London, Jan. 3 .- Nothing could be more interesting or instructive as an indication of the attitude of the nationalist party at the next session of London representative. The Irish eader devoted some of the choicest flowers of his rhetoric to describing those liberals who, like Lord Rosebery, are a little tired of the Irish alliance. The nationalists have received an intimation that the alliance is to be thrown over with scarcely veiled contempt, and Redmond advises Lord Rosebery to rally round him "all those rotten members of the liberal party who called themselves liberal Am-perialists." Apparently the meaning of all this is that the Irish party will again carry out the policy adopted by Parnell in the days when Gladstone was coercing Ireland, and will fight for home rule without the slightest regard for the feelings of their former English allies.

Let them become men's econo-mic equals, and then they can do the proposing themselves, instead of wait-ing for the men to come along and ask them to become their wives. Right now women don't usually let men propose to them until they are ready, and there is no reason why they should not use the same right of proposing as the

"Prof. Loeb is a man whose opinion is worthy of respect, for he has accomplished great work in physiology As to this particular theory I think little of it; it was a jump in the dark, one of innumerable theories on the same subject, made up partly of a number of views already known to the world.

That by Senator Sumner and Representative Banks of Massachusetts, provides that there shall be transferred to the government of Liberia one of the gunboats of the United States navy, acceptable to the government of Liberia, and which, in the opinion of the secretary of the navy can be spared conveniently for that purpose. The secretary is em-powered to enter into contract with a captain, which in Spain amounts to 250 pesetas a month, nominally worth \$50, but owing to the low rate of exchange worth about half that sum, says the Madrid correspondent of the Herald. People are strongly criticising the in number. Nothing was done in con-measure for, as it is somewhat rare in nection with the legislation until Presi-
