LADDERING GAS!

FOR the Million! I take pleasure in informing my numerous friends and the Public, that I have been to great expense and trouble in buying the Patent Right for Salt Lake City for the best Nitrous Oxide Gas Apparatus that is in existence, as is proved by its being used by the Royal Families of England, France, and Belgium, also by Dr. Colton, in the Dental Institute, New York.

The Gas made by this Apparatus is absolutely pure, and no unpleasant choking or strangling sensation is experienced, or any disagreeable odor is taking it, but you can breathe perfectly natural every way, and you would not suspect that you were breathing anything but the purest air. It is, in fact, the purest of all methods for the painless extraction of Teeth.

I have a large supply of the same Teeth which look the first Freshness in Paris last summer.

Also have different kinds of Rubber for inserting Teeth, including the kinds used in England and France.

Particular attention given to preserving the natural Teeth. Terms moderate. Call and see.

LOCAL ITEMS.

THEATRICAL.—Mr. Graham has every reason to be gratified with his benefit last night. There was a good house, and the entertainment provided was of excellent quality, while there was quantity and variety to satisfy the most exacting. His Tom Badger gave complete satisfaction. "The Streets of New York" was played with life and animation; the singing by Mr. Dunbar, dancing by Miss Alexander, and recitation by Mr. Nicholson, were well received; and the farce was very well played, though it did not seem to go very lively. A few farces would after the amount of mirth which the play elicited. When the curtain fell on the play, Mr. Graham was loudly called for, and very briefly returned his thanks to the public.

To-morrow night, Mr. Hardie takes his benefit, when "Macbeth" will be performed, with all Locke's beautiful music, itself one of the strongest of strong attractions. The "Spectre Bridegroom" is the farce, with Mr. Margolis as Dickory. Between the pieces, Messrs. Hardie & George Smith will give an exhibition of fencing with foils, in the use of which both gentlemen are very expert. The gentleman is young and promising in the profession; he presents a good entertainment, and we trust he will have a crowded house. Miss Nunn will also sing.

THE PRESIDENT and PARTY.—The President and a number of brethren started from the city for Provo yesterday morning. They arrived at American Fork all well yesterday afternoon at a quarter to six o'clock. They held a meeting last night at which President B. Young and President Joseph Young spoke. A star was made this morning, at half past eight, for Provo, where they arrived at half past eleven.

MR. CAINE'S BENEFIT.—The action in this matter took definite shape last night, in the form of a letter expressing the public appreciation of Mr. Caine's labors as Manager of the Theatre, and tendering him a Complimentary Benefit, which has received a very large number of signatures. He is so very popular that we expect, if he accepts, it will be little short of an ovation.

DECLINED.—As Benefits at the Theatre are in order, the name of Mr. Williams, the highly respected and much esteemed Treasurer, has been frequently named in connection with one. We beg to state that the gentleman had the offer made to him some time ago, but in the politest yet most decisive manner he declined it. His urbanity and gentlemanly deportment, in his constant contact with the public, have made him most popular, and we would like to see him receive some testimonial of the esteem in which he is held by them.

THE WEATHER.—The sun is shining beautifully to day, with fine, pleasant spring weather. By Deseret Telegraph Line:

Logan; cloudy; very warm; snowed some last night, but is now thawing fast.

Payson; very fine, clear and pleasant; no clouds; the mud is drying fast.

Mount Pleasant; clear and frosty.

Beaver; beautiful; the roads are drying fast.

St. George; beautiful, clear and warm. Thermometer 65.

BRIDGE GONE.—We regret to learn by Deseret Telegraph Line that the centre bents of the Sevier bridge gave way last night, making the bridge impassable. This is a most useful bridge and will be much missed. The Sevier river is up, now nothing more can be done.

FLY.—One of the Post Office clerks, tailoring under a dread of consequences, his name being mentioned in connection with a young woman who has succumbed to the insidious efforts of some villain, has taken himself off from the city, fearing unpleasant results. We are informed that he strongly protested his innocence, but knowing the odor which surrounded such acts in this community, he dreaded the consequences of accusation, and deemed it better to vacate. He was the only unmarried man in the office, and had escorted the girl to places of amusement on several occasions, some time ago, which gave a color to the charge. It has been reported that the scoundrel who got spotted and asked, night before last, was also connected with the Post Office. Such is not the case. The officials in that office have hitherto borne an excellent reputation, and we hope the allegation against the missing man will not militate against the other gentlemen employed there.

CONCERT and BALL.—A correspondent informs that the Farmington choir gave a concert and ball at Centerville on Monday week, under the leadership of Br. Samuel Cottrell. The principal pieces selected for the occasion were taken from the New York Musical Gazette, and were performed in a very creditable manner. After the concert, a number of the brethren and sisters of Farmington and Centerville, enjoyed themselves in the dance to a reasonable hour, the music being by James Stevenson's excellent orchestra band. That it was music and enjoyment, restive and innocent, everywhere through our cities and settlements, which speak of light hearts and pure consciences, and a relaxation after and preparatory to the heavy labors of the spring, summer and autumn.
