

## PLANS FOR NEW SHOPS ORDERED

Officials and Directors of Utah Light & Railway Company Meet Today.

## IMPROVEMENTS UNDER WAY.

Scheme to Keep the Up-town Cars Moving Without Congesting Traffic—Railroad News.

Local officials and directors of the Utah Light and Railway company held a meeting in the company's main street headquarters this morning. President W. H. Bancroft, vice president of the Oregon Short Line, was present. Other officials who attended were Joseph S. Wells, acting general manager of the Utah Light and Railway company; Supt. E. Buckingham of the Oregon Short Line company and vice president of the street railway corporation, F. Knickerbocker, a director; F. L. Morse, assistant to the president; Parley L. Williams, head of the legal department of the Oregon Short Line and city railway company and a number of others.

### PURCHASE RATIFIED.

Aside from considering the re-calling of second class mortgage bonds, explained in another column, the officials ratified the purchase of the "Exposition" grounds as a site for contemplated car barns and shops and ordered that plans and estimates be compiled as soon as possible. Chief Engineer O. A. Hennold of the Utah Light and Railway company was instructed to prepare these. While the plans are wanted as soon as possible it will be some time before they will be completed, as the shops are to be modern and up-to-date in every respect and no detail will be too small for careful study. It is expected work will be commenced upon the construction of the barns early in spring. It is probable that the foundrying residence, localities will be a "car-town" within a few years. Employees can build neat homes near their place of work, as the "Exposition" grounds neighborhood is an ideal residence district.

### "FOUR SWITCH METHOD."

The various improvements now under way in different departments of the system came in for a generous share of attention. Among the improvements now under contemplation is the tracking of up-town Main street corners to permit movement without interruption or delay on account of congestion during rush hours. Switches will be laid in four directions from the main lines, to permit cars moving in all directions, without getting in each other's way. This switch arrangement will be installed at the corners of Main, First South, Second South, Third South and probably Fourth South streets. A car moving up or down Main street can turn on to a side street in either direction, when this switch is installed and cars moving along the side streets can turn in to Main street in either direction. Almost any number of cars can be moving on a corner without extra switching by the aid of the "four switch" method and present backing methods will be eliminated.

The appointment of E. M. Hagley as claims attorney for the company was approved and the resignation of Judge Le Grand Young accepted. Judge Young has been succeeded by Parley L. Williams, head of the Oregon Short Line's legal department. Mr. Williams' appointment met with hearty approval, also.

### WIRES COME NEXT.

Western Union Starts Work Along Western Pacific in Few Days.

The Western Union Telegraph company will send a gang of its workmen out on the line of the Western Pacific next week, to commence the work of stringing wires between Salt Lake and San Francisco. The telegraph company has an immense contract on its hands, as 923 miles of wire have to be traversed. Ordinarily thirty poles are used to carry a mile of wire, but as the country between here and the coast is so mountainous and unusual, forty poles may be used to each mile in many sections of the line. The original plan of having the wire gangs work ahead of the railroad builders was deemed impracticable. It is thought the wire-men will cover ground more rapidly than the track-gangs. The wiremen are preparing in this city for the departure. Sleeping and boarding cars are being fitted up, and a good stock of supplies gathered. Material will arrive constantly, and as fast as it gets here will be sent to the wire-camps. Five carloads of poles arrived from Idaho several days ago, and more are on their way. Sixty cars of poles are now coming towards Salt Lake from Michigan. Material enough to build nearly 150 miles of telegraph wire is on hand, and daily consignments will be received steadily.

## DRY FARMERS GOING TO DENVER

Salt Lake is Going to Transmissouri Congress to be Held January 24.

## PROF. JARDINE TO LECTURE.

Has Received Special Invitation to Deliver an Address Before the Assembled Agriculturists There.

Salt Lake is going to the Transmissouri Dry Farming congress to be held at Denver Jan. 24, determined to capture the next convention for Salt Lake City.

This program was determined upon several weeks ago by the Commercial club, and Secy. Fisher Harris lost no time in putting in Utah's claim. In response to his letter to Secy. C. C. Williams of Denver, Mr. Harris has received assurances that Salt Lake's claims are the first to be filed, and that chances to obtain the convention for this city are favorable. "I have it on the authority of a newspaper dispatch," says Mr. Williams, "that you are coming to Salt Lake with a large delegation to capture the convention for 1908. Salt Lake City is the first in the field in this particular and should stand a good chance of securing the next annual session."

### PROF. JARDINE INVITED.

Prof. W. M. Jardine of the experiment station at Logan, has received a special invitation from Arthur Williams of the Commercial club of Denver to attend the Dry Farming congress and deliver an address. Prof. Jardine will stop off in Denver on his way to Washington, D. C., to enter the department of plant industry under Chief Galloway. He will enter upon his new duties on Feb. 1.

A copy of the program for the Dry Farming congress has been sent to Prof. Jardine and follows in full:

- 1.—Discussion of soils; (a) origin of semi-arid soils; (b) culture of semi-arid soils; (c) methods of conserving moisture in semi-arid soils.
- 2.—Seeding; (a) selection of drought resistant plants; (b) seeding methods and farm machinery in the semi-arid regions.
- 3.—Crop rotation.
- 4.—Meat products in semi-arid regions.
- 5.—Problems which must be solved to make crop farming ventures permanent.
- 6.—Examples of farming on non-irrigated lands in Wyoming, Montana, Idaho, Utah, Colorado, New Mexico and Texas.

### GOVERNOR NAMES DELEGATES.

Gov. Cutler, this afternoon, announced the appointment of delegates to the Denver Dry Farm Congress as follows: Dr. John A. Whitmore, Provo; Prof. P. A. Yoder, Logan; Fisher Harris, Salt Lake; James W. Paxman, Nephi; George L. Farrell, Smithfield; W. M. Jardine, Logan; William Hill, Price; F. J. Kiese, Ogden; Dr. E. Woodruff, Salt Lake; John Q. Adams, Logan; Abel John Evans, Lehi; S. L. Chipman and James H. Clark, American Fork; S. W. Ross, Lehi; W. A. Lyman, Bluff City; A. A. Hinckley, Hinckley; John G. M. Barnes, Kaysville; and Edward H. Snow, St. George.

### VALLEY HOUSE DEAL.

Will Knight Proves to be the Purchaser—Will Erect Building.

Will Knight, son of Hon. Jesse Knight of Provo, and a mining man, has purchased the Valley House corner. It is his intention to erect a three story building there which will be an ornament to the vicinity. The ground floor will be used for stores, and the upper floors for hotel purposes, the cost of the structure being placed at \$75,000. The Valley House was one of the hotels of the town in years gone by, when Andy Brixen made a small fortune there.

### MRS. BROMWAY BURIED.

Funeral is Private, Friends, Only, Being Present at Services.

The funeral of Mrs. Lillian Bromway was held private, this afternoon, only immediate relatives being present. The interment was in Mt. Olivet. The careful attention of the undertaker had removed every trace of suggestion of violence, so that the face of the deceased looked as though she were asleep.

### SENATOR ALGERS' SUCCESSOR

Congressman William Aldin Smith Receives Republican Nomination.

Lansing, Mich., Jan. 10.—Congressman William Aldin Smith, of Grand Rapids, was tonight nominated to succeed United States Senator Russell A. Alger. As there are only half a dozen Democrats in the state legislature, Smith's nomination by the Republican caucus is equivalent to an election.

## SECOND MORTGAGE BONDS RECALLED

E. H. Harriman Takes Steps to Relieve the Load of Utah Light Company.

## TO PAY PRINCIPAL AUGUST 1.

Plans to Recall Outstanding Bonds as Rapidly as Possible to Cut Down Heavy Interest.

E. H. Harriman has determined to relieve the load of mortgages accumulating for past years upon the Utah Light & Railway company, and his first step towards this end was made yesterday. At a meeting of officials and directors of the Utah Light & Railway company this morning a resolution was adopted to recall 500 6 per cent bonds of \$1,000 each next August. These bonds were issued Feb. 1, 1901, and constituted the second mortgage of the Salt Lake City Railroad company, taken in by the Utah Light & Railway company over two years ago. The new company agreed upon effecting the recall of the bonds under the provision that it would be granted an extension of time until Feb. 1, 1910, with the right to pay off the principal on any interest date (Feb. 1 and Aug. 1) after giving 30 weeks' notice of such intention.

### SECOND OF A SERIES.

The mortgage was the second of a series in which 500 bonds of \$1,000 each and bearing 6 per cent interest payable semi-annually and on the first of February and August. The first mortgage, taken in by the Utah Light & Railway company, and on, Clarence, are the trustees in mortgage, and at today's meeting, Secretary Knickerbocker was instructed to give the trustees notice that the principal of the second mortgage bonds, amounting to \$500,000, is to be paid Aug. 1. The Salt Lake City Railroad company was unable to pay off the mortgage when the bonds became due Feb. 1, 1905. Harriman plans to recall outstanding mortgage bonds as rapidly as possible to cut down the load of the second mortgage bonds, which about \$500,000 will be installed for immediate use. Final plans are being drawn and erection is to commence in a few days.

### NEW POWER PLANT.

Utah Light & Railway Company to Erect One at Jordan.

The Utah Light and Railway company has appropriated \$250,000, a thousand dollars for a new steam power plant at Jordan. This plant will be modern in every respect and will have a capacity of 1,000 horsepower, which about 15,000 will be installed for immediate use. Final plans are being drawn and erection is to commence in a few days.

The company yesterday evening issued a summary of improvements now under way or contemplation. The purchase of the block bounded by Fifth and Sixth South and Sixth and Seventh East streets, known as the "Exposition" grounds, was confirmed officially yesterday. The company announced that it will build on this site car barns and shops of the latest and most improved design. Details of construction and equipment are now being prepared and work will be commenced at the earliest possible moment.

### CHILD DRINKS LYE.

Alta Gledhill Dies in Great Agony at American Fork.

(Special to the "News.") American Fork, Jan. 11.—The funeral of little Alta Gledhill, who died yesterday from poisoning, was held at the home of the child's parents, Mr. and Mrs. Heber Gledhill, this afternoon. The little one suffered untold agony ever since Monday on which day she was poisoned from drinking lye. At the time the incident occurred, she had gone to a neighbor's house and her mother had followed her over there. Seeing a can of lye on the porch the child picked it up and drank from it before her mother could reach her. Medical assistance was secured at once and everything possible was done to save her life. All efforts were of no avail and after suffering agonies for several days, the child died yesterday afternoon. The lye gnawed a hole through the child's neck. She was only two years of age, and the parents have the sympathy of the entire community on account of their loss. Mrs. Willard Done, an aunt of the child, came down from Salt Lake City this morning to attend the funeral.

### FLAG PRESENTATION.

Col. E. W. Tatlock Hands High School Cadets New Colors.

An interesting function was held at 2:45 p. m. today at the High school, when Col. E. W. Tatlock, representing an Iowa infantry regiment, of which he was a member, presented the high school with a large school flag. The colonel made a very pleasant talk in presenting the banner, after the cadet band had played a selection. The address was followed by a vocal solo, "The Flag We Fight," by Mrs. Kate (Bridwell) Anderson, and then the speech of acceptance was made by Capt. William J. Grow in behalf of the cadets. The program closed with another selection by the band. This was the first public appearance of the cadet band, and the young musicians did very well.

### REAL ESTATE TRANSFERS.

TODAY'S

Thomas R. Cutler to Isabella S. Armstrong, et al, part of lot 3, block 75, plat A, 25.250

Sarah J. Bennett to John C. Smith, part of section 25, township 2, south range 1 west, 25

### FRANK E. HOLMAN QUILTS.

University Loses Champion Debater and Literary Leader.

The university is feeling blue on account of the withdrawal of Frank E. Holman from school on account of home duties. Mr. Holman is the champion debater on the University's team—scheduled to meet Boulder next month—a editor of the junior year book. His alternate in the debating team is J. L. Brown, but no one has been selected to succeed him as editor of the year book. Some one already on the staff will be named, in all probability. Mr. Holman is one of the most popular students at the university, and his classmates are generally sorry to see him leave the institution.

### BODY BROUGHT HERE.

Funeral of Miss Miller Will Occur at Mill Creek Sunday.

The remains of Miss Irene Miller who was one of the victims of the double tragedy which occurred at Lewisville, Idaho, Wednesday night, arrived in Salt Lake this morning. They were taken to the undertaking parlors of Joseph B. Taylor where they were prepared for burial, and later today, were transferred to the home of the victim's parents in Mill Creek. The remains were accompanied by Roy Winchester and wife, at whose home the tragedy occurred.

The funeral services have been arranged to occur at the Mill Creek mortuary Sunday next, at 11:30 o'clock.

M. M. Miller of Mill Creek, father of Miss Miller, was in Salt Lake today, to take charge of the remains. He stated in response to a query that he had not tried to break up the engagement of Mr. Crouch to his daughter, but had only asked the lovers to postpone their marriage for a year, and let the engagement stand during that time.

### IN PIONEER STAKE HOUSE.

Place of Holding Funeral of Carl J. Larsen Changed.

The place of holding the funeral of Carl J. Larsen, who died Tuesday evening, Jan. 8, has been changed from the Twenty-fifth ward meetinghouse to the Pioneer stake house, Fifth South, between West Temple and First West streets, at the last named place, at 12 o'clock Sunday the services will begin. The body may be viewed at the residence, 524 south Sixth West, from 10 to 11 a. m. on the day of the funeral.

### HAD A GREAT TIME.

Butchers Doff the Cleaver and Don the Lyre—Some Features.

The butchers and grocers of the city gave a musical and literary entertainment last evening in their hall, 21 west First South street. The place was crowded to its utmost capacity by people who thoroughly enjoyed the program presented. The speakers were well received and loudly applauded. In order to promote good fellowship the association will give a social affair every month in the future.

The conclusion of the program Orson H. Hewlett gave an address on organization, which was appreciated. Secy. Donnellan and President Hudson also spoke of the objects of the association and the advantages of the credit rating department.

### NEW PAVING DISTRICT.

Committees on Streets and Engineering Decide to Create One.

The property owners on First North street between Main and State streets and also along North State street will be allowed to have their own way in the matter of improving those streets as the city council committees on streets and engineering last night decided to create a new paving district including the streets named and advertise for bids for paving the same with asphalt. The district was created several months ago with the intention of macadamizing the streets but the property owners objected to macadamizing and petitioned the council to have the streets paved with asphalt. City Engineer Kelsey was instructed to report on the asphalt matter to the committee and last night his report was submitted. He opposed asphalt on the streets on account of the heavy grade. He said that the grade on part of the streets was 10 to 23 per cent, and that with asphalt on that grade it would be impossible for heavy traffic to be carried on.

Will G. Nebeker appeared before the committee in behalf of the property owners and charged the engineer with not having the streets paved in the manner he had not acted fair in the matter. Councilman Black, who was chairman of the committee, stopped Mr. Nebeker and informed him that he could not arraign a city official in such a manner. Mr. Nebeker stated further that the property owners wanted asphalt and were willing to pay all expenses of re-advertising the improvement if it was necessary to re-advertise and he thought they should be given their own way in the matter.

Mr. Kelsey replied to Mr. Nebeker's remarks and stated that as to the charges made against him they were wholly false. The committee finally decided to improve the streets with asphalt and referred the matter to the city attorney to ascertain whether or not it will be necessary to re-advertise the improvement.

## BANKERS TO FORM NEW ORGANIZATION

Will Include All Institutions Doing Business in State of Utah.

## PRELIMINARY STEPS TAKEN.

Consisting of Action by Salt Lake Clearing House Members in Favor of the Movement.

As the result of the election of new officers, and a new board of directors by the Salt Lake Clearing House association at its annual meeting yesterday afternoon, a vigorous policy of expansion is to be pursued.

The plan is to extend the clearing house facilities to all the bankers of the state, in so far as this general council of bank officials affects the making of bank policies and the general method of doing banking business. Secy. Jos. Nelson, who was elected yesterday, was instructed by the provisions of a resolution passed at the meeting, to write at once to all state bankers, asking them to express an opinion as to the desirability of forming a State Bankers' association. If the opinions turn out to be favorable, as it is expected they will, a conference will be called to form the organization.

### OPPORTUNE TIME.

President Chas. S. Burton of the Clearing House association said today in speaking of the proposed organization, that it was one which most other states had already formed. "Heretofore it has not been formed in Utah, as there has been some feeling that there were not enough banks. Now, however, the number of banks is rapidly increasing, as well as the amount of business they do, and it seems that the time is opportune to organize. For instance our 1906 clearings were \$228,000,000, as compared to only \$211,000,000 for 1905, and a little over \$100,000,000 for 1904. The organization at its meetings will thresh out many points of banking policy, and be sure to result in uniformity of methods, and in good in many other ways."

U. H. Farnsworth, a new director, and Asst. Cashier of Walker Bros. bank said that he had long favored the move, and was glad it was under way. "I think it is a move in the right direction," he said, "and while I can see much in favor of it, I cannot see any disadvantages. There are many reasons why the bankers can profit from getting together and knowing each, and the net result is sure to be advantageous to all concerned."

### COMMON UNDERSTANDING.

Secy. Nelson said that he thought the bankers should take an interest in the things which affect them in common. "For instance," he said, "we should have a common understanding on the method of bank examination, and should take an interest in the appointment of state bank examiner. Then in case a bank becomes over-loaded or has an unusual demand for funds made by its customers, it could be helped, so long as it is perfectly solvent, and in this way the association would do much good. I hope to get many and favorable replies from the letters sent out."

Cashier H. Clark of the Commercial National bank was equally in favor of the movement, which seems to have the unanimous support of Salt Lake bankers. He declared that it would provide a method for the interchange of ideas on financial methods, which would be bound to result in good to everyone concerned.

The letter to be sent being prepared by Secy. Nelson and will be sent out within the next few days.

### AFTERNOON ON EXCHANGE.

This afternoon's sales of the Mining Exchange, regular call, were:

Copper—50 2 5/8;  
Doly Judge—50 at 12.00;  
Lower Mammoth—200 at 1.97 1/2;  
Black Jack, 100 at 12;  
J. B. Ebers, 50 at 2;  
Mtn. Lake—350 at 55; 300 at 97;  
South Columbus—200 at 52; 100 at 53; 200 at 55.

### BOSTON COPPER.
