONDON, Aug. 22.—Although the utmost secrecy is observed on the subject in official circles, the Associated Press has ascertained that the story which the Chronicle printed this morning, regarding the reason why the Ameer Nasrulla Khan, the second son of the Ameer of Afghanistan, has gone and return home, is virtually correct.

The Chronicle says: "It is rumored from Kabul that the ameer has forbidden the ambassador to return until he has secured from Great Britain's consent that the Ameer shall be diplomatically represented at London. He desires to deal directly with the government, instead of through the viceroy of India. This impossible demand is supposed to explain the ameer's long stay."

According to the information obtained by the Associated Press a few weeks ago, the ameer visited the queen at Windsor Castle and perspicuously informed her majesty that it was the ameer's desire to be diplomatically represented at London, instead of dealing with the British government through the viceroy of India. The ameer expected an immediate answer, but her majesty replied that she could not decide without consulting her ministers. Last week the ameer received a definite refusal, and the situation now is unpleasant, if not serious, as the recent amounts to a snub to the ameer, and it is thought this may affect the relations between Great Britain and Afghanistan.

The steamer starts for home via Port Said next week.

Government Finances.

WASHINGTON, D. C., Aug. 22.—The expenditures of the government for the first two months of the present month exceed the receipts by $7,089,208, but only $5,000,000 remains to be paid on account of pensions, so the treasury officials estimate that the deficit will be reduced during the next ten days to about $2,000,000. The excess of expenditure over receipts last month was $9,477,000.

THE TEST SATISFACTORY.

The Government Ammunition Machine Gun All Right.

WASHINGTON, D. C., Aug. 22.—A series of tests of Hotchkiss guns was begun at Indian Head proving ground today. They are expected to fire about 400 shots per minute of the rifle ammunition, 200 of an inch caliber now in use in the navy. The Browning automatic, a new single-barrel machine gun, whose charge is fired by the pressure of the powder in the barrel, was the only one tested today. There was one accident to the ammunition furnished, however, and the test was not completed.

Six guns will be put to the test. The rifle ammunition will be fired at 1,000 yards. The defective ammunition was also tested and a new lot will be ordered. As soon as it is received the test will be resumed.

MRS. MAYBRICK'S CASE.

Referred to in the House of Commons —May Be Reviewed.

LONDON, Aug. 22.—In the House of Commons T. P. O'Connor referred to the case of Mrs. Maybrick, who is serving a term of imprisonment in prison by pleading her husband, and for whose pardon numerous petitions have been presented from Englishmen and Americans. Mr. O'Connor said in regard to her that there was no interest feeling of dissatisfaction by Americans men and women with the trial and conviction, and he believed that the feeling existed in other quarters of dissatisfaction. He thought the time had come when there should be a revision of the sentence. Women's exhibition, Sir Matthew White Ridley, secretary of state for the Home department, replied that in view of the strong feeling which prevailed, he would consider it his duty to inquire into the case.

SUIT FOR MILLIONS.

John W. Mackay, Senator Jones and Others Defendants.

SAN FRANCISCO, Aug. 22.—A suit, in which the amount involved is stated at $2,000,000, was commenced today. It is a suit for accounting, brought by Theodore Fox against John W. Mackay, United States Senator John P. Jones, the Comstock Mill and Mining Company and the Consolidated California and Virginia Mining company. When the case was first set for a hearing, John W. Mackay was in New York, where his deposition was taken to be used in the trial, but in general surprise he appeared in court this morning with his counsel.

The plaintiff alleges that the defendants, Mackay and Jones, constituting a majority of the stock of the Consolidated California and Virginia, entered into a contract with the Comstock Mill and Mining company, in which they were also interested, to mill ore at $7 per ton. Large quantities of ore were milled at that price, when, it is alleged, that $4 per ton was a reasonable and customary charge for such work. The plaintiff avers that by reason of the contract, which is alleged to have been fraudulent, the stockholders in the Consolidated Virginia have been wronged to the amount of $1,852,000.

The plaintiff asks a decree finding the facts to be as alleged in the complaint, and for a judgment against the defendants, requiring them to pay the amount named into the treasury of the Consolidated Virginia, for the benefit of the stockholders.

The defense claims that the plaintiff is not a stockholder, nor was such when the contract was made, and was move for a nonsuit.

Pioneer Brook Out Already.

DENVER, Aug. 22.—A special to the News from Spokane, Wash., says: Rain has been falling at intervals during the past two days, temporarily lapsing into a steady downpour. Today the streams have again broken out afresh. Many campers and prospectors who have been out in the forests are arriving here daily, and tell thrilling stories of being overtaken by the deluge. Many of Monday and Tuesday's fishing parties have also returned. Immense trees, which have stood for centuries, succumb to the destroyer.

Priest lake, in Northern Idaho, is now surrounded by the fires, and the settlers are rapidly leaving, having everything before and escape is made by way of the lake. Along the Salmon river the miners have made their way out by trail to the railroad at Northport, leaving their cabins and effects to be burned. It will be several weeks before the trains on the Montana branch of the Northern Pacific will be running.

NEBRASKA DEMOCRATS.

Convention at Omaha Declares for Silver and Against A. P. A.

OMAHA, Aug. 22.—If an effort was made by candidate say warring elements in the ranks of the Nebraska Democrats it was not in evidence at the state Democratic convention today. Prior to the session there was some talk about the silver and gold wings of the party re-uniting, but if such a plan was seriously contemplated, it was early abandoned.

From 2 o'clock, when Chairman Smith convened the body, until 11 tonight, when the curtain went down in the hall, silver was the only apparent financial problem before the convention. But it was essentially a convention of the advocates of the white metal in the party. The other wing ignored the meeting today, and will convene in Lincoln September 5th.

Edgar Howard was made permanent chairman without opposition, and the following resolutions were made by acclamation:

Supreme court judge, A. J. Phelps; regents state university, Dr. H. C. Bierbauer and J. J. Keith. After speeches of minor importance, bubbling over with silver sentiment, and opposition to the A. P. A., the committee reported the following resolutions:

"We, the Democrats of Nebraska, in convention assembled, reaffirm our faith in those principles written in the Declaration of American Independence and emphasized by Jefferson and Jackson, namely: "That all men are created equal; that they are endowed by their Creator with certain inalienable rights, among which are the following: Life, liberty and the pursuit of happiness; that governments are instituted among men to secure these rights, and that governments derive their just powers from the consent of the governed; and we demand that all of the departments of the government, legislative, executive and judicial, shall be administered in accordance with these principles.

"We reaffirm the declarations made by the last Democratic state convention held in Nebraska on September 4, 1894.

"We believe the restoration of the money of the Constitution is now the paramount issue before the country, and insist that all parties shall plainly state their respective positions on the question, in order that the people may intelligently express their preference. We therefore declare ourselves in favor of the immediate restoration of the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1, as was the usage and law prior to 1873, without waiting for the aid or consent of any other nation, such gold and silver coin to be a full legal tender for all debts, public and private.

"We send greeting to our Democratic brethren throughout the Union who are making such a gallant fight in the restoration of bimetallism and congratulate them on the progress making.

"We deprecate and denounce as unAmerican and subversive of the principles of free government any attempt to control the action of the political parties of this country by secret cabals of organizations of any character, and warn the people against the danger to our institutions which lurks under any such secret organization, whether on religious, political or other differences of opinions.

"Recognizing that the stability of our institutions largely depends on the virtue and intelligence of the people, we stand as in the past, in favor of the free common school system of the state, and declare that the same must be perpetuated and receive liberal financial support, and that the management and control of said school system should be non-sectarian and non-partisan.

"The Democracy of Nebraska approves and commends the declarations of President Cleveland in the past in condemning the pernicious system of recommends of Federal officers under the government in attempting to control the party and nominations of party parties, and we strongly recommend the enforcement of this first administration in most regard."

A delegate attempted to place the following before the committee as the minority report:

"We condemn the administration of President Cleveland as unfaithful and unjust, and reaffirm the platform adopted by the Democratic state convention at Omaha in 1894."

Hardly had the first word been uttered when the whole convention was pandemonium. There was such a roar that order was not established for ten minutes, when the dissenting resolution was tabled without comment.

THE RAILROADS.

Date for the Sale of the Union Pacific To Be Fixed Next Week.

TOPEKA, Kas., Aug. 22.—The date of the sale of the stock of the Missouri Pacific road will be fixed by Judge Caldwell will come to Topeka for the purpose of making the decree.

When the schedule of the indebtedness of the company has been made it will then be known what is the lowest figure at which the road may be sold. The whole proceeding is simply a matter of form, and the sale will be nothing more, but those will be in attendance that the reorganization committees is anxious as to the character of the bonds.

INCREASE IN THE NORTHERN PACIFIC EARNINGS.

SEATTLE, Wash., Aug. 22.—The hearing on the application of Brayton Ives for the removal of the receivers of the Northern Pacific Railroad company began today before Judge Hanford in the United States circuit court, Maggie Gilbert and United States District Judge Hanford occupying the bench. The argument was mainly confined to the question of the jurisdiction of Judge Jenkins. There were a half dozen or more lawyers on each side of the case.

Col. Peirce put in an affidavit, signed by the heads of New York and the secretary of the company, in which the latter alleged that at the time the foreclosure suit was filed the company had no property whatever in Judge Jenkins's district.

Harold Preston made the opening argument for the company. He submitted in his court the following propositions of law:

1. The jurisdiction of the circuit court for the eastern district of Wisconsin cannot be collaterally attacked in this manner, and the court should not even consider the allegation of want of jurisdiction.

2. But if the matter can be inquired into here, the record before your honor shows clear jurisdiction in said court in Wisconsin.

3. If the jurisdiction of the court to either presumed or found on examination to exist, familiar and settled rules of comity should lead your honor to remit the petitioner to that court, there to submit to its jurisdiction, or to prosecute its charges of misconduct against the receivers.

THE SOUTHERN PACIFIC AND THE TICKET BROKERS.

SAN FRANCISCO, Aug. 22.—The Southern Pacific has made a new move to thwart the operations of the ticket brokers. General Passenger Agent Goodman has issued an order declaring all tickets limited to six months over the company's lines sold to points outside of the state. Hereafter all first-class single tickets sold at half fare between points in Oregon, Utah, Arizona and New Mexico, including El Paso, or from California to points in Oregon or any other of the above-mentioned states, will be limited to thirty days. All such tickets now issued, in whole or in part, will be redeemed at proper value upon application to the local agent. This new rule cannot be applied to local Southern Pacific sold between stations in California owing to the interstate commerce law. The ticket brokers say that the latest action of the Southern Pacific will seriously affect their business, for it has been upon the six months' tickets that they have made their principal profit.

D. & R. G. ANNUAL REPORT.

DENVER, Aug. 22.—The annual report of the Denver & Rio Grande Railway company has gone to the printers, and will be ready for forwarding to London and New York by August 31. It is one of the most interesting and satisfactory ever issued by the company. The balance sheet will show after providing for every indebtedness, the company has to the treasury the sum of $525,-000 in round numbers, the result of the business transacted during the fiscal year ending June 30, 1895.

SOUTHERN PACIFIC AND THE NEGRO.

SAN FRANCISCO, Aug. 22.—The Central Pacific Railroad company has decided to accept the proposition of the California Negro association to settle the question over the colonizing of negroes made by the spokesmen of the association to settle the character of the locale.

Fumigation at Corpus Christi.

GALVESTON, August 23.—A special to the News from Corpus Christi, Tex., says: In order to escape being quarantined against Fifty-nine people arrived to-morning in Corpus Christi, as the officers in a have to detain. Will arrive at Corpus Christi about noon, and Mr. F. W. Smith is in possession of a contract signed by Fitzsimmons's manager for the New Zealander to train in Corpus Christi.

Annual Sales more than 6,000,000 boxes.

THE PAIL PUZZLE

It's Easy if You Know How.

THE WAY TO DO IT.

Nine times in a hundred they think that it is an easy thing to hold a pail of water's length. Let them try it. Then and there you will see the whole thing the proper pail, but it will pour out from a hole or leak. A pail full of water is exactly like positive. There is no trick about it, however. The pail is a receptacle and the water is real water. The secret is hidden in the size and body of the woman who uses it.

Woman is but little lower than the angels and yet the pain of suffering gave her home, mother and sister, which in their perfect development mean strength.

To some the human machinery complete, she was also given power more wonderfully delicate than exterior wire and more potent for good or ill. Without nerves she would be unable to feel a single moment. She could not raise a finger, move foot, input close an eyelid. Her image could not draw in the breath of life, and her heart would cease to send the life blood to renew her system to supply the waste which is going on every moment.

The nerves are as necessary to life as the thing of the breath, and yet those same delicate nerves may keep a woman, or a man either for that matter, in constant torment. They are the pain channels of the body. When they are hurt or crippled, they are the live wires, scorching and burning wherever they go.

The secret of the pail puzzle is in the right sort of nerve—tissue mould. Strong nerves that act by natural law that people do not know that they have any nerves at all. But that is

HOW PAIN OF THE BODY RELIEVES.

Many women, a majority of American women, have shaken nerves, nerves that refuse them, have them into nervous debility, female weakness, insomnia, neuralgia and late in life of various kinds. It is the practical solution to these and other troubles that Dr. Pierce has been engaged in for the last thirty years. Hundreds, yes, thousands of testimonials in the hands of the proprietors of Dr. Pierce's Favorite Prescription, voluntarily written by grateful women, prove beyond question that it is a positive specific for all those painful ailments which make the life of woman a burden. Dr. Pierce's Favorite Prescription is a powerful nerve tonic and invigorator. It gives strength to the whole nervous system. It makes weak nerves strong. It makes sick women well. It makes nervous women healthy. It makes irritable women gentle. It makes despondent women cheerful. It makes unhappy women happy. It makes plain women beautiful. It is sold by druggists. You only pay for the good you get. You don't pay for the promise of a good thing. You don't pay for something that may do you good. You don't pay for something that is said to be just as good as Dr. Pierce's Favorite Prescription. You pay only for what you get. You get a medicine that makes sick women well. You get a medicine that makes weak women strong. You get a medicine that makes nervous women healthy. You get a medicine that makes irritable women gentle. You get a medicine that makes despondent women cheerful. You get a medicine that makes unhappy women happy. You get a medicine that makes plain women beautiful. You get a medicine that makes sick women well. You get a medicine that makes weak women strong. You get a medicine that makes nervous women healthy. You get a medicine that makes irritable women gentle. You get a medicine that makes despondent women cheerful. You get a medicine that makes unhappy women happy. You get a medicine that makes plain women beautiful.

THIS WOMAN CAN DO IT.

taking the "Favorite Prescription," and keep taking it for a week. At the end of that time let her again try the look of fashion and see how much longer and easier it can be held. On the following Sunday let her hold out a sparkling beaker and keep on with the "Prescription," and the power to hold out the pail for a half hour or an hour or naturally as the day follows night, and then comes the puzzle.

An chief counsellor physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y.—the most complete health institution in America, Dr. Pierce and his staff of skilled specialists have personally investigated and successfully treated more cases of nervous disease, covering every kind of female disorder, than any physician in the world. His phenomenal success in these cases is due to the fact that he has used Dr. Pierce's Favorite Prescription in his private practice for more than thirty years.

He can speak in a life story to find nerve invisible. Remembering no natural regularity, sacrifice of the female system. His counterpart nerve tonic, which builds up and invigorates the entire nervous system, is the best treatment of an ultimate specific for woman's delicate organization. They remedy entirely new principles and devote strength and vitality to correspond with the laws of nature.

HOW TO DO IT.

Any woman, young or old, can begin taking Dr. Pierce's Favorite Prescription,
