# BOISE TEAM READY FOR SALT LAKERS

Fans Will Have No Kick on the Umpire as Bill Carney Will Hold Indicator.

Con Strouther's Boise Irrigators came down from Boise this morning and will be Salt Lake guests for the balance of the week. Whether they should be treated as guests remains to be seen, but it the week. Whether they should be treated as guests remains to be seen, but it is quite likely they will be given several severe trouncings by Hammond's Saycrapers before the week's series come to an end. The two teams play the first game this afternoon, will skip Friday and end the series on Sunday, after which Sait Lake will be away for three weeks, playing Helena, Butte and Boise. One feature about this week's series is the fact that we will not be burdened with an incompetent umpire. The man to hold the indicator is Bill Carney and he is here with well trimmed 'lamps' and a determination to permit no funny business. What he says goes and the fans and players realize it. During the week Goodwin, the new outfielder, will be here from the coast and will help the locals to win some of the games. Hunt will be in the box for Sait Lake.

The Boise management is not worrying over the results of games as the lineup of the visitors has been changed a little and the team is showing some improvement. As Coh. Strouthers says, the team at the bottom of the column has often climbed to the top, and Boise may dish out a few surprises before the week is over with.

The Boise team arrived in Sait Lake this morning in good shape. "Con" Scrouthers the manager, states that his players are in first class condition. "We expect to hold our own with the Sait Lake team during the series," said Mr. Scrouthers this morning. "The Boise fans have been active during the season at home, and all our games have been well attended. The outlook for a prosperous season is most excellent."

Manager Scrouthers has signed up Petree, and released Shea, both cutchers. Osborne will pitch today for Boise.

#### SCHOOL TEAMS MEET.

Salt Lake High School and All Hallows College Clash on Diamond Today. The Salt Lake High school and All Hallows college baseball teams clash again this afternoon. Today's game will be played on the Granite diamond, neutral grounds. The last time the teams clashed the game ended in a squabble and the umpire gave the game to the High school by a score of 9 to 0. It was decided to play the game over and the teams will settle the question of which is the best this afternoon.

#### DEVONIVICH AND WHISKERS ARRIVE IN SALT LAKE

Until rather late yesterday afternoon Harry Heagren was a bit worried about the non-appearance of "Whiskers" Devonivich. Heagren had sent for the bikerider-wrestler and knew that he passed through Chicago three or four days ago. Heagren's worries were put at an end, however, when Devonivich "blew" into Heagren's office and announced himself ready as one of the four to meet Champion Frank Gotch at the Salt Palace Thursday night in the big handleap match.

#### "Y" AND "U" RUNNERS IN **DECORATION "MARATHON"**

That the Decoration Day "Marathon" race to be promoted by the Y. M. C. A. will be a big success is practically assured as the association officials are working hard for the event and already the indications are the entry list will greatly exceed that expected by those in charge.

While the event is called a Marathon race, it will not be the distance of a genuine Marathon race—26 miles, 385 yards—but will be for 10 miles, It will really be a long distance run and the seniors of the Y. M. C. A. are hard at work preparing for the contest. The exact route has not as yet been decided upon but whether it be over hill or date or both will make no difference to the runners as they propose to be prepared for either. The Y. M. C. A. expects a number of U. of U. men to enter the face and it promises to be not only fast but a record breaker.

As to Desirability of Holding Compe tition Under Rules Announced-Good Sales by Local Dealers.

When the automobiles which are to make this year's ocean-to-ocean run from New York to Seattle in connection with the opening of the Alaska-Yukon-Pacific exposition cross the continent they will not have as one of their number the Franklin, according to the Salt, Lake agency, which is the holder of the transcontinental record. There will be no en-

agency, when is the lotter of the tails continental record. There will be no entry of the motor car which three years ago made the run from San Francisco to New York in 15 days, two hours and 12 minutes, a time which has not been approached by any other car.

A controversy has arisen as to the desirability of holding a competition under the rules announced for this event. Although the regulations have been somewhat modified they still permit the replacing of many broken parts as often as a contending motor car may happen to come to pleces under the stress of the run, so that it is possible for such a car to go through and perhaps finish a winner after being more or less rebuilt on the road.

That a run conducted in this way will serve no useful purpose, that it will show nothing that will lead to the production of a better automobile, one of stronger, more efficient type, is the contention of makers of many cars who are refusing to permit an entry representing

efusing to permit an entry representing

tention of makers of many cars who are refusing to permit an entry representing their output.

Moreover, recognition is given the claim that the coming contest is to be made into one long road race in which the driver shall not be restrained by even the consideration of saving his car inasmuch as he can reconstruct it to such an extent as often as he needs. That public disapproval of sending a large number of high powered motor cars careering across the country without restraint, turning the roads into speedways, is pronounced is admitted by many automobilists.

It is contended by H. H. Franklin that the most beneficial form of automobile competition is found in the reliability, endurance, efficiency and conomy contosts which have had most of their development during the past three or four years. He is an advocate of making these even more rigorous than they have been, penalizing for weakness or breakings in every part of the car instead of only in some of those parts, as at present. This, he maintains, will really show the users of motor cars something significant, something that is of direct concern to them, and give automobile contests a practical, useful purpose. He would elminate the racing feature and have the cars run on a reasonable speed schedule.

Moreover, there is a transcontinental contest which he is desirous of seeing established, perhaps as an annual event, and that is a round trip between the Atlantic and the Pacific, making the 7,000 or 8,000 miles one long endurance contest under a system of rigid penalizations, sensible and safe time schedule and the hardest of fouring conditions. He believes that in such a contest is to be had the great annual event of American automobiling.

Chicago, May 18.—As part of his daily exercise at the Chicago American ball park, Jim Jeffries, frolleked with the players, especially Smith, At one tigns the plano-mover had purilistic aspirations and this afforded a grand opportunity to test his nghing qualities. Smith could not penetrate Jeffries' guard and never came close to touching the champion. On the other hand, Jeffries hit the pitcher where and when he pleased and Smith soon realized that he had better stick to baseball.

A suit has been laid aside for the champion but it is too small for Jeffries' form, and he contents himself with wearing a pair of street trousers and an ordinary pair of shoes.

The bout took place at a gymnasium at Merchantville, in the presence of a large number of spectators, the majority of whom were negroes.

Jack Johnson is training to meet Jack O'Brien in a six-round bout in this city. The bout lasted only two rounds. Johnson is accustomed to rounds of three minutes, but Biddle prefers rounds of just about two. As a result the time-keeper called a halt before the bout was fairly begun. The negroes at the ring-side yelled when it was over:

"Biddle, you are the best ever."

Johnson himself declared that "Biddle is a strong kid and a fine gentleman."

Thine to Train.

Chicago, May 18.—James J. Jeffries has jumped on the scales in public for the first time since he came out of retirement, and in the presence of a few interested persons, tipped the beam at 243 pounds.

Jeffries announced that he would weigh again before he left the city and would show whether or not he was reducing his weight. He said his best fighting weight is 220.

"I don't see where I am asking much when I seek time to get into condition," said Jeffries. "I merely want to be in the best of shape when I enter the ring. When Sullivan and Corpett signed up in 1892, it was in March. They met in Soptember, How long did Filtzsimmons and Corbett have for training? It was a matter of months, I know."

#### CORBETT MEETS A TARTAR.

Schenectady, N. Y., May 17.—"Fighting Dick" Nelson tonight before the American Athletic club here bested "Young" Corbett. He landed at will and chased Corbett all around the ring. Nelson forced the fighting and at no time during the 10 rounds was Corbett dangerous. In the last three rounds Nelson not only outpointed him, but had him absolutely at his mercy. He, however, appeared oxer-anxious and missed at least two opportunities for a knockout.

Pleasant Grove and American Fork, however, did themselves proud by runing a tie for fifth place, and thus securing a one-half interest in the booby prize.

New York, May 18.—Notwithstanding the early forecasts of the Jack Johnson-Philadelphia Jack O'Brien fight, which is to be held in Philadelphia Wednesday night, a reversal of opinion was apparent in New York sporting circles, last night when there seemed to be preponderance of opinion that O'Brien would outpoint the champion.
