AMERICAN.
Here of the Eastern Storm.
New York, 25.—The storm of
wind and rain, which broke over the
city on Thursday evening was a
very severe one, but thus far no
damage has been reported, except
along the river, from which some
cellars were flooded by the unusu-
ally high tides. The rainfall up to
the present time was over five
inches, and the storm still contin-
ues reported coming down in tor-
rents. Many streets in Jersey City
and Hoboken are flooded. In the
latter city the section known as the
"Meadow District" is completely
submerged, the residents being com-
pelled to use boats and improvised
rafts to go to and from their homes.
The accumulation of water in some
of the low lying districts of
Brooklyn cellars are flooded and
the damage to property is heavy.

Four Feet Under Water.
Millbrook, a stream running
through Fordham, Tremont and
Morrisania, along the Harlem rail-
road, overflowed its banks and
washed away the track so that trav-
el was suspended. The adjacent
low lands are covered to the depth of
four feet, and a number of families
were rescued with difficulty.

Eight or Ten Bridges Carried Away.
Newburgh, N. Y., 25.—Rainfall
here yesterday and today is unpre-
cedented. Five inches of rain
fell. Heavy damage is done in the
neighborhood.
Reports of severe damage by flood
continue to come in. In the town of
Carnegie eight or ten bridges were
carried away. In Broadway of
this city cellars are flooded, and
the damage is reported that serious
washouts on the branch of the
Erie has taken place, and travel has
been suspended on the shortest
route yesterday. Heavy damage is
also reported in the town of Fish-
kill, Dutchess County. Raining
hard, and more serious results are
feared.

Fourteen Inches of Rain.
Paterson, N. J., 25.—About four-
teen inches of rain have fallen since
the storm began. The Passaic River
has risen from six to eight feet, and
many parts of the town are sub-
merged. The Lincoln bridge, cost-
ing \$40,000, was washed away, and
a large number of bridges over the
small streams in the neighbor-
hood country are swept away. Mar-
tin Rosier, an old man, was wash-
ed into the river this morning while
driving, and with his horse and
vehicle was carried over the Passaic
Falls.

Rainfall N. Y., 25.—The heaviest
rain storm since 1845 fell at New-
York last night, causing immense dam-
age to crops. The rainfall in a few hours
was 7.7 inches.

Rained Three Days.
Bardonia, N. J., 25.—It has
rained here the last three days,
causing a full and complete flood.
The Delaware river is rapidly rising,
and it is thought to-morrow at high tide
the docks and piers will be inundated.

Fort Jarvis, N. J., 25.—Very heavy
rain has been continuous since yes-
terday morning. The river is rising
very fast.

No Trains Running.
The heavy embankment along the
railroad which crosses underneath
Main Street at New York, has been
cut away on account of the rain. No trains
can pass here. This exceeds all
rains for years in this section. An-
other washout has occurred between
this city and Burlington, no trains
have arrived. It is feared that
serious results will follow in this
direction.

North Adams, Mass., 25.—The
continuous storm of the last three
days threatens with destruction
many buildings. On the Hoosac
River the bulk of the North Paw-
nell Mill is carried away.

The Heaviest Known Storm.
Poughkeepsie, N. Y., 25.—The
storm is the heaviest known in
this section, and is still raging. Re-
ports from along the Hudson and the in-
terior counties tell of road cuttings,
and its being washed away in every
direction. Streams are already
swollen and rising rapidly. The
New York and New England Rail-
road is badly washed. The Hudson
River Railway track is badly cut
in some places. A full watch
has been called out along the line of
the road. Construction work on the
west shore is badly damaged in
many places. Catskill and Saugerties
are in danger. It is feared that the full force of
the freshet is felt to-morrow morning
the loss along the interior streams
will be very heavy. The flood in the
Hudson is remarkably high, and
the wind is rising and the rain
falling in torrents. In many places
the water has cut the tracks out
south of here. Hudson River Railroad is flooded,
and there are washouts near New
Hamburg and below Dutchess Junction.
Orders have been issued to
lay all freight trains on the New
York tracks for the night. All night-
passenger trains are behind time be-
cause of proceeding cautiously. The
storm seems to be the heaviest
along the Hudson River Valley.

Trains in Danger.
A gentleman from Wappingers
Falls, states that he fears that the
Wappingers Creek will break
away, and if so serious damage will
be done to a vast amount of prop-
erty. Gangs of men are on watch.

Browned.
PHILADELPHIA, 25.—Nearly 11
inches of rain have fallen here with-
in the past 72 hours. Washouts are
reported along the railroad lines.
Five hundred passengers on the
Pennsylvania Railroad, from New
York, were brought to this city by
boat from Bristol. Breaks in the
sewers in this city are numerous and
serious, and street car travel hin-
dered. A large portion below the
city is under water, and farmers
there will suffer heavy losses. At
Reading the rainstorm is the severest
known for years. Some live stock
is done to private property. The
water is still very high and threat-
ens destruction to a large amount of

valuable property.

No sign of the
storm abating. It exceeds any
storm and flood ever known in this
vicinity.
Last night the French dam, the last
one left in the city, and the last but
one on Green Creek, and the last but
one on Green Creek, were carried
away. It is reported that the large
factory on the river, which was
damaged by a large storm, was
completely destroyed. The dam at New
Brooklyn, three miles from here,
was carried out to-day and further
damaged. A large amount of stock
with valuable hay, is destroyed. Tel-
ephone poles set six feet into the
earth have been washed out by the
torrent in some streets.

Jersey City, 25.—An official of the
Pennsylvania Railroad Company
stated to-night, that he did not be-
lieve it would be possible to run
trains between Jersey City and Phila-
delphia before to-morrow evening.
The stoppage of local trains between
Jersey City and Newark caused
great inconvenience. Some pas-
sengers bunked in the depot for the
night, while others sought various
hotels in the vicinity. Reports of
washouts, broken bridges and land
slides continue to come in.

The portion of Jersey City at the
foot of the hill is inundated to the
depth of several feet and the cells of
the city prison, with two facing of
water by the burning of the Gregory
Street sewer. The prisoners confined
there were removed to another pre-
cinct.

Shoals of Alluvium.
WASHINGTON, 25.—A curious
rumor about this afternoon, which
is neither affirmed nor denied, at the
Department of Justice, is that the
case has been presented by the hotel
keeper who entertained the star
route jury, for over \$500, and that
part of the charge was that the jury
were always denied that they have
had liquors of any sort. A special
agent of the Department of Justice
said to-day that this bribery charge
in the star route cases were the
boldest he ever knew. There were
bushes of affidavits on which ar-
rests ought to be based, under ordi-
nary procedure, yet no arrests were
made. He did not understand it.

Shooting at the Queen.
NEW YORK, 25.—A World cable-
gram from London says: There is a
rumor in town late to-night, at the
clubs, that the Queen was shot at
the stables at Balmora, this after-
noon.

FOREIGN.
Arabia Petriensis.
ALEXANDRIA, 25.—The fact that
several persons of Arabi still hold
government appointments is much
commented upon.

London, 25.—A Paris dispatch to
the Times says: Certain dispatches of
the Suez canal have taken alarm at
the view expressed by the Times in
an article on the Suez canal. In
order to dispel any anxiety in re-
gard to the canal, the Egyptian gov-
ernment has been inclined to effect an
understanding which would give
England full satisfaction and per-
fect security for the future, while
guarding the national interest in
the canal. This will probably be the
way in which the canal question will
be settled.

Gen. Woolsey and the Khedive.
ALEXANDRIA, 25.—The Khedive
has issued a manifesto declaring that
he has no objection to the passage of
the Suez canal, and that for the
protection of these interests he was
compelled to interfere, but she
has no intention of interfering with
the canal. The Khedive announces
that he has authorized General
Woolsey to represent him in re-
solving order and punishing the
rebels. All loyal citizens are called
upon to render Woolsey every as-
sistance, and any one refusing is to
be treated as a rebel.

Fifteen Drowned.
AGRAM, 25.—While the Nixas
passenger and baggage train was
crossing the river Drave, near
Esek, to-day, a part of the bridge
fell in, and the engine and baggage
cars pitched into the river, dragging
with them some of the passengers.
Fifteen soldiers were drowned and
30 injured. The coupling chains
were broken and the engine was
carried away. The accident is attributed
to high water. The bridge was of
wood and was supported on wooden
piles.

Bismarck.
BERLIN, 25.—The entire press
congratulated Prince Bismarck on the
twenty-fifth anniversary of his en-
trance into the Prussian ministry.
An opposition journal, while con-
gratulating Prince Bismarck's policy,
warmly refers to the service he
has rendered the nation.

Waterford, 25.—Most of the business
part of this town was burned to-
day. Loss \$70,000.

SUNDAY SERVICES.
The regular Sunday services of the
Church of Jesus Christ of Latter-day
Saints were held in the Tabernacle,
on Sunday, commencing at 2 p. m.
The choir sang the hymn com-
mencing:
O Thou, at whose presence command
The hosts of darkness fly;
Hail thee, our eternal head
Thy Saints on earth and
Prayer by Elder J. L. Haywood.
The choir sang the hymn:
Jesus, once of humble birth,
Now in glory comes to earth.
The Sacrament was administered
by the Priesthood of the Twenty-first
Ward.
President George Q. Cannon ad-
dressed the congregation. He was
thankful for the favorable circum-
stances surrounding the Latter-day
Saints, and that they could worship
God without molestation or fear. If
we did not enjoy the present, but liv-
ed in accordance with a natural view
of the future, our pleasure would be
great. We have been told that the
most threatening circum-
stances are, when courageously met,
in our experience, not so formidable

as supposed.

Many people attribute
the success of the Elders to the
flour pictures they paint of the
last converts will be enabled to
lead when they gather with the
Church. The reverse has been the
case, however, as the people have
been taught that if they embarked
in this Church they would have
many and severe trials to meet.
Faithful Saints have, even had, in
many instances, greater enjoy-
ment than they were led to ex-
pect in the course of their
journey. One of the most powerful outside
evidences of the divinity of this
work, has been that the people have
remained true to the cause in the
midst of severe trials. It has been
industriously circulated concerning
the Saints that they were held to-
gether by ignorance, with a view
to the cunning of a few
unscrupulous designing men who
lead them. It has been stated that
they have been held in a species of
bondage by priestly influence.
Many absurd slanders have been
diffused among the people abroad in
reference to the Latter-day Saints.
The spirit of instruction, of counsel
and of comfort and blessing, was
copiously poured out upon the
servants of God who ministered, and
the hearers were correspondingly
blessed. JAMES G. BLAKE, Clerk.

day and Sunday, Sept. 16th and
17th, 1882.
President John D. T. McAllister,
presiding.
Two days have been actively and
profitably spent in St. George Tab-
ernacle in quarterly conference.
We were blessed and comforted
by the presence, counsel and ad-
ministrations of our old time pres-
ident and fellow-laborer, Apostle
Erastus Snow.
There was a good attendance of
officers and members from the Wards
of the State outside of St. George;
only two Wards—Harmony and
Panama—being without representa-
tion.
As visitors and as sojourners from
other States we had Elders David
John, Lewis Harvey and—Stand-
ing, from Utah Stake; Samuel
Rockwell, Thomas Moore and N. O.
Edwards, from Cache Stake; Wm.
D. Johnson, Jr., and Nephil John-
son, from Kanab Stake, and Jewell-
lyn Harris, Indian missionary.
The usual Conference business was
attended to in the reading of statu-
tial and other reports.
The General Authorities of the Wards
of the State outside of St. George;
only two Wards—Harmony and
Panama—being without representa-
tion.
The spirit of instruction, of counsel
and of comfort and blessing, was
copiously poured out upon the
servants of God who ministered, and
the hearers were correspondingly
blessed. JAMES G. BLAKE, Clerk.

\$500 REWARD.
A REWARD OF \$500 IS HEREBY OFF-
ered for the recovery of the body of the
late J. L. Farmer, drowned in Salt Lake,
at Black Rock, while bathing on Sunday,
August 24th.
